Effect of different soil tillage methods on residual after-effect of simazine . vliyanie razlichnykh sposobov osnovnoi obrabotki pochvy na posledeistvie simazina. 12[illegible]

Acetyl substituted phenoxyacetamides and their use as herbicides. patent 3,371,106. 12846

Bioassay of field treated soils to determine bioactivity and movement of insecticides. 12854

Incidence in the culture of oil palm of Fusarium populations in the soil of the savanna in the lower Ivory Coast. 13267

Evaluation of the relative importance of soil and seed as source of the inoculum of silver scurf of potatoes by means of a repression test. 13270

Potential use of tracer methods especially autoradiography in the study of the relation of herbicides to soil biology in: isotopes in weed research; proceedings of a symposium Vienna 25-29 October 1965 S569.S9. 13512

Behavior of 14-C-labelled diesel oil in different soils. in: Isotopes in weed research; proceedings of a symposium vienna 25-29 October 1965. s569.S9. 13518

Fate of 2-methyl-2-(methylthio)propion aldehyde O-(methylcarbamoyl)oxime (Temik) in cotton plants and soil. 13535

Absorption of organochlorine insecticide residues from agricultural soils by root crops. 13544

Translocation of insecticides from soils into pea plants effects of the detergent LAS on translocation and plant growth. 13553

Fate of trifluralin in soils and plants. 13563

Adsorption of bipyridylium herbicides in soil. 13571

Amitrole decomposition by free radical-generating systems and by soils. 13657

SOLAN
Selective action of solan on tomato and eggplant. 4499

SOLANACEAE
Assay of the principal gustatory stimulant for the tobacco hornworm, Protoparce sexta, from solanaceous plants. 4179

The specificity of the tobacco hornworm, Protoparce sexta, to solanaceous plants. 4180

Transmission of exocortis virus of citrus to herbaceous plants. 12471

SOLANESOL
Analytical studies on solanesol-like substances in tobacco. 6272

SOLANIDINE
Responses of Empoasca fabae (Cicadellidae' Homoptera) to tomatine, solanine, leptine I tomatidine, solanidine, and demissidine. 9066

SOLANINE
Responses of Empoasca fabae (Cicadellidae' Homoptera) to tomatine, solanine, leptine I tomatidine, solanidine, and demissidine. 9066

SOLANUM
Competition between irrigated sugar beets and annual weeds. 4500

Biology of the eggplant tortoise beetle (Coleoptera: Chrysomelidae). 5876

Detection of the tobacco veinal necrosis strain of potato virus Y in Solanum cardenasii and S. andigenum introduced into the United States. 6776

Release of ribonucleic and amino acids by Phytophthora. 7745

Kinetic study of cholinesterase inhibition in horse serum by certain steroid alkaloids of solanum. etude cinetique de 10inhibition de la cholinesterase serique de cheval par certains alcalcides steroidiques de solanum. 9090

Incidence of virus detection in vegetatively propagated plant introductions under quarantine in the United States, 1957-1967. 9777

SOLANUM ELAEAGNIFOLIUM
Solanum elaeagnifolium, silver-leafed nightshade, poisoning in livestock. 6310

SOLANUM NIGRUM
An evaluation of Solanum nigrum and Physalis minima as suscepts of Xanthomonas vesicatoria. 6792

SOLARIZATION
Effects of solarization on elm spanworm eggs (lepidoptera' geometridae). 7805

Effect of monthly solarization on eggs of the elm spanworm, Ennomos subsignarius (Lepidoptera' Geometridae). 7806

SOLENOPIS SAEVISSIMA
Laboratory rearing of the imported fire ant. 8039

SOLENOPSIS
Field studies with baits against Solenopsis saevissima v. richteri, the imported fire ant. 4021

Effect of some variation in formulation or application procedure on control of the imported fire ant with some granular heptachlor. 4102

Effects of insecticides on the predaceous arthropod fauna of louisiana sugarcane fields. 4357

Dual low dosage applications of Heptachlor for control of the imported fire ant. 4379

A synecological study of the effects of the imported fire ant eradication program II. light trap, soil sample, litter sample and sweep net methods of collecting. 5548

Insecticidal baits for control of the imported fire ant, Solenopsis saevissima richteri. 7571

Laboratory evaluation of certain chlorinated hydrocarbon insecticides against the imported fire ant. 7959

Morphology and histology of the reporductive system of the imported fire ant queen, Solenopsis saevissima richteri. 8023

Control of imported fire ants with chlordane. 8057

Effect of heptachlor and chlordane on the foraging activity of imported fire ants. 8058

Field studies with baits against Solenopsis saevissima v. richteri, the imported fire ant. 8423

Effect of variations in formulation or application procedure on control of imported fire ant with granular heptachlor. 8522

Laboratory study of toxicity of imported fire ants to bluegill fish. 9068

A synecological study of the effect of the imported fire ant eradication program. 9426

Control of a native fire ant, Solenopsis geminata, with mirex bait. 10532

Imported fire ant toxic bait studies. the evaluation of various food materials. 11607

SOLENOPSIS SAEVISSIMA RICHTERI
Control of imported fire ants with nonachlor. 11237

Imported fire ant toxic bait studies: evaluation of toxicants. 11344

SOLIDAGO
Insect-fungus blister galls of Solidago and Aster. 5761

Toxicity of some goldenrods. 13605

SOLIERELLA
Notes on the biology of Philanthus bicinctus (Hymenoptera: Sphecidae). 5843

The nesting habits of the wasp, Solierella sp., and the location of its egg on the grasshopper, Ageneotettix deorum. 8132

SOLOMON ISLANDS

SOLOMON ISLANDS
New bat chiggers from Thailand and the Solomon Islands with notes on the subgenus Sasatrombicula Vercammen-Grandjean (Acarina: Trombiculidae). 5534

SOLPUGIDA
Basic behavior of North American Solpugida. 5646

SOLUBILITY
Herbicides: a compilation of their physical, chemical, and biological properties. 3762

SOLUBILIZATION TECNIQUE
DCT-DEHYDROCHLORINASE iii. Solubilization of insecticides by lipoprotein. 6579

SOLUTES
Effects of solutes on the polymerization of TMV protein. 5831

SOLVENTS
Collaborative study of the infrared method for dDVP in pesticide formulations. 3766

A note on a new diluent for electronic counting of rat leukocytes. 4607

Aromatic solvents for pesticides. 5384

AOAC-AOCS crude fiber liaison committee. Third interim report. 6388

The biological evaluation of spray additives and solvents with Blattella germanica (Linn) and Periplaneta americana (Linn.). 6639

Formulation of pet products. 11174

Demonstration and extraction of a sex attractant from female angoumois grain moths. 11600

Extraction p-values of pesticides and related compounds in six binary solvent systems. 12256

Solvent system for formulating carbamates. patent 3,342,673. 12890

The selection of a solvent for use with low volume aerial spraying of cotton plants. 13611

SOMAPHANTUS KINGI
A new species of Somaphantus _Menoponidae0 Mallophaga) from Thailand. 5465

SONCHUS
Monoctonus crepidis (Haliday) (Hymenoptera: Aphidiidae) an aphid parasite new to North America). 2741

Control of Sonchus arvensis (L.) with chemicals. 4535

SONCHUS ARVENSIS
Thistle control with cultivation, cropping, and chemicals. derscheid, l a. 1704

SONORA DESERT
The colors of desert water beetles - environmental effect of protective coloration. 4013

SOOTY BLOTCH (TRIGONELLA)
New hosts of black blotch of clover in Britain. 8298

SOPHOPHORA
Drosophilid survey of India. iII. the Drosophilida of Kashmir Valley. 6466

SORGHO
Occurrence of a mosaic disease of sweet sorghum in four southern states. 12475

SORGHUM
A new technique of controlling weeds in sorghum in a wheat-sorghum-fallow rotation in the great plains. 521

Factors influencing invasion of sorghum seed by storage fungi. 611

Pathogenicity and systemic development of Sphacelotheca reiliana in sorghum species. 933

The relation of plant maturity, temperature, and soil moisture to charcoal stalk rot development in grain sorghum. 1

Aerial and ground applications of preemergence herbicides i corn, sorghum, and soybeans. 1

Residues in soil one year after herbicides were applied to sorghum. 2

Control of insects infesting stored sorghum in Northern nigeria. 3

Phytotoxicity of herbicides as measured by root absorption. 3

Sorghum as a host of the southwestern corn borer. 4

Witch weed: a new parasitic plant in the United States. 4

Notes on the biology and behavior of Heliothis zea (Boddie) on grain sorghum. 5

Variations in size and weight of three geographical populations of rice weevil complex. 5

The insect infestation of sorghum stored in granaries in northern Nigeria. 6

Screening sorghum varieties for resistance to the covered kernel smut fungus in Iraq. 6

The effect of phorate applied to seed on the growth, development and insects attacking grain sorghum. 7

The influence of selected nematode species and number of consecutive plantings of corn and sorghum on forage production, soil, and water use efficiency. 7

Influence of tillage, row spacing, and atrazine on sorghum and weed yields from nonirrigated sorghum across Nebraska. 7

Response of selected and random plantings of Johnsongrass (Sorghum halepense) to dalapon. 7

Germination of cereal, sorghum, and small legume seeds afte fumigation with hydrogen phosphide. 7

Some effects of sorghum varieties on the development of a rice weevil, Sitophilus zeamis (Coleoptera' Curculionidae). 8

Sorghum diseases and their control. 8

Field methods to determine the infestation of the sorghum webworm and the damage by the sorghum midge in grain sorghum. 8

Growth of Sorghum halepense under controlled conditions and physiological responses of plants to 2,2-dichloropropionic acid. 8

Occurrence of rust on grain sorghum hybrids and varieties i New Mexico. 9

Downy mildew and head smut diseases of sorghum in Texas. 9

Identification, transmission, and distribution of Maize dwarf mosaic in Texas. 9

Use of Arizona climate to induce charcoal rot in grain sorghum. 9

Studies on the amino acids, nitrogen, sugar and moisture content of maize and sorghum varieties and their relation to Chilo zonellus (Swin) resistance. 10

Effects of a nitrogen-deficient host and crowding on the corn leaf aphid. 10

Ergot infection and sterility in grain sorghum. 10

The susceptibility of sorghum to attack by the weevil Sitophilus oryaze (L.). 10

Habits and control of the sorghum midge, Contarinia sorghicola, on grain sorghum. 10

Bioassay of chemical protectants and surface treatments for the control of insects in stored sorghum grain. 11185

Biology and control of the sugarcane rootstock weevil on grain sorghum in texas. 11909

Migration of sorghum midge on the south plains of Texas relative to injurious infestations. 11911

Effectiveness of insecticides against the corn earworm in sorghum heads. 11915

Fusarium scab of sorghum in Nigeria. 12427

Effect of host plants on the survival, development and behaviour of Chilo zonellus (Swinhoe) under laboratory conditions. 12496

Effects of natural (sorghum) and artificial (wheat germ) diets on development of the corn earworm, fall armyworm, and southwestern corn borer. 13302

Studies on the susceptibility of different varieties of sorghum, maize and bajra to Chilo zonellus (Swinhoe) under field and cage conditions and the methods of determining it. 13340

Distribution and concentration of HCN in a sorghum-sudan-grass hybrid. 13632

SORGHUM HALEPENSE
Effects of surfactant concentration on Johnsongrass control with dalapon. 1697

Characteristics of Johnsongrass rhizomes. 2413

Cotton control grant. 4479

Mosaic infected Johnson grass found in Louisiana. 11826

SORGHUM VULGARE SUDANENSE
Systemic development and persistence of Sphacelotheca reiliana in Sudan grass. 196

Distribution and concentration of HCN in a sorghum-sudan-grass hybrid. 13632

SOUND WAVES
Biologic properties and characteristics of anaplasma marginale. II. The effects of sonic energy on the ineffectivity of whole blood preparations. 4616

Trapping mosquitoes with sound. (abstract). 13159

SOUPS
Rapid method for chlorinated residues in nonfatty foods. 12178

SOUR CHERRIES
Effect of ringspot, yellows, and rootstock on the macronutrient element composition of leaves and on growth of sour cherry. 237

Letter to the editor: Some synonyms of sour cherry yellows virus. 1280

Variation among isolates of necrotic ringspot and prune dwarf viruses isolated from sour cherry. 1549

Cycloheximide behavior in bean and cherry tissue. 2340

Effect of high concentrations of cycloheximide on bud differentiation in Montmorency sour cherry. 2394

Longevity of sour cherry yellow virus in infected cherry seeds. 9785

Effect of phosphorus and potassium nutrition of sour cherry on the soil population levels of five plant-parasitic nematodes. 10998

Cytospora canker on sweet cherry in New York State: association with winter injury and pathogenicity to other species. 12438

An experimental spray program for integrated control of insects affecting sour cherry. 12513

SOUR CHERRY YELLOWS (CHERRIES)
The incidence of necrotic ringspot, sour cherry yellows, and green ring mottle viruses in commercial sweet cherry plantings in New York. 353

Fruit set reductions in cherry trees pollinated by trees with sour cherry yellows. 1216

Reductions in fruit sets on cherry trees pollinated with pollen from trees with sour cherry yellows. 1279

Letter to the editor: Some synonyms of sour cherry yellows virus. 1280

Additional evidence of tree-to-tree transmission of sour cherry yellows virus by pollen. 9784

SOUR ORANGES
Pathological histology of young sour orange plants bud-inoculated with four citrus viruses. 1253

Bud-union constriction disorder of grapefruit on sour orange in Israel. 10858

SOUTH AFRICA
A comparison of equine piroplasmosis in South Africa and the United States. 1892

Some observations on anaplasmosis. 4894

SOUTH AMERICA
Two new genera of halictine bees from the Araucanian subregion of South America (Hymenoptera: Apoidea). 5530

SOUTH AMERICAN TRYPANOSOMIASIS
Epizootiology of Trypanosoma cruzi in southwestern North America. iXO An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5699

The effect of Trypanosoma rangeli on the concentration of amino acids in the hemolymph of Rhodnius prolixus. 9539

SOUTH CAROLINA
Survival of Meloidogyne javanica on tobacco in South Carolina. 10074

Distribution and spread of camellia flower blight in South Carolina. 10688

SOUTH CAROLINA
The occurrence of cucurbit viruses in coastal South. 383

Potato losses in South Carolina due to the cotton root-knot nematode, Meloidogyne incognita acrita. 11014

The reniform nematode in South Carolina. 11943

SOUTH DAKOTA
The in vivo activity of several systemic insecticides against cattle grubs in South Dakota. 7582

SOUTH FLORIDA
Brief history of aphid control on potatoes in south Florida, 1946-59. 7079

SOUTHERN CALIFORNIA
Angelothrombium pandorae N. G., n. sp. (Acari, Trombidiidae), and notes on the biology of the giant red velvet mites. 3959

SOUTHEASTERN UNITED STATES
Eggs of floodwater mosquitoes. VII. Species of Aedes common in the Southeastern United States (Diptera: Culicidae). 3894

SOUTHEAST UNITED STATES
Composition and diagnosis of pine tip moth infestations in the southeast. 10504

SOUTHEASTERN UNITED STATES
Mass production of screw-worms (Callitroga hominivorax) for the eradication program in the Southeastern States. 8959

SOUTHERN BLIGHT (BIRDSFOOT TREFOIL)
Southern blight of birdsfoot trefoil (Lotus corniculatus). 10742

SOUTHERN BLIGHT (TOMATOES)

SOUTHERN BLIGHT (TOMATOES)
Tomato southern blight. 8356

Effects of calcium nitrate, limestone, soil fungicides and black plastic mulch on tomato southern blight. 11813

Sclerotium rolfsii and its control on tomato and peanut. 12473

SOUTHERN CONE RUST
Southern cone rust: distribution and control. 10831

SOUTHERN POTATO WIREWORM
Insecticides tested for wireworm control on cigar-wrapper tobacco. 10986

SOUTHERN UNITED STATES
Insects active in south during spring. 4318

SOUTHWESTERN COTTON RUST
Environmental and other factors influencing development of southwestern cotton rust (Puccinia stakmanii). 6708

SOUTHWESTERN UNITED STATES
The colors of desert water beetles - environmental effect of protective coloration. 4013

SOUTHWESTERN UNITED STATES
Ceratopogonidae (Diptera) reared from cacti, with a review of the copiosus group of Eulicoides. 4009

Descriptions of some new Cerambycidae from Mexico and Southwestern United States (Coleoptera). 5452

Killing Texas screw worms from the air. 6207

SOYBEAN MEAL
Effect of gossypol and heat on the digestibility and utilization of soybean protein by sheep. 2892

The limiting amino acids in soybean protein. 2921

Epidemiology of paratyphoid infections in turkeys. 4780

SOYBEAN OIL
Increased feedlot bloat from feeding soybean oil in a mixed ration to steers. 2911

Ruminal characteristics and feedlot bloat incidence in cattle as influenced by vegetable oil, mineral oil, and animal fat. 3373

SOYBEANS
Host-parasite relationships of soybeans and Diaporthe phaseolorum var. sojae. 120

Interrelationship of tobacco ringspot virus and Meloidogyne incognita acritia in roots of soybean. 358

Variation in isolates of tobacco ringspot virus from soybean. 421

Effect of metabolic by-products of Rhizoctonia solani on the roots of Chippewa soybean seedlings. 453

Effect of Meloidogyne incognita acrita in nodulating and non-nodulating strains of soybean. 479

Influence of planting date on yield of soybeans in fumigated and untreated soil infested with Heterodera glycines. 481

Flame cultivation for corn and soybeans. 779

Effect of deflowering and tobacco ringspot virus on the occurrence of Cercospora kikuchii on soybean. 1003

Seed-borne aspects of Diaporthe phaseolorum in soybean. 1063

Increased bacterial populations in soybean roots due to phosphorus. 1068

Pigmentation of soybean seed coats associated with bacteria. dunleavy, j. 1070

Fusarium root rot of soybean. 1106

Effect of crop rotation on alfalfa and soybean stands, root rots, and yields. 1111

Internal microtiles of stored soybean seeds. 114

Web blight -a severe disease of beans and soybeans in Mexico. 12

A new bacterial disease of soybeans. 124

Relation of seed position and pod location to tobacco ringspot virus seed transmission in soybean. 136

A vascular disease of soybeans caused by Corynebacterium sp. 137

Moisture content, mold invasion, and seed viability of stored soybeans. 153

Anatomical studies of soybean roots artificially inoculated with Heterodera glycines. 160

Influence of nonhost crops alone or in combination with a nematocide on the longevity of the soybean cyst nematode in soil. 162

Control of the soybean cyst nematode by crop rotation. 162

Effect of temperature on growth of root-knot nematodes in soybeans and tobacco. 164

Penetration, infection, and development of Heterodera glycines in soybean roots and related anatomical changes. 164

Soybean leaf and stem infections by Phytophthora megasperma var. sojae. 165

Pre-emergence weed control in soybeans with mixtures of two herbicides. 168

Determination of 2,4-D residues in soybeans. 168

Role of herbicides in soybean production. 169

Interrelations of cultivations, herbicides, and methods of application for weed control in soybeans. 171

Interrelations of row spacings, cultivations and herbicides for weed control in soybeans. 171

Aerial and ground applications of preemergence herbicides in corn, sorghum, and soybeans. 175

Toxicity of benzoic acid herbicides to cotton and soybeans. 244

The absorption, translocation, and fate of amiben in soybeans. 248

The effect of atrazine on transpiration in corn, cotton, and soybeans. 276

Effects of structures of s-triazines on toxicity to soybeans and weeds. 280

Effects of surfactants on the herbicidal activity of foliar sprays of diuron. 280

Herbicidal activity of several s- triazines as postemergence sprays. 280

Competition of smooth pigweed with corn and soybeans. 282

Competition of Setaria faberii with corn and soybeans. 282

Soybean and weed yields as affected by irrigation, row spacing, tillage, and amiben. 283

Some stem boring insects associated with soybeans in Florida. 433

Performance of soybean strains modified by backcrossing for some simply inherited characteristics. 575

Reduction of symptoms associated with high-phosphorus levels in soybeans by Amo-1618. 577

Effect of host crop on soil populations of several Pratylenchus species. 578

The effect of various factors on surveys of predaceous insects in soybeans. 585

Aberrations of the nucleic acid metabolism of plants induced by 4-amino-3,5,6-trichloropicolinic acid. 5905

Variability in pathogenicity in the bacterial blight pathogen of soybeans. 6731

Induced susceptibility in soybean plants genetically resistant to Phytophthora sojae. 6782

Resistance of soybeans to three Phytophthora species due to the production of a phytoalexin. 6783

Nature of resistance of soybeans to three Phytophthora species. 6784

Movement of tobacco necrosis virus in systemically infected soybeans. 6867

Interaction of the soybean mosaic and bean pod mottle viruses infecting soybeans. 6873

Observations on soybean insects in maryland. 7051

Effects of soil insecticides and absorbents on plant sugars and resulting effect on mite nutrition. 7054

Survival of encysted eggs and larvae of the soybean cyst nematode, Heterodera glycines, ingested by swine. 7632

Some factors that influence the deactivation of atrazine in soil. 7654

Sevin residues on soybeans following its use for armyworm control. 7669

Effects of soil insecticides and absorbents on plant sugars and resulting effect on mite nutrition. 8562

Green cloverworm outbreak causes widespread damage. 8617

Influence of planting date on yield of soya-bean in fumigated and untreated soil infested with Heterodera glycines. 8621

Yield of soybeans in soil infested with heterodera glycines. 8622

Methyl bromide fumigation for control of the soya-bean cyst nematode, Heterodera glycines. 8650

Midwest agronomists compare chemical and mechanical weed control. 8677

The morphology of the mouthparts of Tetranychus atlanticus and observations on feeding by this mite on soybeans. 9469

Population dynamics of Heterodera glycines under various cropping sequences in field bins. 9639

Fungi associated with diseased roots of soybean in Delaware. 9657

Infection of cranesbill by the soybean Phytophthora. 9901

Heat-induced susceptibility of soybeans to nonpathogenil fungi. 9924

The effects of temperature and leaf age on the development of lesions caused by Peronospora manshurica on soybeans. 9952

Ultra-low-volume ground equipment for applying insecticides to soybeans. 9999

Systemic insecticides for control of soybean insects in South Carolina. 10022

Nature of resistance in soybean varieties resistant to Heterodera glycines. 10043

Nature of soybean resistance to Heterodera glycines. 10044

Effect of dry mature plant materials and nitrogen on Rhizoctonia solani in soil. 10736

An evaluation of damage to soybeans by brown and green stink bugs. 10932

The mode of action of endrin on the bean stem miner, Melanagromyza sojae, with special reference to its translocation in soybean plants. 10958

Seasonal variations of nematode populations in soybean field soil. 10996

Soybean cyst nematode control by crop rotation. 11011

Growth of Cercospora kikuchii on various media. 11736

Incidence of brown stem rot of soybeans in Iowa. 11745

Association of virus infection with mottling of soybean seed coats. 11783

Atrazine absorbtion and degradation by corn, cotton, and soybeans. 11967

The effect of raw soybean levels in the diet on the proteolytic activity and pancreatic hypertrophy in the growing chick. 12023

Herbicide longevity in Nebraska soils. 12072

Soybean cyst nematode found in Louisiana. 12533

A contribution to the study of control of weeds in soybean stands. 12554

Soybean root and stem rot caused by Rhizoctonia solani, 1966. 13243

Comparison of the pathogenicity and development of the Va. 2 isolate of Heterodera glycines on Pickett and Lee soybeans. (abstract). 13387

Destruction of rachitogenic activity of isolated soybean protein by autoclaving as demonstrated with turkey poults. 13458

Increase in invasion by storage fungi and in fat acidity values of commercial lots of soybeans stored at moisture contents of 13.0.14.0 percent. 13484

Uptake, distribution, and metabolism of monuron and diuron by several plants. 13568

SPACE SPRAYING
Evaluation of several carbamates in space sprays alone and with piperonyl butoxide. 11323

SPADIX ROT
Control of spadix rot of anthurium, Anthurium andraeanum, in Hawaii. 8253

SPAIN
Organization of weed research in spain. 3845

SPALANGIA CAMERONI
Behavior changes the reproduction of Spalangia cameroni, S endius, Muscidifurax raptor, and Nasonia vitripennis (Hymenoptera' Pteromalidae) at increasing fly host densities. 8051

SPALANGIA ENDIUS
Behavior changes the reproduction of Spalangia cameroni, S endius, Muscidifurax raptor, and Nasonia vitripennis (Hymenoptera' Pteromalidae) at increasing fly host densities. 8051

SPANISH GYPSY MOTHS
Laboratory method for screening compounds as attractants to gypsy moth males. 6494

SPANOGONICUS
Spanogonicus albofasciatus and Rhinacloa forticornis on cotton in Arizona. 3995

Host plants of Spanogonicus albofasciatus in Arizona. 3996

Spanogonicus albofasciatus as an insect and mite predator (Hemiptera: Miridae). 5847

SPARNOPOLIUS
Notes on and redescription of types of North American bombyliidae (Diptera) in European museums. 3962

SPARROWS

SPARROWS
House sparrows nonpredaceous on tobacco hornworms in induced feeding experiments. 10017

Contact avicides. patent 3,340,142. 13592

SPARTEINE
Quantitative isolation and improved nephelometric microdetermination of lupine alkaloids from plant tissues. 5377

Alkaloids of Lupinus westianus Small. 6362

SPASMS
Methocarbamol in the control of severe skeletal muscle spasms in small animals. 6314

SPATHIMEIGENIA
The relationship of Spathimeigenia spinigera Townsend (Diptera: Tachinidae) to its host, Neodiprion swainei Midd. (Hymenoptera: Diprionidae). 4433

SPECIAL LIBRARIES
The pesticide residue laboratory. in his Analytical methods for pesticides, plant growth regulators, and food additives. Vol. i. principles, methods, and general application. 395 Z9. 12281

SPECTROMETRY
Instrumentation in pesticide residue determinations. 621

Analysis of foods for cesium-137. 6269

Toxic gases in silage: Mass spectrometric study of nitrogenous gases produced by silage. 11428

Aldrin adsorption by soils and clays. 13521

Potential of neutron activation analysis of pesticides and metabolites. in: Radioisotopes in the detection of pesticide residues; proceedings of a panel Vienna, 12-16 1965. sB953.P32. 13527

Method of activation analysis for mercury in the biosphere and in foods. An addendum. in: Radioisotopes in the detection of pesticide residues: proceedings of a panel Vienna, 12-16 1965. sB953.P32. 13534

SPECTROPHOTOMETRY
Total iodine residues in fruits. 3673

Phosdrin residues in fruits and vegetables. 3680

Determination of nicotine residues on foods. 3682

Report on chlorinated insecticides and miticides. 3688

Cleanup processes for pesticide residue analysis. 3704

Chromatographic separation of malathion prior to infrared spectrophotometric estimation. 3759

Collaborative study of the infrared method for dDVP in pesticide formulations. 3766

Analysis of insecticides in aqueous emulsions used in livestock dips and sprays: general infrared method. 3774

Determination of trifluralin in formulations. 3800

Pesticides Simultaneous determination of esters of 2,4-D and 2,4,5-T in pesticide formulations. 3801

Infrared and ultraviolet spectrophotometric methods for rotenone. 3826

A microspectrophotometric study of deoxyribonucleic acid content of cells infected with infectious canine hepatitis virus. 5075

Determination of rotenone. 5386

Determination of horse meat in cooked meat products. 5917

Analytical studies on solanesol-like substances in tobacco. 6272

Infrared determination of endrin residues. 6282

Colorimetric determination of residues of the dithiolane insecticides in cottonseed and on cotton foliage. 6372

Spectrophotometric determination of maleic hydrazide in tobaccos. 6

Spectrophotometric methods for rotenone. 6

Determination of furfural in distilled spirits. 6

Chromatographic determination of 'Sulfoxide'. 9

Determination of DDVP in pesticide formulations by the infra-red method. 9

Determination of organophosphorus insecticide residues using the emission spectrometric detector. 9

Residue analysis of a chlorinated insecticide (Thiodan) by combination of gas chromatography and infra-red spectrophotometry. 10

Determination of toxaphene by a spectrophotometric diphenylamine procedure. 10

Microspectrophotometric comparison of deoxyribonucleic acid with arginine in dog kidney cells infected with infectious canine hepatitis virus. 11

Modifications to the spectrophotometric analysis of CNB (Terrachlor) in soils and crops. 11

A spectrophotometric method for determining petroleum oil deposits on plant surfaces with Oil Red O dye. 11

Fungicide determination: Rapid polarographic determination of pentachloronitrobenzene on forage and comparison with spectrophotometric method. 11

Chlorinated hydrocarbons (p.382-385), Benzene hexachloride (p.386-390), Captan (p.390-391), DDT (p.391-394), and Parathion (p.403-404). in: Official methods of analysis of the Association of Official Agricultural Chemists , ed. 10, 957 p., edited by W. horwitz. s587.a78. 12

Spectrophotometric methods. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. Vol. i. principles, methods. and general application. 395 Z9. 12

Infrared identification of chlorinated insecticides in the tissues of poisoned fish. 12

Microdetermination of phosphorus. 12

Spectrophometric determination of dithiocarbamate residues on food crops. 12

Report on methods for residues of phosphated insecticides and miticides in foods. 12

Residue analysis in the dairy industry. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 Z9. 12

Determination of biphenyl in citrus fruits by thin layer chromatography and ultraviolet spectrophotometry. 12

Spectrophometric determination of dithiocarbamate residues on food crops. 12

Microdetermination of phosphorus. 12

Spectrophotofluorometric determination of 6-methoxy-2-benzoxazolinone, an indicator of resistance to European corn borer in Zea mays. 13

Spectrophotometric determination of Temik residues in citrus. 13

Determination of terrachlor in crops and soil by electron-capture gas chromatography. 13

SPECTROSCOPY
Rapid method for the determination of 'total pyrethrins' by spectroscopy of their 2,4-dinitrophenylhydrazones. 7

Report on analytical methods for pesticide formulations. 37

Analysis of endrin residues in flour by infra-red

spectroscopy. 9004

determination of 2,6-dichloro-4-nitroaniline in ditranil and fungicidal formulations by infra-red spectroscopy. 9029

Infra-red spectroscopic method for the determination of residues of pentachloronitrobenzene. 9041

Rapid determination of 4(2,4-DB) and a metabolite, 2,4-D, in treated forage by electron affinity spectroscopy. 11177

Micro-infrared analysis of dieldrin, endrin, and other chlorinated pesticide residues in complex substrates. 12074

BOMBYLIIDAE
Notes on and redescription of types of North American bombyliidae (Diptera) in European museums. 3962

HAEMATOGENESIS
Correlation between sperm redundancy and chiasma frequency. 6669

The male reproductive system and spermatogenesis of the European pine shoot moth, Rhyacionia buoliana (Lepidoptera' Olethreutidae), with observations on the effects of gamma irradiation. 8107

HAEMATOPHYTA
Effect of flower thrips on onion seed plants and a study of their control. 10926

HAEMATOZOA
Gamma radiation-induced dominant lethality to the sperm of the olive fruit fly. 32

Migration of sperm in Ditylenchus destructor. 1603

The spiral thread. 6563

Tolerance of honey bee sperm to deep freezing. 10653

PHACELOMA POPULI
Specimen record of popular spotted antaracnose (Sphacelcma) in Oklahoma. 9728

PHACELOTHECA REILIANA
Use of sporidial hypodermic injection to test sorghum for head smut resistance. 169

Systemic development and persistence of Sphacelotheca reiliana in Sudan grass. 196

Prevalence and pathogenicity of Sphacelotheca reiliana causing head smut of field corn in California. 197

Suppression of corn head smut by in-furrow applications of pentachloronitrobenzene. 6747

PHACELOTHECA SORGHI
Screening sorghum varieties for resistance to the covered kernel smut fungus in Iraq. 6936

SPHECIDAE
Some biological observations on Philanthus politus pacificus Cresson (Hymenoptera: Sphecidae). 5541

Biology of Isodontia (Murrayella) mexicana in trap-nests in Wisconsin (Hymenoptera' Sphecidae). 7862

A survey of the neotropical species Chlorion (Hymenoptera' Sphecidae). 7864

On the subfamily Astatinae, part II. A review of the genus Astata from Mexico and Central America (Hymenoptera' Sphecidae). 7880

The comparative ethology and evolution of the sand wasps. qL568.S7E8. 12948

Appendix. sphex Linne, subgenus Palmodes Kohl. in: Hymenoptera from Turkey. sphecidae. i., by J de Beaumont. 12984

SPHECODES
Notes on the biology of Philanthus bicinctus (Hymenoptera: Sphecidae). 5843

Observations at nests of Cerceris halone Banks (Hymenoptera: Sphecidae). 11570

SPHECOIDEA
The central and northern European species of the genus Psenulus Kohl which I have come to know (Hym., Sphecoidea). 11516

A model of three dimensional design rapacious wasp nests (Hym., Sphecoidea). 11619

SPHENOPHORUS
Control of hunting billbugs. 4370

SPHEX
Appendix. sphex Linne, subgenus Palmodes Kohl. in: Hymenoptera from Turkey. sphecidae. i., by J de Beaumont. 12984

SPHINGIDAE
Studies of an integrated control system for hornworms on tobacco. 4468

Seasonal abundance and relative numbers of the tobacco hornworm, Protoparce sexta and the tomato hornworm, Protoparce quinquemaculata, in Kentucky. 7922

USDA fights hornworm. 8642

Effect of insecticidal sprays on hornworms and on Apanteles congregatus. 8656

Some eggs of moths among the Sphingidae, Saturniidae, and Citheroniidae (Lepidoptera). 11631

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L (Lepidoptera: Sphingidae). 13115

SPHINX
Some eggs of moths among the Sphingidae, Saturniidae, and Citheroniidae (Lepidoptera). 11631

SPHODROMANTIS
Structure and function of the extraneural sheath in insects. 12297

SPIDER VENOM
Effect of Latrodectus mactans tredecimguttatus venom on the crayfish stretch receptor neurone. 7692

SPIDERS
Electrocardiographic changes in man and experimental animals provoked by the venom of Latrodectus tredecimguttatus. 649

5-hydroxytryptamine content of some arthropod venoms and venom-containing parts. 663

The spinnerts and epiandrous glands of spiders. 5640

Loxosceles reclusa in southern California. 6472

Spider populations in New Jersey apple orchards. 8575

Freeze-drying of spiders and immature insects. 9277

Note about some hidden travelers. 12976

Control of cotton insects with an insect-collecting machine. 13359

SPIKELET DROP (OATS)
The cause of spikelet drop of oats. 217

SPIKERUSH
Propanil and mixtures with propanil for weed control in rice. 4527

SPILOCHALCIS
Biology of the eggplant tortoise beetle (Coleoptera: Chrysomelidae). 5876

SPILOGRAPHA
A study of the types of Tephritidae described by F. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

SPILOGRAPHIA
The genus Trypeta Meigen in America north of Mexico (Diptera, Tephritidae). 11481

SPILONOTA

SPILONOTA
Limitation on the pupal development of the eye-spotted bud moth in northeastern Wisconsin. 4094

Sampling and distribution of summer eye-spotted bud moth Spilonota ocellana (D. and S.), larvae and nests on apple trees. 10492

SPILONOTA OCELLANA
Additional studies of the effect of Bacillus thuringiensis on the eye-spotted bud moth, Spilonota ocellana. 10628

Bionomics of the eye-spotted bud moth, Spilonata ocellana, on cherry in Wisconsin. 10968

Effects of thuricide on the eye-spotted bud moth, Spilonota ocellana. 11302

SPINACH
Immunity to race 2 of spinach downy mildew. 38

Seed transmission of Verticillium wilt of spinach. 386

Development of multiple disease-resistant spinach lines. 430

Immunity to race 2 of spinach downy mildew. 1454

Granular systemic insecticides applied to spinach, turnips, and cabbage for insect control. 4343

A plant surface oxidation product of endosulfan. 5307

Determination of leaf-miner maggots in spinach. 6332

Beet ring mottle disease. 6738

Nicotine residues in field-treated cauliflower, celery, green beans, kale, mustard greens and spinach. 7661

Spinach leaf diseases controlled with fungicides. 8302

Effect of substituted uracil herbicides on photosynthesis. 9095

The effects of sub-lethal doses of MCPA on the morphology and yield of vegetable crops. V. Beet, spinach, turnip and onion. 10107

A strain of cucumber virus I infectious to blight-resistant spinach. 10741

Aphid-transmitted yellows-type spinach virus in the Eastern united states. 10892

Determination of 2,4-D and other chlorinated phenoxy alkyl acids. 12226

Detection of leaf miners in canned spinach and turnip greens. 12778

SPINAL CORD
The pathology of Aujeszky's disease in cattle. 4716

Experimental lathyrism in Aylesbury ducklings. 5345

SPINDLE TUBER (POTATOES)
Transmission of potato spindle tuber virus to tomato. 1041

Mechanical inoculation of the potato spindle tuber virus in the genus Solanum. 1514

Serological studies of a virus that produced spindle tuber in potatoes. 1536

Symptomless hosts of the potato spindle tuber virus (PSTV). 6837

An improved technique for inducing diagnostic symptoms in tomato infected by potato spindle tuber virus. 6959

Potato spindle tuber caused by a strain of potato virus X. 9619

SPINE
Spinal changes in the bull and their significance in serving ability. 2990

Spinal nematodiasis in sheep. 5243

SPIRACHTHODES
New termitophilous Staphylinidae of zoogeographic significance (Coleoptera). 39

SPIRACLES
Spiracular structure and water loss from Tribolium confusum Jacq. and Sitophilus granarius (L.) under reduced pressures. 8

Functional contracture in a spiracular muscle. 26

Sound production and its evolutionary significance in the Blattaria. 80

SPIRAL THREAD
The spiral thread. 65

SPIRAMYCIN
Effect of spiramycin on growth and feed utilization of young pigs. 28

Chronic rhinitis in cats. 72

The development of resistance to spiramycin, streptomycin and chlortetracycline by Mycoplasma gallisepticum in chick embryos. 88

Spiramycin in the treatment of infectious sinusitis in turkeys. 88

SPIROCERCA
Neoplasms of dogs. 50

SPIROCHAETA
The role of the bursa of Fabricius in developing immunity in chickens treated with Salmonella typhimurium and Spirochaeta gallinarum. 110

SPIROCHETOSIS
Avian spirochetosis (Borrelia anserina) epizootics in Arizona poultry. 50

A study of the carrier state of avian spirochetosis in the chicken. 59

Ticks in the united states serve as vectors of disease. 71

SPIRONOLACTONE
Effects of spironolactone on laying pullets. 60

SPISSISTILUS FESTINUS
Preliminary studies of fluctuations of the three-cornered alfalfa hopper and beet armyworm obtained in sweeps made in alfalfa at three periods of the day. 6

An apparatus for separating and collecting live insects. 122

SPLEEN
Development of an antigen in visceral lymphomatosis and splenic lymphoid foci. 882

Effects of estrogens upon Anaplasma marginale infection in splenectomized cattle. 895

Nodular hyperplasia of the ovine spleen. 1342

SPLEEN EXTRACT
Identification of hog cholera viral antigen by immunofluorescence, application as a diagnostic and assay method. 1020

SPLENECTOMY
Effect of neomycin on experimentally induced anaplasmosis in splenectomized calves. 461

SPODOPTERA
Adjuvants in sprays for insect control on sweet corn. 434

The beet armyworm, Spodoptera exigua, an economic pest of citrus in California. 698

Fall insect problems are localized. 846

The beet armyworm, Spodoptera exigua, an economic pest of citrus in California. 860

Green cloverworm outbreak causes widespread damage. 861

Heavy populations of the pink bollworm are reported. 8618

SPODOPTERA EXIGUA
Preliminary studies of fluctuations of the three-cornered alfalfa hopper and beet armyworm obtained in sweeps made in alfalfa at three periods of the day. 62

SPODOPTERA FRUGIPERDA
Uptake of Telodrin by fall armyworm larvae exposed to residues. 619

A characteristic indicating the mating status of male fall armyworm moths. 5665

Resistance in corn to the corn earworm, Heliothis zea, and the fall armyworm, Spodoptera frugiperda (Lepidoptera, Noctuidae). I. larval feeding responses to corn plant extracts. 5866

Resistance in corn to the corn earworm, Heliothis zea, and the fall armyworm, Spodoptera frugiperda (Lepidoptera, Noctuidae). III. use of plant parts of inbred corn lines by the larvae. 5880

Resistance in corn to the corn earworm and fall armyworm. II. types of field resistance to the corn earworm. 8578

Insect control and residues in sweet corn using ground equipment for treating with low-volume formulations. 9018

Persistence of tepa in fall armyworm moths. 9473

Insect preference for peanut varieties. 12500

Effects of natural (sorghum) and artificial (wheat germ) diets on development of the corn earworm, fall armyworm, and southwestern corn borer. 13302

SPONDYLOCLADIUM ATROVIRENS
Evaluation of the relative importance of soil and seed as source of the inoculum of silver scurf of potatoes by means of a repression test. 13270

SPONDYLOSIS
Experimental production of ankylosing spondylitis in swine with an isolate of Erysipelothrix insidiosa of human origin. 8891

SPONGOSTYLUM
Predation on Cicindela by a dragonfly. 10576

SPORADIC BOVINE ENCEPHALOMYELITIS
Sporadic bovine encephalomyelitis in Canada. 3089

SPORE GERMINATION
The influence of cycloheximide on germination of spores of Cronartium fusiforme. 123

Stimulation of spore germination and growth of Glomerella cingulata by copper and other heavy metal ions. 716

Time-temperature interactions of Uromyces phaseoli during spore germination and tube elongation. 725

Inhibition of spore germination of Alternaria tenuis by sulfur dioxide. 1086

Sporangial germination of Sclerosporia graminicola and artificial infection of Pennisetum glaucum. 1588

Stimulation of spore germination of Phoma herbarum var. medicaginis and Colletotrichum trifolii. 2408

The effect of low temperature on germination of chlamydospores of Ustilago avenae. 2487

Metabolic aspects of spore germination in fungi. 5751

Inducing sporulation in different strains of Alternaria solani. II. effect of ultraviolet light. 6366

Inhibition of germination of spores of Alternaria porri f. sp. solani. 6874

Sporangial germination of Sclerospora graminicola and inoculation of Pennisetum glaucum. 6882

Respiratory activity and enzymes for glucose catabolism in fungus spores. 7704

Spore germinability in soil as an inherent character of Cochliobolus sativus. 7706

Spore germination and carbon metabolism in Fusarium solani. I. requirements for spore germination. 7709

In vitro sporidial germination of Cronartium fusiforme. 7716

Some uredospore characteristics of importance in experimental epidemiology. 12418

Changes in cytoplasm and cell wall material; an anatomical approach to the mechanism of fungal infections in plants. in: Mirocha, C. J., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13200

Survival and outgrowth of Clostridium botulinum type E spores in smoked fish. 13504

Improved medium for sporulation of Clostridium perfringens. 13505

SPORE PRODUCTION
Some factors influencing zoosporangi production by Phytophthora frageriae. 144

SPORES
Aqueous extracts of fungus spores as stimulants or nutrients for germination. 704

A new type spore trap to measure numbers of air-borne fungus spores and their periods of deposition. 781

A staining method for differentiating spores, crystals, and cell of Bacillus thuringiensis (Berliner). 786

The effect of environment on the toxic action of sulfur dioxide on the spores of Botrytis cinerea. 991

Development of spring blackstem in alfalfa as affected by nutrients added to spore suspensions at the time of inoculation. 1004

Factors affecting sporulation, spore size, and pathogenicity of several legume cercosporae. 1008

Factors influencing the telial and sporidial stages of Puccinia stakmanii. 1018

Evidence for the survival of the big-vein virus within Olpidium resting sporangia. 1048

The effect of grape washings on the germination of spores of fungi associated with bunch rot of grapes. 1160

Longevity of urediospores of race 33 of Uromyces phaseoli var. phaseoli in storage. 1312

Sporulation of Ceratocystis fagacearum in wounds on infected oak trees. 1318

Turbulent transfer of fungus spores. 1369

Uredospore production by Uromyces phaseoli. 1463

A laboratory method for testing the fungicidal effect of chemicals on fungal spores in soil. 2350

Quantitative studies on possible competition of silver, cerium and iodine for receptor sites in fungus spores. 2403

An automatic suction-impaction type spore trap and its use with onion blotch alternaria. 2553

Downward movement of conidia of Ceratocystis ulmi from terminal twigs of elm. 5764

Influence of substitution and molecular conformation on the uptake of s-triazines by fungus spores. 5765

The mode of action of 2,6 dichloro-4-nitroaniline in Rhizopus arrhizus spores. 7729

Effects of temperature on Dibotryon morbosum ascospore germination. 9749

Distribution of radiosulfur in oat plants inoculated with

SPORIDESMIN

labeled crown-rust spores. 9909

Germination inhibitors from spores of rust and smut fungi. 9927

Leptosphaerulina briosiana on alfalfa: infection and disease development, host-parasite relationships, ascospore germination and dissemination. 10083

Effects of temperature and relative humidity on germination of Rhizopus stolonifer and Monilinia fructicola spores. 10339

Amino acids released during germination of s35-labeled crown rust spores. 10351

Inhibition of germination of Alternaria spores by sulfur dioxide under various moisture conditions. 10355

An improved method for the extraction of spores from elm twigs. 10445

Determination of Perezia pyraustae infection rates in larvae of the European corn borer. 10643

Destruction of Bacillus subtilis spores with solutions of sodium hydroxide. 11090

Variation of some of the characteristics used to distinguish between species of Microsporidia: I. Spore size. 11391

SPORIDESMIN
Sporidesmin poisoning in the rat. I.-chemical changes. 2140

The experimental intoxication of sheep with sporidesmin, a metabolic product of Pithomyces chartarum. IV.-histological and histochemical examinations of orally-dosed sheep. 3147

SPORIDIA
Use of sporidial hypodermic injection to test sorghum for head smut resistance. 169

Compatibility relationships in Tilletia controversa as indicated by fusions between primary sporidia. 5809

SPOROPHORE
Sporulation and sporophore survival of Echinodontium tinctorum. 1325

SPOROTRICHOSIS
Equine sporotrichosis. 1871

Sporotrichosis in a horse. 8787

SPOROTRICHUM SCHENCKII
Sporotrichosis in a horse. 8787

SPORULATION
Some factors affecting zoospore production by Aphanomyces cochlioides. 722

Effect of light on growth and sporulation of stem-end rot fungi. 731

Effects of extracts from dead branches of trembling aspen on the germination of spores of Fomes igniarius. 749

The effect of near-ultraviolet irradiation on the sporulation of certain fungi. 953

The relation of sporulation of Ascochyta pisi to wave length, intensity, and exposure length to monochromatic ultraviolet radiation. 955

Effect of alternate wetting and drying on sporulation and survival of Rhynchosporium secalis. 1151

Factors affecting sporulation and infections by the hop downy mildew fungus, Pseudoperonospora humuli. 1155

Sporulation and sporophore survival of Echinodontium tinctorum. 1325

The effect of light on sexual and asexual sporulation of species of Phytophthora. 2387

Basal mineral requirements for the growth and sporulation of Alternaria tomato. 2390

Quality of radiation inhibitory to sporulation of Alternaria tomato. 2

Precocious sporulation and longevity of conidia of Helminthosporium sativum in soil. 2

Effect of biotin on growth and sporulation of Verticillium albo-atrum. 6

Factors affecting growth, sporulation, pathogenicity, and dissemination of Leptosphaerulina briosiana. 6

Autumn and winter sporulation by basidiocarps of Fomes annosus. 6

Ultrastructure of sporulation in the oyster pathogen Dermocystidium marinum. 10

Sporulation and stroma development by Cercosporella herpotrichoides. 10

Effect of gallic acid on germination, growth, and sporulation of Botryotinia ricini. 10

Use of ultraviolet-induced sporulation for identification of Pyrenochaeta terrestris. 11

SPOTTED WILT (LETTUCE)
Tomato spotted wilt virus in lettuce crop in Argentina. 12

SPOTTED WILT (THRIPS)
Techniques for handling thrips in transmission experiments with the tomato spotted wilt virus.

A strain-host combination for studying tomato spotted wilt virus inclusion.

Frankliniella fusca, an additional vector for the tomato spotted wilt virus, with notes on Thrips tabaci, another vector. 1

Multiplication of Xanthomonas vesicatoria on tomato seedlings. 6

SPOTTED-ROOT MAGGOT
Dieldrin-resistant and DDT-RESISTANT strains of the spotted root maggot apparently restricted to heterozygotes for resistance. 10

SPRANGLETOP
Propanil and mixtures with propanil for weed control in rice. 4

SPRAY DEPOSITS
Mylar plastic tags for sampling spray deposition on individual leaves and surfaces. 11

SPRAYING
A spray method of inoculating bunch-planted sugarcane seedlings with mosaic virus. 1

Sprays for control of angular leaf spot of cucumber in Wisconsin. 1

A comparison of fixed copper and dodine sprays with various additives for control of bacterial spot of pepper fruit. 1

Control of cucumber scab on the Eastern Shore of Maryland. 2

Spray to control tobacco Cercospora under hydroponic conditions in Puerto Rico. 2

Effect of agricultural spray oil on Phytophthora pod rot of cacao. 3

Necrotic spotting of apple fruit from spray combinations of certain fungicides with kelthane. 3

Residues of Shell Compound 4072 in the body tissues of sprayed cattle. 6

Further considerations regarding the repellency of spray components. 8

Influence of droplet size on effectiveness of low-volume herbicidal sprays. 17

Control of blackjack oak by basal spraying with 2,4,5-T. 1716

Effects of surfactants on the herbicidal activity of several herbicides in aqueous spray systems. 1732

Aerial and ground applications of preemergence herbicides in corn, sorghum, and soybeans. 1754

Spray retention by bermudagrass. 2337

Effect of spray gallonage and leaf character on deposition and retention of copper-containing fungicides. 2356

Influence of nozzle size and type hardness of water, and wetting agents on spray drift. 2558

Circular plot designs for evaluation of multiple dosages of agricultural chemicals applied with boom-type field sprayers in a single plot. 2560

Comparing application methods. 2696

Effects of surfactants on the herbicidal activity of foliar sprays of diuron. 2804

Herbicidal activity of several s- triazines as postemergence sprays. 2809

Spray controversy hinders efficient control operations. 4219

California applicator building profits with helicopter operation. 4220

Florida's commercial spraymen hear state licensing regulations. 4239

Chemical control of wheat rusts in the United Arab Republic. 4267

Beltwide cotton-mechanization conference. 4278

Bacillus thuringiensis tested in Connecticut for gypsy moth control. 4316

The role of attractants in the recent Mediterranean fruit fly eradication program in Florida. 4423

Control of aphids and spider mites on strawberries with dusts and low- and high-gallonage sprays. 4439

Chemical control of mugwort. 4493

Formulation of pesticides. 5409

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5615

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5628

Effects of forest spraying with DDT in New Brunswick on food of young Atlantic salmon. 5634

Low-volume spraying. 5786

Effects on wild young salmon of spraying DDT over New Brunswick forests. 6267

The biological evaluation of spray additives and solvents with Blattella germanica (Linn) and Periplaneta americana (Linn.). 6639

Screening tests with synthetic compounds as synergists for house fly sprays. 6682

First and second year effects on Cytospora canker disease of Italian prune trees sprayed with four concentrations of cycloheximide thiosemicarbazone. 6764

Effects of an aerial DDT spray on aquatic insects in Connecticut. 7016

Soil treatments in lieu of spraying for plum curculio control in peach orchards. 7063

Organophosphate systemics as sprays and feed additives for cattle grub control. 7577

Studies on the metabolism and residues of P32-labeled Delnav in a Hereford steer. 7676

Residue studies of livestock sprays containing Sevin. 7678

New Jersey court upholds gypsy moth spraying. 7947

Aerial applications of malathion LV concentrate for control of alfalfa weevil in Ohio. 8086

Physico-chemical studies on agricultural sprays. V. Incorporation of wetting agents in high-volume sprays. 8174

Board lists precautions for forest spray programs. 8175

Nitrogen dioxide in farm silos discussed at ag. engineers meeting. 8238

Advances in foliar feeding of fertilizer materials to plants. 8243

Copper fungicides II Absorption of soluble copper in relation to stage of leaf growth and to leaf injury. 8254

Spraying against apple mildew and apple scab at Long Ashton 1962. 8268

Control of sugar-beet downy mildew, Peronospora farinosa, by sprays. 8271

Importance of source of spray oils for Sigatoka disease control and phytotoxicity to banana leaves. 8273

Dormant sprays for the control of dutch elm disease. 8306

Bitter pit in the apple variety Cleopatra in Tasmania in relation to calcium and magnesium. 8338

Boll weevil is potential threat to all u.S. cotton. 8405

Proper application controls 'resistant' green peach aphids. 8453

Field tests with a malathion bait spray for control of apple maggot, Rhagoletis pomonella. 8542

Effects of various water volumes on the effectiveness of methyl parathion-DDT, in controlling the cotton boll weevil, Anthonomus grandis. 8546

Protective sprays against internal infestations of grain beetles in wheat. 8583

Dieldrin lattices applied by aircraft for controlling hoppers of red locust Nomadacris septemfasciata (Serville). 8598

1962 campaign against witchweed underway in the Carolinas. 8669

Spray drift' the observations of an arbitrator. 8707

Foliar sprays on oats with nitrogen. 8965

Communications with beekeepers helps avoid controversy over spraying. 8985

Insecticide residues on forage under sprayed pecan trees. 9040

University of California reports on aircraft performance. 9060

Forest spraying projects fail to harm fish or wildlife. 9077

Low volume spraying adapted for orchardists. 9082

Integrated control and fruit injury capture attention of N. W. horticulturists. 9104

Spray application problems. LXIX. Assessment of droplet spectra of spraying equipment with the flying shot particle resolver. 9256

High pressure vs. mist formation. 9276

Time-of-application studies in the apple cover spray program in Delaware. 9647

SPRAYING EQUIPMENT

Spray deposition and adhesion in relation to leaf character. 9709

Control of bluegrass foot-rot disease with a single drench of fungicide. 9853

Xiphinema americanum populations and alfalfa yields as affected by soil treatment, spraying, and cutting. 10054

Interrelationships between methods of spray application. retention and weather conditions on the herbicidal efficiency of 2,4-dinitro-o-cresol. 10099

DDT and dieldrin residues on pasture following dusting and spraying. 10290

Physico-chemical studies on agricultural sprays. V. -The incorporation of wetting agents in high-volume sprays. 10389

Control of peanut leaf spot (Cercospora arachidicola Hori) by fungicidal sprays. 10729

Fungicide sprays for cucumber scab control. 10733

Substantivity of pyrethrins I and II to cattle skin and hair: behavior of pyrethrins in a cattle spray race. 11100

Comparisons of residues in milk resulting from two types of spray applications of DDT, SHELL COMPOUND 4072, and ronnel. 11159

Mercury residues in potatoes following application of a foliar spray containing phenylmercury chloride. 11212

Control of grape berry moth with Guthion sprays and studies on persistence of the spray deposits. 11215

Effects of Lovo spray additives on the performance of low-volume sprays of Bacillus thuringiensis Berliner. 11274

Efficiency of a re-formed oil against citrus red mite eggs and California red scale. 11329

Low-volume concentrated sprays applied by ground equipment for control of the boll weevil. 11347

Mylar plastic tags for sampling spray deposition on individual leaves and surfaces. 11434

Present status of low volume sprays for use in mosquito control. 11688

Insect control unit. 11903

Field experiments with oil sprays to prevent yellow mosaic virus in irises. 12425

Low-volume dusts for control of the cotton bollworm. 12502

An experimental spray program for integrated control of insects affecting sour cherry. 12513

Opportunities - hazards. 12931

Hazards of herbicide drift. 13586

The selection of a solvent for use with low volume aerial spraying of cotton plants. 13611

How we modified a back pack sprayer for ULV insecticide applications. 13694

Analysis of spray deposits on cards dyed with Sudan Black BB: their preparation and use. 13702

SPRAYING EQUIPMENT

Whirl chamber nozzles compared to other herbicide nozzles. 518

The distributions of coumaphos on cattle from limited-volume mist sprays and one-gallon saturating sprays. 602

Stationary sprayer components. 1731

A pendulum sprayer for pot cultures. 1747

a tractor-mounted potato sprayer designed for field plot studies. 2538

A variable dosage sprayer for treating small plots. 2548

A small plot sprayer using disposable spray containers. 25

Jet stream atomization. 25

Influence of nozzle size and type hardness of water, and wetting agents on spray drift. 25

A 'two-gun) ground sprayer. 25

A carbon dioxide pressured portable field sprayer. 25

Proper calibration of spraying machines. 37

A small-scale variable dosage (logarithmic) sprayer. 37

A multiple-boom self-propelled pneumatic plot sprayer. 38

Safe application of granular organic phosphate insecticides. 38

An easily-made, inexpensive, multipurpose experimental sprayer. 38

A precision sprayer for small experimental field plots. 45

Lawn and household pesticides are discussed by CSMA speakers. 52

A portable sprayer for experimental plots. 54

Modification of a commercial high-clearance sprayer for use in small plot spraying. 54

The permanent war on the mosquito. 57

I fly by night. 57

Advantages of fixed-wing and rotary-wing aircraft in agricultural aerial application - a symposium - The rotary-wing story; The fixed-wing story. 57

New spray equipment minimizes drift problem. 64

Low volume spinning pesticide nozzle. 64

Chemical control of bacterial blights of dry field beans in Michigan by foliage sprays applied by ground and air equipment. 68

Insect control and residues in sweet corn using ground equipment for treating with low-volume formulations. 90

Spray application problems. LXIX. Assessment of droplet spectra of spraying equipment with the flying shot particle resolver. 92

Spray application problems. LXX. Equipment for herbicide spraying in plantation crops. 92

Ultra-low-volume ground equipment for applying insecticides to soybeans. 99

A simplified logarithmic sprayer designed for the application of fungicides. 104

New insecticides for use with new ground dispersal equipment to control adult mosquitoes. 116

Spray atomization, application volume and coverage. 129

An improved technique for aerial applications of ultra-low-volume materials to experimental plots. 129

Thiokol swamp spryte equipped with automatic compressed air spraying units for applying granule and liquid insecticides. 129

Spraying apparatus and method. patent 3,340,087. 1292

How we modified a back pack sprayer for ULV insecticide applications. 1369

SPREADING DECLINE (CITRUS)

Evaluation of soil fungicides against Fusarium solani isolated from feeder roots of citrus trees. 963

ING BLACK STEM (ALFALFA)
evelopment of spring blackstem in alfalfa as affected by utrients added to spore suspensions at the time of inocu- ation. 1004

elation of nutrients in inoculum and inoculum concentration o severity of spring black stem of alfalfa. 1528

ehavior of Phoma herbarum var. medicaginis on resistant nd susceptible species of Medicago. 6702

pring black stem of alfalfa in relation to temperature, oisture, wounding, and nutrients and some observations on athogen dissemination. 6866

hemical control of spring black stem in alfalfa. 8258

ssociation of cellulolytic, proteolytic, and xylolytic nzymes with southern anthracnose, spring black stem, and temphylium leaf spot of alfalfa. 9770

INKLER IRRIGATION
ttempts to control spreading decline of citrus with high ates of nematocides applied by sprinkler irrigation. 174

ttempts to control spreading-decline of citrus with high rates of nematocides applied by sprinkler irrigation. 8623

Systemic insecticides as lygus bug controls compatible with bee pollination on alfalfa. 12493

UTUM
Filter fly larva (Psychoda alternata) from human sputum. 4200

UASH
Selective herbicidal action of amiben on cucumber and squash. 2788

Methods of application for nematode control. 4453

Resistance of squash varieties to the pickleworm and the value of resistance to insecticidal control. 4458

Control of scab, due to Cladosporium cucumerinum, of cucumber and squash. 8389

A new insect vector of squash mosaic virus. 10874

Carbohydrate concentration as a factor in the resistance of squash varieties to the pickleworm. 10921

Interrelations of squash bug, Anasa tristis, and six varieties of squash (Cucurbita spp.). 10967

Insect abundances on tomatoes and squash mulched with aluminum and plastic sheetings. 12529

QUIRRELS
Mange mites of the genus Notoedres (Acaro: Sarcoptidae) with descriptions of two new species and remarks on notoedric mange in the squirrel and the vole. 2685

A new malarial parasite of the flying squirrel. 6225

Red squirrel disease. 7293

Squirrels as possible vectors of the oak wilt fungus in Iowa. 10749

T. LOUIS ENCEPHALITIS
St. Louis encephalitis in Memphis, tennessee, 1964. 5714

T, LOUIS ENCEPHALITIS
Investigation of an epidemic of St. Louis encephalitis in Danville, Kentucky, 1964. 5706

TACHYBOTRYS
Stachybotriotrichosis of chicks. 5361

TAGONOSPORA
Notes on Wisconsin parasitic fungi. XXXII. 5791

TALK CUTTERS
Evaluation of stalk shredders and cutters for pink bollworm control. 4297

STALK ROT (CORN)
Etiology of stalk rots of corn in Pennsylvania. 236

Double inoculation for corn stalk rot studies. 323

Relationship of seasonal changes in pith condition ratings and density to Gibberella stalk rot of corn. 324

Crop sequence and stalk rot of corn. 437

Stalk rot in relation to yield of corn. 438

Histological study of cornstalk rot. 694

Histological structure of corn stalks in relation to field resistance to stalk rot. 1026

Effect of crop rotation on yields of corn, oats, and wheat and on corn stalk rot. 1033

Corn stalk rot symptoms induced by root injury. 1341

Increased stalk rot susceptibility in corn following root and leaf injury. 1342

Failure to control corn stalk rots with above ground applications of protectant fungicides. 1509

Interactions of the European corn borer and stalk rot in corn. 4299

Effect of crop rotation on yields, stalk rot, and root rot of corn. 6964

Effect of planting date on stalk rot susceptibility and cell death in corn. 9627

Effects of hail damage on yield and stalkrot infection in corn. 9931

Effect of nitrogen, phosphorus, and potassium concentrations on the development of Gibberella stalk- and root-rot of corn. 10886

Influence of cultural practices on the incidence of stalk rot of corn. 11856

A strain of Pseudomonas lapsa isolated from corn seeds causing bacterial stalk rot in India. 12453

STALK SHREDDERS
Evaluation of stalk shredders and cutters for pink bollworm control. 4297

STALK SHREDDING
Stalk shredding and plowing as methods for controlling the pink bollworm, Pectinophora gossypiella. 7083

Further tests on the effectiveness of cotton stalk shredders for controlling the pink bollworm. 12286

STAPHYLINIDAE
New termitophilous Staphylinidae of zoogeographic significance (Coleoptera). 3983

Winter, insect-light trapping at the Archbold Biological Station, Florida. 11482

STAPHYLOCOCCI
The public health significance of Staphylococcic infection in cattle. 12055

Versuche zur biologischen Bekampfung der Staphylokokken-Mastitis (Experiments on biological control of staphylococcal mastitis). 12615

STAPHYLOCOCCUS
Characteristics of staphylococci from the nose of healthy dogs. 4564

Tylosin treatment of infectious bovine mastitis. 4613

In vitro studies on staphylococci of bovine origin using penicillin BRL.1241 (celbenin). 4980

Serological typing of coagulase positive staphylococci isolated from the bovine udder. 5133

The effect of udder infections on the lactation yield of milk and milk solids. 6239

STAPHYLOCCCCCUS AUREUS

Adaptation of the use-dilution method to primary evaluations of disinfectants. 6328

Phage typing of Staphylococcus aureus. 7169

Procaine as an antibiotic and artifungal agent. 7189

Detection of antibodies to staphylococcus aureus in cattle. 7201

Evaluation of bacterins for control of swine abscesses. 7276

Identification and persistence of phage types of Staphylococcus aureus in dairy herds in florida. 7291

The effect of 2 hepta-5-methylbenzimidazole and hydrochloric acid on the growth of microflora found on poultry carcasses. 7652

Influence of egg albumin-induced leukopenia on experimental Aerobacter aerogenes mastitis and on natural infection of mammary gland with coagulase-negative Staphylococcus in a cow. 8823

A trial in goats of an inactivated staphylococcal polyvalent somatic antigen vaccine against mastitis. 13430

STAPHYLOCCCCUS AUREUS
Staphylococcus aureus of canine origin. I. Bacteriophage typing and antibiotic sensitivity of cultures isolated from diseased dogs. 4681

Gangrenous dermatitis of chickens. 6010

A study of the comparative pathology of experimental infectious synovitis and staphylococcal arthritis in chickens. 6095

Inhibition of enzymes by the anthocyanin malvidin-3-monoglucoside. 7730

Low incidence of staphylococcal dermatitides in animals with high incidence of Staphylococcus aureus. 3. Preliminary study of laboratory animals. 12624

Local immunity in the lactating mammary gland following the infusion of staphylococcal toxoids. 12682

Low incidence of staphylococcal dermatitides in animals with high incidence of staphylococcus aureus. i. preliminary study of cats. 13421

Quaternary ammonium xanthates. patent 3,324,134. 13677

Method for combating microorganisms with an alkyl substituted oxazoline. patent 3,366,537. 13687

STAPHYLOCCCCUS BACTERINS
Vaccination of dairy cattle against staphylococcic mastitis. 5068

STARCHES
Insecticidal, fungicidal and fertiliser composition. 12257

STARLINGS
Acute pulmonary histoplasmosis after exposure to soil contaminated by starling excreta. 3581

The effect of cobalt-60 on starlings (Sturnus vulgaris vulgaris. 6017

Contact avicides. patent 3,340,142. 13592

STARVATION
Sexual sterilization of screw worm flies by a peroral chemosterilant. Quantitative aspects and relation to pretreatment starvation. 10555

Artificial selection of adult screw-worms for extended survival without food and water. 10676

STATE FORESTS
Permission needed in N.Y. for pesticide application. 9076

STATISTICAL ANALYSIS
Activity and abundance in insect light trap sampling. 3937

Experimental statistics and animal disease research. 4560

Determining the appropriate transformation of data from insect control experiments for use in the analysis of variance. 5

Rate of decay in Pinus strobus following artificial inoculation with Fomes pini. 12

Dilution method for mold count of catsup. 12

Statistical applications to repellency assay. (abstract). 12

The danger-index of the synanthropic flies. 13

A survey of organic chloride impurities in food grade hydrochloric acid. 13

The new florisil: a statistical evaluation for chlorinated pesticides. 13

STATISTICAL DISTRIBUTIONS
The shallot aphid in the pacific northwest. 6

STATISTICAL METHODS
Residue analytical limit of detectability. 3

Statistical evaluation of results and sampling procedures. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods and general application. 395 Z9. 12

STATISTICS
Notes on the Volterra equations.

Pest roundup. European corn borer causes concern in some areas. 2

Pest roundup. Conditions of forest insects during 1960. 2

Pest roundup. Greenbug populations are light-but increasing. 2

Lack of authoritative oath clouds pesticide-wildlife picture 3

Measuring the surface area of apples for expression of pesticide residues. 7

Resistance of pines to the pine reproduction weevil, Cylindrocopturus eatoni. 7

A report on residues in food. 13

STAUFFER M-2404
Studies on house fly control. 11

STAUFFER R 3244
Laboratory screening of insecticides for the prevention of reproduction of Boophilus ticks on cattle. 8

STAUFFER R-2371
Preliminary evaluation of animal systemic insecticides. 8

STEAM
The control of seed-borne safflower rust by steam. 9

Effect of antagonists on growth and survival of Rhizoctonia solani in soil. 132

Comparative survival of monobasidial cultures of Thanatephorus cucumeris in soil. 132

STEARIN
An effect of some cod liver oils in feed on lymphocytoma incidence. 61

STECKLING BEDS
Control of sugar-beet downy mildew, Peronospora farinosa, by sprays. 82

STEGASTA BOSQUEELLA
Insect preference for peanut varieties. 125

STEGOBIUM PANICEUM
A laboratory study of Stegobium paniceum (L.) (Coleoptera: Anobiidae). 130

LLARIA HELIA
bservations on chickpea rust in central Mexico. 9810

M RUST (ECA PRATENSIS)
esistance of seven Kentucky bluegrass varieties to stem ust. 10714

M CANKER (BIRDSFOOT TREFOIL)
ost-parasite relations of Stemphylium leafspot and stem anker of birdsfoot trefoil (Lotus corniculatus). 6737

report on the testing of Lotus species for resistance to temphylium leafspot and stem canker. 10753

M END ROT (MANGOES)
ode of infection and prevention of Diplodia stem-end rot f mango fruits (Mangifera indica). 9790

M PITTING (APPLES)
he effect of dapple apple and stem pitting on apple tree rowth and yields in New Hampshire over a fourteen-year eriod. 6868

atural spread of stem pitting virus of apple. 12454

nfluence of dapple apple and stem pitting viruses on tree rowth and fruit yields over a fourteen-year period. 12455

M ROT (CHRYSANTHEMUM)
ontrol of Pythium root and basal stem rot of Chrysanthemum mcritolium with Dexon. 10883

M ROT (CITRUS)
ffect of light on growth and sporulation of stem-end rot ungi. 731

M ROT (PEANUTS)
eaction of five peanut varieties to cultural control of tem rot. 970

ariation in susceptibity to Sclerotium rolfsii among peanut varieties. 6755

clerotium rolfsii and its control on tomato and peanut. 12473

M ROT (SOYBEANS)
oybean root and stem rot caused by Rhizoctonia solani, 966. 13243

M RUST (GRAIN)
ome uredospore characteristics of importance in experimental epidemiology. 12418

M RUST (OATS)
hysiologic races of Puccinia graminis in the United tates in 1960. 391

solates of oat stem rust race 6 virulent on variety Saia n Israel. 1354

synthetic hybrid of two varieties of Puccinia graminis. 1426

raser oats. 13279

M RUST (WHEAT)
hysiologic races of Puccinia graminis in the United tates in 1960. 391

istribution of C14-containing metabolites in wheat leaves nfected with stem rust. 666

elation between phenol metabolism and stem rust resistance n wheat. 944

ontrol of wheat stem rust with nickel and carbamate sprays. 1132

henol content in rust infected and nitrogen fertilized heat leaves. 1152

he action of propionate on wheat stem rust and sorghum head smut. 1403

nheritance of stem rust reaction in two durum varieties, Acme and Mindum. 1409

re- and postinoculation effects of light quality on infection intensity of stem rust of wheat. 1537

A whole-leaf clearing and staining technique to demonstrate host-pathogen relationships of wheat stem rust. 1545

Effects of infection by the stem rust fungus on the vitamin b6, niacin, and pantothenic acid content of wheat plants. 5803

Inheritance of stem rust resistance in two wheat varieties, Marquis and Kota. 6706

Genetic model for physiologic studies of mechanisms governing development of infection type in wheat stem rust. 6876

Physiology of host-parasite relations. XIII. Effect of stem rust on purines in wheat leaves. 9111

Control of leaf and stem rust of wheat by zineb and inorganic nickel salts. 10754

Survival of stem rust urediospores on dry foliage of wheat. 10837

Effects of calcium pantothenate and other compounds on infection of wheat by stem rust. 11380

Races of Puccinia graminis tritici identified from Texas collections, 1926-1965. 11784

Sporulation and pathogenicity of Puccinia graminis f. sp. tritici grown on an artificial medium. 11878

The physiology of penetration and infection by uredicspores of rust fungi. 12439

Time of stem rust appearance on wheat in the western Mississippi Basin in relation to the development of epidemics from 1921 to 1962. 13235

Effect of Puccinia recondita infection on the RNA composition of wheat leaves. 13239

The effect of favorable periods for infection on development of stem rust in field plots of wheat. (abstract). 13244

STEM SPOT (GLADIOLUS)
A basal leaf and stem spotting of gladiolus. 10841

STEM SWELLINGS
Observations on white oak stem swellings. 10788

STEMPHYLIUM
Stemphylium petal blight of carnations. 209

Stemphylium twig and stem canker of Morus. 1076

Host-parasite relations of Stemphylium leafspot and stem canker of birdsfoot trefoil (Lotus corniculatus). 6737

Stemphylium leafspot of Echeveria, Kalanchoe, and Sedum. 6916

Reaction of Trifolium species to Stemphylium sarcinaeforme. 9907

Inheritance of resistance to Stemphylium solani in blue lupine endemic to Portugal. 9949

Fungitoxicity of m-dioxanes. 10331

A report on the testing of Lotus species for resistance to Stemphylium leafspot and stem canker. 10753

STEMPHYLIUM BOTRYOSUM
Leaf spot of annual phlox caused by Stemphylium botryosum. 9796

STEMPHYLIUM BOTRYOSUM WALLR.
The Stemphylium leaf spot complex on blue lupine. 13287

STEMPHYLIUM LOTI GRAHAM
Host-parasite relations of Stemphylium leaf spot and stem canker of birdsfoot trefoil. 10744

STEMPHYLIUM SARCINAEFORME
Induced tolerance to fungicides in three species of fungi. 1505

Effect of vitamins, hormones, and trace elements on growth

STEMPHYLIUM
and sporulation of Stemphylium sarcinaeforme, causal organism of leaf spot of gram. 11390

STEMPHYLIUM
Stemphyllium leafspot of safflower. 6870

STEMS
Comparison of three stem diseases of Melilotus and their causal agents. 1553

Stem elongation. 6361

'Short-stem' condition in Lambert cherries. 6693

STENARMA BERIDONALE
The ecology of ants of strip-mine spoil banks. 5533

STENEOTARSONEMUS PALLIDUS
Cyclamen mite eradication on strawberry transplants. 10931

STENODYNERUS
Notes on the biology of Philanthus bicinctus (Hymenoptera: Sphecidae). 5843

STENODYNERUS CLAREMONTENSIS
Descriptions of the immature stages of Stenodynerus claremontensis (Hymenoptera0 Vespidae). 9527

STENOPA
The types of North American Tephritidae in the Snow museum, the University of Kansas (Diptera). 3915

STENOPONIA
Fleas (Siphonaptera) of small mammals in kansas. 3966

STENOSARPHUS
Three new saicine genera (Hemiptera: Reduviidae). 3905

STENOTAPHRUM
Insect infestation in relation to subsequent weed invasion of improved pastures. 4505

STENOTAPHRUM SECUNDATUM
Lawn and household pesticides are discussed by CSMA speakers. 5287

Sugarcane mosaic on St. Augustine grass in Florida. 9882

STENOXYLOCOPA
A New-World species of bamboo-nesting carpenter bees belonging to the genus xylocopa Latreille (Hymenoptera: Apoidea). 3933

STEPHANITIS
Systemic insecticides for control of scales, leaf miners, and lace bugs. 7059

Several systemic insecticides for control of azalea lace bugs. 8510

Studies with systemic insecticides for the control of azalea lace bugs. 8511

STEPHANURUS DENTATUS
Observations on the life cycle and pathogenicity of the swine kidney worm (Stephanurus dentatus). 2299

Swine kidney worm persistent and resistant. 7590

STEREOCHEMISTRY
Insect sex attractants. VIII. structure-activity relationships in sex attractant for male cabbage loopers. 12492

STERILITY
Preliminary field experiments with sterile males for eradication of the boll weevil. 629

Insect sterilization technique. 4190

Investigation into the incidence and causes of infertility in dairy cattle: Brucella abortus and Vibrio fetus infections. 4635

Diethylstilbesterol as a contaminant in mink feeding. 4925

A study of infectious hybrid sterility in Drosophila paulistorum. 5683

Infertility in farm animals in Britain. 6006

Suspected synthetic oestrogen poisoning in mink. 731

Abortion and infertility in sows in Ireland apparently due to infection by Leptospira canicola. 742

Sterile males and insecticides offer hope for boll weevil eradication. 83

Bovine infertility--response to manganese therapy. 89

Mathematical description of the sterile male principle. 94

Studies on the eradication of Anopheles pharoensis Theobald by the sterile-male technique using cobalt-60. I. Biological effects of gamma radiation on the different developmental stages. 105

Radiation studies with the boll weevil: Lethal effects on larvae, pupae, and adults; male sterility and dose fractionation. 105

Effects on egg hatch of alternate matings of female boll weevils with apholate-treated and untreated males. 105

Sexual sterility induced in the house fly by contact exposure to chemosterilant apholate. 106

Ergot infection and sterility in grain sorghum. 107

Effectiveness of tepa-sterilized Mexican fruit flies released in a mango grove. 109

The effect of diethystilbestrol implantation on the reproductive organs and on the potential sterilization of intact bull calves. 110

Inherited partial sterility among survivors from irradiation-eradication experiment. 131

STERILIZATION
Male sterilization for the control of insects. 1

An improved method for sterilization of agar media with propylene oxide. 78

Sterilization of wheat seed by ethylene oxide. 231

Effect of gamma radiation on the reproductive potential of the Mexican fruit fly. 413

Use of insects for their own destruction. 667

Insect control by gamma-irradation' an appraisal of the potentialities and problems involved. 776

Theory of control of insect populations by sexually sterile males. 785

Effect of the chemosterilant hempa on the yellow-fever mosquito and its liability to induce resistance. 800

Effect of colchicine on screw-worms. 814

Adult longevity as a sensitive criterion of radiation-induced damage when 24-hour Habrobracon (Hymenoptera) embryos are x-rayed. 814

New approaches to insect control are discussed at ACS meeting. 841

New approach to insect control reported at Alabama pesticide meeting. 858

Screwworm eradication campaign underway in southwest. 860

Persistence of tepa in fall armyworm moths. 947

Selective effects of certain anti-fertility compounds on the house fly as shown by reciprocal crosses and histological sectioning. 951

Apholate as a chemosterilant for Drosophila melanogaster. 952

Cumulative effects of substerilizing dosages of apholate and metepa on laboratory populations of the house fly. 953

Commercialisation technology and economics in radiation

processing. 10396

Sexual sterilization of screw worm flies by a peroral chemosterilant. Quantitative aspects and relation to pretreatment starvation. 10555

Determination of the optimum sterilizing dosage for pink bollworms treated as pupae with gamma radiation. 10631

A screening method for chemosterilants of the house fly. 10639

USDA combats melon fly. 10915

Factors affecting the evaporation of water from droplets in airblast spraying. 11433

Effect of dietary biotin on reproduction of the house-fly. 11564

Control of fruit flies Dacus zonatus Saunders by gamma-rays. 12350

Resistance in Aedes aegypti to chemosterilants. effect of apholate selection on resistance to apholate, tepa, and metepa. 12368

Gamma irradiation of European corn borer larvae. 12370

Effect of aeration on gamma irradiation of house fly pupae. 12375

Sterile-male releases control populations of Drosophila melanogaster in cage tests. 12381

Inherited semi-sterility in Aedes aegypti. (abstract). 12386

Field experiments with sterile males for eradication of the boll weevil. 12483

Gamma irradiation of pupae of the tobacco budworm. 12485

Chemosterilization of male European corn borers by feeding of tepa and apholate to larvae. 12488

Suppression of Drosophila melanogaster in tomato field plots by the release of flies sterilized by apholate. 12505

Use of alternative biological control schemes. in: FAO symposium on integrated pest control, Rome, 1965. proceedings. SB951. F62. 13335

STERNUM
Morphology of the pleurosternal region of the pterothorax in insects. 3949

STEROIDS
Use of adrenal cortical steroids in metabolic, neoplastic, and infectious diseases. 5074

Sexual differentiation in Cochliobolus carbonum as influenced by inhibition and repair of steroid biosynthesis. 12247

STEROLS
The identity of the major sterol from houseflies reared by the CSMA procedure. 2600

An unusual sterol from house flies. 2662

The utilization and metabolism of 4-C14-cholesterol by the adult house fly. 4080

Utilization of 1-C14-acetate in lipid synthesis by adult house flies. 4141

Comparison of sterols in resistant and susceptible house-flies, Musca domestica. 7999

Sterol antagonists and house fly reproduction. 8075

The conversion of cholestanone to cholestanol by the house-fly, Musca domestica L. 12330

STETHORUS
Insectary production of Stethorus species. 9271

STIBASOMA
Additions to the Tabanidae (Diptera) of Trinidad, B. W. I. 11478

STICTOCEPHALA BUBALUS
Polynema striaticorne Girault (Hymenoptera: Mymaridae), a parasite of the buffalo treehopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in Quebec. 11618

STILESIA GLOBIPUNCTATA
The vectors of Stilesia globipunctata (Rivolta, 1874) of sheep. 12759

STIMULANTS
Translocated stimuli affecting plant virus infections. 455

Attractant and stimulant factors for oviposition of Culex pipiens fatigans in natural breeding sites. 12351

Feeding stimuli and artificial feeding. 13046

STING ROOT NEMATODES
Some effects of sting and stubby root nematodes on grapefruit roots. 11015

STINK GLANDS
A study of the odoriferous glands of Scaptocoris divergens (Hemiptera: Cydnidae). 11642

STINKING SMUT (WHEAT)
Reactions of wheat varieties and selections to pathogenic races of Tilletia controversa. 232

Variability in reaction of spring wheat varieties to common bunt. 233

Influence of environmental factors on the development of wheat bunt in the Pacific Northwest. IV. Effect of soil temperature and soil moisture on infection by soil-borne spores. 1420

Control of wheat dwarf bunt. 4272

Postinfection development of wheat bunt in relation to controlled soil moisture. 6860

Time of year of infection of winter wheat by the dwarf bunt fungus. 6862

A method of using mycelial, monosporidial isolates of Tilletia controversa in pedigreed hybrid crosses. 6908

Wheat dwarf bunt control. 8369

Additions to the host range of dwarf bunt. 9941

Studies of the effect of straw cover and method of inoculation on dwarf bunt of winter wheat in Utah. 10737

Results of regional seed-treatment tests for the control of seed-borne and soil-borne common bunt of winter wheat in the Pacific Northwest, 1959. 10853

Organic and inorganic nutrition of Tilletia controversa. 11729

Effect of stage of development of winter wheat on infection by Tilletia controversa. 11772

A revised classification of pathogenic races of Tilletia controversa. 11773

A new race of Tilletia caries. 12446

STIPA
Insects collected on Wyoming rangeland in connection with grasshopper-egg sampling. 5864

Veromessor lobognathus: third note (Hymenoptera: Formicidae). 5885

STIRETRUS
Biology of the eggplant tortoise beetle (Coleoptera: Chrysomelidae). 5876

STOCKYARDS
Dainty dogies in phoenix. 5914

STOLIDOSOMINAE

STOLIDOSOMINAE
A revision of the subfamily Stolidosominae _Diptera, Dolichopodidae). 5550

STOLON DECAY
Stolon decay of commercial species of mint in indiana. 10682

STOMACH
Effect of isolated soybean protein and casein on the gastric pH and rate of passage of food residues in baby pigs. 2863

Surgical interference in torsion of the canine stomach. 7366

STOMATA
Stomatal penetration of stem and leaf rust of wheat affected by atmospheric CO2. 456

Etiolcgical studies of the ash die-back disease. Stomates as infection courts. 1319

Influence of certain exoascids on development of the epidermis and the foliar stomatic apparatus of their hosts. 13224

STOMATITIS
Cocal virus, a new agent in Trinidad related to vesicular stomatitis virus, type Indiana. 3518

Some important disorders of cats. 4815

Experimental ulcerative stomatitis in king snakes. 6116

Comparative investigations on stomatitis papulosa, pseudocowpox, and milkers' nodules virus strains. 12651

STOMOPTERYX NERTERIA
Two new species of parasites reared from Stomopteryx nerte nerteria (Meyrick) (Lepidoptera, Gelechidae). 6615

STOMOXYS
Chilling vs. other methods of immobilizing flies. 4062

Stable fly tolerance to residues of DDT, dieldrin, malathion and diazinon. 4078

Fly control in dairy barns sprayed with dimethoate and the determination of dimethoate residues in milk. 5157

Barn fogging as a fly control method. 5159

Toxicity to fly larvae of the feces of insecticide-fed cattle. 5166

Bacillus thuringiensis as a feed additive to control dipterous pests of cattle. 5169

Control of horn flies and stable flies with three General Chemical compounds. 5179

Development of a synthetic medium for aseptic rearing of larvae of Stomoxys calcitrans (L.). 7567

Use of an animal membrane in the evaluation of chemical repellents against the stable fly. 7568

Systemic and topical insecticidal activity of some substituted phosphates and phosphorothioates. 8004

Fly control materials offered for direct application to livestock. 8711

Susceptibility of adult horn fly and stable fly to insecticides. 9438

Acid phosphatase in the stable fly, Stomoxys calcitrans. 11561

STOMOXYS CALCITRANS
Some factors affecting kill of the stable fly, Stomoxys calcitrans (L.), with insecticidal thermal aerosols. (abstract). 12322

Laboratory tests with promising insecticides for control of adult and larval stable flies. 12508

STONY PIT (PEARS)
Stony pit virus disease of pears in New York state. 9629

STONYX
Notes on and redescription of types of North American bombyliidae (Diptera) in European museums. 396

STORAGE
Production and storage of inoculum of Phoma herbarum var. medicaginis. 34

Maintenance of 'pathogen-free' planting stock. 119

Artificial inoculation of pearl millet plants with Sclerospora graminicola. 123

Storage viability of bean rust uredospores. 135

Relation of moisture content and length-of-storage period to changes in the fungus flora and germination percentage of wheat. 152

Pesticide storage in human fat tissue. 187

The influence of storage conditions on the longevity of urediospores of Puccinia polysora Underw. and Puccinia sorgi Schw. 231

The adsorption of atmospheric oxygen by wheat. 259

Dormancy and viability of witchweed seeds as affected by temperature and relative humidity during storage. 281

Control of insects infesting stored sorghum in Northern nigeria. 366

Temporary storage of living soil and bark inhabiting coleopterous larvae in water. 411

Efficient utilization of paulins in fumigation and as covers for the protection of storage. 527

The angoumois grain moth, Sitotroga cerealella, and storage fungi. 528

Viability of low-egg passage, modified live-virus rabies vaccine following three and five years of storage. 536

Effect of methyl bromide and hydrocyanic acid fumigation on the germination of flax seeds. 765

The degradation of malathion on stored maize and wheat grains. 897

Population dynamics of Heterodera glycines under various cropping sequences in field bins. 963

Trends in the control of infestation of stored products. 1026

Stored-grain insects and their control in New Jersey. 1026

Studies on different types of packing to protect wrapper tobacco from storage pests. 1026

Atmospheric gas alteration and insect control in peanuts stored at various temperatures in hermetically sealed containers. 1027

Bioassay of chemical protectants and surface treatments for the control of insects in stored sorghum grain. 11185

Influence of variety, cultural conditions and temperature of storage on enzymic browning of potato tubers. 11383

The relationship of shelf age to toxicity of dimethoate to sheep. 12233

A trap for the detection and recovery of insects in stored grain. 12784

Studies on the effect of airtightness on the development of Tribolium castaneum Herbst (Coleoptera: Tenebrionidae) in wheat and wheat flour. 12787

Biological studies on the Mediterranean flour moth, Anagasta kuhniella Zeller (Lepidoptera: Phycitidae). 13496

STORAGE DISEASES
Concord grape storage trials for control of Botrytis cinerea and Penicillium spp. 117

Influence of moisture content, temperature, and time of

orage upon survival of certain microflora in barley ker-
ls. 1101

ernal microflora of stored soybean seeds. 1148

ctors influencing storage decay of sugar beets by Phoma
cae and other fungi. 1192

lation of moisture content and length-of-storage period
changes in the fungus flora and germination percentage of
eat. 1523

ntrol of cabbage clubroot in western North Carolina. 4230

ne laboratory observations on the rates of development,
rtality and oviposition of several species of Bruchidae
eeding in stored pulses. 5490

terioration of stored grains by fungi. 6256

e insect infestation of sorghum stored in granaries in
rthern Nigeria. 6260

e relation between storage molds and damage in high-mois-
re rice in aerated storage. 6894

ange stain, a storage disease of rice caused by Penicil-
um puberulum. 6895

phenyl-resistant citrus green mold reported in Florida.
6914

ntrol of carrot storage diseases with sodium O-phenyl-
enate. 8967

oeosporium musarum, Cke. + Massee causing storage rots
Jamaican bananas. iii. Control with sodium salicyl-
ilide (Shirlan MS) and nystatin. 8968

ather rot of Louisiana strawberries on the Chicago mar-
t in 1964. 10256

ix emulsion additives for control of storage decay in
emons. 10259

oss of germination of stored corn from invasion by storage
ungi. 10261

nvestigation of possible correlation of hot-water washing
ith excessive storage decay in coastal California lemon
acking houses. 12067

storage decay of Crownvetch (Coronilla varia "crowns"
aused by Fusarium roseum and its control by fungicide dip
reatments. 12776

ncrease in invasion by storage fungi and in fat acidity
alues of commercial lots of soybeans stored at moisture
ontents of 13.0.14.0 percent. 13484

reatment of fruits and the like to inhibit decay.
atent 3,347,683. 13486

RAGE INJURIES
actors influencing storage life of Hemicycliophora
renaria, Pratylenchus scribneri, and Trichodorus
hristiei. 1598

n international experiment on the effect of age and storage
onditions on viability and dormancy of Avena fatua seeds.
4533

RED PRODUCT INSECTS
xcretion and its products in some stored-grain-infesting
eetles. 4059

RED PRODUCTS
actors influencing invasion of sorghum seed by storage
ungi. 611

etermination of relative humidity by gas chromatography.
789

ffectiveness of malathion dust as a protectant for farm-
tored corn in Louisiana. 5281

eed cleaning as a source of infestation for stored grain.
5283

ffectiveness of mixtures of acrylonitrile and carbon
tetrachloride against three pests of stored corn. 7055

Stored-grain insects and their control in New Jersey. 7647

Preliminary evidence of resistance of high-amylose corn to
the Angoumois grain moth. 7648

Identification of Tribolium larvae by their setal charac-
teristics (Coleoptera' Tenebrionidae). 8026

Testing of paper and other sack materials for penetration by
insects which infest stored products. 8964

Effects of low doses of ethylene dibromide on some stages of
the confused flour beetle, Tribolium confusum. 8973

Malathion sprays for reducing dried-fruit packing house
infestations. 8975

Experiments to exclude Drosophila from dried fruit. 8977

A volumetric dispenser for insect media. 10439

Overwintering corn borer, Ostrinia nubilalis, larvae in
storage cribs. 10549

Use of a malathion wettable powder for surface application
to bagged rice bran. 11131

The toxicity of malathion and fenthion to dermestid larvae
as influenced by various stages. 11259

Germination of stored peanut seed and seedling emergence
as related to some seed-treatment fungicides. 12068

Fate of apple maggot and plum curculio larvae in apple
fruits held in controlled atmosphere storage. 12069

Government Pest Infestation Laboratory (stored products
and household pests). annual report, 1966. 12782

Neem seed as a protectant against bruchid Callosobruchus
maculatus (Fabricius) infesting some leguminous seeds. 12783

Some insecticidal trials for the protection of til seeds in
storage. 12785

Pests of stored products. sB937 .H8. 12786

Climate and potential range of distribution of stored-
product mites in Japan. 12788

New findings about fumigant and atmospheric gases in the
control of insects and molds in grain. 13483

Studies on the susceptibility of certain stored products
insects to bacterial insecticides. 1. tests with Bakthane
L-69. 13489

The fauna of stored products in U.A.R. 13490

Lepidoptera infesting stored products. in: Smith, C. n.
insect colonization and mass production. qL497.S6. 13492

Coleoptera infesting stored products. in' Smith, C. n.
insect colonization and mass production. qL497.S6. 13495

Effect of high-amylose field corn on larval growth and sur-
vival of five species of stored-grain insects. 13498

Insect control with high frequency electric fields. 13499

STORED TISSUE CELL VIABILITY
Cell cultures from stored calf kidneys. 4649

STORED-PRODUCT INSECTS
Toxicity of seven candidate fumigants to stored-product in-
sects. 646

STRAIN GAUGES
Strain-gauge transducer studies on intratracheal pressure
and pupal length during discontinuous respiration in dia-
pausing silkworm pupae. 12317

STRANGLES (HORSES)
The etiology of strangles. 4646

STRAW

STRAW
The use of vermiculite cover as a possible means of increasing dwarf bunt in winter wheat test nurseries. 1579

Determination of chlorocholine chloride residues in wheat grain, straw, and green wheat foliage. 13560

STRAW COVER
Studies of the effect of straw cover and method of inoculation on dwarf bunt of winter wheat in Utah. 10737

STRAW ITCH
Pyemotes ventricosus (straw itch mite) ontogeny. 4199

STRAWBERRIES
Strawberry mottle virus latent in Fragaria virginiana (M1 clone). 234

The role of associated fungi in prevention of Botrytis rot of strawberries. 935

Relationship of meadow nematodes to Verticillium wilt of strawberries. 1007

Transmission of viruses to strawberry by excised leaf grafts from plants other than strawberry. 1028

Obtaining virus-free strawberries by excision and culturing of apical meristems of plants infected with the yellow edge, crinkle, and veinbanding viruses and certain other virus complexes. 1105

Advantages of determining the tolerance of strawberries by grafting with leaves infected with a virus complex. 1405

Angular leaf spot of strawberry caused by Xanthomonas fragariae sp. nov. 1524

Rhizoctonia fragariae sp. nov. in relation to strawberry degeneration in Southwestern Ontario. 1546

Interactions between strawberry roots and Rhizoctonia fragariae. 1547

Pathogenicity of Pratylenchus penetrans on strawberry and Ladino clover seedlings. 1608

Anatomical view of the life history of the strawberry rootlet. 2467

Amino acid and amide content of healthy and disease-affected strawberry plants. 2503

The use of chemicals for the post-harvest defoliation of strawberry plants. 2717

Listening post. Control of strawberry red stele with soil fungicides. 2737

Control of aphids and spider mites on strawberries with dusts and low- and high-gallonage sprays. 4439

Thiram residues in tomatoes, strawberries and celeries. 6290

Application of 4-(p-nitrobenzyl)pyridine as a rapid quantitative reagent for organophosphate pesticides. 6381

A new crown rot of strawberry plants caused by Colletotrichum fragariae. 6772

Starvation tests with larvae of the cinnabar moth. 7043

Notes on the life history of Tetranychus atlanticus (Acarina tetranychidae). 7863

Verticillum wilt of strawberries made worse by soil fungicides that stimulate meadow nematode populations. 8232

Pathogenicity of British isolates of Phytophthora fragariae and their relationship with American and Canadian races. 8355

Verticillium wilt of strawberries. 8376

Effects of some fungicides on the flavour of canned strawberries. 9019

Verticillium wilt of strawberries made worse by soil fungicides that stimulate meadow nematode populations. 9772

Eradication of latent C virus in the Suwannee variety of strawberry by heat plus excised runner-tip culture. 9

Plant-parasitic nematodes in Illinois strawberry plantings. 10

Leather rot of Louisiana strawberries on the Chicago market in 1964. 10

Effects of some fungicides on the flavour of fruits and syrups. 10

Strawberry virus dissemination in Arkansas. 10

Control of Botrytis rot of strawberries. 10

Cyclamen mite eradication on strawberry transplants. 10

Biological control of the two-spotted spider mite on strawberry in southern california. 10

Pesticide performance on strawberries. 10

The pathogenicity of meadow nematodes as determined by the growth of strawberry plants in a commercial planting. 10

Seasonal populations of the strawberry aphid and transmission of strawberry viruses in the field in relation to virus control in Western Washington. 11

The effect of strawberry latent A virus on growth and fruiting of seven varieties of strawberry. 11

Lethal decline, a graft-transmissible disease of strawberry 11

A sensitive strawberry virus indicator clone of Fragaria vesca from the USSR. 12

Comparisons of soil and foliar applications of acaricides for control of the two-spotted spider mite on strawberries in southern California. 12

General and specific combining ability in seven inbred strawberry lines. 13

Experiments on controlling strawberry botrytis rot by spraying. SB953.M6. 13

STRAWBERRY VIRUS
A systematic study on the strawberry aphid complex (Pentatrichopus spp.). 3

STREAK (PEAS)
Purification, morphology, and biochemical characterization of the Wisconsin pea streak virus. 6

A new pea streak virus related to red clover vein mosaic virus (RCVMV). 6

A new streak-producing virus of pea related to red clover vein mosaic virus. 9

Pea pod streak symptoms correlated with time of virus infection. 9

Purification and physicochemical properties of the Wisconsin pea streak virus. 13

STREAK MOSAIC (WHEAT)
Strains and varieties of grass species resistant to western wheat streak mosaic virus.

Relation of Agropyron repens mosaic and wheat streak mosaic virus. 6

Wheat streak mosaic virus in North Dakota. 9

A new source of resistance to wheat streak-mosaic virus. 10

STREAMS
Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5

Effects of forest spraying with DDT in New Brunswick on

od cf young Atlantic salmon. 5634

fects on wild ycung salmon of spraying DDT over New unswick forests. 6267

ygen balance in a stream receiving domestic and oil refin- y effluents. 7655

population by aquatic insects in streams sprayed with T. 10238

LITZIA
cterial wilt of bird-of-paradise caused by Pseudomonas lanacearum. 6863

PSIPTERA
stributicn of two Strepsiptera in Florida0 1960-1962. 5523

new genus and species of Stylopidae (Strepsiptera) from beria, West Africa. 7812

new species of triozocera (Mengeida' Strepsiptera) from beria, West Agrica. 7813

PTOCOCCUS
losin treatment of infectious bovine mastitis. 4613

e etiolcgy cf strangles. 4646

tigenic substances purified from Streptococcus agalac- ae. I. Antibcdy response in infected cattle. 4958

tempted use of hormones to influence mastitis as measured ' california mastitis test ratings and shedding of certain cteria. 4994

reptococcus agalactiae Reinfectien and eradication in a mmercial herd. 6028

valuation of bacterins for ccntrol of swine abscesses. 7276

stitis ccntrol proves its worth in New York. 7481

stitis ccntrol prcgrams effective in Connecticut. 7516

views of the progress of dairy science. Section E. seases of dairy cattle. 11040

PTOCOCCUS AGALACTIAE
reptococcus agalactie: a frequent cause of high bacteria unt in milk. 12688

cperimental Streptococcus agalactiae mastitis in cattle. tempts to superimpose the organism in lactating glands rboring unrelated bacterial infections and in glands with cperimentally induced sterile inflammation. 12700

PTOCOCCUS BACTERINS
treptococcus equi may be sole cause of strangles. 1873

wine jowl abscesses introduced by throat infection. 1894

ne relaticnship between the microbiological flcra of the ung chick and the antibiotic growth effect. 3052

ne development of the intestinal flora of the young chick. 3053

ne role of Streptococcus faecalis in the antibiotic growth ffect in chickens. 3054

ntibcdies against Streptoccccus agalactiae in the colos- cum cf first-calf heifers. 3134

ffective heat processing for the destruction of pathogenic acteria in turkey rolls. 3220

n outbreak cf bovine mastitis due to streptococci (group O ancefield). 11069

report of the AMVA mastitis committee. 12005

wine abscesses caused by Lancefield's group E treptococci. iII. application of a precipitin test in elected groups of market pigs. 12703

wine abscesses caused by Lancefield's group E treptococci. iV. test of two bacterins for immunization. 12704

STREPTOCOCCUS PYOGENES
Anti-microbial therapeutics consisting of nitrofurantoin, tetracycline, and D-glucosamine. patent 3,328,258. 12864

STREPTOMYCES
Antibiotic production by Streptomyces sp. in unamended soil. 2399

Tylosin-A new antibiotic growth stimulant for swine. 2868

Fungistatic and fungicidal effects on Streptomyces rimosus on some soil-inhabiting pathogenic fungi in vitro. 5770

Observations on pathogenicity of Streptomyces scabies on tubers produced in vitro. 6353

Antibiotic production by Streptomyces sp. in corn rhizosphere. 6864

Streptomycin resistance -- a technique for the direct assay of potato scab organisms from soil. 6953

Influence of substrate on activity of a bacterium antagonistic to Streptomyces scabies. 9628

Method of producing an antibiotic quinomycin B. patent 3,332,843. 13688

STREPTOMYCES ARMENTOSUS
Antibiotic armentomycin and a process for producing the same. patent 3,342,681. 12842

STREPTOMYCES BELLUS
Antibiotic cirolerosus and process for producing the same. patent 3,345,262. 13644

STREPTOMYCES BOTTROPENSIS
Streptonigrin antibiotics and process for their production. patent 3,372,090. 13642

STREPTOMYCES FLOCCULUS
Streptonigrin antibiotics and process for their production. patent 3,372,090. 13642

STREPTOMYCES FUNGICIDUS
Streptonigrin antibiotics and process for their production. patent 3,372,090. 13642

STREPTOMYCES GRISEUS
Antibiotic erizomycin and process for making same. patent 3,367,833. 12882

Effects of three soil-inhabiting fungi on axenic peanut plants. (abstract). 13216

STREPTOMYCES IPOMOEA
The pathogenesis and control of Streptomyces ipomoea in California. 252

Methods for determining the reaction of small potato lines to soil rot. 10719

STREPTOMYCES SCABIES
Nfluence of copper and zinc on the incidence of potato scab. 13217

STREPTOMYCIN
Fire blight blossom infection control on pear with strepto- mycin, as influenced by adjuvant addition, and with some common fungicides. 225

Streptomycin resistant mutants in Streptomyces scabies. 1059

Effect of streptomycin and pimaricin on growth and respir- ation of Pythium spp. 1128

Chemotherapeutic effects of streptomycin on establishment and progression of systemic downy mildew infection in hops. 1404

Progression in vivo, rate of growth in vitro, and resistance to streptomycin, as indices of virulence of Erwinia amylo- vora. 1532

Penicillin-resistant staphylococci common in dogs. 1992

Evidence of an energy requirement for absorption of carbon14

STREPTONIGRIN
-labeled streptomycin and leucine by apple leaves. 2489

The efficacy of an oleandomycin/ streptomycin combination in bovine mastitis, as demonstrated by two double-blind trials. 2963

Enzootic abortion in goats. 3546

Effects of pesticidal treatments on the chlorophyll content of plant parts. 3745

Performance of several new chemicals for the control of fireblight of pear. 4257

Effect of antibiotics on the growth rate and intestinal flora (Escherichia coli) of calves. 4552

Q fever and leptospirosis. 4568

Survey of Nebraska veterinarians on mastitis and the antibiotic problem. 4828

Pathology and surgical correction of perianal fistulous tracts in a dog. 5041

Dihydrostreptomycin for treatment of genital vibriosis in the bull. 5049

The concentration of some antibiotics in the milk after intramammary infusion. 5111

Effect of selected fungicides and antibiotics on Xanthomonas malvacearum in vitro. 5748

Streptomycin resistance -- a technique for the direct assay of potato scab organisms from soil. 6953

Studies on the dietary requirement and interaction of magnesium with antibiotics in turkeys to 4 weeks of age. 7141

Salmonella resistance increases. 7424

Field spray trials against wildfire and angular leaf-spot of tobacco in Rhodesia. 8276

Control of fire blight blossom infection on pear. 8320

Control of potato seed-piece decay. 8332

Streptomycin absorption, translocation and retention in hops. 8337

Resistance of the celery bacterial blight organism, Pseudomonas apii, to streptomycin in the everglades. 8392

The development of resistance to spiramycin, streptomycin and chlortetracycline by Mycoplasma gallisepticum in chick embryos. 8833

Antibiotics in the control of plant diseases. 9607

Compatibility of streptomycin with some fungicides and insecticides. 10406

Hydrated lime improves Nuclay-streptomycin dust for pear blight control. 10695

The translocation of root-applied streptomycin in bean. 10698

Streptomycin absorption, translocation, and retention in hops. 10829

A non-fungistatic bacteriostatic medium containing streptomycin and vancomycin. 11381

Feed additives measurement: Ultraviolet method for determination of streptomycin in feeds. 11414

Streptomycin seed treatment for control of bean halo blight. 11765

Night applications for improved effectiveness of streptomycin in preventing fire blight disease. 11828

Streptomycin treatment of bovine carriers of Leptospira pomona. 12602

STREPTONIGRIN
Streptonigrin antibiotics and process for their production. patent 3,372,090. 13

STREPTOTHRICHOSIS
Cutaneous streptothricosis in cattle. 41

Equine dermatitis (cutaneous streptothricosis) infection with dermatophilus in the United States. 5

Observations on the effects of flies and humidity on the natural lesions of streptothricosis. 7

Streptothricosis in cattle. 74

Bovine streptothricosis' Production of lesions by the bites of the tick Amblyomma variegatum. 76

The effects of ectoparasites and humidity on natural lesions of streptothricosis. 76

STRESS
Social grouping, stress and resistance to coliform infection in cockerels. 120

STRIATE MOSAIC (WHEAT)
Wheat striate mosaic in Canada. 11

STRIDULATION
Ultrasonic production and its reception in some neotropical Tettigoniidae. 8

Sound production and its evolutionary significance in the Blattaria. 80

An audiospectrographic study of stridulation as an isolating mechanism in the genus Berosus (Coleoptera'Hydrophilidae). 81

The taxonomy and calling songs of United States tree crickets (Orthoptera: Gryllidae: Oecanthus). 94

Stridulating organs in three southeastern IPS bark beetles. 94

Audiospectrographic analysis of sounds of Hemiptera and Homoptera. 95

Experimental demonstration of a cat locating orthopteran prey by the prey's calling song. 116

Methods of sexing live adult western pine beetles. 123

Insect communication. 130

STRIGA
The effect of several herbicides on the control of witchweed in corn. 52

Advances in witchweed control. 280

Witch weed: a new parasitic plant in the United States. 452

1962 campaign against witchweed underway in the Carolinas. 866

STRIGA ASIATICA
Penetration and nutrition of Striga asiatica. 169

Failure of witchweed to parasitize Smooth Cayenne pineapple. 171

The effect of soil type on preplanting soil-incorporated herbicides for witchweed control. 281

STRIGIFORMES
The species of Colpocephalum (Mallophaga: Menoponidae) known to occur on the Strigiformes. 554

STRIPE (RICE)
Genetic variation in the ability of a planthopper vector; Laodelphax striatellus (Fallen) to acquire the rice stripe virus. 1000

STRIPE (SWEETCORN)
Bacterial leaf stripe of sweet corn. 433

RIPE MOSAIC (BARLEY)
Retention of viability in lyophilized barley stripe mosaic virus. 402

Liquid-liquid phase separation in concentrating barley stripe mosaic virus. 2537

An attempt to estimate loss caused by the stripe disease of barley. 9765

RIPE RUST (BARLEY)
Stripe rust stem infection of wheat and barley. 336

RIPE RUST (GRAIN)
Oversummering of stripe rust at high elevations in the Pacific Northwest- 1963. 10776

Influence of light intensity on the reactions of wheat and barley seedlings to Puccinia striiformis. 13275

RIPE RUST (GRASSES)
Reaction of grass to stripe rust at Pullman, Wash. 1074

RIPE RUST (WHEAT)
Effect of stripe rust on yield and test weight of white spring wheat varieties at Bozeman, Montana in 1962. 279

Stripe rust of wheat in the Pacific Northwest in 1962. 333

Stripe rust stem infection of wheat and barley. 336

Flag smut of wheat, its distribution and coexistence with stripe rust in the Pacific Northwest. 339

Seedling and mature-plant reactions of wheat to stripe rust. 341

Seedling versus mature plant reactions of wheat to stripe rust. 1013

Measures of the destructive potential of stripe rust in Washington. 1161

Three distinct pathogenic types of stripe rust in the western states. 6861

Overwintering of stripe rust in winter wheat in Montana. 6904

Wheat stripe rust. 8348

Chemical control of stripe rust on Omar wheat. 8351

Effect of stripe rust on yield and its components of six winter wheat varieties. 9710

Chemical control of stripe rust on Omar wheat. 9895

Inhibition of wheat strip rust the antibiotic phleomycin in the greenhouse. 9896

RIPE SMUT
Control of stripe smut, Ustilago striiformis, (West.) Niessi, on Kentucky bluegrass. 10018

Varietal reaction of creeping bentgrass to stripe smut. 10762

ROBANE
Sensitivity tests for 22 different chlorinated organic pesticides by paper chromatography. 3813

Control of several cotton insects in field experiments in 1960. 4303

Field experiments for control of thrips, cotton fleahoppers, and overwintered boll weevils in 1960. 4307

The cotton leaf perforator and its control in Arizona. 4434

Effectiveness of chlorinated hydrocarbon insecticide mixtures for control of resistant and susceptible boll weevils. 8427

Field experiments against several late-season cotton insects in 1959. 8441

Control of mint insects. 8488

Preliminary assessment of toxaphene, Strobane and Thiodan for control of clover case-bearers (Coleophora spp.) (Coleophoridae, Lepidoptera). 8501

Control of several early-season cotton pests with insecticides. 8550

The fate of cyclodiene insecticides administered to susceptible and resistant houseflies. 10562

Low-volume aerial spraying of several insecticides for cotton-insect control. 12476

STRONGYLATOSIS
The influence of heredity and environment on maximum hematocrit values in sheep. 5136

A cybernetic approach to a natural epidemic of strongylatosis in sheep. 11123

STRONGYLIDS
Some experiences with small daily doses of phenothiazine as a means of control of strongylid worms in the horse. 5196

STRONGYLOIDES
The nematode genus Strongylcides grassi, 1879 in Indian livestock. I. Observations on natural infections in the donkey (equus asinus). 2107

Observations on Strongyloides papillosus infection: The treatment of heavy naturally acquired infections of sheep in Kenya. 3553

Observations on the comparative anthelmintic efficiency of organophosphorus compounds and synergized phenothiazine against Strongyloides papillosus (Wedl) in calves. 3603

Some pathogenic agents found in hippopotamus in uganda. 4556

Thiabendazole as an anthelmintic in research monkeys. 7606

Threadworms. 10242

STRONGYLOIDES RANSOMI
Larval distribution and histopathology of experimental Strongyloides ransomi infection in young swine. 12775

STRONGYLOIDIASIS
Experimental strongyloidiasis in sheep and goats. IV. Migration of Strongyloides papillosus in lambs and accompanying pathologic changes following percutaneous infection. 2120

Effects of a single dose of strongyloides larvae on weanling pigs. 11113

STRONGYLOSIS
Further observations on helminthiasis in Nigerian zebu cattle: Natural and acquired resistance. 3610

Parasite control in horses. 5123

Observations and results of using an organic phosphate compound for the treatment of bots and strongyles in horses. 5251

Gastro-intestinal parasites in pigs. 8942

Therapeutic results of the use of thiabendazole against strongyles in horses. 11118

Trials of simultaneous treatment of gastro enteritic strongylosis and monieziasis of cattle with a mixture of thiabendazole and niclosamide. 12757

STRONGYLUS
Treatment of Strongyles in horses. 7525

STRONTIUM
Removal of radiostrontium from milk with tricalcium phosphate and resulting changes in milk composition. 3833

Determination of total radiostrontium in biological samples containing large quantities of calcium. Selective precipitation with potassium rhodizonate. 10401

Determination of strontium in environmental media using neutron activation. 10411

Labeling the apple maggot with Strontium 89. 10615

STUBBLE MULCHING

Improved determination of Strontium-90 in milk by an ion exchange method. 11970

STUBBLE MULCHING
Performance of tillage implements in a stubble mulch system. i.residue conservation. II. Effects of soil cloddiness. iII. Effects of tillage sequences on residues, soil cloddiness, weed control and wheat yield. 4246

STUBBORN DISEASE (CITRUS)
Some effects of stubborn disease on bark, foliage, fruit, and size of citrus trees. 1044

Calcium content of leaves from stubborn and non-stubborn diseased Washington Navel Orange trees. 1146

Observations on the appearance of the 'little leaf' (stubborn) disease of citrus. 9774

STUBBY ROOT NEMATODES
Some effects of sting and stubby root nematodes on grapefruit roots. 11015

STUNT (CITRANGE)
Dodder transmission of citrange stunt virus, a virus associated with tatter leaf of citrus. 6952

STUNT (CORN)
Corn stunt virus disease. 222

The occurrence in Arizona of corn stunt disease and of the leafhopper vector Dalbulus maidis. 269

Corn stunt virus transmission and attenuation in a new host. 1188

A new corn disease in Ohio. 1302

Corn stunt virus disease in Kentucky. 9752

New corn stunt isolates from field-infected corn in Florida, Louisiana, and Mississippi. 9789

Corn stunt disease in the United States through 1963. 9881

Achaparramiento (corn stunt). 10693

STUNT (COWPEAS)
Dodder transmission of citrange stunt virus, a virus associated with tatter leaf of citrus. 6952

STYLETS
Stylet-bearing nematodes associated with various plants in South Carolina, 1959-1962. 1621

Flow relationships for hemipterous stylets. 6593

STYLOPIDAE
A new genus and species of Stylopidae (Strepsiptera) from Liberia, West Africa. 7812

STYRENE POLYMERS
The adsorption of somatic antigens of Salmonella by polystyrene latex particles. 4892

STYSANUS
Effect of the soil carbon' nitrogen ratio on soil fungi. 6778

SUBSTITUTED CYCLOPROPYL CARBAMILATES
Substituted carbanilate herbicides. patent 3,334,130. 13648

SUBSTRATES
Influence of substrate on activity of a bacterium antagonistic to Streptomyces scabies. 9628

SUBTERRANEAN CLOVER
Selective herbicidal control of barley grass in pasture and lucerne. 2838

SUCCINIC ACID
Toxicity of acetic acid to Cladosporium cucumerinum. 660

The effects of indoleacetic acid and 2,4-dichlorophenoxyacetic acid on intermediary metabolism of 14C-labelled organic acids by pea root tips. 13620

SUCCINIC ACID, 2,2-DIMETHYLHYDRAZIDE
Effects of B-Nine and Cycocel on some anatomical, chemical, and physical factors influencing leaf color and stem strength of Chrysanthemum morifolium L. cv. Criterion and Euphorbia pulcherrima Willd. cv. Elisabeth Ecke. 63

Colorimetric determination of Alar residues in apples. 135

Effect of Alar on winterhardiness of raspberries. 136

SUCCINOXIDASE
Succinoxidase activity in two species of Bracon (Hymenoptera, Braconidae). 65

SUCCINYLCHOLINE
Further studies on the immobilization of deer with succinylcholine. 38

The immobilization of captive wild animals with succinylcholine. II. 49

SUCCINYLCHOLINE CHLORIDE
A note on the prophylactic vaccination of wild animals. 200

Suspected myasthenia gravis in a dog. 733

Potentiation of succinylcholine by organophosphate compounds in horses. 894

Chemical restraint of exotic animals in a disease regulatory program. 1013

Margin of safety of succinylcholine chloride in horses treated with anticholinesterase pesticides. 1343

SUCCULENTS
Succulent-type plants as sources of plant virus inhibitors. 134

SUCKERS
Fatty alcohol inhibition of tobacco auxiliary and terminal bud growth. 1363

SUCROSE
Contact chemoreception in the mosquito, Culiseta inornata (Williston): sensitivity of the tarsi and labella to sucrose and glucose. 266

House fly nutrition. Ii. Comparative survival values of sucrose and water. 405

The longevity and productivity of adult male and female Aedes aegypti when reared separately and together on three different diets. 409

Storage of hay. IV. effect of storage in nitrogen on the soluble sugar and dry matter contents of ryegrass. 573

Effects of solutes on the polymerization of TMV protein. 583

Report on dairy products. 628

Translocation of C14-labeled compounds in cotton and oaks. 770

Host-plant selection by the Mexican bean beetle, Epilachna varivestis. 795

Assimilation by apterous adult Myzus persicae maintained on a synthetic diet. 807

Flight exhaustion studies on the blow fly, Phaenica sericata using c14-labeled sucrose. 814

Egg production of house-fly, adults fed human blood containing various supplements. 1316

SUCTION TRAPS
An automatic suction-impaction type spore trap and its use with onion blotch alternaria. 255

An improved backpack motor fan for suction sampling of insect populations. 539

The flight activity of some British Hemerobiidae and Chrysopidae, as indicated by suction-trap catches. 12367

DAN
. mosaic disease for Dolichos lablab and diseases of other crops caused by alfalfa mosaic virus in the Sudan. 310

broad bean mosaic caused by pea mosaic virus in the Sudan. 311

Rickettsial infection (heartwater) in sheep and goats in the Sudan. 2260

DAN REPUBLIC
Leishmaniasis in the Sudan Republic. 16. Seasonal incidence of Phlebotomus species (Diptera' Psychodidae) in an Upper Nile Province town and village. 8162

FOLK SHEEP
Malignant melanoma in sheep. 2015

GAR
Effects of sugar treatments on the viability of eggs and larvae in Heterodera glycines cysts, and larvae and adults of other nematode species. 482

Nature of predisposition of castorbeans to Botrytis. I. relation of leachable sugar and certain other biochemical constituents of the capsule to varietal susceptibility. 710

Microbiological standards for sugar. 6264

Studies on levels of reducing sugars and hydrolytic enzymes in relation to Botrytis head rot on safflower. 6703

Potato foliage sugar concentration in relation to infestation by the potato leafhopper, Empoasca fabae (Homoptera' Cicadellidae). 8024

The utilization of sugars by insect cells in culture. 12321

Responses of tarsal hairs of the bluebottle, Calliphora erythrocephala Meig., to sugar and water. 13102

GAR BEET PULP
Determination of the net energy of dried beet pulp using barley as a reference standard. 2918

GAR BEET SEEDS
Selective protection afforded by certain seed and soil fungicides. 8328

GAR BEETS
Incidence of beet virus diseases in relation to overwintering beet fields. 167

Uptake, translocation, and chemotherapeutic effect of P-dimethylaminobenzenediazo sodium sulfonate (Dexon) in sugar beet seedlings. 685

Respiratory activities of cell-free particles from Pythium ultimum, Rhizoctonia solani, and sugar beet seedlings. 1075

Factors influencing storage decay of sugar beets by Phoma betae and other fungi. 1192

Occurrence of Heterodera cysts in association with sugar-beets in eastern South Dakota. 1639

Competition of annual weeds and sugar beets. 1761

Listening post. Late-fall application of soil fumigants. 2759

Weed control in sugar beets by combinations of thiolcarbamate herbicides. 2773

Effects of dalapon on some chemical constituents in sugar beets and yellow foxtails. 2796

Absoption, translocation, and fate of dalapon in sugar beets and yellow foxtail. 2798

Effect of insecticide fertilizer mixtures and seed treatments on emergence of sugar beet seedlings. 4283

Influence of caging and transferring techniques on aphid mortality and virus transmission. 4301

Effect of insecticides on emergence of sugar-beet seedlings and on control of the sugar-beet root maggot. 4344

Pavement ant attacking sugar beets in California. 4373

Sequential plans for sampling aphids on sugar beets in Kern County, calif. 4427

Aphid control trials on sugar beets and virus yellows disease in Kern county, California. 4428

Evaluation of thiodan and sevin for control of webworms in sugar beets. 4463

Further investigations into the field use of a mixture of endothal and propham for pre-emergence application to sugar beet. 4495

Competition between irrigated sugar beets and annual weeds. 4500

Some effects of different soils on composition and growth of sugar beet. 5726

California department of agriculture contracts with aircraft operators for beetleaf hopper control. 5848

Field experiments on sugar-beet downy mildew (Peronospora farinosa). 6717

Beet ring mottle disease. 6738

Experiments on control of the sugar-beet wireworm in southern California bean fields. 7111

Darkness and the activity of diquat and paraquat on tomato, broad bean and sugar beet. 7119

Isolation and characterization of a germination inhibitor from sugar beet fruit. 7721

Influence of mercury dips on germination and early growth of sugar beet, with special reference to their selective action on the microflora present on the seed. 8208

Effect of spray oils on the deposition and retention of a fixed-copper fungicide. 8242

Root-rot in sugar-beet and its control. 8357

Yellow viruses in sugar beet and mangold seed crops. 8374

Control of sugar-beet moth, Phthorimaea ocellatella, Boyd. 8521

Effect of topical applications of granulated systemic insecticides and of conventional applications of other insecticides on control of insects and spider mites on sugar beet plants. 8556

Late autumn applications of fumigant for the control of sugar beet nematodes. 8604

Sugar beet yellows disease in the U. S. 9593

Control of sugar beet yellows by treatment with systemic insecticides. 9733

Beet pseudo-yellows virus, transmitted by the greenhouse whitefly (Trialeurodes vaporariorum). 9899

Effect of topical applications of granulated systemic insecticides and of conventional applications of other insecticides on control of insects and spider mites on sugar beet plants. 9994

Phorate and demeton for control of pea leaf miner on sugar beets. 10007

Efficacy of an extract from seaweed and certain land plant tissues for controlling sugarbeet nematode, Heterodera schachtii. 10030

Control of Heterodera schachtii. 10033

Virulence, host range, and pectolic enzymes of single-basidiospore isolates of Rhizoctonia praticola and Rhizoctonia solani. 10314

Aphid-transmitted yellows-type spinach virus in the Eastern united states. 10892

Mode of action of ammonia on Sclerotium rolfsii. 11770

SUGAR-BEETS

Insecticidal control of the sugar-beet root maggot and yield of sugar beets. 11891

Effect of insecticides on the sugar-beet root aphid, pemphigus betae. 11913

Field experiments on sugar-beet downy mildew (Peronospora farinosa). 12421

Preliminary evaluation of soil insecticide for sugar-beet root maggot control. 12514

Darkness and the activity of diquat and paraquat on tomato, broad bean and sugar beet. 12544

SUGAR-BEETS
The influence of dalapon on growth and development of autumn-sown sugar beet. 2837

SUGARBEETS
Factors affecting the hatching activity of sugarbeet-root diffusate. 10049

Plant pathogens as a possible factor in unexpected preplant herbicide damage in sugarbeets. 11966

SUGARCANE
A spray method of inoculating bunch-planted sugarcane seedlings with mosaic virus. 124

Electron microscopic demonstration of sugarcane mosaic virus particles in cells of Saccharum officinarum and Zea mays. 1240

Pathogenecity of Helicotylenchus nannus and its relation with Pythium graminicola on sugarcane in Hawaii. 1575

Influence of the stubby-root nematode on growth of sugarcane in Hawaii. 1665

Pathogenicity of Meloidogyne incognita acrita and its relation with Pythium graminicola on sugarcane in Hawaii. 1666

Weed control practices and research for sugar cane in Hawaii. 2771

Spray demonstration: Tata-Pison shows helicopter spraying in India for Pyrilla control on cane. 4248

Effectiveness of insecticides against the rusty plum aphid and ants. 4298

Laboratory culture and development in Elaphria nucicolora (Lepidoptera: Noctuidae). 4338

Effects of insecticides on the predaceous arthropod fauna of louisiana sugarcane fields. 4357

Witch weed: a new parasitic plant in the United States. 4528

Cross-protection experiments with sugarcane mosaic virus (SMV). 5747

Studies on the disease cycle of Cytospora sacchari. 5784

The biological control of sugarcane borers in Taiwan, 1948-1966. 5852

The reproductive system of the pink sugarcane mealybug, Saccharicoccus sacchari Cockerell (Homoptera, Pseudococcidae. 6665

Effect of heat treatment of sugarcane for control of ratoon stunting disease (RSD) on spread of mosaic. 6981

An evaluation of atrazine, simazine, monuron and diuron on ten Hawaiian sugar cane plantations. 7132

Effect of soil fumigation on growth of sugar cane. 8436

Granular versus spray formulations of endrin for control of sugar-cane borer in Louisana. 8496

Control of sugar cane borer with insecticides. 8523

Evaluating herbicides in sugar cane cultivation. 8692

Effect of silvex (2,4,5-T-P) as chemical herbicide on sugar cane in Louisiana. 869

Effect of chemicals as herbicides alone and in combination for weed and grass control in Louisiana sugar cane. 869

Promising new fungicide for control of Pythium root rot of sugar cane seedlings in flats. 959

A preliminary report of mosaic and streak diseases on sugarcane in Egypt. 959

The aluminum-cap method for testing sugarcane varieties against leaf scald disease. 970

Preservation of Xanthomonas albilineans isolates in distelled water. 979

A root rot of sugarcane caused by Pythium catenulatum in Taiwan. 984

(A) Soil as factor in varietal yield decline (of sugar cane).
(B) Possible role of insects in varietal yield decline of sugar cane. 1000

Biological control of sugar cane aphid pests in the West Indies (Homoptera, Aphidoidea, Hymenoptera, Aphidiidae). i. 1001

Use of monuron and diuron for controlling weeds in sugar cane. 1008

Known distribution of the southwestern corn borer in the U.S. 1048

Ratoon stunting disease of sugarcane in Colombia. 1076

Elsinoe disease of sugarcane in Florida. 1089

Pathogenicity studies with isolates from sugarcane infected with leaf scald disease. 1179

Field tests with new insecticides for control of the sugarcane borer in Louisiana in 1959. 1191

Methods of inoculating sugarcane for red rot. 1229

Occurrence of a mosaic disease of sweet sorghum in four southern states. 1247

Three Cicadellid-species injurious to agriculture (Hemiptera). 1249

The relationship of arthropod predators to crop damage inflicted by the sugarcane borer. 1251

Effect of endrin and trichlorfon applied in artificial diet against larvae of sugar-cane borer Diatraea saccharalis (F.) (Lep., Pyralidae). 1304

SUGARS
The ingestion of dry sugars by adult entomophagous insects and the use of this feeding habit for measuring the moisture needs of parasites. 1

Relation of amino acids and sugars in castorbean capsules in predisposition to Botrytis. 316

Effects of sugars on tomato plants and nematodes of Rhabditis and Meloidogyne species. 494

Resistance of sesame varieties and pathogenicity of strains of Pseudomonas sesami in relation to amino acids and reducing sugars. 702

A quantitative and qualitative study of sugars found in tobacco as affected by the green peach aphid, Myzus persicae, and its honeydew. 4020

Effects of soil insecticides and absorbents on plant sugars and resulting effect on mite nutrition. 7054

Effects of relative humidity and temperature on the degradation of peanut sugar and oil by Aspergillus flavus. 7714

Changes in sugars and amino-acids of cucumber fruits infected with Pythium aphanidermatum. 8340

Effects of soil insecticides and absorbents on plant sugars

nd resulting effect on mite nutrition. 8562

ffects of sugars on tomato plants and nematodes of halditis and Meloidogyne species. 8645

iphenylamine colour reaction of leaf extracts from plants nfected with potato leaf-roll virus. 9779

tudies on the amino acids, nitrogen, sugar and moisture ontent of maize and sorghum varieties and their relation o Chilo zonellus (Swin) resistance. 10001

ffects on light and sugars on rearing the cotton aphid, phis gossypii, on a germ-free and holidic diet. 13006

ffect of amino acid and sugar concentrations on the food ptake of the aphid Myzus persicae. 13092

FABROMOMETHAZINE
ulfabromomethazine as a herd treatment for bovine foot rot. 4638

FADIMETHOXINE
roperties of sulfadimethoxine in dairy cattle. 3031

n vitro sensitivity of Escherichia coli to sulfonamides. 3734

FAGUANIDINE
rials of candidate bovine coccidiostats. 5248

FAMATES
iocidal quaternary ammonium sulfamates. patent 3,344,018. 13669

FAMERAZINE
n vitro sensitivity of Escherichia coli to sulfonamides. 3734

FAMETHAZINE
lood levels of sulfonamides in swine. 1771

ome pharmacologic properties of sulfamethoxypyridazine and new sulfonamide, sulfpyrazinemethoxyne, in calves. 3486

rials of candidate bovine coccidiostats. 5248

ontrol of some internal parasites of chinchillas. 5258

An outbreak of malignant catarrh among the Pere David deer. 7499

Results of experiments with nitrofurazone and sulfamethazine for controlling coccidiosis in calves. 10246

Note on a simplified ion exchange method for sulfamethazine in feeds. 12596

Influence of oxytocin on diffusion of sulfonamides from plasma into bovine milk. 13559

FAMETHOXYPYRIDAZINE
Blood levels of sulfonamides in swine. 1771

Some pharmacologic properties of sulfamethoxypyridazine and a new sulfonamide, sulfpyrazinemethoxyne, in calves. 3486

FANILAMIDE
Sulfanilamide effect on carbonic anhydrase, absorption and elimination of zinc-65, calcium-45 and copper-64 in sheep. 2929

FANILIC ACID
Diazotized sulfanilic acid reagent for Endrin analysis. 11407

FAQUINOXALINE
Systemic activity of sulfaquinoxaline in control of northern fowl mites, Ornithonyssus sylviarum. 2947

The renal excretion of some sulphonamides in the fowl. 5363

Synergistic action of sulphaquinoxaline and 2-amino-4-dimethylamino-5-(4-chlorophenyl)-6-ethylpyrimidine in caecal coccidiosis in chickens. 5937

A mixture of diaveridine and sulfaquinoxaline as a coccidiostat for poultry. I. Preliminary studies on efficiency against Eimeria tenella and E. necatrix infections, and on toxicity in poultry. 7270

A mixture of diaveridine and sulphaquinoxaline as a coccidiostat for poultry. 7604

Water chlorination controls Pseudomonas aeruginosa in a rabbitry. 8852

The treatment of coccidial infections in fowl by a mixture of amprolium and sulfaquinoxaline in the drinking water. 8949

Hepatic coccidiosis in domestic rabbits treated with 2 nitrofuran compounds and sulfaquinoxaline. 12004

SULFATHIAZOLE
A scleroderma-like syndrome in a dog. 4888

The occurrence of dry-mix-feed drugs in larval food of the honey bee. 11172

SULFIDES
Action of polysulfide ion on simazine in soil. 3777

Non-selective herbicidal method. patent 3,360,358. 12899

SULFINYLPYRIDINES
Sulfinyl- and sulfonylpyridine pesticidal compositions and method of use. patent 3,371,011. 12889

SULFISOXAZOLE
In vitro sensitivity of Escherichia coli to sulfonamides. 3734

SULFITES
Differentiation of Pasteurella pseudotuberculosis and Bordetella bronchiseptica by simple biochemical tests. 4733

Aramite. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. ii. insecticides. 395 Z9. 12143

SULFONAMIDES
Treatment of canine coccidiosis using nitrofurazone and sulfonamides. 1826

Therapy of atrophic rhinitis. 1885

Pathologic findings associated with idiopathic arthritides in cattle. 3221

A practitioner's experience with SPF pigs. 4725

Naturally occurring and sulfonamide-induced lesions in rats during a 1-year toxicity study. 4773

The renal excretion of some sulphonamides in the fowl. 5363

Persistent diarrhea in colts associated with Aspergillus fumigatus. 6080

Medicated feeds; experiments with a mixture of antibiotics and sulfamides for the control of the weaning diseases of the baby pig. 6138

Hemolytic Escherichia coli enteritis of weanling pigs. 10115

Method of protecting the offspring of a herd of breeding swine from turbinate atrophy. patent 3,336,190. 13452

Influence of oxytocin on diffusion of sulfonamides from plasma into bovine milk. 13559

SULFONIC ACIDS
Pesticidal wettable powder formulation. patent 3,342,581. 13686

SULFONYLPYRIDINES
Sulfinyl- and sulfonylpyridine pesticidal compositions and method of use. patent 3,371,011. 12889

SULFOSUCCINATES
Effects of five sulfosuccinates on symptom development of five virus diseases in bean plants. 368

SULFOXIDE
Chromatographic determination of 'Sulfoxide'. 9220

Synergistic and antagonistic actions of insecticide-synergist combinations and their mode of action. 10408

SULFOXIDES

SULFOXIDES
Spectra and analyses of insecticide synergists and related compounds containing the methylenedioxyphenyl group by spectrophotofluorometry (SPF) and spectrophotophosphorimetry (SPF). 3768

SULFUR
Sulfur nutrition of Aphanomyces euteiches. 682

Accumulations of sulfur35 around cucumber anthracnose lesions. 1452

The sulfur-depletion of cells by captan. 2448

Correct use of karathane, sulfur controls powdery mildew. 4266

Spray programs to control citrus rust mite in Florida. 4368

Determination of elemental sulfur in pesticide formulations. 5372

Sulphur poisoning in ewes. 7547

Safety and ease of use add to value of sulfur as a pesticide. 8234

Use of sulfur doubles '62 sales. 9288

Effects of some fungicides on the flavour of fruits and syrups. 10257

Analysis of pesticide residues using microcoulometric temperature-programmed gas chromatography. 10418

P32- and S35-labeled S,S,S, -tributylphosphorotrithioate defoliant residue in cottonseed. 11184

Sulfur deficiency of broccoli. 11392

Synthesis of alpha-methylbenzyl 3-(dimethoxyphosphinyloxy)-crotonate labeled with phosphorus-32 and carbon-14. 11424

Identification of the aldrin artifact. 13653

SULFUR COMPOUNDS
Effects of the combination of sodium pentachlorophenoxide and liquid lime-sulphur on the brown-rot fungi. 8359

Residue analysis in the dairy industry. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 29. 12182

Method for controlling insects and worms with organophosphorus cyclic sulfone compositions. patent 3,341,407. 12760

Insecticidal compositions containing carbamates of 5- and 6-membered hetero-sulfur compounds and method of controlling insects with same. patent 3,338,782. 12840

Sulfur-containing carbamate insecticides. patent 3,349,115. 13682

SULFUR DIOXIDE
The effect of the initial and supplementary sulfur dioxide treatments on Botrytis decay and fumigant injury in storage grapes. 610

The effect of environment on the toxic action of sulfur dioxide on the spores of Botrytis cinerea. 991

Inhibition of spore germination of Alternaria tenuis by sulfur dioxide. 1086

Effects of sulphur dioxide on guinea pigs and swine. 3729

Inhibition of germination of Alternaria spores by sulfur dioxide under various moisture conditions. 10355

Effects of sulfur dioxide on the reduction of postharvest decay of latham red raspberries. 11366

Factors influencing SO2 phytotoxicity in New Jersey. 11382

Non-enzymic browning: the role of unsaturated carbonyl compounds as intermediates and of SO2 as an inhibitor of browning. 11401

Sorption of sulfur dioxide by latham red raspberries and their containers. 120

SULFURIC ACID
The use of chemicals for the post-harvest defoliation of strawberry plants. 27

SULFURYL FLUORIDE
Time, temperature and dosage relationships of several insecticidal fumigants. 115

Factors affecting the resistance of insect eggs to sulphuryl fluoride. i. the uptake of sulphuryl-35S fluoride by insect eggs. 131

SULPHADIMIDINE
The effects of incorporating sulphadimidine-pteridine mixtures in the diet of young chicks. 45

SULPHENONE
Metals, other elements, and residues in foods. 63

Evaluation of chemicals for control of a spider mite complex on cherry and peach. 70

SUMMARY
Resume of the seventh annual meeting american association of avian pathologists. chicago, ill. july 20, 1964. 59

SUN OIL (X-88798)
The influence of oil viscosity and timing of treatment on semidormant control of European fruit lecanium. 44

SUNBLOTCH (AVOCADOS)
A high rate of seed transmission of avocado sun-blotch virus from symptomless trees and the origin of such trees. 4

SUNFLOWERS
Effect of temperature and age of host on infection of sunflowers by Sclerotium bataticola. 12

Ecology of the maize weevil, Sitophilus zeamais _Motschulsky), relative to flight habits, attraction to sunflowers, and two hymenopterous parasites. 55

Predisposition to powdery mildew. 69

Control of sunflower moth larvae and their damage to sunflower seeds. 99

SUNN CROTALARIA
Sunn hemp yellow mosaic incited by the bean yellow mosaic virus. 22

SUPPELLA
Sexing first instar cockroaches (Orthoptera: Blattidae). 55

SUPPLY AND DEMAND
Heavy supply and low demand. 92

SURFACE-ACTIVE AGENTS
Surface tension lowering, wettability of paraffin and corn leaf surfaces, and herbicidal enhancement of dalapon by seven surfactants. 17

The role of surfactants in the foliar absorption of indole-3-acetic acid (IAA). 24

The effect of surfactants on the water solubility of herbicides, and the foliar phytotoxicity of surfactants. 27

Effects of surfactants on the herbicidal activity of foliar sprays of diuron. 28

Aramite and kelthane sprays for two-spotted spider mite control. 43

Phytotoxicity of wetting agents on lychee. 43

The reversal of some effects of a surfactant on pesticide deposits on foliage by different methods of application. 44

Selective toxicants and toxicant-surfactant combinations for leafminer, Liriomyza munda Frick, control and parasite survival. 56

Toxicity of surfactants and surfactant-insecticide combinations to the bollworm, tobacco budworm, and pink bollworm.

8138

Physico-chemical studies on agricultural sprays. V. Incorporation of wetting agents in high-volume sprays. 8174

Use of interface-active substances in plant protection. 8209

Physico-chemical studies on agricultural sprays. V. -The incorporation of wetting agents in high-volume sprays. 10389

Influences of surfactants and the miticide Aramite on control of rose blackspot by Phaltan. 10847

The effect of insecticides, rates, intervals between, and number of applications and insecticide-oil and surfactant combinations for insect control on southern peas. 10988

Relation of structure of ethylene oxide ether-type nonionic surfactants to herbicidal activity of water-soluble herbicides. 11426

Pesticidal wettable powder formulation. patent 3,342,581. 13686

BGEBY
Open teat sinus surgery for correcting teat occlusions part II. 1767

Open teat sinus surgery for correcting teat occlusions. 1822

The sterilization of the bull. A review of the literature. 3791

Phycomycosis of horses caused byEntomophthora coronata. 4639

Electrical anaesthesia for animal surgery-a review. 4672

Momentary upward fixation of the patella in a cow, and treatment by patellar desmotomy. 4698

Colony husbandry of the monkey. 4902

The treatment of mastocytomas in dogs. 4910

Pathology and surgical correction of perianal fistulous tracts in a dog. 5041

Paragonimiasis in a dog and a cat. 5201

Clinical evaluation of surgical removal of adult heartworms (Dirofilaria immitis) from dogs. 5219

The midsternal approach for removal of heartworms by ventriculotomy. 5253

Spastic lameness of the hindlimbs of an Aberdeen Angus heifer. 6339

Surgical treatment of chronic otitis in a Poodle. 7373

Removal of an intra-abdominal tumor of a pigeon by radical incision. 8795

The surgical treatment of canine otitis externa. 10119

Suprapubic cystotomy in a gelding. 10157

URVEYS
Surveys of livestock diseases. 2940

An annotated bibliography of surveys of the incidence of diseases of farm animals and birds in Great Britain published during 1931-1961. Part VI. birds, laboratory animals, mink and rabbits (surveys 159-201), and author index. 3108

An annotated bibliography of surveys of the incidence of diseases of farm animals and birds in Great Britian published during 1931-1961. Part V. sheep (surveys 130-158). 3110

Dow uses survey findings to help build pesticide sales. 3848

Agricultural chemicals: Farmer attitudes and use patterns. 3852

Agricultural chemicals: Farmer attitudes and use patterns. 3856

Bionomics of the apple aphid, Aphis pomi, on young nonbearing apple trees. 3960

Bredin-Archbold-Smithsonian biological survey of Dominica. 4. two new species of Tiphia from the West Indies _Hymenoptera0 Tiphiidae). 5429

Status of Aedes aegypti in the eastern Mediterranean. 5457

Studies on the infectious bronchitis virus of chickens isolated in Finland; with reference to the serological survey of its occurrence. 5999

AOAC-AOCS crude fiber liaison committee. Third interim report. 6388

A limnological investigation of the Aufwuchs community in two mainstem Missouri River reservoirs. 6451

The black flies (Diptera0 Simuliidae) of western Massachusetts. 6457

Surveys for nosema disease of honey bees in California. 7021

A three-year overwintering study of the spotted alfalfa aphid. 7061

Our first decade with the face fly, Musca autumnalis. 11537

Encephalitis surveillance in Harris County, Texas. 12388

Surveillance of Aedes aegypti in the U.S. air Force. 12392

Current status of Third United States Army Aedes aegypti eradication program. 12403

A survey of sheep bot fly larva infestations in Kentucky. 12742

Animal sentinels in a statewide arthropod-borne encephalitis surveillance program. 12749

Apterous aphids in water, wind, and suction traps. 12972

A survey of Nosema disease in package bees, queens, and attendant bees entering Manitoba (1963-1966). 13065

Control of cotton insects with an insect-collecting machine. 13359

Population sampling for integrated control. in: FAO symposium on integrated pest control, Rome, 1965. proceedings. SB951. F62. 13376

A survey on antibodies against canine toxoplasma by hemagglutination test and isolation of the organism from dogs. 13461

SUSCEPTIBILITY
Quantitation of susceptibility of swine to infection with Pasteurella tularensis. 8750

SUTURES
Pathological changes following salivary duct ligature in cockroaches. 9477

SVASTRA
Records of the genus Svastra in North America with the description of a new species (Hymenoptera: Apidae). 5506

SWAINSONA
Control of swainsonpea, Swainsona salsula. 5910

SWAINSONIA
Characteristics and control of swainsonpea. 7130

SWAINSONPEA
Control of swainsonpea, Swainsona salsula. 5910

SWAMPS
Biological notes on Culiseta minnesota Barr and Culiseta morsitans (Theobald) (Diptera: Culcidae). 4132

Mosquitoes plague space agency at new Mississippi test operations. 8164

SWAYBACK

SWAYBACK
Biochemical and neuropathological changes in swayback. 2202

Enzootic ataxia of red deer. 3116

Pathological and biochemical studies of an outbreak of swayback in goats. 3182

Swayback in south-east Scotland. I.Field aspects. II. Clinical, pathological, biochemical aspects. 5939

Further observations on swayback. I.Transitional pathology. 5940

Further observations on swayback.II. HISTOCHEMICAL localization of cytochrome oxidase activity in the central nervous system. 5941

A condition in the goat resembling swayback in lambs. 7237

Administration of copper to lambs for prevention of delayed swayback' Possible toxic effects. 8730

Cardiovascular system in naturally occurring copper deficiency and swayback in sheep. 12590

SWEDE TURNIPS
Control of root maggots in swede turnips in Newfoundland with heptachlor and aldrin and the effect on parasites and overwintering pupae. 7039

SWEDEN
Organization of weed research in sweden. 4490

SWEET ORANGES
Soil moisture in relation to growth reduction of sweet orange seedlings by Thielaviopsis basicola. 1489

Influence of soil-oxygen diffusion rates and temperature on the citrus nematode and sweet orange seedlings. 1612

SWEET POTATOES
Incidence of field spread of internal cork of sweet potato in insecticide-treated plots. 4369

Methods for determining the reaction of small potato lines to soil rot. 10719

Wireworms in sweet potatoes; Resistance to cyclodiene insecticides and control with a midsummer application of insecticide over foliage. 10922

SWEETCLOVER
Oats and amiben for weed control during sweetclover establishment. 511

Comparison of three stem diseases of Melilotus and their causal agents. 1553

Pathogenicity, host-parasite relationships, and morphology of some forage legume cercosporae, and factors related to disease development. 1567

Hypoderma and parturition complicate sweet clover poisoning. 1867

Occurrence of an unusual species of Tetrastichus (Hymenoptera: Eulophidae) in Nebraska. 3945

Introduction of European parasites of Sitona spp. for control of the sweetclover weevil, Sitona cylindricollis, in canada. 4378

Resistance of sweetclover to the sweetclover aphid. 4384

Pollination of red clover in Minnesota. 6611

Stem diseases of sweetclovers. 10817

Inheritance of resistance in sweetclover to the sweetclover aphid. 12504

The confinement period required to rid honeybees of foreign sweetclover pollen. 13358

SWEETCLOVER DISEASE
Stem diseases of sweetclovers. 10817

SWEETCORN
Leaf diseases of sweet corn in southern Florida. 43

Bacterial leaf stripe of sweet corn. 43

Hyperodes humilis, a new pest of sweet corn in the everglades, and its control. 701

A comparison of the toxicity of insecticides for the control of corn earworm on sweet corn. 708

Control of frit fly, Oscinella frit (L.), in sweet maize (Zea mays) by Thimet (OO-DIETHYL S-ethylthiomethyl phosphorodithioate). 850

Insect control and residues in sweet corn using ground equipment for treating with low-volume formulations. 901

Effect of DDT on control of corn earworms in sweet corn entries selected for varying resistance. 1002

Achaparramiento (corn stunt). 1069

Nuclear-polyhedrosis viruses in control of corn earworm and fall armyworm in sweet corn. 1091

Evaluation of insecticides for corn earworm control on sweet corn. 1093

Infestation of sweet corn by the dusky sap beetle, Carpophilus lugubris. 1094

On the control of corn earworm, Heliothis zea, and dusky sap beetle, Carpophilus lugubris, in sweet corn. 1094

Occurrence of a mosaic disease of sweet sorghum in four southern states. 1247

Minimum number of insecticide applications for the control of the European corn borer on sweet corn in Quebec. 1249

SWEETENING AGENTS
Supplying at least about 4 percent iron and a sweetening agent for the prevention of iron-deficiency anemia in baby pigs. patent 3,332,778. 1273

SWEETFERN BLISTER RUST (PINUS)
Debarking jack pine infected with sweetfern rust. 968

SWEETPOTATOES
An unusual root injury on Jersey-type sweetpotatoes in 1962. 20

Relationship of root-knot nematodes to the development of Fusarium wilt in the sweetpotato. 112

Investigations of antigenic components produced by sweet potato roots in response to black rot infection. 126

Control of black rot by prebedding heat treatment of sweetpotato roots. 127

Evaluation of sweetpotato breeding stocks for susceptibility to internal cork virus. 139

Reactions of sweetpotato breeding lines to Heloidogyne spp. when inoculated by an improved method. 165

Description of a new Pachyzancla species reared on sweet potato in southern United States (Lepidoptera: Pyraustidae). 388

Note on the biology of Acraea bonasia Fabricius from eastern Nigeria (Lepidoptera, Nymphalidae. 656

Anatomical aspects of resistance in sweetpotato to Fusarium wilt. 695

Sweetpotato varietal reaction to species and races of root-knot nematodes. 708

Biology and control of the morning-glory leaf miner, Bedellia somnulentella, on sweet potatoes. 857

Biology and control of morning-glory leaf miner, Bedellia somnulentella, on sweet potatoes. 857

Residues in vegetable crops following soil applications of insecticides. 903

Effectiveness of fungicides in reducing soft rot in washed, cured sweetpotatoes. 9754

Russet crack, a new virus disease of sweetpotatoes. 9764

Effects of reniform nematode populations on sweetpotato yields. 10061

Effect of inoculum potential of the expression of pathogenic variation of Fusarium oxysporum f. batatas. 10364

Elimination of the internal cork virus by culturing apical meristems of infected sweetpotatoes. 10844

Maintenance of virulence in stock culture of the sweetpotato wilt Fusarium. 11771

A veinclearing virus disease of sweetpotato in Nigeria. 11838

Enzymic changes associated with induced and natural resistance of sweetpotato to ceratocystis fimbriata. 11876

Influence of environmental temperatures on metabolic alterations related to disease resistance in sweet potato roots infected by black rot. 13201

Influence of host-parasite interactions on proteins enzymes, and resistance. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceeding, conference held May 15-21, 1966, Gamagori Japan. sB611.C6. 13274

The relation of metabolic changes in infected plants to changes in enzymatic activity. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966. sB611.C6. 13282

SWEP
Propanil and mixtures with propanil for weed control in rice. 4527

SWIETENIA
Outbreaks and new records: United States. oriental wood borer, a new record. 12789

SWINE
Blood levels of sulfonamides in swine. 1771

Experimental edema disease (hemolytic Escherichia coli toxemia) in pigs and in mice. 1811

Hemoglobin determination in swine anemia. 1834

Rinderpest in pigs of european origin. 1842

X-ray exposure of swine. 1844

Subculturable swine buffy coat cells with hog cholera virus. 1878

Therapy of atrophic rhinitis. 1885

Lungworms enhance severity of swine influenza. 1888

Swine jowl abscesses introduced by throat infection. 1894

A relationship between vitamin B12 and reproduction, and a method of diagnosing vitamin B12 deficiency in individual swine. 1935

Enhancement of infectivity of hog cholera virus. 1982

The passage of hog cholera virus through cellulose dialysis membranes. 1983

Detection of swine nasal viruses in cell cultures. 1984

Antibiotics to sows and gilts improves litters. 1990

Experimental leptospirosis. VII. Re-exposure of pregnant sows with Leptospira pomona. 2008

XI pneumonia of pigs. 2043

Leptospires isolated from prepuce of boars. 2044

Inoculation of baby pigs with lapinized hog cholera vaccine (1 ml.). 2048

Isolation and cultivation of swine pox virus in primary cell cultures of swine origin. 2050

Inoculation of baby pigs with lapinized hog cholera vaccine (2 and 4 ml.). 2051

Some factors that may influence hog cholera transmission. 2070

Cultivation of hog cholera virus in subculturable swine buffy coat cells. 2071

The sensitivity to chemotherapeutic agents of salmonellae isolate from pigs. 2098

Hemadsorption and cytopathic effect produced by african swine fever virus in swine bone marrow and buffy coat cultures. 2112

Vesical schistosomiasis in the domestic pig. 2141

Incidence of Salmonella in the hog colon as affected by handling practices prior to slaughter. 2168

Enteroviruses of swine. III. Studies on experimental infection in pigs. 2200

Enteroviruses of swine. II. Studies on the natural history of infection and immunity. 2201

Factors influencing immunity in hog cholera vaccination. 2227

The effect of Salmonella choleraesius infection on immunity to hog cholera. 2228

Trichinosis occurs in foxes. 2282

Observations on the life cycle and pathogenicity of the swine kidney worm (Stephanurus dentatus). 2299

Efficacy of cyanacethydrazide against Metastrongylus spp. (lungworms) in swine. 2311

Experimental infections of swine with Trichuris suis. 2314

Abstracts of papers presented at the meeting of the southern section, A.S.A.P., February 1, 2, 3, 1960, Birmingham, Alabama. 2853

Abstracts of papers presented at the meeting of the western section, A.S.A.P., June 23, 24, 25, 1960, Logan, Utah. 2855

Abstracts of papers for presentation at the 52nd annual national meeting of the American Society of Animal Production. 2856

Some effects of dietary levels of protein and alfalfa meal and of antibiotic supplementation on growth, feed efficiency and carcass characteristics in swine. 2860

Effect of reserpine and three phenothiazine derivatives on growing-fattening swine. 2866

Tylosin-A new antibiotic growth stimulant for swine. 2868

Growth and digestibility studies with young pigs fed various levels and sources of calcium. 2870

Consequences of the addition of zinc bacitracin to early weaning pigs. 2879

Effect of calcium level, oxytetracycline and terephthalic acid upon the performance of growing pigs. 2880

Accumulation of gossypol in the liver and factors influencing the toxicity of injected gossypol. 2888

High level copper for growing-finishing swine. 2919

Influence of high levels and sources of copper on swine performance. 2920

The limiting amino acids in soybean protein. 2921

Feed additives for growing pigs. 2922

Virginiamycin, a new antibiotic, for growing swine. 2923

The effect of the level of protein in the diet on the efficacy of copper sulphate as a growth stimulant for pigs. 2924

Aujeszky's disease in swine varies in severity. 2965

Transmissable diseases in swine. 2973

Nationwide eradication of hog cholera. 2988

Immunologic studies on African swine fever virus. II. 3000

Human brucellosis in the United States. 3016

Brucellosis. 3028

Heat treatment of corn causes ulcers in swine. 3030

Arsanilic Acid prophylaxis for hemorrhagic dysentery in swine. 3036

An evaluation of the amylase and haemolytic tests for the diagnosis of hog cholera. 3083

The duration of farrowing in relation to the reproductive performance of Yorkshire sows. 3094

Standardization of hog cholera neutralization test. 3140

Study of hog cholera colostral antibody and its effect on active hog cholera immunization. 3141

Rinderpest in pigs of european origin. 3159

Effect of calcium chloride on germination and pathogenicity of spores of Clostridium chauvoei. 3166

Chronic Erysipelothrix rhusiopathiae infection in laboratory rats. II. Attempts to produce chronic erysipelas by the injection of killed organisms. 3176

Influence of blood group antibodies on survival of transfused erythrocytes in pigs. 3200

Swine abscesses increase. 3211

An anamestic-like reaction elicited by tuberculin. 3224

Enteritis in pigs- a working hypothesis. 3231

Prenatal infection with the swine kidney worm (Stephanurus dentatus). 3257

A comparison of alant/-occipital and lumbar spinal fluid pressures measured simultaneously in adequate and vitamin A defficient pigs. 3262

Electrophoretic studies of passive immunity against hog cholera. 3264

Effects of vaccination on the development of arthritis in swine with erysipelas: clinical, hematologic and gross pathologic observations. 3266

Effects of vaccination on the development of arthritis in swine with erysipelas: bacteriologic, immunologic, serum protein, and histopathologic observations. 3267

Swine trichinosis. I. fecal transmission under simulated field conditions. 3269

Purification experiments of swine enteroviruses and swinepox viruses on ion-exchange cellulose column. 3272

Experimental swine pox. 3274

Viral encephalomyelitis of swine in ontario - Experimental and natural transmission. 3279

Immunofluorescent microscopy in the diagnosis of swine fever. 3284

Clinical and pathologic characterization of esophagogastric ulcers in swine. 3294

Association of pleuropneumonia-like organisms with polyserositis in adult swine. 3295

Persistent infections of subculturable swine buffy coat cells with hog cholera virus. 3298

Chronic erysipelothrix rhusiopathiae infection in laboratory rats. 33

Antibody response in a group of swine after infection with foot-and-mouth disease virus. 33

Experimental Rift Valley fever in calves, goats and pigs. 33

Response of calves, sheep, and pigs to a cell-culture-modified rinderpest virus. 33

Transmissable gastroenteritis antibodies absorbed through gut only. 33

Porcine enteroviruses. i. Properties of three isolates from swine with diarrhea and one from apparently normal swine. 34

Porcine enteroviruses: distribution of neutralizing antibodies to E1 and E4 strains in serums of swine from 3 states. 34

Electrophoretic distribution of protein in the serum of swine with rheumatoid-like arthritis. 34

Studies on the susceptibility of wild european and domestic swine to hog cholera. 34

Detection of hog cholera virus by hemagglutination test. 34

Immunologic studies of japanese encephalitis virus in japan. ii. An evaluation of the direct complement-fixation test for detecting infection of swine. 34

Effects of phytic acid on zinc availability and parakeratosis in swine. 34

Studies of the nucleic acid type and essential lipid content of hog cholera virus. 34

Passive immunity to migrating Ascaris suum transmitted by paternally administered immune serum or immune globulins-. 34

Refinement and application of the conglutination complement-adsorption test for detection of hog cholera antibodies. 35

Immunology of newborn pigs: response to lapinized hog cholera virus in colostrum-deprived and suckling pigs. 35

The present state of fertility and reproductive disorders of farm livestock in Australia. 35

Studies on bovine ocular squamous carcinoma ('Cancer Eye') X. nutritional effects. 35

Hypersensitivity in erysipelas arthritis of swine. I. Hypersensitization of swine with viable and non-viable erysipelothrix. 35

Pathology of gastric ulcers in swine. 35

Hypersensitivity in erysipelas arthritis of swine. III. Passive transfer of hypersensitivity with immune serum. 35

Aerosol transmission of hog cholera. 35

Studies on hemolytic Escherichia coli associated with edema disease of swine. ii. An immunologic study of a toxic factor. 35

Some environmental factors affecting the virulence of Leptospira pomona. 35

Trichinosis in garbage-fed swine. 35

Eradication of the swine kidney worm, Stephanurus dentatus from experimental pastures by herd management. 36

Absence of prenatal infection with ascaris lumbricoides in swine. 36

Effects of sulphur dioxide on guinea pigs and swine. 37

A critique of food additives. 45

Environmental studies in pig-housing. I. Air velocity. 4554

Environmental studies in pig housing. Ii. Ventilation and its measurement. 4555

Demonstrable antigens and a toxic factor in oedema disease of swine. 4566

Studies on strains of haemolytic Escherichia coli isolated from normal swine after weaning. 4585

Enterotoxemia in pigs due to Clostridium perfringens type c. 4612

Use of slide-latex test for detecting trichinosis in hogs. 4630

The study of some viral infections of swine by means of the agar double-diffusion precipitation reaction. 4633

Epidemiology of leptospirosis in Iowa- a study of sporadic and epidemic cases. 4636

Survey evidence of leptospira infection in Iowa dogs. 4637

Effects of high levels of copper and chlortetracycline on performance of pigs. 4648

Transmission of hog cholera by pregnant sows. 4655

The changing picture of hog cholera: case studies. 4656

Malignant melanoma in a pig. 4665

Immunity to swine erysipelas in pigs. Direct challenge with Erysipelothrix rhusiopathiae by intradermal route. 4674

Immunologic studies on african swine fever virus. II. Enhancing effect of normal bovine serum on the complement-fixation reaction. 4692

Studies on swine dysentery. 4706

Studies on hemolytic Escherichia coli associated with edema disease of swine. III. The effect of hemolytic and nonhemolytic Escherichia coli endotoxin on the blood of swine. 4707

Effect of atrophic rhinitis on rats of gain in swine. 4722

A practitioner's experience with SPF pigs. 4725

Interrelationship of growth rate, hemoglobin dilution, packed cell volume, and incidence of anemia in suckling pigs. 4757

A respiratory disease of pigs (type XI) differing from enzootic pneumonia; the field disease. 4766

An annotated bibliography of surveys of the incidence of diseases of farm animals and birds in Great Britain published during 1931-1961. I. Surveys covering several species and surveys of pigs. 4771

Studies on pathogenic porcine enteroviruses. II. Isolation of virus in tissue culture from brain and feces of clinical cases. 4775

Tissue culture studies and electron microscopy of the virus of Teschen disease. 4779

Malignant melanomas in porcine littermates. 4804

Polioencephalomyelitis of pigs--the identification of viruses related to the Teschen and T80 groups in the United States. 4817

Experimental disease produced in pigs following infection with Konratice and Talfan strains of the Teschen group of viruses. 4819

The neutralisation of four strains of Teschen virus by the sera of pigs infected with the Talfan strain. 4820

Edema disease of swine. I. Study of haemolytic escherichia coli strains isolated from cases of edema disease of swine in western canada. 4868

A serologic survey of Leptospira antibodies in an urban canine population. 4869

Salmonella types found in the mesenteric lymph nodes of various domestic animals. 4900

Growth of Aujeszky's virus in rabbits and tissue culture. 4915

Growth of Newcastle disease virus in cell cultures derived from swine embryo lymph nodes. 4933

Physiologic responses of swine to high concentrations of inhaled carbon dioxide. 4941

The enhancing effect of swine lungworms on swine influenza infections. 4947

Hydrogen sulphide poisoning in swine. 4960

Combined therapy with vitamin E and selenite in experimental nutritional muscular dystrophy of pigs. 4966

Vibrio fetus toxin. I. Hypersensitivity and abortifacient action. 4967

The use of the complement-fixation test in the study and diagnosis of viral diseases in man and animals - a review. 5006

Influence of Pasteurella multocida and Mycoplasma hyorhinis (pplo) on the histopathology of field cases of swine pneumonia. 5019

Pathology of the visceral organs of swine innoculated with mycoplasma hyorhinis. 5020

The pathology of mycoplasma hyorhinis arthritis produced experimentally in swine. 5021

Comparison of isolates of Mycoplasma hyorhinis by indirect hemagglutination. 5033

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas. 5057

New concepts of arthritis in swine. 5060

Encephalomyelitis of pigs produced experimentally by a porcine enterovirus. 5065

Some aspects of the mechanism of immunity to helminths. 5076

Histopathologic lesions of induced porcine rinderpest infection. 5125

Swine repopulation. V. Certification and farm performance of secondary specific-pathogen-free (SPC) pigs. 5145

Trichiniasis in Iowa swine with further studies on modes of transmission. 5148

Hog louse control by ground treatment. 5173

Critical tests of hygromycin B as an ascaride of swine. 5195

Larvicidal activity of dithiazanine iodide administered in feed to pigs with artificial infections of Ascaris suum. 5203

Ringworm with complicating acanthosis in swine. 5204

An analysis of the incidence of hydatid cysts (Echinococcus granulosus) in domestic food animals in New Zealand 1958--1959. 5217

Thiofuradene as an anthelmentic and growth stimulant for swine. 5220

Occurrence of screwworm infestation in Minnesota. 5221

Production and fermentation of lactate by bacteria in the alimentary canal of the horse and pig. 5929

Botulism in pigs. 5943

Studies on enterovirus of swine. Isolation in tissue culture of a strain (PS55) of the teschen group of viruses. 5974

Animal leptospirosis in the British Isles,. 5983

Experimental vaccination of pigs with avirulent rough strains of Salmonella cholerae suis. 6069

Brain lesions and viremia studies in swine infected with hog cholera virus of low pathogenicity. 6085

True and pseudohermaphroditism in a swine herd. 6126

Medicated feeds; experiments with a mixture of antibiotics and sulfamides for the control of the weaning diseases of the baby pig. 6138

Coliform enteritis of weaned pigs A description of the disease and its association with hemolytic escherichia coli. 6145

A viral encephacomyelitis of pigs, furthur studies on the transmittability of the disease in Ortario. 6146

Effects of a standardized senna preparation given to pigs: A preliminary report. 6156

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas VI. VACCINATION of weanling pigs farrowed by susceptible and immune dams. 6160

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas. VIII. further observations on serum potency with relation to immunization of weanling pigs. 6161

An unorthodox approach to piglet scours. 6167

Certification of swine herds as virus pneumonia-free. 6202

Efficacy of cyanacethydrazide agent against swine lungworms. 6227

Variation in zinc content and other properties of various porcine muscles. 6254

The cause of alimentary toxemia in chickens, toxic fat- its effect on swine performance. 6331

Common problems in the pig. 7144

Hog cholera is on the way out. 7145

Isolation of enteroviruses from intestinal tract of swine. 7155

ISU veterinarians suspect two weeds as cause of seasonal swine disease. 7157

Polyserositis-arthritis complex in swine. 7182

Rift valley fever in calves, goats and pigs. 7194

Complement-fixation test for detecting Japanese encephalitis virus. 7198

Purification of swine enteroviruses and swinepox viruses. 7218

Candidiasis in pigs in northwest Wisconsin. 7235

Pig diseases in the Rhodesias. 7241

Porcine gastric ulcers in the United StatesO a review. 7263

Evaluation of bacterins for control of swine abscesses. 7276

Polyarthritis and epiphyseolysis of pigs in England. 7290

Prenatal hog cholera infection' a potential source of hog cholera. 7297

Cerebellar hypoplasia, hypomyelinogenesis, and congenital tremors of pigs, associated with prenatal hog cholera vaccination of sows. 7298

The use of Thiofuradene as a growth stimulant and anthelmintic in the production of pork in the Bahamas. 7302

Toxoplasmosis in pigs. I. The influence of age on the pathogenicity of Toxoplasma gondii for pigs. 7304

Toxoplasmosis in pigs. II.- Experiments on the pathogenicity of Toxoplasma gondii for pigs infected by different routes. 73

Conferences appraise hog cholera eradication efforts. 73

The enteropathogenic effect of Escherichia coli in rabbits and pigs. 73

Unusual cerebellar conditions in pigs. Part II. Cerebellar Hypoplasia in pigs. 73

Unusual cerebellar conditions in pigs. Part 1. Cerebellar herniation associated with vitamin A deficiency. 73

Lactogenic immunity to transmissible gastroenteritis of swine. 73

Status of inactivated vaccines for hog cholera. 73

Hepatitis cysticerosa causing sudden death in a pig. 74

A swine brucellosis epizootic. 74

An outbreak of Aujeszky disease in pigs in Lincolnshire. 74

The characterization of a causitive agent of virus pig pneumonia. 74

Radiostrontium toxicity in miniature swine. 74

Abortion and infertility in sows in Ireland apparently due to infection by Leptospira canicola. 74

Abortion in the sow due to infection by Leptospira canicola - A preliminary report. 74

Iron deficiency anemia as a cause of stillbirths in swine. 74

Comparison of pathogenicity of various isolates of Bordetella bronchiseptica in young pigs. 74

Clinical appraisal of an avirulent oral erysipelas vaccine. 74

Breakdowns in swine-fever vaccinated herds. 74

Observations on pathogenicity and immunogenicity of a cell-culture-modified foot-and-mouth disease virus. 74

Mastitis, metritis and diarrhea in swine. 75

The pathogenesis of gastro-enteritis associated with Escherichia coli. 75

Transmission and characterization of edema disease of swine. 75

Influence of porcine transmissible gastroenteritis on chlortetracycline blood values. 75

Toxaphene residues in hogs. 75

Swine ascarids infect cattle. 75

Swine kidney worm persistent and resistant. 75

Trichinosis declines. 76

Survival of encysted eggs and larvae of the soybean cyst nematode, Heterodera glycines, ingested by swine. 76

Quantitation of susceptibility of swine to infection with Pasteurella tularensis. 87

Regrowth of primary cell cultures after infection with foot-and-mouth disease virus. 87

Pathogenesis of three strains of Brucella suis in swine. 87

Hematologic signs of vitamin B-12 deficiency in swine. 87

The phenomenon of supressed respiratory disease in the litters of older sows. 88

Identification of certain Escherichia coli strains isolated

from baby pigs in north central United States. 8803

Pathogenesis of porcine gastric ulcers. 8819

Use of fluorescein-labeled antibody for rapid diagnosis of transmissible gastroenteritis in experimentally infected pigs. 8834

Experimental Escherichia coli diarrhea in hysterectomy-derived, one day-old, fasting pigs. 8836

Inguinal hernia with attendant vesicocele in the pig. 8839

Claviceps fusiformis sp. nov., the causal agent of an agalactia of sows. 8841

Pantothenic acid deficiency in pigs. 8845

Ulceration of the pars oesophagea of the pig. 8864

Pantothenic acid deficiency in pigs. 8865

Small cystic degeneration of liver in a pig. 8880

Further studies on the Erysipelothrix insidiosa tube agglutination test. 8890

Experimental production of ankylosing spondylitis in swine with an isolate of Erysipelothrix insidiosa of human origin. 8891

Further studies on the pathologic alterations of tissue of swine given repeated whole blood transfusions from swine with rheumatoid-like arthritis. 8892

Gastro-intestinal parasites in pigs. 8942

Gastrointestinal parasites in pigs. 8950

Malathion residues in the tissues of sheep, goats, and hogs. 9044

Malathion residues in tissues of sheep, goats and hogs. 9045

Temperature response following hog cholera vaccination as influenced by swine isoagglutinins. 10118

Some clinical and experimental observations on naturally-occurring pantothenic-acid deficiency in pigs. 10126

Intranuclear inclusion bodies associated with hog cholera. 10130

Hematologic studies of rinderpest-infected swine. 10142

Hog cholera protection tests with swine serum fractions. II. Hog cholera immune and nonimmune serums. 10149

A comparison of experimental anaphylactic shock in guinea pigs with naturally occurring oedema disease and haemorrhagic gastroenteritis in pigs. 10150

Neuropathology of porcine toxoplasmosis. 10155

Effect of ampicillin on E. coli of swine origin. 10160

Viability of Teschen Disease virus. 10171

Some factors influencing the losses of pigs prior to weaning. 10180

The use of Gallamycin for controlling infectious atrophic rhinitis in bacon pigs. 10194

Metabolism and distribution of I-labelled albumin in the. 10197

Identification of hog cholera viral antigen by immunofluorescence, application as a diagnostic and assay method. 10206

Virus pneumonia of pigs, Attempts at propagation of the causative agent in cell cultures and chicken embryos. 10223

Precipitation reactions in agar between swine serum and homologous pancreas extracts. 10224

Use of the agar diffusion precipitation test in the diagnosis of hog cholera. 10225

Influence of salts of ethylenediaminetetraacetic acid on the tryptophan load test in pyridoxine-deficient swine. 10229

Effect of atrophic rhinitis on rate of gain in swine. 10234

Critical tests of Hygromycin B as an ascaricide of swine. 10249

Studies on pathogenic porcine enteroviruses. i. preliminary investigations. 11062

Observations on porcine melioidosis in Malaya. 11067

The diagnosis of hog cholera by a fluorescent antibody test. 11081

Transmissible gastroenteritis of swine: properties of a vaccine and immunologic aspects in the sow and pig. 11089

Gastrointestinal helminths in market weight pigs. 11112

Nodamura virus, an ether- and chloroform-resistant arbovirus from Japan. physical and biological properties, with ecological observations. 11693

Observations on the control of Haematopinus suis and Ascaris lumbricoides of swine with certain organic phosphorus compounds. 11994

Further studies on porcine enteroviruses isolated at Cambridge. i. infections in SPF pigs and the preparation of monospecific antisera. ii. serological grouping. 12557

Swine toxicosis associated with fumigated grain. 12571

Inclusion-body rhinitis of pigs: Attempts to grow the causal agent in tissue cultures. 12572

Effects of attenuated hog cholera virus in pregnant swine at various stages of gestation. 12591

A viral gastroenteritis of Ontario swine. i. clinical illness and recovery of the virus. 12600

First observation of beta C botulism in swine in Senegal. 12606

Zinc deficiency in reproducing gilts fed a diet high in calcium and its effect on tissue zinc and blood serum alkaline phosphatase. 12628

Chronic mercurial poisoning in swine. a case report of an outbreak with some epidemiological characteristics of hog cholera. 12637

Porcine nephroblastoma. 12639

Investigations on immunogenetics of ethanol-inactivated vaccines against Aujeszky's disease. 12642

Exudative epidermitis in pigs: Bacteriological studies on the causative agent. 12647

Über eine Methode zur Untersuchung des Thymus bei Ferkelkrankheiten (Method for thymus study in piglet diseases). 12649

Effect of oat hulls and other oat fractions on the development of gastric ulcers in swine. 12660

Experiments of immunization against the classic swine pest with the application of the principle of interferential vaccines. 12687

Swine abscesses caused by Lancefield's group E streptococci. iii. application of a precipitin test in selected groups of market pigs. 12703

Swine abscesses caused by Lancefield's group E streptococci. iv. test of two bacterins for immunization. 12704

Hematologic changes and clinical signs of trichinosis in pigs. 12716

Swine mycoplasma. 12718

Supplying at least about 4 percent iron and a sweetening

SWINE ADENOVIRUS

agent for the prevention of iron-deficiency anemia in baby pigs. patent 3,332,778. 12732

Toxoplasmosis in pigs, an experimental study of oral infection and infection through the skin. 12733

Larval distribution and histopathology of experimental Strongyloides ransomi infection in young swine. 12775

Immunizing pigs against hog cholera with selected strains of live virus diarrhea virus and preparation of virus diarrhea virus hyper-immune hog cholera serum. patent 3,346,456. 13408

The effects of diet on reproduction in pigs, sheep and cattle. VI: cattle-protein, vitamins, minerals and other dietary substances. 13454

Some aspects about helminth parasites of Sus domesticus Linnaeus, 1758, from the State of Bahia, Brazil. 13470

Farm-to-farm transmission of porcine Oesophagostomiasis. 13477

SWINE ADENOVIRUS

Studies of the pathogenic properties of a porcine adenovirus. 12702

SWINE DYSENTERY

Studies on swine dysentery. 4706

Studies on the pathogenesis of Vibric coli infection in swine. 7541

SWINE ERYSIPELAS

Immunity to swine erysipelas in pigs. Direct challenge with Erysipelothrix rhusiopathiae by intradermal route. 4674

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas. X. Vaccination of the offspring of immune dams with relation to age after weaning. 5056

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas. 5057

Further studies on the Erysipelothrix insidiosa tube agglutination test. 8890

SWINE HOUSES

Environmental studies in pig housing V. The effect of housing on the degree and incidence of pneumonia in bacon pigs. 3548

Environmental studies in pig housing IV. The bacterial content of air in piggeries and its influence on disease incidence. 3552

House fly control in pig parlors. 7566

House fly control in pig parlours. 9587

SWINE INFLUENZA

The enhancing effect of swine lungworms on swine influenza infections. 4947

SWINEPOX

Experimental swine pox. 3274

Purification of swine enteroviruses and swinepox viruses. 7218

SWINEPOX VIRUS

Purification experiments of swine enteroviruses and swinepox viruses on ion-exchange cellulose column. 3272

Experimental swine pox. 3274

SYMBIOSIS

Detection, identification and control of Poria carbonica and other fungi in Douglas fir poles. 6259

Symbiontic interrelationships between microbes and ambrosia beetles. II. the organs of microbial transport and perpetuation in Trypodendron betule and T. retusum (Coleoptera, Scolytidae). 6477

On the in-vitro culture of intracellular symbiotes of cockroaches. 6497

Insecticidal degradation by Pseudomonas melopthora, the bacterial symbiote of the apple maggot. 79

Virus-fungus relationships in a root rot complex in red clover. 97

Rapid physiological change in Pinus radiata following attack by Sirex noctilio and its associated fungus, Amylostereum sp. 118

SYMPHYLURINUS

The family Projapygidae and Anajapygidae (Diplura) in North America. 39

SYMPHYTA

Notes on the taxonomy of the fossil Xyelidae (Hymenoptera: Symphyta. 544

Food plants of Japanese Symphyta. i. 1310

SYMPOLEMON

New species and new records of Pygostenini from Liberta. Ivory Coast, and Cameroun (Coleoptera: Staphylinidae). 550

SYMPOSIA

Southern Conference on Avian Diseases. Poultry papers given at the 19th Annual Meeting of Animal Disease Research Workers in the Southern States. 52

American Association of Avian Pathologists- Symposium on Avian Salmonellosis. 53

37th Annual Meeting of the Northeastern Conference on Avian Diseases. 59

Symposium on tropical plant pathology: invitational papers presented December 11, 1961 at the meeting of The American Phytopathological Society at Biloxi, Mississippi. 103

Symposium on chemical control: theoretical consideration of soil fumigation. 122

Symposium on pathogen free stock: invitational papers presented June 15, 1960 at the meetings of the Pacific Division of The American Phytopathological Society for Horticultural Science, western region, at Eugene, Oregon. Introduction. 146

International Symposium on Newcastle Disease Virus as an Evolving Pathogen. 181

Abstracts of papers presented at the 53rd annual meeting of the poultry science association. 294

The control of poultry disease in different countries: a symposium. (3) Western Germany. 303

The control of poultry disease in different countries: a symposium. (2) France. 316

The control of poultry disease in different countries: a symposium. (6) Observations on mycoplasmosis in poultry in France. 316

The control of poultry disease in different countries: a symposium. (5) Israel. 323

The control of poultry disease in different countries: a symposium. (4) Sweden. 332

The control of poultry disease in different countries: a symposium. (1) Switzerland. 353

Report of the fourth german conference on weed biology and weed control. 448

Report on the EWRC - COLUMA symposium on herbicides, Paris, 13th-14th December, 1961. 448

Report of the first conference of the French weed control committee, 14th-15th December, 1961. 452

Symposium on poultry viruses. 592

Report of leukosis committee. 596

Symposium on requirements and interpretations of biometeorological observations. invitational papers presented at the fifty-fourth annual

meeting of the American Phytopathological Society. corvallis, oregon, august 26-29, 1962. 6691

Symposium on root diseases of forest trees. invitational papers presented august 27, 1962, at the fifty-fourth annual meeting of the American Phytopathological Society at Corvallis, Oregon. 6692

Summation. 6766

London symposium will cover formulation of pesticides. 9117

15th international symposium on crop protection (section P: weed control), Ghent, 7th May, 1963. 10086

16th International Symposium on Crop Protection, Special Section of Weed Research, Ghent, Belgium, 5th May, 1964. 10088

The fifth British weed control conference, 1960. 11026

Insect behavior. (Royal Entomological Society of London. symposia no. 3). 13053

Cellular age changes in insects. in: Aspects of the biology of aging, H. w. woolhouse, ed. 13113

World Health Organization. seminar on the ecology, biology, control, and eradication of Aedes aegypti, 16-20 August 1965, Geneva, Switzerland. 13156

SYMPTOMATOLOGY
Studies on acute bovine traumatic reticuloperitonitis II. Signs of traumatic reticuloperitonitis. 4810

SYNANTHEDON PICTIPES
Thiodan, a promising chemical for control of the lesser peach tree borer. 7038

SYNAPSES
Action of DDT at an insect synapse. 6633

SYNCHYTRIUM VACCINII THOMAS
Observations on cranberry red gall disease, incited by Synchytrium vaccinii Thomas. 390

SYNERGISM
Synergism of malathion and parathion against resistant insects: Phosphorus esters with synergistic properties. 767

Synergism of carbamate and organophosphate insecticides by noninsecticidal carbamates. 9542

SYNERGISTS
Toxicity of various carbamates and synergists to several strains of body lice. 628

Synergistic effect between vapors of C-8514/Schering 36268 and dichlorvos against the carmine spider mite. 630

Unique synergistic effects produced by the principal sex attractant compounds of Ips confusus (LeConte) (Coleoptera, Scolytidae). 9576

SYNGAMUS TRACHEA
Hemogram of turkey poults experimentally infected with syngamus trachea. 6054

Removal of Syngamus trachea, gapeworm, from pheasants with subcutaneously injected Disophenol. 6234

Thiabendazole therapy of pheasants affected with gapeworms. 11115

SYNOVITIS
Pleuropneumonia-like organisms associated with synovitis in fowls. 2035

Case report: A synovitis caused by a strain of Escherichia coli. 8806

A survey of disease outbreaks in broiler chicken flocks and their economic importance. 8812

SYNTHESIS
The effects of carbamate herbicides on polymer synthesis. 699

Protein synthesis in germinating fungus spores. II. Substrate utilization by uredospores of the bean rust fungus and conidia of several saprophytes. 734

The formation of aflatoxin derivatives. 13636

Preparation and biological activity of the isomers of dimethyl-1,3-dicarbomethoxy-1-propen-2-yl phosphate (Bomyl). 13649

Synthesis, biological activities, and properties of the syn and anti exo-3-chloro-endo-6-cyano-2-norbornanone O-methylcarbamoyl)oximes. absolute structure of tranid miticide. 13651

SYNTHETIC DIETS
Continuous rearing of aphids of the Aphis fabae complex on sterile synthetic diet. 12327

Survival and development of European corn borers fed gossypol in artificial diets. 12344

Oviposition by onion maggot adults fed on a chemically defined diet. 12371

An artificial diet and some growth factor requirements for the pale western cutworm. 13070

SYNTHETIC MULCHES
Effects of calcium nitrate, limestone, soil fungicides and black plastic mulch on tomato southern blight. 11813

SYNTOMIDAE
Studies on the biology of Elachertus ceramidiae (Hymenoptera: Eulophidae), a parasite of the banana pest Ceramidia butleri (Lepidoptera: Syntomidae). 7832

SYRINGALDEHYDE
Vanillin and syringaldehyde as attractants for Scolytus multistriatus (Coleoptera: Scolytidae). 8071

SYRINGES
Brucella tube-agglutination titers resulting from the use of syringes containing viable strain 19 vaccine. 5344

A micro syringe for laboratory grain fumigation. 5424

SYRINGOMYCIN
The nature of the widespectrum antibiotic produced by pathogenic strains of Pseudomonas syringae and its role in the bacterial canker disease of Prunus persicae. 6163

SYRPHIDAE
A preliminary study of the Syrphidae of Oklahoma (Diptera) Syrphidae. 6469

Syrphidae collected in 1966. 11547

Syrphidae collected in 1966. 11548

SYRUPS
Dimetilan baits, fly ribbons and cords for the control of house flies. 8167

Effects of fungicides on the flavour of fruits and syrups. 9009

Effects of some fungicides on the flavour of fruits and syrups. 10257

SYSPHINCTA PERGANDEI
The ecology of ants of strip-mine spoil banks. 5533

SYSTEMIC FUNGICIDES
Systemic control of powdery mildew of roses, caused by the fungus Sphaerotheca pannosa, with derivatives of cycloheximide. 10800

SYSTEMIC INSECTICIDES
A laboratory test of three systemic insecticides against the spruce budworm, Choristoneura fumiferana (Clem.). 4407

Systemic insecticides for control of tropical warble fly (dermatobia hominis) in cattle. 4599

Populations of arthropod predators and Heliothis spp after applications of systemic insecticides to cotton. 8092

Use of systemic insecticides as seed treatments to control cowpea aphids on black locust seedlings. 8541

Systemic insecticides for control of boll weevil and the

SYSTOECHUS
cotton fleahopper. 9990

Stem and soil applications of systemic insecticides to cotton for control of Lygus hesperus. 10008

Systemic insecticides for control of soybean insects in South Carolina. 10022

Test of several systemic insecticides for post-oviposition control of the sitka-spruce weevil. 10597

Systemic insecticides for the control of cotton insects. 10930

Insect damage to acorns in West Virginia and control studies using granular systemic insecticides. 10939

Control of the green peach aphid on tobacco with systemic insecticides. 10976

Further evaluation of animal systemic insecticides, 1964. 11098

Spray and pour-on application of systemic insecticides for control of cattle grubs in Virginia. 11107

Effect of the systemic insecticide UC 21149 and four pre-emergence herbicides on cotton seedlings. 11250

Tests with systemic insecticides for control of Gasterophilus larvae in horses. 11267

Systemic insecticides applied as a topical pour-on and as an oral drench for cattle grub control. 11314

Tests of systemic insecticides for control of insect pests of ornamentals. 11332

Control of the iris borer with systemic insecticides. 12478

Systemic insecticides as lygus bug controls compatible with bee pollination on alfalfa. 12493

Acylsulfamoylphenyl phosphate warm-blooded animal systemic insecticides. patent 3,341,409. 12738

Treatment experiments with systemic insecticides against the larvae of the reindeer grub fly (Oedemagena tarandi L) and the reindeer nostril fly (Cephenomyia trompe L). 12751

Experiments on the control of sisal weevils by dipping planting material in solutions of systemic insecticides. 13347

Systemic insecticides evaluated for two-spotted mite control on greenhouse cucumbers. 13348

Systemic activity of Shell SD-9129 in cotton plants. 13363

Gas chromatographic determination of famphur and its oxygen analog residues in bovine milk, blood, and edible tissues. 13562

Absorption, metabolism, and excretion of tritium-labeled famphur in the sheep and calf. 13583

SYSTOECHUS
The taxonomy and biology of Systoechus and Anastoechus bombylid (Diptera) predators in grasshopper egg pods. 11523

SYSTOLE ALBIPENNIS
Detection of phytophagous chalcidoids in seeds for quarantine purposes. 9963

SYSTROPUS
Notes on and redescription of types of North American bombyliidae (Diptera) in European museums. 3962

A review of the subfamily Systropinae (Diptera: Bombyliidae) in North America. 5537

S2-97
Bacillus thuringiensis as a feed additive to control dipterous pests of cattle. 5169

T-VIRUS
Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus. 8868

T, 2,4,5-
Characteristics and control of swainsonpea. 71

2,4,5-Trichlorophenoxyacetic acid. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iV. herbicides. 395 Z9. 122

Herbicide-insecticide formulations for control of the American dog tick. 127

Gas chromatographic measurement of disappearance rates of 2,4-D and 2,4,5-T acids and 2,4-D esters in mice. 136

TABANIDAE
New North American Tabanidae. Xi- Supplemental notes pertinent to a catalog of Nearctic species. 39

Dispersal of viable algae and protozoa by horse flies and mosquitoes (Diptera, Tabanidae, Culicidae). 66

The biology and taxonomy of some immature nearctic Tabanidae (Diptera). 78

New North American Tabanidae. XV. Additions to records of Chrysops in Florida. 93

New North American Tabanidae. XII. A new variety of Tabanus immitans Walker. 94

An annotated list of the horse flies of Florida and an illustrated key to the genera (Diptera: Tabanidae). 94

Additions to the Tabanidae (Diptera) of Trinidad, B. W. I. 114

A new eastern nearctic Chrysops (Diptera: Tabanidae). 115

Notes on Thunberg's little known species of Tabanidae (Diptera) from the new world. 115

Abundance and seasonal distribution of the Tabanidae (Diptera) of the Great Swamp, New Jersey. 115

TABANUS
New North American Tabanidae. Xi- Supplemental notes pertinent to a catalog of Nearctic species. 39

Horsemeat as food for rearing Diptera (Phoridae and Tabanidae). 52

TABANUS FUSCICOSTATUS
Feeding, mating, and oviposition studies of the horse flies Tabanus lineola and T fuscicostatus _Diptera, Tabanidae). 56

TABANUS LINEOLA
Feeding, mating, and oviposition studies of the horse flies Tabanus lineola and T fuscicostatus _Diptera, Tabanidae). 56

TABATREX
Use of an animal membrane in the evaluation of chemical repellents against the stable fly. 75

Face fly control experiments on quarter horses - 1962-64. 110

TABATREY
Face fly control. 75

TABLES (DATA)
Herbicides: a compilation of their physical, chemical, and biological properties. 37

TACHINDAE
New American Tachinidae and Sarcophagidae (Diptera). 397

TACHINIDAE
A skipper, thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae) and its parasites in Ontario. 27

Androeuryops, a new genus of Tachinidae (Diptera) from central America. 387

Loss of attractiveness to Bessa harveyi (Tns.) (Diptera: Tachinidae) of host larvae during cold storage. 411

The relationship of Spathimeigenia spinigera Townsend (Diptera: Tachinidae) to its host, Neodiprion swainei Midd. (Hymenoptera: Diprionidae). 443

Insects of pine cones in Arkansas. 5838

North American Tachinidae (Diptera). 6140

Two new genera and species of erycine Tachinidae (Diptera) from Australia. (Abstract). 11468

TACHYCARDIA
Electrocardiographic changes in man and experimental animals provoked by the venom of Latrodectus tredecimguttatus. 649

TACHYDROMA
Notes on the genus Tachydromia Meig and the annulimana-group (Diptera, Empididae). 12939

TADPOLE SHRIMP
Control of tadpole shrimp, Triops longicaudatus in California rice fields. 8490

TAENIASIS
Effect of combined arecoline hydrobromide and n-butyl chloride complex on parasites of dogs. 5267

A taenacide for dogs and cats. 7639

A new taeniacide, bunamidine hydrochloride' its efficiency against Taenia pisiformis and Dipylidium caninum in the dog and Hydatigera taeniaformis in the cat. 8947

TAGETES
Weeds in Kenya wheat. 2782

Starvation tests with larvae of the cinnabar moth. 7043

An inexpensive, versatile oxygen electrode. 7756

TAGETES ERECTA
Effect of root extract of Asparagus racemosus and Tagetes erecta on hatching of eggs of Meloidogyne javanica and Meloidogyne arenaria. 7113

TAHITI
The adults and pupa of Culex (c.) kesseli from Tahiti and remarks on the atriceps group (Diptera' Culicidae). 7781

TAILS
Necrosis of the tail in the buffalo. a deficiency disease . 1968

TAIWAN
A field survey of arthropod parasites of birds in Taiwan. 798

Tests with some insecticides against the paddy borer. Schoenobius incertulas, in Taiwan. 4374

A study of the genus Micronecta of India, Japan, Taiwan and adjacent regions (Heteroptera: Corixidae). 5455

The genus Laelaps (acarina: laelapidae) in Taiwan. 5498

Mosquitoes of taiwan: genus to Toxorhynchites theobald. 5513

The biological control of sugarcane borers in Taiwan, 1948-1966. 5852

A root rot of sugarcane caused by Pythium catenulatum in Taiwan. 9848

TANGANYIKA
Observations on the Simulium neavi complex at Amani in Tanganyika. 10494

TANGELOS
A quick field test for xyloporosis virus. 10864

TANKS
An improved portable sheep dipping vat. 12922

TANNIC ACIDS
A tannic acid modified hemagglutination test for infectious bronchitis of chickens. 2189

The toxicity of gallic acid, pyrogallol, tannic acid and Quercus havardi in the rabbit. 2858

Calcium hydroxide - An antidote for tannic acid poisoning in rabbits. 3656

Tannic acid as a repellent and toxicant to alfalfa weevil larvae. 4023

Antidote for tannic acid poisoning in rabbits. 7191

Antidote for tannic acid poisoning in rabbits. 7208

Studies on the detoxication of tannic acid by chicks. 12027

TANNING
Calcification, tanning, and the role of ecdyson in the formation of the puparium of the facefly, Musca autumnalis. 12337

TANNINS
The toxicity of gallic acid, pyrogallol, tannic acid and Quercus havardi in the rabbit. 2858

Oral toxicity and polyhydroxyphenol moiety of tannin isolated from Quercus havardi. 3657

Toxicity of some goldenrods. 13605

TANYDERIDAE
Mouthparts of the biting and blood-sucking type in Tanyderidae and Chironomidae (Diptera). 6521

TARACTICUS
Generic and subfamily changes, new synonymy, new names, a new species, and notes on Asilidae (Diptera). 5521

TARASSOPHORUS
North American Tachinidae (Diptera). 6140

TARGHEE SHEEP
Ovine vibriosis in Ohio. 3261

TARTAR EMETIC
Antifertility effects of anthelminthics in insects. 7985

TARTARIC ACID
Toxicity of acetic acid to Cladosporium cucumerinum. 660

TASTE
Effects of some fungicides on the flavour of canned strawberries. 9019

Flavor evaluations of meat from Ruelene-treated animals. 11255

Taste preferences in rodenticide development. 13635

TASTE TESTING
Effects of some fungicides on the flavour of fruits and syrups. 10257

TATTER-LEAF (CITRANGE)
Symptoms associated with tatter-leaf virus infection of troyer citrange rootstocks. 130

TATTER-LEAF (CITRUS)
Symptoms associated with tatter-leaf virus infection of troyer citrange rootstocks. 130

New information on symptom effects and host range of the citrus tatter-leaf virus. 418

Dodder transmission of citrange stunt virus, a virus associated with tatter leaf of citrus. 6952

TAXATION
Field supervisor discusses some interpretations of wage-hour regulations pertaining to applicators. 5415

TAXODIACEAE
Observations on the larval habits of some Callidiini with special reference to Callidiellum cupressi (Van Dyke) (Coleoptera: Cerambycidae). 5851

TAXONOMY
Nomenclature of Empusa Cohn 1855 vs. Entomophthora Fresenius 1856. 8

The emerging classification of animal viruses- A review. 1912

Report of the committee on reporting of diseases and terminology. 5987

TBA- SODIUM, 2,3,6-

Effect of uredicspore concentration on determination of races of rust fungi. 6733

Physiological races of Albugo candida. 7731

Biosystematics of the Hesperocimax complex (Hemiptera' Dimicidae) and hosts (Picoformes' Picidae' Passeriformes' Hirundinidae). 7897

Subspeciation in Haemonchus contortus (Rudolphi, 1803) Nemata, Trichostrcgylcidea. 10255

On the taxonomy of certain entomogenous crystalliferous bacteria. 10584

The nomenclatorial history of Strongylosoma physkon Attems, 1898 (Diplopoda, Polydesmida, Paradoxosomatidae). 11501

TBA- SODIUM, 2,3,6-
The effects of MCPA and 2,3,6-TBA on glasshouse cucumbers. 4227

TBA, 2,3,6-
Longevity of amiben, atrazine, and 2,3,6-TBA in incubated soils. 5290

TBA, 2,3,6-
Effect of inhibitors and herbicides on tricarboxylic acid cycle substrate oxidation by isolated cucumber mitochondria. 5369

Characteristics and control of swainsonpea. 7130

Herbicide longevity in Nebraska soils. 12072

TC-90
Control of peanut leaf spot (Cercospora arachidicola Hori) by fungicidal sprays. 10729

TCNA
Three chemicals for control of Plasmodiophora brassicae. 9103

TDE
Section C: Pesticide residue content. 3687

Separation and measurement of perthane, DDD(TDE), and DDT in leafy vegetables by electron capture gas chromatography. 3694

Sensitivity tests for 22 different chlorinated organic pesticides by paper chromatography. 3813

Toxicity of TDE to different instars and strains of the red-banded leaf roller and the response of a TDE-RESISTANT strain to parathion and endrin. 4188

Studies of an integrated control system for hornworms on tobacco. 4468

Collaborative study of certain chlorinated organic pesticides in dairy products. 6298

Metals, other elements, and residues in foods. 6304

The quantitative analyses of microgram quantities of mixtures of DDD and p,p'DDT. 6327

Syntheses of the aliphatic deuterium analogs of DDT and TDE and their toxicity and degradation when applied to adult house flies. 6485

Absorption, metabolism and excretion of C14-labelled TDE in certain insects. 8007

Chemical and biological control to be combined at Clear Lake, Calif. 8177

Effect of insecticidal sprays on hornworms and on Apanteles congregatus. 8587

Black-headed fireworm of cranberry - a pest of the evergreen huckleberry in western Washington. 8611

Effect of insecticidal sprays on hornworms and on Apanteles congregatus. 8656

Identification of pesticide residues in extracts of fruit, vegetables and animal fats III. Metabolites of chlorinated hydrocarbon pesticides in animal depot-fat. 9

Separation and measurement of perthane, DDD (TDE) and DDT in leafy vegetables by electron-capture gas chromatography. 9

Pesticides. 10

The absorption, metabolism, and excretion of C14-labeled TDE in certain insects. 10

Metabolic products of p,p'-DDT in the rat. 11

Cigarette pesticide residues. 12

Corroborative study of certain chlorinated organic pesticides in dairy products. 12

Rhothane. in: Zweig, Analytical methods for pesticides plant growth regulators, and food additives. vol. ii. insecticides. 395 Z9. 12

DDT residues in Adelie penguins and a crabeater seal from Antarctica. 12

Low-volume aerial spraying of several insecticides for cotton-insect control. 12

Low-volume dusts for control of the cotton bollworm. 12

Anaerobic degradation of selected chlorinated hydrocarbon pesticides. 13

Note on the effect of sample moisture content on extraction of TDE from kale. 13

Distribution of p,p'-DDT residues in adipose and muscle tissues of beef cattle. 13

TEACHING
A review of problems in teaching tropical plant pathology. 14

TEATS
Open teat sinus surgery for correcting teat occlusions part II. 17

Open teat sinus surgery for correcting teat occlusions. 18

Four methods of udder hygiene evaluated by infection of the mammary gland. 30

The antistreptococcic activity of bovine teat canal keratin. 45

The reduction of the microflora of milking machine inflations by teat dipping and teat cup pasteurization. 49

A study of the effects of hormones and vitamin A on bovine teat canal in organ culture. 61

Ulceration of cow's teats caused by a virus. 74

TEETH
Abnormal pigmentation and fluorescence in canine teeth. 21

Odontoma associated with an undifferentiated carcinoma in the maxilla of a dog. 595

TEFLON
Teflon as a barrier to insects. 957

TELDENIA
A taxonomic revision of the genus Teldenia Moore (Lepidoptera: Drepanidae, Drepaninae). 1300

TELEA
Pupal escape mechanism of certain Saturniid moths. 406

TELEOGRYLLUS COMMODUS
The influence of diapause on the resistance to desiccation of eggs of Teleogryllus commodus _Walk.) _Orthoptera, Gryllidae). 562

LEONEMIA
A new lacebug from Haiti (Hemiptera: Tingidae). 5855

LEONEMIA SCROFULOSA
The entomological control of weeds in Australia. 5912

LICSPORES
Studies on the germination and metabolism of teliospores of Ustilago maydis. 2391

Field disease cycle of peppermint rust. 6773

The haploid behavior of Urocystis colchici teliospores. 7725

LODRIN
Uptake of Telodrin by fall armyworm larvae exposed to residues. 619

Laboratory screening of insecticides for the prevention of reproduction of Boophilus ticks on cattle. 8928

Residues of heptachlor epoxide and Telodrin in milk from cows fed at parts-per-billion levels of insecticides. 9017

LONE
Effectiveness of application methods with several nematocides for control of root-knot nematode. 1641

Temperature and moisture in relation to the toxicity of 1,3-dichloropropene to Ditylenchus dipsaci in organic soil. 8054

Control of verticillium wilt. 8212

Effects of telone on nitrogen transformations and on growth of celery in an organic soil. 8397

Control of the garden symphylid in the Pacific Northwest. 8630

Control of stubby root nematode, Trichodorus allius, in onions. 8632

Yield response of brussel sprouts to soil fumigation for control of sugar-beet nematode, Heterodera schachtii. 10999

Soil treatments for the control of root-lesion nematode (Pratylenchus penetrans) on Easter lily. 11952

MABIL
Use of trimeprazine in dogs and cats. 4654

MIK
Potato psyllid and green peach aphid control on Kennebec potatoes with Temik and other insectisides. 467

Populations of arthropod predators and Heliothis spp after applications of systemic insecticides to cotton. 8092

Degradation and elimination of temik in rats. 9063

Systemic insecticides for control of boll weevil and the cotton fleahopper. 9990

Metabolism of 2-methyl-2-(methylthio)propionaldehyde O-(methylcarbamoyl)oxime (Temik, UC-21149) in insects. 13016

Field evaluation of Temik against some insects and mites attacking citrus. 13305

Control of pink bollworm larvae with soil-applied insecticides. 13378

Fate of 2-methyl-2-(methylthio)propion aldehyde O-(methylcarbamoyl)oxime (Temik) in cotton plants and soil. 13535

Spectrophotometric determination of Temik residues in citrus. 13556

EMPERATURE
Development of several predaceous Hemiptera in relation to temperature. 20

The effect of temperature upon larval mortality of the armyworm, Pseudaletia unipuncta (Haworth). 60

Effect of temperature on certain stages of the face fly. 84

Effect of postinoculation temperature on crown gall development of cherry. 156

Effect of temperature on development of oospores by Phytophthora phaseoli Thaxt. on lima bean seedlings. 165

Apple scab IV effect of temperature and relative humidity on the viability of conidia of Venturia inaequalis. 204

Effects of four temperatures on the pathogenicity of nine species of fungi on white clover. 275

Virus multiplication and the synergistic response in tomato as modified by host resistance and temperature. 301

Relationship of winter temperatures to the dissemination of internal cork virus in North Carolina. 308

Effectiveness of 2,6-dichloro-4-nitroaniline on development of Rhizopus rot of peach fruits at various temperatures. 314

Time, temperature, humidity, and primary infection of Erysiphe graminis tritici E. Marchal. 359

Effect of temperature extremes on the wheat seed gall nematode, Anguina tritici. 476

Toxicity of a resin formulation of dichlorvos to flies and aphids at various temperatures and humidities. 661

Germination and spring emergence of dodder as influenced by temperature. 667

Low temperature selection of isolates of Puccinia graminis var. tritici. 693

The influence of temperature and light on formation and germination of oospores of Phytophthora infestans. 717

Time-temperature interactions of Uromyces phaseoli during spore germination and tube elongation. 725

Effects and interactions of varied levels of temperature, amino acids, and a vitamin on the rate of larval development in the fly Pseudosarcophaga affinis. 854

The need for direct observation of behaviour in studies of temperature effects on light reactions. 866

The effect of temperature, anoxia, or injection of various substances on haemolymph composition and super cooling in larvae of Anagasta kuehniella (Zell.). 885

Colonization of lima bean plants by Phytophthora phaseoli as affected by temperature and age of plants. 982

Effect and interaction of temperature and host genes on growth and pathogenicity of Glomerella cingulata on Lupinus angustifolius. 998

Temperature effects on host predisposition and development of blackspot. 1001

The relation of plant maturity, temperature, and soil moisture to charcoal stalk rot development in grain sorghum. 1062

The effect of temperature on crown rust reactions. 1083

l-proline and l-alanine as substitutes for higher temperatures in the germination of fungus spores. 1097

Influence of moisture content, temperature, and time of storage upon survival of certain microflora in barley kernels. 1101

The effect of temperature on multiplication and movement of cabbage virus A in Nicotinia glutinosa L. 1122

Effects of preinoculation and postinoculation host temperatures on infection of wheat seedlings by Puccinia striiformis. 1131

Effects of temperature, soil moisture, and time of inoculation on symptom development of sorghum charcoal rot. 1142

The relationship between severity of anthracnose of sycamore and temperature. 1157

Time-temperature relationships in thermal inactivation of sclerotia of Macrophomina phaseoli. 1367

Influence of temperature, humidity, and inoculum concentration on development of Helminthosporium sativum and Septoria passerinii in excised barley leaves. 1430

Temperature in relation to loose smut in barley and wheat. 1519

Effects of temperature on covered smut expression in two barley varieties. 1555

Influence of soil-oxygen diffusion rates and temperature on the citrus nematode and sweet orange seedlings. 1612

Treatment of propagating stock with chemicals at different temperatures for root-knot control. 1630

Effect of temperature on growth of root-knot nematodes in soybeans and tobacco. 1645

Lethal time-temperature relation for Heterodera glycines. 1647

Effect of temperature on resistance of alfalfa to the stem nematode (Ditylenchus dipsaci). 1652

Effects of water evaporation, temperature and rates of application on the retention of ethyl-N,N-di-n-propylthiol carbamate in various soils. 2332

The influence of temperature on the germination of wild oat seeds. 2397

In vitro hatching of Meloidogyne hapla eggs as affected by temperature, moisture, and age of egg mass. 2431

The role of photoperiod and temperature in the determination of parthenogenetic and sexual forms in the aphid Megoura viciae Buckton. III. Further properties of the material switching mechanisms in apterous aphids. 2583

The effect of temperature on the growth and chemical composition of the mosquito. 2609

Water loss from aphids at moderate temperatures. 2630

The effect of temperature on heart-beat frequency in the cockroach, Periplaneta americana. 2651

The rate of sperm locomotion in the cockroach as a function of temperature. 2652

Effects of light intensity and temperature on the growth of waterstargrass, coontail, and duckweed. 2812

Dormancy and viability of witchweed seeds as affected by temperature and relative humidity during storage. 2816

Effect of sodium chloride and storage temperature on the growth of Salmonella oranienburg in egg yolk. 3296

The effect of season on fertility of the dairy bull and the dairy cow. 3322

Ineffective stability of foot-and-mouth disease virus in certain mediums at various temperatures. 3355

Environmental studies in pig housing V. The effect of housing on the degree and incidence of pneumonia in bacon pigs. 3548

Environmental studies in pig housing IV. The bacterial content of air in piggeries and its influence on disease incidence. 3552

Studies on insect infestations in the machinery of three english flour mills in relation to seasonal temperature changes. 3661

Determination of malathion in formulations. 3754

Effects of temperature and photoperiod on voltinism of geographical populations of the european corn borer, Pyrausta nubilalis. 3875

Responses of the alfalfa weevil, Hypera postica, to controlled environments. 3938

Relation of temperature for hatching to elimination of diapause in eggs of the pale western cutworm, Agrotis orthogonia Morrison (Lepidoptera: Noctuidae). 4

Predicting moth flight and oviposition of European corn borer by the use of temperature accumulations. 4

Effect of light on the temperature preferendum of larvae of the Mexican bean beetle, Epilachna varivestis. 4

Further studies on the relationship between parental age and the life cycle of the mealworm, Tenebrio molitor. 4

Development of the European corn borer at controlled constant and variable temperatures. 4

Mass-rearing the cabbage looper, Trichoplusia ni, with notes on its biology in the laboratory. 4

Controlling fluctuations of duration of developmental perio in Drosophila. 4

Effect of temperature on the rate of development of Lygus lineolaris (Hemiptera: Miridae). 4

Some factors affecting pupation site of Drosophila. 4

Carbon disulfide effectiveness on flour beetles in relation to temperature and exposure time. 4

Environmental studies in pig-housing. I. Air velocity. 4

Environmental studies in pig housing. II. Ventilation and its measurement. 4

Thermal stability of egg-adapted canine distemper virus. 4

The effect of controlled temperature and humidity on the residual life of certain insecticides. 5

Effect of temperature and humidity on Trogoderma anthrenoides (sharp) (coleoptera, dermestidae) and comparisons with related species. 5

Temperature and the action of DDT on the cockroach nervous system. 5

Temperature effects on the immature stages of Hippelates pusio, H. bishoppi, and H. pallipes (Diptera, Chloropidae). 5

The effect of temperature on the development of two species of oribatid mites (Acarina: Oribatei). 5

The effect of temperature on crossvein formation in crossveinless-like strains of Drosophila melanogaster (Meigen). 5

Temperature as a factor in the control of tomato root knot with oat straw. 5

Tolerance of Pseudomonas glycinea to freezing temperatures. 5

Effects of soil temperature and moisture on Tylenchulus semipenitrans. 5

Effect of ventilation rate on the response of chicks inoculated with infectious bronchitis virus and housed at 49 degrees F. 6

Nitrogen activity index of urea-formaldehyde compounds. 6

Effect of temperature on the susceptibility of grubs of Trogoderma granarium Everts to pyrethrins. 6

The response to temperature of cabbage virus A infection in Nicotiana glutinosa. 6

Spring black stem of alfalfa in relation to temperature, moisture, wounding, and nutrients and some observations on pathogen dissemination. 6

Effects of rapid cooling to subzero temperatures on Meloidogyne hapla and M. incognita. 6

Effects of various diurnal temperature profiles on host-

parasite reaction of wheat varieties and Puccinia striiformis. 6903

Inhibition of fungi by culture media previously exposed to light. 6954

Release of inhibited tobacco mosaic virus (TMV) infection by ultraviolet irradation as affected by time and temperature after inoculation. 6971

Effects of low temperature on the survival of the alfalfa weevil from Alberta and Utah. 7047

Effect of temperature and humidity on the fecundity and development of Cadra cautella Wlk. in wheat. 7071

A study of factors influencing the effectiveness of diquat (10l'-ethylene-202'-dipyridylium dibromide) for potato vine killing. 7127

Factors affecting invasion of grains and seeds by Aspergillus flavus and effects of the fungus on germination of the seeds. 7644

Influence of grain moisture and storage temperature on the effectiveness of malathion as a grain protectant. 7649

Effects of relative humidity and temperature on the degradation of peanut sugar and oil by Aspergillus flavus. 7714

Duration of development, generation time, and longevity of three hymenopterous parasites of therioaphis maculata, reared at various constant temperatures. 7811

A constant-temperature mosquito-rearing apparatus. 7889

Effects of low temperatures on the eggs of the Angoumois grain moth, and the confused flour beetle. 7953

Chemical composition, environmental conditions and body weight as related to endrin tolerance in the boll weevil. 7956

Influence of certain biological and environmental factors on insecticide tolerance of the lygus bug Lygus hesperus. 7958

Effects of temperature and parental age on the life cycle of the body louse, Pediculus humanus humanus. 8003

Laboratory studies on the adult behavior of Conophthorus coniperdus (Coleoptera' Scolytidae). IV. Responses to temperature and humidity. 8022

Response of quiescent khapra beetle larvae to fumigation and to low temperatures. 8055

Flight exhaustion studies on the blow fly, Phaenica sericata using c14-labeled sucrose. 8142

Effect of certain temperatures and seed treatments on emergence and terminal breakdown of cotton seedlings. 8241

Effects of light, temperature, and relative humidity on the diel behavior of the alfalfa weevil, Hypera postica. 8553

Relation of moisture content and temperature of stored grain to the effectiveness of grain fumigants under forced circulation. 8971

Custom grinding service utilizes heated air. 9249

Population studies of the spotted alfalfa aphid in Arizona in relation to temperature and rainfall. 9344

Weight and development time of different stadia of mosquitoes reared at various constant temperatures. 9464

Diapause in the cabbage maggot, Hylemya brassicae (Diptera0 Anthomyiidae). 9530

Association of subzero temperatures, snow cover, and winter mortality of grasshopper eggs in Saskatchewan. 9547

Low temperature tolerance of some insects. 9550

Interaction of temperature and photoperiod in the induction of prolonged diapause in Necdiprion sertifer. 9560

The effect of high temperature and high relative humidity on the viability of the conidia of Venturia inaequalis on naturally infected apple leaves. 9714

Minimum values of dew period and temperature required for infection by Piricularia oryzae. 9732

Effects of temperature on Dibotryon morbosum ascospore germination. 9749

Effect of temperature and organic fungicides on growth of three isolates of Rhizoctonia solani in vitro. 9834

Influence of environmental conditions on the development of yellow spot disease in cress (Nasturtium officinale, R. BR). 9842

The effects of humidity and temperature on Phytophthora blight of taro. 9921

The effects of temperature and leaf age on the development of lesions caused by Peronospora manshurica on soybeans. 9952

Atmospheric gas alteration and insect control in peanuts stored at various temperatures in hermetically sealed containers. 10271

Effects of temperature and relative humidity on germination of Rhizopus stolonifer and Monilinia fructicola spores. 10339

Effects of humidity and temperature on zoosporangia production and germination of Phytophthora colocasiae. 10362

Analysis of pesticide residues using microcoulometric temperature-programmed gas chromatography. 10418

Mass rearing of root maggots under controlled environmental conditions: seed-corn maggot, Hylema cilicrura; bean speed fly, H. liturata; Euxesta notata; and Chaetopsis sp. 10482

The effect of temperature, humidity and quality of food on the development and diapause of Trogoderma parabile Beal. 10540

The effect of humidity and temperature on the extent of abdominal pigmentation in Glossina pallidipes Austen. 10542

The influence of rhythmically fluctuating temperatures on the development and reproduction of the spotted alfalfa aphid, Therioaphis maculata. 10618

Honey bee colony defense at low temperatures. 10623

Effects of temperature and length of acquisition feeding time on transmission of nonpersistent viruses by aphids. 10655

Notes on the effect of preconditioning confused flour beetles with temperature variations of carbon dioxide prior to gamma irradiation. 10665

The effect of air temperature on multiplication of tobacco mosaic virus in susceptible and resistant pepper. 10852

The effects of grain moisture content, grain temperature, and dockage on the penetration of hydrogen cyanide. 11130

Influence of variety, cultural conditions and temperature of storage on enzymic browning of potato tubers. 11383

Seasonal abundance of the cabbage looper as related to light trap collections, precipitation, temperature and the incidence of a nuclear polyhedrosis virus. 11492

Eggs of floodwater mosquitoes. VIII. Effect of serial temperatures on conditioning of eggs of Aedes stimultans Walker (Diptera: Culicidae). 11494

The effects of various foods and temperatures on sexual maturity of the drone honey bee (Apis mellifera). 11500

Time, temperature and dosage relationships of several insecticidal fumigants. 11599

Rotation of male terminalia in Aedes taeniorhynchus (Diptera: Culicidae) as affected by temperature. 11636

The induction of emergence in the leaf-cutter bee Megachile rotundata, an important pollinator of alfalfa. 11647

TEMPERATURE GRADIENTS

The effect of temperature and photoperiod on blood-feeding and ovarian development in mosquitoes of the Culex pipiens complex. 11674

Some effects of temperature and photoperiod on the biting behavior of Culex. (Abstract). 11690

The effect of temperature and relative humidity on longevity of Trichometasphaeria turcica. 11837

Environmental relationships in the powdery mildews. 11843

Influence of temperature, photoperiod, and nutrition on reproduction, male-female juvenile ratio, and root to soil migration of Pratylenchus penetrans. 11956

Effect of temperature on response of chicks to methionine imbalance. 12008

Effect of high temperature cooking on chlorinated insecticide residues in chicken tissues. 12040

Effect of minus 29 degrees F on overwintering populations of the balsam woolly aphid in North Carolina. 12308

Factors influencing the response of Ips confusus (Coleoptera: Scolytidae) to male attractant. 12316

Cold-hardiness of Empoasca fabae and some related species. 12329

Experimental induction and elimination of adult diapause and autumnal coloration in Chrysopa carnea (Neuroptera). 12360

Effect of temperature and relative humidity on hatching of eggs and on longevity of adults of Aedes vexans (Meigen). (abstract). 12390

Effect of temperature and length of incubation on symptom development of Lambert mottle of sweet cherries. 12412

Some uredospore characteristics of importance in experimental epidemiology. 12418

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 12548

Effect of incubation temperature and serum content in agar overlay on plaque production by foot-and-mouth disease virus. 12579

Climate and potential range of distribution of stored-product mites in Japan. 12788

Intersexuality in mosquitoes. (Abstract). 13015

Characteristics of phenol oxidases in Hormoniella vitripennis (Walker). 13043

Non-dependence of the saturation of depot fat on temperature and photoperiod in a hibernating mosquito. 13050

Effects of temperature on survival and development of the larch sawfly. (Abstract). 13057

Effect of temperature on the degree of intersexuality in Lymantria dispar L. 13151

Influence of environmental temperatures on metabolic alterations related to disease resistance in sweet potato roots infected by black rot. 13201

The effect of favorable periods for infection on development of stem rust in field plots of wheat. (abstract). 13244

Influence of some environmental factors on the susceptibility of Pisum sativum to Botrytis cinerea. 13289

TEMPERATURE GRADIENTS

Some effects of temperature on the development and activity of Haemonchus contortus larvae. 4685

Circulation of water in soil under a temperature gradient. 12289

TENAGOGONUS

A new species of Tenagogonus from the Fiji Islands (Gerridae: Heteroptera). 3931

TENDIPES

Predation by the leech Helobdella nepheloidea on larvae of Tendipes plumosus (Diptera' Tendipedidae). 80

An evaluation of the bottom fauna and its role as fish food in Fern Lake, Washington. 122

TENEBRIO

Further studies on the relationship between parental age and the life cycle of the mealworm, Tenebrio molitor. 41

Toxicity of hydrogen phosphide to the granary weevil, Sitophilus granarius, and other insects. 41

'Correcting' behavior by insects on vertical and horizontal mazes. 55

The suitability of tobaccos for the growth of the cigarette beetle, Lasioderma serricorne. 70

Changes
homogenates of the yellow mealworm, Tenebrio molitor, during aging. 80

Metabolism in the yellow mealworm, Tenerrid molitor (Coleoptera: Tenebrionidae), following exposure to radiofrequency electric fields. 115

Effects of parental age on offspring from isolated pairs of the mealworm Tenebrius molitor. 116

TENEBRIO MOLITOR

Mortality and internal heating in radiofrequency-treated larvae of Tenebrio molitor. 56

Morphological abnormalities resulting from radiofrequency treatment of larvae of Tenebrio molitor. 56

Experimental study of development in the male reproductive system of Tenebrio molitor (Coleoptera, Tenebrionidae). 130

Cortisol and growth in insects. 130

Factors affecting the resistance of insect eggs to sulphuryl fluoride. i. the uptake of sulphuryl-35S fluoride by insect eggs. 131

TENEBRIONIDAE

Discrimination between the pupae of Tribolium confusum Duv. and T. castaneum (Hbst.) (Coleoptera: Tenebrionidae). 392

Laboratory studies on dispersion behavior of adult beetles in grain. VII. the effect of isolated pockets of damp and moldy grain on Tribolium castaneum (hbst.) (coleoptera, tenebrionidae). 626

Identification of Tribolium larvae by their setal characteristics (Coleoptera' Tenebrionidae). 802

Optic organs of Tribolium confusum and T. castaneum and their usefulness in age determination (Coleoptera: Tenebrionidae). 1166

Notes on the systematics and distribution of some Tribolium species (Coleoptera: Tenebrionidae). 1295

Experimental study of development in the male reproductive system of Tenebrio molitor (Coleoptera, Tenebrionidae). 1306

TENEBROIDES

Toxicity of hydrogen phosphide to the granary weevil, Sitophilus granarius, and other insects. 413

The toxicity of various fumigants to the cadelle, Tenebroides mauritanicus. 1156

TENESMUS

Artificial pneumoperitoneum for treating tenesmus. 473

TENNESSEE

The occurrence of Phytophthora cinnamomi in Kentucky, North Carolina, Tennessee, and Virginia. 13

Distribution of race 1 of Phytophthora parasitica var. 968

NSION
Water tensions in plants, an entomological approach. 7037

NTHREDINIDAE
A substance in some commercial preparations of Bacillus thuringiensis var. thuringiensis toxic to sawfly larvae. 6631

Notes on the biology, parasites, and inquilines of Pontania pacifica (Hymenoptera' Tenthredinidae), a leaf-gall incitant on Salix lasiolepis. 7948

Hymenoptera Tenthredinoidea of the Seine-et-Oise. interesting captures and collecting notes. 12965

NTHRIDINIDAE
Study of the poplar sawfly, Trichiocampus viminalis (Fall.) (Hymenoptera' Tenthridinidae). 7780

Siobla sturmii (Klug), a sawfly new for the Netherlands' fauna (Hym., Tenthr). 11522

NUIPALPUS
New Tenuipalpidae (false spider mites) from British Guiana with notes on four described species. 4312

PA
Effects of hempa on the ovarian development of the house fly, Musca domestica (Diptera' Muscidae). 8077

New approach to insect control reported at Alabama pesticide meeting. 8581

Sterilization of the face fly, Musca autumnalis with Apholate and Tepa. 9448

Quantitative effects of Tepa, Metepa and Apholate on sterilization of male houseflies. 9462

Persistence of tepa in fall armyworm moths. 9473

More efficient than killing. 10583

Effectiveness of tepa-sterilized Mexican fruit flies released in a mango grove. 10979

Chemosterilization of adult horn flies. 11283

Studies with three alkylating agents as house fly sterilants. 11604

Resistance in Aedes aegypti to chemosterilants. effect of apholate selection on resistance to apholate, tepa, and metepa. 12368

Chemosterilization of male European corn borers by feeding of tepa and apholate to larvae. 12488

PHRITIDAE
Gas chromatographic analysis of insect attractants: trimedlure, siglure, butyl sorbate, cue-lure, methyleugenol. 3772

Paraterellia, a new genus of Tephritidae from the Western United States (Diptera). 3913

A new North American fruit fly genus, Procecidocharoides (Diptera: Teparitidae). 3914

A rapid method for identifying dye-marked fruit flies. 4157

Insect sterilization technique. 4190

Notes on the genus Euleia walker in North America (Diptera: Tephritidae). 5473

A method of releasing sterile Mediterranean fruit fly adults from aircraft. 8079

An improved trap for deciduous tree fruit flies. 9275

Fruit fly trapping in Fiji. 10485

The genus Trypeta Meigen in America north of Mexico (Diptera, Tephritidae). 11481

A new species of Dacinae (Diptera: Trypetidae) from Queensland. 11513

Laboratory observations on the mating behaviour of the island fly Rioxa pornia (Diptera: Tephritidae). 11635

New host records for North American fruit flies (Diptera: Tephritidae). 13357

TEPHRITIS
The types of North American Tephritidae in the Snow museum, the University of Kansas (Diptera). 3915

A study of the types of Tephritidae described by F. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

The genus Tephritislatrielle in the nearctic region north of Mexico: descriptions of four new species and notes on others (Diptera: Tephritidae). 5475

Notes on the Walker types of New World Tephritidae (Diptera). 5476

TEPHROSIA VOGELII
Phytophthora wilt of Tephrosia vogelii in Puerto Rico. 10862

TEPP
Influence of anesthesia on the toxicity of tepp and SD-3562. 11254

TEREPHTHALIC ACID
The influence of dietary calcium-phosphorus and terephthalic acid on antibiotic control of experimental infectious synovitis. 1945

Effect of calcium level, oxytetracycline and terephthalic acid upon the performance of growing pigs. 2880

The influence of antibiotics on the hemagglutination inhibition antibody titers of chickens with chronic respiratory disease. 3216

Chlortetracycline and oxytetracycline residues in poultry tissues and eggs. 5920

Interrelationships between antibiotics and terephthalic acid in diets for laying hens. 6164

Potentiation of chlortetracycline in laying chickens. 7140

Potentiation of terramycin I. Evaluation of terephthalic acid and low dietary calcium in broiler diets. in broiler diets. 8715

Effect of terephthalic acid on the activity of chlortetracycline and oxytetracycline. 8888

TERIOAPHIS
A biotype of the spotted alfalfa aphid on alfalfa. 7046

TERMITES
Apparent infection of subterranean termites by Aspergillus flavus Link. 17

Subterranean termites and Absidia coerulea Bainier (Mucorales). 55

An investigation of chitinase activity in cockroach and termite extracts. 2587

Angelothrombium pandorae N. G., n. sp. (Acari, Trombidiidae), and notes on the biology of the giant red velvet mites. 3959

Concrete-insecticide mixtures toxic to termites. 5277

A new phytophagous termite from Saudi Arabia. 5487

Pathogenicity of externally occurring fungi to Reticulitermes flavipes. 6634

Fumigation of buildings to control the dry-wood termite, Cryptotermes brevis. 7646

Phylogeny of the new termite genus Terrenitermes from Hispaniola (Isoptera' Termitidae' Nasutitermitinae). 7909

A study of termite feeding relationships, using radioisotopes. 8065

Fumigation of buildings to control the dry-wood termite, Cryptotermes brevis. 9391

TERMITOGASTRINA

The nutritional requirements of termites in axenic cultures. 2. Studies on the effectiveness of antibiotics in the sterilization of workers of Reticulitermes flavipes. 9484

Thin-walled sensory pegs on the antenna of the termite worker, Reticulitermes flavipes. 9554

Kalotermes approximatus Snyder infests roseaceous trees (Iscptera: Kalotermitidae). 9914

Toxicity of dieldrin-concrete mixtures to termites. 11232

Preference for wood of different degrees of dampness in some termites from Cuba (Isoptera). 13497

TERMITOGASTRINA
New termitophilous Staphylinidae of zoogeographic significance (Colecptera). 3983

TERMITOMA
New termitophilous Staphylinidae of zoogeographic significance (Colecptera). 3983

TERMITOPTOCHUS
New termitophilous Staphylinidae of zoogeographic significance (Coleoptera). 3983

TERPENES
Cotton leaf perforator and its control in Arizona. 8590

Investigations on the reaction of Ips sexdentatus Boerner to the terpene fumes of various conifers. 9466

TERRENITERMES
Phylogeny of the new termite genus Terrenitermes from Hispaniola (Isoptera' Termitidae' Nasutitermitinae). 7909

TERRITORIALITY
Territorialism and residentiality in a dragon fly, Orthetru albistylum speciosum Uhler (odonata: anisoptera). 4074

TERT-BUTYL 4-CHLORO-2-METHYLCYCLOHEXANECARBOXYLATE
New approved common names of insecticides. 7905

TERT-BUTYLAMINE
Control of Penicillium decay of oranges with certain volatile aliphatic amines. 6741

TESCHEN DISEASE
Encephalomyelitis of swine caused by a haemagglutinating virus. III. Serological studies. 1936

Encephalomyelitis of swine caused by a haemagglutinating virus. II.- VIROLOGICAL studies. 3088

Encephalomyelitis of swine caused by a haemagglutinating virus. I.-Case histories. 3092

Viral encephalomyelitis of swine in ontario - Experimental and natural transmission. 3279

The study of some viral infections of swine by means of the agar double-diffusion precipitation reaction. 4633

Studies on pathogenic porcine enteroviruses. II. Isolation of virus in tissue culture from brain and feces of clinical cases. 4775

Tissue culture studies and electron microscopy of the virus of Teschen disease. 4779

Polioencephalomyelitis of pigs--the identification of viruses related to the Teschen and TBO groups in the United States. 4817

Porcine polioencephalomyelitis. 4818

Encephalomyelitis of pigs produced experimentally by a porcine enterovirus. 5065

A viral encephalomyelitis of pigs, further studies on the transmittability of the disease in Ontario. 6146

Viral encephalomyelitis of pigs. A preliminary report on the transmissibility and pathology of a disease observed in Ontario. 10217

TESCHEN DISEASE VIRUS
Experimental disease produced in pigs following infection with Konratice and Talfan strains of the Teschen group of viruses. 41

The neutralisation of four strains of Teschen virus by the sera of pigs infected with the Talfan strain. 41

Studies on enterovirus of swine. Isolation in tissue culture of a strain (PS55) of the teschen group of viruses. 59

Viability of Teschen Disease virus. 101

TEST STANDARDIZATION
Conditions influencing virus-neutralization tests for infectious canine hepatitis antibody. 46

TESTES
Determination of nucleic acids in the testes of three cockroach species. 41

Serial cultures of lamb testicular cells and their use in virus studies. 47

Neoplasms of dogs. 50

Correlation of testis development with external growth in the Madeira cockroach (Orthoptera: Blattidae). 55

A mycoplasma associated with ovine orchitis. 126

Histological studies of tests in rats treated with certain insect chemosterilants. 135

TESTICULAR TUMORS
Seminoma in the stallion. A clinical, cytological and pathologicoanatomical investigation. 48

TESTUDO
Some host relationships of the tortoise tick, Hyalomma (Hyalommasta) aegyptium (L.) (Ixodoidea, Ixodidae) in Turkey. 39

TETRANOPS
Effect of insecticide fertilizer mixtures and seed treatments on emergence of sugar beet seedlings. 428

Effect of insecticides on emergence of sugar-beet seedlings and on control of the sugar-beet root maggot. 434

Insecticidal control of the sugar-beet root maggot and yield of sugar beets. 1189

TETRANOPS MYOPAEFORMIS
Preliminary evaluation of soil insecticide for sugar-beet root maggot control. 1251

Evaluation of insecticides for control of the sugar-beet maggot in Manitoba. 1329

TETANUS
Tetanus in cattle. 493

TETANUS ANTITOXIN
Tetanus in cattle. 493

TETANY
Hypocalcemic tetany in the dog. 500

Hypomagnesaemia in sheep- some inconsistencies. 604

Hypomagnesaemic tetany in cattle. i. incidence, aetiology, diagnosis and treatment. 1257

TETRACHLORO-2,2-BIS(PARA-CHLOROPHENYL)ETHANE, 1,1,1,2-
The apparent binding of dDT to tissue components. 1358

TETRACHLOROETHYL ALLYLCARBAMATE, 1,2,2,2-
Herbicidal compositions. 916

TETRACHLOROETHYL DIALLYLCARBAMATE, 1,2,2,2-
Herbicidal compositions. 916

TETRACHLOROISOPHTHALONITRILE
Control of late blight of potatoes. 574

The usefulness of tetrachloroisophthalonitrile and tetrachloronitroanisole for control of Helminthosporium and rust diseases of Kentucky bluegrass. 1070

TRACHLORONITROANISOLE
Comparative effectiveness of seed-treatment chemicals against flag smut of wheat. 338

Tetrachloronitroanisole, a new wheat smut fungicide. 340

Effects of chemicals and cultural practices on control of Plasmodiphora brassicae Wor. (clubroot). 8274

Control of flag smut, due to Urocystis agropyri, of wheat with seed-treatment chemicals. 8370

The usefulness of tetrachloroisophthalonitrile and tetrachloronitroanisole for control of Helminthosporium and rust diseases of Kentucky bluegrass. 10701

TRACHLORONITROANISOLE,2,3,5,6-
Emate southern blight. 8356

TRACHLOROPHENYLACETIC ACID
Herbicidal compositions containing polychlorophenylacetic acids and salts thereof. 9189

TRACHLOROTETRAHYDROTHIOPHEN-1,1-DIOXIDE, 3,3,4,4-
Effect of fungicides on respiration of three species of soil fungi. 9113

TRACHLOROTETRAHYDROTHIOPHEN 1,1-DIOXIDE, 3,3,4,4-
Verticillum wilt of strawberries made worse by soil fungicides that stimulate meadow nematode populations. 8232

TRACHLOROTETRAHYDROTHIOPHEN-1,1-DIOXIDE, 3,3,4,4-
Method for evaluating fungicides. 8393

Evaluation of soil fungicides against Fusarium solani isolated from feeder roots of citrus trees. 9638

TRACYCLINE
Zoonotic aspects of vibriosis. 1849

Generalized staphylococcic infection in a monkey. 1910

Antibiotics to sows and gilts improves litters. 1990

Penicillin-resistant staphylococci common in dogs. 1992

Association of pleuropneumonia-like organisms with polyserositis in adult swine. 3295

Effect of certain antibiotics and other compounds on the two-spotted spider mite. 4345

Q fever and leptospirosis. 4568

Bovine anaplasmosis: its diagnosis, treatment and control. 4838

Experiences of infectious synovitis in broiler breeding stock and broiler chickens, with particular reference to the natural spread of the disease. 6041

Salmonella resistance increases. 7424

Potentiation of terramycin II. Evaluation of low dietary calcium in laying hen diets. 8903

The effectiveness of several tetracyclines in the control of an experimental PPLO (Mycoplasma gallisepticum) infection in chickens. 8912

Antibiotics in the control of plant diseases. 9607

Microbiological activity of certain saturated and unsaturated fatty acid salts of tetradecylamine and related compounds. 10395

Anatomopathological study of lesions caused by intramuscular injection of hydrochloride and phosphate complex of tetracycline. 13582

TRACYCLINES
Anti-microbial therapeutics consisting of nitrofurantoin, tetracycline, and D-glucosamine. patent 3,328,258. 12864

TRADIFON
Value of new and old chemicals reviewed for washington fruit growers. 2734

Proper application methods stressed for effective control of fruit tree pests. 2842

Microcoulometric gas chromatographic determination of Thiodan and Tedion in green vegetables. 3809

The effect of Tedion on the eggs and larvae of three strains of the two-spotted spider mite, Tetranychus telarius. 4063

Effects of preblossom miticides and subsequent insecticide applications on mite populations on apple in Wisconsin. 4122

Methods delaying selection of acaricide resistant strains of the European red mite. 4183

Studies of the eggs of a strain of two-spotted spider mite, Tetranychus telarius, resistant to parathion. 4282

Control of insects and mites attacking mint in central washington. 4329

The effect of clean culture and early spring acaracide treatments on overwintering spider mite populations in outdoor rose plots. 4353

Tedion use approved on eleven deciduous fruits. 4540

Evaluation of chemicals for control of a spider mite complex on cherry and peach. 7003

Citrus red mites resistant to demeton and ovex and their response to Tedion and Kelthane. 7040

Comparative acaricidal activity of tedion, ovex, and chlorbenside against two strains of the two-spotted spider mite. 8152

Three plans for using acaricides to control mites on apple. 8417

Control of Oligonychus pratensis attacking winter wheat in western Kansas. 8452

Evaluation of chemicals for control of a spider mite complex on cherry and peach. 8479

Comparative acaricidal activity of Tedion, Ovex and chlorbenside against two strains of two-spotted spider mite. 8495

Combinations of acaricides with complementary activity. 8497

Combinations of acaricides with complementary activity. 8498

New compounds hold promise for control of orchard pests. 8537

New mite weapon is emulsion form of established chemical. 10977

Tedion. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. ii. insecticides. 395 Z9. 12096

TETRAETHOXYPROPANE
Acute toxicity of malonaldehyde. 11264

TETRAETHYL PYROPHOSPHATE
Some chemical characteristics of a DDT- induced neuroactive substance from cockroaches and crayfish. 8019

TETRAETHYLTHIONOPHOSPHORIC ACID SULPHOXIDE
Production of thionophosphoric acid esters. 10390

TETRAFLUOROTEREPHTHALONITRILE
Method for evaluating fungicides. 8393

TETRAHALOCYCLOPENTADIENYLDIAMINES
Method of controlling microbes by means of tetrahalocyclopentadienyldiamines. patent 3,341,405. 13680

TETRAHYDRO-1-NAPHTHYL-N-METHYL CARBAMATE, 5,6,7,8-
Method of killing insects with 5,6,7,8-tetrahydro-1-naphthyl-N-methyl-carbamate. patent 3,341,404. 12901

TETRAHYDROFURFURAL, 2,3,4,5-BIS(DELTA2-BUTENYLENE)

TETRAHYDROFURFURAL, 2,3,4,5-BIS(DELTA2-BUTENYLENE)
New techniques for screening cockroach repellents. 9260

TETRAHYMENA
Tetrahymena sp. parasitic in the larvae of Chilo zonellus (Swinhoe). 6636

TETRALOPHA
The biology of the pine webworm, Tetralopha robustella, in Wisconsin. 7116

TETRAM
Hazards associated with the implantation of Tetram into elm trees for Dutch elm disease control. 4250

TETRAMESA BOSSOI
Research of Hymenoptera Chalcidoidea. iII. a new species of the genus Tetramesa Walk. (Hym. Eurytomidae). 12997

TETRAMETHYL PYROPHOSPHATE
Some chemical characteristics of a DDT- induced neuroactive substance from cockroaches and crayfish. 8019

TETRAMIC ACID
Method of inhibiting bacteria with tetramic acid and derivatives thereof. patent 3,361,626. 12878

TETRANCEIUM
Pavement ant attacking sugar beets in California. 4373

TETRANYCHIDAE
The relationship of spider mite infestation in cotton to early season use of insecticides. 4026

The toxicity of some phosphorothioic acid esters to the two-spotted spider mite. 4029

The effect of Tedion on the eggs and larvae of three strains of the two-spotted spider mite, Tetranychus telarius. 4063

Effect of captan upon reproduction in the two-spotted spider mite, Tetranychus telarius. 4072

A laboratory evaluation of Ethion with other acaricides against the adult two-spotted spider mite, Tetranychus telarius. 4100

Effect of certain antibiotics and other compounds on the two-spotted spider mite. 4345

The effect of clean culture and early spring acaracide treatments on overwintering spider mite populations in outdoor rose plots. 4353

Control of spider mites and black spot on roses with acaracide-fungicide sprays and dusts. 4356

Control of aphids and spider mites on strawberries with dusts and low- and high-gallonage sprays. 4439

Soil-applied systematic insecticides in relation to insect and mite control on various vegetable crops. 4446

Tedion use approved on eleven deciduous fruits. 4540

A portable sprayer for experimental plots. 5403

A viruslike transovarian factor affecting morphology in spider mites. 6449

Laboratory studies on the effectiveness of Chipman R-6199 against some cotton pests. 7070

Safety and ease of use add to value of sulfur as a pesticide. 8234

Orchard-mite resistance to Kelthane. 8315

Thiomethylals. 8406

Insects active on late season cotton in several areas. 8470

Evaluation of chemicals for control of a spider mite complex on cherry and peach. 8479

Effects of soil insecticides and absorbents on plant sugars and resulting effect on mite nutrition. 8562

Effects of soil insecticides on apple trees and resulting effect on mite nutrition. 8[illegible]

Fall armyworm causes concern in several areas. 8[illegible]

Phosphorus-containing insecticides. 9[illegible]

Insectary production of Stethorus species. 9[illegible]

Field experience on some new miticides during the past twelve months on citrus in Florida. 9[illegible]

The morphology of the mouthparts of Tetranychus atlanticus and observations on feeding by this mite on soybeans. 9[illegible]

Combating red spider mites. 9[illegible]

Effect of topical applications of granulated systemic insecticides and of conventional applications of other insecticides on control of insects and spider mites on sugar beet plants. 9[illegible]

Thiophosphoric acid esters. 10[illegible]

Chemical and biological control fo the glasshouse red spider Tetranychus urticae, Koch. 11[illegible]

Relative resistance of cotton varieties in Egypt to spider mites, leafhoppers, and aphids. 11[illegible]

Insecticides and surfactant-insecticide combinations for control of the mite, Tetranychus marianae McG., on tomatoes and eggplant. 11[illegible]

TETRANYCHUS
Malathion synergism against organophosphate-resistant two-spotted spider mites. 4[illegible]

Effects of preblossom miticides and subsequent insecticide applications on mite populations on apple in Wisconsin. 4[illegible]

Effects of gibberellin on nutrition of the mites, Tetranychus telarius and Panonychus ulmi. 4[illegible]

Combination acaricide-insecticide-fungicide sprays on outdoor roses. 4[illegible]

Studies of the eggs of a strain of two-spotted spider mite, Tetranychus telarius, resistant to parathion. 4[illegible]

Acaricidal activity of cellulose polymers. 4[illegible]

Polybutenes in orchard pest control. 4[illegible]

Control of insects and mites attacking mint in central washington. 4[illegible]

The effect of acaricide-fungicide combination sprays on two-spotted spider mite populations, blackspot control,and winter injury to roses. 4[illegible]

Laboratory and field studies on orchard-mite resistance to Kelthane. 4[illegible]

Spanogonicus albofasciatus as an insect and mite predator (Hemiptera: Miridae). 5[illegible]

Selection response and genetics of parathion resistance in the Pacific spider mite, Tetranychus pacificus. 6[illegible]

Vectors of alfalfa and bean yellow mosaic viruses in Ladino white clover. 6[illegible]

Soil injection as a means of applying systemic acaricides to fruit trees. 6[illegible]

Evaluation of chemicals for control of a spider mite complex on cherry and peach. 7[illegible]

Observations on soybean insects in maryland. 7[illegible]

Effects of soil insecticides and absorbents on plant sugars and resulting effect on mite nutrition. 7[illegible]

Control of the two-spotted spider mite on beans with systemic insecticides applied in the soil. 7[illegible]

Notes on the life history of Tetranychus atlanticus (Acarina tetranychidae). 7[illegible]

Vapour toxicity and vapour selection for resistance of the two-spotted spider mite (Tetranychus telarios) using DDVP. 8011

Resistance to organophosphorus compounds in the two-spotted spider mite' two different mechanisms of resistance. 8134

Comparative acaricidal activity of tedion, ovex, and chlorbenside against two strains of the two-spotted spider mite. 8152

Effectiveness of various pesticides against resistant two-spotted spider mites on greenhouse roses. 8413

Comparative acaricidal activity of Tedion, Ovex and chlorbenside against two strains of two-spotted spider mite. 8495

Biology of Tetranychus 'multisetis,' the polychaetous form of Tetranychus cinnabarinus (Acarina:Tetranychidae). 9567

Relation between toxicity of malathion analog and organophosphate resistance in the two-spotted spider mite. 10668

Biological control of the two-spotted spider mite on strawberry in southern california. 10969

Pesticides for control of the two-spotted spider mite and the onion thrips on potatoes. 11324

Insectary production of phytoseiid mites. 11616

Effect of mite control on corn yield. 11920

TRANYCHUS PACIFICUS

Response of citrus mites to selected quinoxaline cyclic di- or trithiocarbonates. 8033

TRANYCHUS TELARIUS

Structure and pesticidal activities of derivatives of dinitrophenols. iII. structure and acaricidal activity of certain carbonates of 2-alkyl-5-methyl-4,6-dinitrophenols and related compounds. 7696

TRANYCHUS URTICAE

Reproduction and mortality of the Two-Spotted Spider Mite on fruit seedlings treated with chemicals. 38

Tetranychus telarius (:l.), new vector of virus Y. 371

Control with azodrin of the two-spotted spider mite on potatoes. 474

Chemosterilant treatment of two greenhouse spider mites. 656

Aramite and kelthane sprays for two-spotted spider mite control. 4351

Genetic variation in a two-spotted spider mite, Tetranychus urticae, population plateaued by directed selection (Acarina, Tetranychoidae). 6673

A biological and toxicological study of strains of two-spotted spider mites. 9513

Egg production of the two spotted spider mite on bean plants supplied nutrient solutions containing various concentrations of iron, manganese, zinc, and cobalt. 10544

The effect of host plant nitrogen supply and age of leaf tissue on the fecundity of the two-spotted spider mite. 10587

Mechanism of malathion and parathion resistance in the two-spotted spider mite, Tetranychus urticae. 10613

Comparisons of soil and foliar applications of acaricides for control of the two-spotted spider mite on strawberries in southern California. 12525

Fertilization in the two-spotted spider mite (Tetranychus urticae: Acari). 13003

Systemic insecticides evaluated for two-spotted mite control on greenhouse cucumbers. 13348

TETRAOPES

'Correcting' behavior by insects on vertical and horizontal mazes. 5580

TETRASTICHUS

Occurrence of an unusual species of Tetrastichus (Hymenoptera: Eulophidae) in Nebraska. 3945

Biology of the eggplant tortoise beetle (Coleoptera: Chrysomelidae). 5876

TETRASTICHUS BRUCHOPHAGI

Humidity and the emergence of Bruchophagus kolobovae (Hymenoptera' Eurytomidae) and its parasites from trefoil seeds. 7778

TETRASTICHUS INCERTUS

Biology and distribution of Tetrastichus incertus, a parasite of the alfalfa weevil. 12378

TETREUARESTA

A study of the types of Tephritidae described by F. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

TETTIGONIA PULCHELLA

Agrosoma, a new genus for Tettigonia pulchella Guerin and related species (Homoptera: Cicadellidae). 3951

TETTIGONIIDAE

Experimental demonstration of a cat locating orthopteran prey by the prey's calling song. 11655

TEXAS

Terminal stunt of cotton in south Texas. 95

The reniform nematode in cotton in the lower Rio Grande valley of Texas. 488

Etiology of tomato fruit rot in the Red River valley of Texas. 1064

Cultural growth at different temperatures of Ascochyta gossypii from Georgia, Alabama, and Texas. 1181

Agglutinins for 11 types of leptospires in serum from cattle in northeastern Texas. 2247

Restoration of the name, Aedes hendersoni Cockerell, and its elevation to full specific rank (Diptera: Culicidae). 3883

A preliminary list of Texas Aphids. 3942

A flatid planthopper, Metcalfa pruinosa. 4040

Factors influencing pink bollworm pupation and moth emergence from overwintering larvae in central Texas. 4047

Field experiments for control of thrips, cotton fleahoppers, and overwintered boll weevils in 1960. 4307

Studies on the control of thrips attacking onions. 4341

Evaluation of insecticides for control of the tobacco thrips on peanuts. 4342

Artificial infestations of the Northern cattle grub, Hypoderma bovis, in Texas. 5186

A new species of Physconelloides (Mallophaga) from Texas. 5468

Killing Texas screw worms from the air. 6207

Evidence of the oversummering of the greenbug in the Texas panhandle. 6516

A new genus of duforeine bee from Texas (Hymenoptera'Halictidae). 7783

DDT-RESISTANCE in Heliothis zea. 7972

Dynamics of caged pink bollworm populations in Texas and Oklahoma. 8489

The life history and seasonal occurrence of the peach twig borer in Texas. 8513

Effects of timing and method of application on efficiency of

TEXTILES
Co-Bal sprays for cattle grub control. 8922

A new species of Chelopistes (Mallophaga) from Texas and Mexico. 9326

Emergence of overwintered boll weevils from hibernation sites near Waco, Texas. 9474

Oak wilt in Texas. 9706

Downy mildew and head smut diseases of sorghum in Texas. 9814

Rhizoctonia seedling blight of flax. 9851

Consistency in performance of in-covering soil fungicides for control of the cotton seedling disease complex in Texas. 9852

Winter survival of the boll weevil in cotton bolls in central Texas. 10468

Resistance to three organophosphorus insecticides in strains of the german cockroach from Texas. 10577

Castorbean diseases in Texas in 1960. 10713

Relative prevalence of Verticillium wilt and Fusarium wilt of cotton in the South Plains area of Texas. 10868

Races of Puccinia graminis tritici identified from Texas collections, 1926-1965. 11784

Incidence and importance of a cotton mottle disease in the lower Rio Grande valley. 11845

TEXTILES
How fungi attack material. 13485

THAR
Control of thar (Hemitragus jemlahicus), evaluation of a poisoning technique. 7689

THAILAND
New bat chiggers from Thailand and the Solomon Islands with notes on the subgenus Sasatrombicula Vercammen-Grandjean (Acarina: Trombiculidae). 5534

THALICTRUM
The potential function of native thalictrum species as an alternate host of Puccinia recondita f. sp. tritici. 9816

THALIDOMIDE
Effect of thalidomide on growth and reproduction of Phormia regina. 9440

Thalidomide as a growth modifier in the German cockroach. 11352

THALLIUM
Field cases of thallium poisoning in sheep. 3029

A method for the detection of Thallium in canine urine. 3509

Probable thallium poisoning with concurrent mycotic dermatitis in a dog. 4809

Diagnosis and treatment of poisoning in dogs. 4953

Toxicology of insecticides. 5352

Thallotoxicosis. 5364

Thallium intoxication in dogs. 6323

Thallium intoxication. 11273

THALLOTOXICOSIS
Thallotoxicosis. 5364

THALLOUS SALTS
Thallium intoxication. 11273

THANATEPHORUS CUCUMERIS
Comparative survival of monobasidial cultures of Thanatephorus cucumeris in soil. 13256

THANISIMUS
Observations on the clerid predation of the Southern pine beetle. 58

THANITE
Carbamate insecticides : synergism by organothiocyanates. 95

THAUMATOMYIA
Effect of insecticides on the sugar-beet root aphid, pemphigus betae. 119

THEILERIASIS
Tests for Theileria cervi in white-tailed deer. 35

Oxytetracycline hydrochloridine in East Coast fever (Theileria parva infection). 46

Serologic tests for Theileria cervi in white-tailed deer and for other species in cattle and sheep. 50

Further attempts to infect animals with Theileria parva. 75

Experiments in immunity to East Coast fever. 89

THELAZIA
Thelaziasis in cats and dogs- a case report. 48

THELAZIASIS
Thelaziasis in cats and dogs- a case report. 48

Canine thelaziasis in Arizona. 52

Experience with an anthelmintic. 76

Untersuchungen uber das Vorkommen von Augenwurmern, Thelazien, beim Rind im Einzugsbereich des Schlachthofes Hanover. (Investigations on the occurrences of eyeworms (Thelazia spp) in cattle in the catchment area of Hanover slaughterhouse). 127

THERAPEUTICS
Killed and live vaccines plus management. 20

Haemophilus infections in chickens. III. Factors in intra-flock transmission of infectious coryza and its chemical and antibiotic therapeusis. 21

Control of infectious synovitis. 8. Degree of infection as influenced by medication with furazolidone and chlortetracycline. 22

Experimental treatment of ovine vibriosis. 50

Diplococcus pneumoniae type 16 in laboratory rats. 87

Psychopharmacologic effects of 1-naphthyl N-methyl carbamate (Sevin insecticide) alone and in combination with several therapeutic agents. 112

Potassium and its role in parturient paresis. 126

Udder insufflation and its physiologic basis for treatment of parturient paresis in cattle. 126

Contribution to the therapy of acetonemia of cattle. 126

A specialized treatment for eczema of the dog. 127

Diagnosis, treatment, and preventive therapy for heartworms. 127

Therapeutic trials with Maretin in calves infected with Ostertagia and Cooperia. 127

Method of treating bovine mastitis. patent 3,347,743. 134

Prevention and first aid for livestock poisoned with chemicals. sF757.5.N3. 135

THERIOAPHIS
The biology, behavior, and morphology of Praon palitans muesebeck, an internal parasite of the spotted alfalfa aphid, Therioaphis maculata (Buckton) (Hymenoptera: Braconidae, Aphidiinae. 41

Gas chromatography for measuring insect respiration. 41

Field tests with insecticides to control spotted alfalfa

phid in southwestern Kansas, 1955-1960. 4313

esistance of sweetclover tc the sweetclover aphid. 4384

ectors of alfalfa and bean yellow mosaic viruses in Ladino bite clover. 6803

nfluence of plant age on the survival of alfalfa varieties iffering in resistance to the spotted alfalfa aphid. 7018

potted alfalfa aphid resistance in mature growth of alfalfa arieties. 7019

three-year cverwintering study of the spotted alfalfa phid. 7061

stablishment of imperted parasites of the spotted alfalfa phid in Arizona. 8422

all insect problems are localized. 8462

he evaluation of resistance of seedling alfalfa varieties nd strains to the spotted alfalfa aphid, Therioaphis macu- ata. 8516

bservations of feeding habits of the spotted alfalfa aphid n resistant and susceptible alfalfa plants. 8530

eed treatments fcr control of spotted alfalfa aphids. 8564

eavy populaticns cf the pink bcllworm are reported. 8618

opulation studies of the spotted alfalfa aphid in Arizona n relaticn to temperature and rainfall. 9344

RIOAPHIS MACULATA
he influence of rhythmically fluctuating temperatures on he development and reproduction of the spotted alfalfa phid, Therioaphis maculata. 10618

ehavior of the spotted alfalfa aphid,Therioaphis maculata Buckton), on resistant and susceptible alfalfas. 12497

RICAPHIS RIEBMI
nheritance of resistance in sweetclover to the sweetclover phid. 12504

RIOAPHIS TRIFOLII
pterous aphids in water, wind, and suction traps. 12972

RMATRECA
ew American Tachinidae and Sarcophagidae (Diptera). 3975

RMIONIC DETECTORS
as chrcmatcgraphic determinaticn of residues of rgancphosphorus pesticides with a modified flame ionization etector. 12865

RMIONIC TUBES
flame ionization detector highly selective and sensitive o phcsphorus--a sodium thermionic detector. 3699

RMOTHERAPY
hermctherapy of planting material. 1456

SES
he biological evaluation of spray additives and solvents ith Blattella germanica (Linn) and Periplaneta americana Linn.). 6639

ffects of X-rays, tryptophan metabolites, and eye color utants on the tumor-suppressor system in Drosophila melan- gaster. 6668

cne factors that influence the deactivation of atrazine in oil. 7654

ne toxicology of thiodan in several fish and aquatic inver- ebrates. 7697

n evaluation of the bottom fauna and its role as fish food n Fern Lake, Washington. 12299

lonomics and zoogeography of tiger beetles of saline abitats in the central United States (Coleoptera: icindelidae). 12307

osquitc ccntrol on Smith Mcuntain reservoir by pumped corage water level management. 12340

Incorporation of radioactive amino acids by Coxiella burnetii and its host, the chick embryo. 12657

e-59 and CB-51 studies of the effect of partial-body X-irradiation on Erythropoiesis in beagles. 12685

THIABENDAZOLE
Critical tests of thiabendazole as an anthelmintic in the horse. 5213

Thiabendazole and trichinae. 7166

Thiabendazole as an anthelmintic in cattle and sheep. 7588

Thiabendazole as an anthelmintic in research monkeys. 7606

Efficacy of thiabendazole against Ccoperia spp. and Ostertagia ostertagi in cattle. 7631

Antifertility effects of anthelminthics in insects. 7985

Controlled test of anthelmintic activity of trichlorfon and thiabendazole in lambs, with observations on Oestrus ovis. 8952

Wax emulsion additives for control of storage decay in lemons. 10259

Thiabendazole therapy of pheasants affected with gapeworms. 11115

Therapeutic results of the use of thiabendazole against strongyles in horses. 11118

Studies on the toxicologic and pharmacologic properties of thiabendazole. 11330

Thiabendazole as a post harvest fungicide for Florida citrus fruit. 11717

Trials of simultaneous treatment of gastro enteritic strongylosis and monieziasis of cattle with a mixture of thiabendazole and niclosamide. 12757

THIABENZADOLE
The efficacy of thiabendazole and bephenium hydroxynaphthoate against Ostertagia ostertagi and Cooperia oncophora in experimentally infected calves. 5197

THIACETARSAMIDE
Treatment of canine lungowrm infection with thiacetarsamide. 5210

Two-day treatment with Thiacetarsamide for canine heartworm disease. 7378

THIADIAZOLE DICARBOXYLIC ACID
Thiazole dicarboxylic acid and derivatives. 9182

THIAMINE
Amprolium. 8.Comparison with oxythiamine and pyrithiamine as antagonists of thiamine in the chick. 12024

THIASOLUCIN
The renal excretion of some sulphonamides in the fowl. 5363

THIAZOLIUM SALTS
Compositions and methods for the treatment and prevention of coccidiosis in poultry. patent 3,337,401. 12768

THIELAVIOPSIS
Influence of host and nonhost plants upon populations of Thielaviopsis basicola in soil. 6704

Inversion phenomenon induced by nabam derivatives. 6728

Comparison of various isolation media for the enumeration of Thielaviopsis basicola in soil dilution plates. 7727

Inversion phenomenon induced by nabam derivatives. 9087

Relative frequency of lesions on beans incited by common soil-borne pathogens. 9912

A quantitative assay method for observing and enumerating propagules of root-infecting fungi. (abstract). 13258

THIELAVIOPSIS BASICOLA
Penetration and host-parasite relationships of Thielaviopsis basicola in the bean plant. 140

A quantitative technique for estimating the degree of soil infestation by Thielaviopsis basicola. 410

The relative susceptibility of certain varieties and hybrids of citrus species and relatives to Thielaviopsis basicola. 411

Pathogenicity on citrus of Thielaviopsis basicola and its isolation from field roots. 412

Changes in phenolic compounds in carrot root tissue infected with Thielaviopsis basicola. 684

Some considerations of strain variation in cotton seedling pathogens. 956

Susceptibility of certain citrus rootstocks to Thielaviopsis basicola. 1067

Effect of host and nonhost plants upon populations of Thielaviopsis basicola in soil. 1219

Precautions in isolating Thielaviopsis basicola with carrot discs. 1260

Effect of soil temperature, host variety, and fungus strain on Thielaviopsis root rot of peas. 1266

Isolation of Thielaviopsis basicola from bean rhizosphere. 1395

Thielaviopsis basicola associated with declining sweet orange seedlings in Florida. 1418

Thielaviopsis basicola as a citrus root pathogen. 1487

Soil moisture in relation to growth reduction of sweet orange seedlings by Thielaviopsis basicola. 1489

Oxygen requirement of three root-rotting fungi in a liquid medium. 2478

Pathogenicity of Thielaviopsis basicola on peas. 10823

Susceptibility of sesame and castorbean to Thielaviopsis basicola. 10887

Sources of resistance in the genus Gossypium to several soilborne pathogens. 12442

A buried membrane filter method for studying behavior of soil fungi. 13198

Effect of Thielaviopsis basicola root rot of cotton on incidence and severity of Verticillium wilt. 13245

THIGMOTRICHIDIA
Experimental infection of oysters (Crassostrea gigas) with thigmotrichid ciliates. 10202

THIMEROSAL
A merthiolate-induced precipitation in gel-diffusion tests with plant sap. 744

THINNING (TREES)
Fomes annosus causes severe damage to thinned slash pine plantation in south Georgia. 10746

THIO-MONOFLUORO-DICHLORO-METHYL IMIDES, N-
Method of controlling fungi with n-thio-monofluoro-dichloro-methyl imides. patent 3,341,403. 12894

THIOATE
Field tests with new cattle grub systemics. 5182

Toxicity of organic phosphorus insecticides to horses. 7694

THIOATE.
Control of cattle grubs and horn flies by summer dipping with Co-Bal. 5185

THIOBENZOIC ACIDS
Herbicidal composition and method. patent 3,333,946. 13666

THIOCARBAMATES
Control of downy mildew of opium poppy by root application of fungicides. 6

Effect of SMDC on germination, plant growth, and fusarium wilt incidence of cumin (Cuminum cyminum). 6

Chemical control of bacterial blights of dry field beans in Michigan by foliage sprays applied by ground and air equipment. 6

The effect of oils on herbicidal activity of atrazine and linuron and of waxes and oils on the movement of EPTC in soil. 7

Inversion phenomenon induced by nabam derivatives. 9

Gas chromatography with microcoulometric detection for pesticide residue analysis. 12

Vegadex. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides 395 Z9. 12

Spectrophometric determination of dithiocarbamate residues on food crops. 12

Vapam. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12

Dithiocarbamates. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12

Paper chromatography. in: Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 Z9. 12

Eptam. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides. 395 Z9. 12

Tillam. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides. 395 Z9. 12

Complex manganese salts of ethylenebisdithiocarbamic acid and fungicidal compositions containing same. 12

Extraction p-values of pesticides and related compounds in six binary solvent systems. 12

Guide to the analysis of pesticide residues. sB953.b8. 12

Pesticide analytical manual. i. methods which detect more than one pesticide residue. iI. methods for individual pesticide residues. ed. 2, rev. 12

Spectrophometric determination of dithiocarbamate residues on food crops. 12

Herbicidal composition and method. patent 3,330,643. 12

THIOCYANATES
Cheyletiella parasitovorax infestation of pups. 4

Method for controlling microorganisms and nematodes. patent 3,361,621. 12

THIOCYANIC ACID
Thiocyanic esters and pesticidal compositions containing them. 9

THIOCYANOGEN TRIAZINES
Thiocyanogen triazines. 9

THIOIC ACIDS
Herbicidal composition and method. patent 3,330,643. 12

THIOLS
Interaction of captan and dichlone with coenzyme A and other thiols. 11

NATE
Alkylamides of CC-dimethyldithiophosphorylacetic acid. 9194

NO-BENZ-THIAZOLE THIOPHOSPHATE, 2-
osphorus-containing esters. 9190

NO-BENZOXAZOLE THIOPHOSPHATE, 2-
osphorus-containing esters. 9190

NOL
sticide residues: Estimation of phenothiazine and some its oxidation products in biological material. 11205

PHOSPHATES
ocedure for nine organothiophosphate pesticide residues fruits and vegetables, using microcoulometric gas romatography. 12810

rapid specific method for the gas chromatographic termination of organophosphate pesticides in cold pressed trus oils. 13569

PHOSPHOROUS ACID ESTERS.
iophosphorous acid esters. 9173

PHOSPHORUS ACID ESTERS
iolo- and thiolothiono-phosphoric, -phosphonic and phos-inic acid esters. 9122

iophosphoric, -phosphonic and -phosphinic acid esters. 9126

QUINOX
sponse of citrus mites to selected quinoxaline cyclic - or trithiocarbonates. 8033

RACIL
tentiation of diethylstilbestrol induced aortic ruptures turkeys with thicuracil. 7509

ce efficient than killing. 10583

REA
per chromatographic identification of thiourea in extracts oranges. 5322

ects of solutes on the polymerization of TMV protein. 5831

AM
iram sensitivity. 1893

cplanes in forestry among Louisiana topics. 4217

volume versus high volume preplant fungicidal sprays. 4542

ectrophotometric determination of dithiocarbamate residues food crops. 5308

iram residues in tomatoes, strawberries and celeries. 6290

als, other elements, and residues in foods. 6304

ort on fungicides, fumigants and miscellaneous. 6305

ermination of thiram in ferbam. 6397

ersion phenomenon induced by nabam derivatives. 6728

ntrol of Botrytis neck rot of onions by fungicidal dusts l desiccant chemicals. 6779

oculum potential and effective fungicide dosage in soil. 6869

effect of phorate applied to seed on the growth, velopment and insects attacking grain sorghum. 7005

le and pear canker. 8368

gicide dust formulations for the control of apple scab, nturia inaequalis. 8375

mical seed treatments as bird repellants for protection germinating maize in the Mexican tropics. 8708

ects of fungicides on the flavour of fruits and syrups. 9009

Inversion phenomenon induced by nabam derivatives. 9087

Paper chromatography of ferbam, maneb, nabam, thiram, zineb and ziram. 9229

Analysis of dithiocarbamates and thiuram disulphides used in agriculture. I. Collaborative study of macro-methods available for the evaluation of technical and formulated products. 9242

Chemical control of Puccinia pittieriana on potatoes in Ecuador. 9673

Effects of some fungicides on the flavour of fruits and syrups. 10257

Control of Botrytis rot of strawberries. 10783

Bimodality of dosage response of Glomerella cingulata to Thiram. 11836

Fungistatic effect of certain chemicals on hyphal growth of Phymatotrichum omnivorum, the cotton root-rot fungus. 11858

Dithiocarbamates. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12147

Fusarium scab of sorghum in Nigeria. 12427

A storage decay of Crownvetch (Coronilla varia) "crowns" caused by Fusarium roseum and its control by fungicide dip treatments. 12776

THORAX
Androeuryops, a new genus of Tachinidae (Diptera) from central America. 3876

Morphology of the pleurosternal region of the pterothorax in insects. 3949

Morphology and evolution of the pleurosternal region of the pterothorax in Notonectidae and related families. 3950

Four new species of Hydrometra from the New World (Hemiptera: Hydrometridae). 3958

THORIBIDELLA
The Icelandic Bdellidae (Acarina). 3871

THOROUGHBRED HORSES
Cervical and uterine infection in thoroughbred mares. 7348

A case of idiopathic hypoplastic anaemia in a two-year-old thoroughbred filly. 8731

THRASSIS
Fleas (Siphonaptera) of small mammals in kansas. 3966

THREONINE
The limiting amino acids in soybean protein. 2921

Further studies on the limiting amino-acids in differently processed groundnut meals. 4553

THRIPIDAE
Redescriptions of Anaphothrips orchidaceus and A. orchidearum _Thysanoptera0Thripidae). 5556

Catinathrips, new genus, a new species, and a reassignment (Thysanoptera' Thripidae). 7879

THRIPS
Effect of migration, temperatue, precipitation on thrips infestations in south Texas. 3921

New disease threatens California citrus industry. 4249

Studies on the control of thrips attacking onions. 4341

Observations on soybean insects in maryland. 7051

Control of the two-spotted spider mite on beans with systemic insecticides applied in the soil. 7076

Several truck crop insects active in May. 8466

THRIPS TABACI
Pesticides for control of the two-spotted spider mite and the onion thrips on potatoes. 11324

THRIPS TABACI
Frankliniella fusca, an additional vector for the tomato spotted wilt virus, with notes on Thrips tabaci, another vector. 1321

Studies on the host preference of the onion thrips, Thrips tabaci Lindeman to the varieties of onion. 7073

THROMBOELASIS
A brief discussion of normal and abnormal avian blood cells. 8843

THROMBOSIS
Treatment of aortic thrombosis in a horse. 3056

THUJA
Digestibility of cedar and aspen browse for the white-tailed deer. 2881

Pathogenicity of Phacidium abietis. 6911

THURICIDE
Bacillus thuringiensis tested in Connecticut for gypsy moth control. 4316

Problems of microbial control in Japan. 5842

The development and use of microbial insecticides containing entomogenous bacteria and viruses. 6318

A substance in some commercial preparations of Bacillus thuringiensis var. thuringiensis toxic to sawfly larvae. 6631

Field tests with newer materials against the gypsy moth. 10561

Response of mosquito larvae to Bacillus thuringiensis Berliner. 10599

Effects of Lovo spray additives on the performance of low-volume sprays of Bacillus thuringiensis Berliner. 11274

Effects of thuricide on the eye-spotted bud moth, Spilonota ocellana. 11302

An experimental spray program for integrated control of insects affecting sour cherry. 12513

Inhibitive effect of Bacillus thuringiensis on the development of the face fly in cow manure. 12740

Studies on the susceptibility of certain stored products insects to bacterial insecticides. 1. tests with Bakthane L-69. 13489

THYLATE
Effects of some fungicides on the flavour of canned strawberries. 9019

THYME OIL
Toxicity of various oils to the pecan scab fungus in culture. 5370

THYMECTOMY
Immunologic competence of thymectomized neonatal calves. 12580

THYMIDINE, H-3-,
H-3-thymidine radioautographic study of spermatogenesis in the boll-weevil, Anthonomus grandis _Coleoptera, Curculionidae). 5600

THYMIDINE
The in vitro incorporation of tritium-3-thymidine into the mononuclear cells of the peripheral blood of cattle. 4789

THYMUS GLAND
Uber eine Methode zur Untersuchung des Thymus bei Ferkelkrankheiten (Method for thymus study in piglet diseases). 12649

THYRATELES
Synopsis of Nearctic Ichneumoninae Stenopneusticae with particular reference to the northeastern region (Hymenoptera) III. Ichneumoni: genera Ichneumon and Thyrateles. 10483

THYREOXENUS
New termitophilous Staphylinidae of zoogeographic significance (Coleoptera). 39

THYRIDOPTERYX EPHEMERAEFORMIS
Natural control of the bagworm and notes on its status as a forest pest. 4

THYROID CARCINOMA
Anterior vena caval obstruction secondary to thyroid carcinoma in a dog. 49

THYROID EXTRACT
A scleroderma-like syndrome in a dog. 48

THYROID GLAND
Effects of breed, stage of lactation, and season of year on thyroid secretion rate of dairy cows as determined by by the chemical thyroxine turnover methods. 32

Effects of estradiol and dehydroepiandrosterone on the reproductive cycle of the cow. II. Histology of primary and accessory reproductive organs, pituitary, thyroid, and adrenal glands. 34

Anhidrosis, dry-coat syndrome in the thoroughbred. 46

Thyroid dysplasia in the budgeriar. 72

Toxicity of nitrate nitrogen to cattle. 74

Effect of melatonin on thyroid hormone secretion rate and feed consumption of female rats. 74

Thyroid carcinoma in the dog. A case of bone-metastasizing thyroid carcinoma simulating hyperparathyroidism. 102

Effects of dietary DL-METHIONINE on tissue levels of glutathione in hypothyroid chicks. 134

THYROPROTEIN
Supplementation of pig starters with thyroprotein. 28

Effect of thyroprotein and a low-energy ration on removal of DDT from lactating dairy cows. 128

THYROXINE
Thyroxine utilization rate and some other indicies of peripheral iodine metabolism in sucking pigs. 18

Effects of breed, stage of lactation, and season of year on thyroid secretion rate of dairy cows as determined by by the chemical thyroxine turnover methods. 32

Rate of absorption of L-thyroxine I131 from the gastrointestinal tracts of dairy cattle. 34

Thyrotropic hormone secretion in cattle after prolonged thyroxine therapy and after complete withdrawal. 34

THYSANOPTER
Pesticides for control of the two-spotted spider mite and the onion thrips on potatoes. 113

THYSANOPTERA
Some new efficient preparations to control thrips and Aphis gossypii on cotton. 133

THYSANURA
A further pest species of silverfish (Thysanura) from Australia, with a key to the domestic species. 127

TICK PARALYSIS
Ticks in the united states serve as vectors of disease. 71

TICK-BORNE FEVER (SHEEP)
Observations on tick-transmission of louping-ill to sheep. 51

TIDAL MARSHES
Effects of impounding and filling on the production of sand flies (Culicoides) in Florida salt marshes. 106

TILIPHAGUS
Tiliphagus lycoposugus, new genus, new species (Aphididae' Homoptera) from Tilia americana and Lycopus virginicus. 79

.LAGE
Cultivated soil.
Longevity of seeds of wild oats, winter rye, and wheat in. 929

Interrelations of cultivations, herbicides, and methods of application for weed control in soybeans. 1714

Interrelations of row spacings, cultivations and herbicides for weed control in soybeans. 1715

Cultivation techniques in combination with chemical weed control in cotton. 1736

Soybean and weed yields as affected by irrigation, row spacing, tillage, and amiben. 2830

The effect of depth of burying and frequency of cultivation on survival and germination of seeds of wild oats (Avena fatua L. and Avena ludoviciana Dur.). 4240

Performance of tillage implements in a stubble mulch system. I.residue conservation. II. Effects of soil cloddiness. III. Effects of tillage sequences on residues, soil cloddiness, weed control and wheat yield. 4246

Influence of tillage, row spacing, and atrazine on sorghum and weed yields from nonirrigated sorghum across Nebraska. 7120

The role of herbicides in no-tillage crop production. 9073

Emergence and longevity in cultivated soil of seeds of some annual weeds. 10105

Influence of cultural practices on the incidence of stalk rot of corn. 11856

An apparent relation of cultivation to powdery mildew infection. 11886

Effect of different soil tillage methods on residual after-effect of simazine . vliyanie razlichnykh sposobov osnovnoi obrabotki pochvy na posledeistvie simazina. 12806

LLETIA
Compatibility relationships in Tilletia contraversa as indicated by fusions between primary sporidia. 5809

A method of using mycelial, monosporidial isolates of Tilletia controversa in pedigreed hybrid crosses. 6908

LLETIA CARIES
Culture of the binucleate stage of Tilletia caries. 746

Inheritance of resistance to common bunt, Tilletia caries, in a cross of P.I. 178383 x Elgin wheat. 1085

The reaction of varieties and hybrid selections of winter wheat to pathogenic races of Tilletia caries and T. foetida. 10803

A new race of Tilletia caries. 12446

LLETIA CONTRAVERSA
Incidence and control of Tilletia contraversa in perennial grasses. 1406

LLETIA CONTROVERSA
Reactions of wheat varieties and selections to pathogenic races of Tilletia controversa. 232

Pathogenic races of Tilletia controversa in the Pacific Northwest. 1371

LLETIA FOETIDA
The reaction of varieties and hybrid selections of winter wheat to pathogenic races of Tilletia caries and T. foetida. 10803

MBER
Inoculation and colonization of stumps of Pinus echinata by Fomes annosus. 1164

Control of madrone and tanoak stump sprouting. 1740

Ecology and control of alligator juniper. 2805

Practical control of stump surface infection by Fomes annosus in slash pine. 5778

Notes on Gnathotrichus materiarius (Col. Scolytidae), a timber beetle new to the Netherlands. 13493

TIMBER MANAGEMENT
Ecology and control of alligator juniper. 2805

TIME
Time, temperature, humidity, and primary infection of Erysiphe graminis tritici E. Marchal. 359

Time-temperature interactions of Uromyces phaseoli during spore germination and tube elongation. 725

Weather, space, time, and chance of infection. 1352

Time-temperature relationships in thermal inactivation of sclerotia of Macrophomina phaseoli. 1367

Release of inhibited tobacco mosaic virus (TMV) infection by ultraviolet irradation as affected by time and temperature after inoculation. 6971

Time, temperature and dosage relationships of several insecticidal fumigants. 11599

The induction of emergence in the leaf-cutter bee Megachile rotundata, an important pollinator of alfalfa. 11647

The effect of Eimeria necatrix and Eimeria tenella infection on passage time. 11976

TIN-SAN
Effect of selected fungicides and antibiotics on Xanthomonas malvacearum in vitro. 5748

TINGIDAE
New species and taxonomic changes in the Tingidae (Hemiptera). 3902

TIPBURN (DIANTHUS CARYOPHYLLUS)
Tip burn, and oxidant incited response of carnations. 10327

TIPBURN (LETTUCE)
Postharvest changes in amount of tip burn of head lettuce and the effect of tip burn on incidence of decay. 247

TIPBURN (PINUS STROBUS)
Ozone, a possible cause of white pine emergence tipburn. 925

TIPHIA
Bredin-Archbold-Smithsonian biological survey of Dominica. 4. two new species of Tiphia from the West Indies _Hymenoptera0 Tiphiidae). 5429

TIPULA IRIDESCENT VIRUS
Multiplication Tipula and Child iridescent viruses in cells of Antheraea eucalypti. 9503

Amino acid composition of the Tipula iridescent virus. 9512

TIPULIDAE
New species of crane-flies from tropical America (Diptera: Tipulidae). I. 5427

Type specimens of North American Tipulidae (Diptera) described by Francis Walker. 5447

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5615

Histological observations on the development of crystalline inclusions of the rickettsial disease of Tipula paludosa Meigen. 6550

Modified car-top insect trap functional to 45mph. 7767

TISSUE CULTURE
Fruit-tree leaf rollers on plant tissue cultures and on leaves of Ginkgo biloba. 83

The multiplication of avian encephalomyelitis virus in chicken embryo tissues. 550

Some studies of infectious bronchitis virus in cell culture. 554

Presence of a Newcastle disease-like agent in chick embryo cells. 559

Comparative sensitivities of embryonating chicken's eggs and primary chicken embryo kidney and liver cell cultures to infectious bronchitis virus. 576

Regulatory activities concerned with development of avian encephalomyelitis vaccine. 584

Cell-associated virus infectivity of tissue cultures derived from susceptible and resistant sources. 1265

The use of tissue culture-propagated bluetongue virus for vaccine preparation. 1773

Evaluation of a tisse-culture Newcastle disease vaccine. 1967

Duck hepatitis virus in duck embryo fibroblast cultures. 2026

The chicken-embryo-lethal-orphan (CELO) virus as a tissue. culture contaminant. 2029

The isolation of a latent adeno-like virus from chicken kidney cell cultures. 2173

Some observations of the propagation of infectious laryngotracheitis virus in tissue culture. 2243

Comments on tissue culture-origin canine distemper vaccine. 2954

Veterinary biological products--a summary of products, methods of examination, and testing results. 2996

Growth of Newcastle disease virus in cell cultures. 3002

Goat serum as medium supplement in the exaltation of Newcastle disease virus test for hog cholera virus. 3034

Influence of host cell type on certain properties of newcastle disease virus in tissue culture. 3204

Studies on the low egg passage flury strain of modified live rabies virus produced in embryonating chicken eggs and tissue culture. 3248

Experimental swine pox. 3274

Growth of African horse-sickness virus in monkey kidney cell cultures. 3300

The tissue culture colour test for assaying the virus and neutralizing antibody of foot-and-mouth disease and its application to the measurement of immunity in cattle. 3305

Ineffective stability of foot-and-mouth disease virus in certain mediums at various temperatures. 3355

Large-scale production of bovine kidney cultures for plaque assay of foot-and-mouth disease virus and its ribonucleic acid. 3379

Utilization of amide-N in normal and virus-infected tissue culture cells. 3501

Protection of cattle against lump skin disease. II. - Factors affecting small scale production of a tissue culture propagated virus vaccine. 3543

Report on disinfectants. 3776

Cell cultures from stored calf kidneys. 4649

Serological activities of antigenic components of infectious canine hepatitis virus. 4660

An electron microscopic study of the cytopathologic changes in cells infected with hog cholera virus and grown in vitro. 4677

The growth of Rift Valley fever virus in cultures of established lines of cells. 4723

Studies on pathogenic porcine enteroviruses. II. Isolation of virus in tissue culture from brain and feces of clinical cases. 4775

Tissue culture studies and electron microscopy of the virus of Teschen disease. 4779

Serial cultures of lamb testicular cells and their use in virus studies. 47

Attempts to recover bovine mucosal disease virus from artificially infected pigeons. 48

Rinderpest in tissue culture. Iii. Use of the attenuated strain as a vaccine for cattle. 48

Rinderpest in tissue virus culture, I. Methods for virus production. 48

Rinderpest in tissue culture. Ii. Serum neutralization tests. 48

Escherichia coli infections in captive wild cats. 48

Plaque formation by equine rhinopneumonitis virus on monolayer cell cultures of equine, ovine, and porcine kidneys. 49

Isolation and propagation of equine rhinopneumonitis virus in primary monolayer kidney cell cultures of domestic animals. 49

Isolation and propagation of equine arteritis virus in monolayer cell cultures of rabbit kidney. 49

Growth of Aujeszky's virus in rabbits and tissue culture. 49

Growth of Newcastle disease virus in cell cultures derived from swine embryo lymph nodes. 49

Newcastle disease virus in tissue culture cells derived from chickens. 49

The growth curve of a porcine enterovirus (ECPO-1) in porcine kidney monolayers. 50

The neutralization test for vesicular stomatitis virus in chicken embryos and tissue cultures. 51

Propagation of equine arteritis virus previously adapted to cell cultures of equine kidney in monolayer cultures of hampster kidney. 51

Adaptation and modification of a strain of canine distemper virus in tissue culture. 59

Studies on enterovirus of swine. Isolation in tissue culture of a strain (PS55) of the teschen group of viruses. 59

Attenuation of virus diarrhea virus (strain Oregon C24v) for vaccine purposes. 59

Studies on a tissue-culture-modified infectious laryngotraceitis virus. 60

Characteristics of avian Mycoplasma (PPLO) in tissue cultures of human and avian cells. 60

Pathogenesis and cytochemistry of virus-induced nuclear inclusion bodies. 61

Cytopathologic changes in tissue culture infected with avian laryngotracheitis virus. 61

A simplified tissue-culture technique to detect Rous sarcoma virus and its application in antibody assays. 64

Establishment of an insect cell strain persistently infected with an insect virus. 65

The growth of rabies virus in tissue culture and its use as a living attenuated vaccine for domestic animals. 72

Inhibition of the multiplication of tobacco mosaic virus in tissue culture by its antiserum. 83

Antigenic analysis of bovine enteroviruses through studies of the kinetics of neutralization. 87

Cytopathologic changes and development of inclusion bodies in cultured cells infected with bluetongue virus. 87

Comparison of selected characteristics of four strains of infectious bovine rhinotracheitis virus. 87

issue culture propagation and pathology of CELC virus. 8769

nfectious bovine rhinotracheitis-infectious pustular vulvo-aginitis virus infection in pregnant cows. 8829

eactions of sheep to cell-culture-modified foot-and-mouth isease virus. 8886

gent of Marek's disease in tissue culture. 9644

cytopathogenic strain of virus diarrhea virus. 10138

leutian disease (plasmacytosis) of mink. III. Propagation f the virus in mink tissue cultures. 10172

emonstration of an antigenic relationship between hog holera and bovine viral diarrhea viruses by mmunofluorescence. 10174

irus pneumonia of pigs, Attempts at propagation of the ausative agent in cell cultures and chicken embryos. 10223

laque production by rinderpest virus in bovine kidney ultures. 10227

rowth of Phlebotomus (sand fly) fever viruses in amster-embryo tissue culture. 11692

plaque assay of pseudorabies virus in monolayers of orcine kidney cells. 12038

nclusion-body rhinitis of pigs: Attempts to grow the ausal agent in tissue cultures. 12572

egregation of a nonhemadsorbing African swine fever virus n tissue culture. 12586

usceptibility of tissue culture cells to foot-and-mouth isease virus; concentration of bovine serum in culture edium. 12684

luorescein-labeled goat milk antibodies: Use in detection f mumps virus in tissue culture. 12699

he use of tissue culture rinderpest vaccine for Egyptian attle and water buffaloes. 12709

eat treatment and meristem culture for the production of irus-free plant material. 13237

SUES
esidues of Shell Compound 4072 in the body tissues of prayed cattle. 623

arbon dioxide fixation in healthy and rust-affected issue. 695

kinin-like stimulation of higher plant tissue by extracts f Taphrina deformans. 732

se of pimaricin, penicillin, and polymyxin in isolating hytophthora spp. from root tissues. 987

rypan blue and boiling lactophenol for staining and clearing barley tissues infected with Ustilago nuda. 1292

rapid method for the determination of copper in iological tissues by means of zinc dibenzyldithiocarbamate. 2532

ffect of dietary manganese on baby pig performance and tissue manganese levels. 2873

esidue studies in beef tissues following oral administration of methiamazole. 2875

utritional muscular dystrophy in lambs - Selenium analysis f maternal, fetal, and juvenile tissues. 3237

he use of fluorescein-labeled anti-Brucella suis globulin or demonstrating Brucella antigen in animal tissues. 3384

ttempts to induce tissue tolerance in sheep. 3435

comparison of the relative amounts of tissue esterases in iver and kidney homogenates. 3681

esidues in eggs and tissues of chickens on rations containing low levels of DDT. 3711

Persistance of chlorinated hydrocarbon insecticide residues in chicken tissues and eggs. 3712

Colorimetric determination of nemacide and ronnel in animal tissues. 3717

Bioassay method for determining 2,4-D in plant tissues. 3721

Use of starch-gel electrophoresis to illustrate inhibition of tissue esterases by organophosphorus pesticides. II. Comparison of homogenates of different origin. 3821

Distribution of the scrapie agent in the tissues of experimentally inoculated goats. 4977

Lindane in eggs and chicken tissues. 5337

A mechanism of induced host resistance to polygalacturonase in Rhizoctonia-infected tissue. 5760

Cellulolytic activity of monobasidiospore and tissue isolates of Fomes annosus. 5774

Determination of methiotriazamine and bithionol in poultry tissues and of methiotriazamine in feed. 6324

Nature and quantities of materials leached from victorin-treated tissues. 6344

Uptake of Helminthosporium victoriae toxin by oat tissue. 6889

Influence of dietary zinc, calcium and vitamin D for hens on zinc content of tissues and eggs and on bone composition. 7137

The 'macerating enzyme' of Rhizoctonia solani. 7701

Production of 3-methyl-6-methoxy-8-hydroxy-3,4-dihydroisocoumarin by carrot root tissue. 7736

Systemic insecticidal action in the cortical tissues of elm twigs. 8545

The effect of host plant nitrogen supply and age of leaf tissue on the fecundity of the two-spotted spider mite. 10587

Elimination of the internal cork virus by culturing Apical meristems of infected sweetpotatoes. 10844

Transmission of several plant viruses by phenol-water extracts of diseased tissues. 10866

Effect of Centruroides sculpturatus venom upon rat tissue. 11244

Inhibitory action of dithiocarbamates on enzymes of animal tissue. 11406

Changes in virus-infectivity titer in the hemolymph and tissues in the course of nuclear polyhedrosis of the silkworm, Bombyx mori (Linnaeus). 11558

Thin layer chromatography for insecticide analysis. 12079

Enzymatic methods, in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives, vol. i. principles, methods, and general application. 395 Z9. 12083

Detection and semiquantitative estimation of chlorinated organic pesticide residues in foods by paper chromatography. 12177

Effect of diet or diethylstilbestrol on fatty acid composition of bovine tissues. 12584

Zinc deficiency in reproducing gilts fed a diet high in calcium and its effect on tissue zinc and blood serum alkaline phosphatase. 12628

Dimethoate residues in eggs and tissues of laying hens. 12811

The apparent binding of dDT to tissue components. 13584

TOBACCO

TOBACCO
A strain of tobacco rattle virus from Oregon grown potatoes. 104

Greenspot induced by Cercospora nicotiana causes a loss in quality of cured tobacco. 295

Histological basis of resistance to root-knot nematodes in flue-cured tobacco. 496

Some effects of ozone on tobacco leaf metabolism. 914

Distribution pattern and persistence of the systemic resistance induced in hypersensitive tobacco plants by tobacco mosaic virus. 964

Direct recovery of tobacco rattle virus from its nematode vector. 1091

Loss of wildfire resistance in tobacco due to chromosome fragmentation. 1171

The interaction of potato viruses X and Y in tobacco leaf tissue differing in age. 1215

Strains of Pseudomonas solanacearum differing in pathogenicity to tobacco and peanuts. 1288

Isolation of tobacco vein distorting virus from tobacco plants infected with aphid-transmissable bushy-top. 1358

A virus inhibitor from tobacco. 1450

Heat adaptation in a rust and a virus. 1466

Expression of black shank resistance in leaves of flue-cured tobacco. 1581

Effect of source host on infectivity of tobacco mosaic virus isolates. 1584

Effect of temperature on growth of root-knot nematodes in soybeans and tobacco. 1645

Herbicides on flue-cured tobacco. 2323

An inhibitor of TMV infection produced by tobacco leaf cells. 2383

Will blue mold ruin europe's tobacco industry. 2726

Report of subcommittee A on recommendations of referees. 3751

A quantitative and qualitative study of sugars found in tobacco as affected by the green peach aphid, Myzus persicae, and its honeydew. 4020

Experiments with insecticides applied in the soil for tobacco flea beetle and green peach aphid control. 4317

Resistance in Nicotiana to the green peach aphid and some other tobacco insect pests. 4431

Mole cricket control in shade tobacco plant beds. 5669

Report of subcommittee a on recommendations of referees. 5733

'Taters' get copter treatment: lower cost, better protection with aerial application for New England potato crops. 5739

Cytopathology of tobacco necrosis virus infection in tobacco leaves. 5802

Tobacco necrosis virus and its satellite virus. 5808

Plant virus inclusions. 5821

Serology in virus-disease diagnosis. 5835

Parasitism of tobacco callus and Kentucky bluegrass by Aphelenchus avenae. 5887

Analytical studies on solanesol-like substances in tobacco. 6272

Elution column preparation of leaf sample for flame photometry. I. Determination of potassium in tobacco. 6312

Determination of petroleum ether extracts in tobacco. 6

Spectrophotometric determination of maleic hydrazide in tobaccos. 6

Some semiquantitative gas chromatographic studies on the organic acids of tobacco and its smoke. 6

Synthesis of tobacco mosaic virus forms in nucleus and cytoplasm. 6

A simple method of measuring rate of plant virus movement from inoculated tobacco leaves to stem tips. 6

An apparent strain of tobacco rattle virus associated with yellow spotting of lettuce. 6

Detection of the tobacco veinal necrosis strain of potato virus Y in Solanum cardenasii and S. andigenum introduced into the United States. 6

Response of plants to air pollutants. II. Effects of ozone concentration and leaf maturity on injury to Nicotiana tabacum. 6

Calcium nutrition in relation to the black shank disease of tobacco. 6

Studies on tobacco mosaic virus ('tmv) infection of suspended callus cells. 6

Electron microscopy of tobacco rattle type viruses. allen jr, t l. 6

Reappraisal of transmission of tobacco mosaic virus by insects. 6

Free amino acid and amide content of tobacco and oats infected by wildfire and halo blight bacteria. 6

Movement of tobacco necrosis virus in systemically infected soybeans. 6

Effects of ultraviolet preinoculation treatment of leaves on subsequent infection by tobacco mosaic virus and TMV. ribonucleic acid. 6

Inhibition of indoleacetic acid oxidase in tobacco plants infected by Pseudomonas solanacearum. 6

The nature of stain uptake in ultrathin sections of tobacco mosaic virus. 6

Tobacco mosaic virus activity and growth of inoculated tobacco secondary single-cell clones. 6

Effects of some cytokinins on tobacco and their relation to tobacco mosaic virus infection. 6

An electron microscope study of TMV lesions in Nicotiana glutinosa. 6

Heat activation of different strains of tobacco mosaic virus infection on varieties of beans (Phaseolus vulgaris). 6

Release of inhibited tobacco mosaic virus (TMV) infection by ultraviolet irradation as affected by time and temperature after inoculation. 6

Inter-relationship between whitefly (Bemisia tabaci Gien) population and the incidence of leaf curl in bidi tobacco (nicotiana tabacum L) in relation to different planting dates. 7

The suitability of tobaccos for the growth of the cigarette beetle, Lasioderma serricorne. 7

Dedicated pest control means quality cigar wrappers. 8

Price, rather than MH-30 called major problem of U.S. tobacco. 8

Cercospora diseases of tobacco, peanut and gramalote grass. 8

Field spray trials against wildfire and angular leaf-spot of tobacco in Rhodesia. 8

Epidemiology of blue mold (Peronospora tabacina Adam) of

obacco in the Ovens Valley district of Victoria. I. isease occurrence. 8312

pidemiology of blue mold (Peronospora tabacina Adam) obacco in the Ovens Valley district of Victoria. II. isease severity. 8362

arly-season control of green peach aphids on tobacco. 8456

Insecticide tests for tobacco flea beetle and green peach aphid control in Maryland tobacco. 8492

Insecticide tests for tobacco flea beetle and green peach aphid control in Maryland tobacco. 8493

Effect of insecticidal sprays on hornworms and on Apanteles congregatus. 8587

Effect of fumigation and other measures for nematode control on the production of nitrate in Goradu soil. 8640

USDA fights hornworm. 8642

Reactions of tobacco plants to some herbicides. 8704

Distribution of tobacco mosaic virus in systemically infected tobacco leaves. 9614

Differentiation of strains of tobacco mosaic virus by immune diffusion in agar plates. 9646

Reduced photosynthesis in tobacco plants infected with tobacco ringspot virus. 9649

Purification and some properties of tobacco streak and tulare apple mosaic viruses. 9687

Physiological changes which precede virus-induced wilt of Tabasco pepper. 9756

Enzyme levels in tobacco leaf tissues affected by the wildfire toxin. 9757

Dark green spots formed on leaves of Nicotiana glutinosa by tobacco mosaic virus. 9766

Interaction of two plant viruses and the crown gall bacterium in tobacco. 9805

Resistance to viral diseases in tobacco. 9855

Isolation of tobacco rattle virus from Transvaal daisy, Gerbera jamesonii. 9915

Experimental infection of Nicotiana species and interspecific crosses with Cercospora nicotianae and Cercospora kikuchii. 9926

A radioautographic study of the formation of local lesions by tobacco mosaic virus. 9930

Field control of tobacco brown spot with fungicides. 9933

Necrotic local lesion formation by tobacco mosaic virus. 9962

Changes in peroxidase-isozyme patterns induced by virus infection. 10014

House sparrows nonpredaceous on tobacco hornworms in induced feeding experiments. 10017

Survival of Meloidogyne javanica on tobacco in South Carolina. 10074

Morphological and microscopical changes in tobacco, bean, and petunia leaves exposed to irradiated automobile exhaust. 10114

Studies on different types of packing to protect wrapper tobacco from storage pests. 10269

Alkaline degradation of tobacco mosaic virus inhibited by ribonuclease and certain other proteins. 10324

Detection of compounds that inhibit vegetative bud growth of tobacco. 10340

Changes in black shank disease reaction of susceptible tobacco (Nicotiana tabacum) induced by gamma irradiation. 10694

Occurrence of certain plant diseases in Kentucky in 1960. 10796

Occurrence of certain plant diseases in Kentucky in 1959. 10797

Liverwort in tobacco beds in Kentucky. 10798

A new strain of the tobacco ring spot virus isolated from an unidentified imported species of Eucharis. 10801

Black shank of tobacco in Pennsylvania and some observations on the pathogen. 10871

Green peach aphid control on tobacco with systemic insecticide. 10946

Control of the green peach aphid on tobacco with systemic insecticides. 10976

Response of ponderosa and Austrian pine to soil fumigants and seed treatments. 11147

Transfer of resistance to black shank (Phytophthora parasiticia var. nicotianae) from Nicotiana plumbaginifolia to N. tabacum. 11357

Atmuspheric oxidants on the Delmarva peninsula, May, September, 1966. 11696

Ozone and soil moisture in relation to the occurrence of weather fleck on Florida cigar-wrapper tobacco in 1966. 11740

Tolerance of the improved variety K.20 against black shank disease of tobacco. 11741

Phenolase activity in Nicotiana glutinosa infected with tobacco mosaic virus. 11779

Recovery of tobacco mosaic virus from apple. 11788

The role of the living bacterial cell and induction time in the hypersensitive reaction of the tobacco plant. 11789

Tobacco etch virus and potato virus Y from pepper in Southern California. 11795

Genetic variability of tobacco response to Pratylenchus brachyurus. 11961

Cigarette pesticide residues. 12081

Colorimetric estimation of malathion residues. 12184

Synthesis of indoleacetic acid by cell-free systems from Pseudomonas solanacearum and Nicotiana tabacum. 12451

Occurrence of tobacco diseases in Kentucky in 1966. 12465

Biology of the cabbage looper on tobacco in North Carolina. 12484

Studies on antifeeding properties of triphenyltin acetate against the tobacco caterpillar, Prodenia litura F. 12494

Seasonal trends in catches of moths of the tobacco hornworm, tomato hornworm, and corn earworm in traps equipped with blacklight lamps in North Carolina. 12527

Method of tobacco sucker control. patent 3,340,040. 12836

Method of desuckering tobacco plants with azo-, hydrazo-, and azoxy-benzenes. patent 3,361,553. 12838

Cryogenic storage of conidia of Peronospora tabacina. (abstract). 13214

Mitochondrial activities of detached tobacco leaves infected with tobacco mosaic virus: the possible source of energy for virus multiplication. in: Mirocha, c. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction; proceedings of a conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13236

Biochemistry of virus infection. v. change in nuclear content of host cells infected by virus. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular con-

TOBACCO ETCH VIRUS

stituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13249

Effect of calcium nutrition on black shank of tobacco. (abstract). 13250

Development of resistance by the tobacco budworm to endrin and carbaryl. 13296

Fatty alcohol inhibition of tobacco auxiliary and terminal bud growth. 13630

TOBACCO ETCH VIRUS
Genetics of resistance in Capsicum annum to two virus diseases. 10727

TOBACCO MOSAIC VIRUS
Reactivity of tobacco mosaic virus and its protein toward acetic anhydride. 13228

Mitochondrial activities of detached tobacco leaves infected with tobacco mosaic virus: the possible source of energy for virus multiplication. in: Mirocha, c. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction; proceedings of a conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13236

Differences in aggressiveness between TMV-ISOLATES from tomato on clones of Lycopersicum peruvianum. 13265

Yield of glasshouse tomatoes as affected by strains of tobacco mosaic virus. 13266

TOCOPHEROLS
Clinical pathology of tocopheral-deficient mink. stowe, h d. 3226

TOCOPHERYL D, ALPHA-
Fight additional cases of pansteatitis ('yellow fat') in cats fed canned red tuna. 6316

TOLERANCES
Tolerance of Brahman cattle to organic phosphorus insecticides. 12189

A report on residues in food. 13538

TOMATIDINE
Responses of Empoasca fabae (Cicadellidae' Homoptera) to tomatine, solanine, leptine I tomatidine, solanidine, and demissidine. 9066

TOMATINE
Responses of Empoasca fabae (Cicadellidae' Homoptera) to tomatine, solanine, leptine I tomatidine, solanidine, and demissidine. 9066

TOMATOES
Pectic enzymes in Fusarium-infected susceptible and resistant tomato plants. 158

Effect of mineral nutrients on development of crown gall on tomato and mazzard cherry. 214

Chemical inactivation of tobacco mosaic virus in tomato roots. 223

Relation of certain environmental factors and tobacco mosaic virus to blotchy ripening of tomatoes. 227

Virus multiplication and the synergistic response in tomato as modified by host resistance and temperature. 301

Cotyledonary inoculation, a method for screening tomatoes for resistance to the tobacco mosaic virus. 428

Some effects of Fusarium infection of tomato on growth, oxidation, and phosphorylation. 452

Xanthomonas vesicatoria, a resident on tomato. 489

Effects of sugars on tomato plants and nematodes of Rhabditis and Meloidogyne species. 494

Controlling spread of Rhizopus in packed tomatoes by tissue wraps impregnated with active halogen compounds. 608

Morpholcgical effects of the toxin colletotin on Digitalis and tomato foliage. 692

An evaluation of two fungicides as soil treatment with and without herbicide for tomato fruit disease control. 9

The effect of metabolites produced by Fusarium oxysporum f. lycopersici (Sacc.) Snyd. and Hans. on root elongation of tomato seedlings. 10

Transmission of potato spindle tuber virus to tomato. 10

Semeiology of Fusarium wilt of tomato. 10

Symptom retardation of Fusarium wilt of tomato seedlings by a Cephalosporium species. 10

Etiology of tomato fruit rot in the Red River valley of Texas. 10

Inhibition of callus and root growth in tomato stems excised from plants inoculated with a combination of tobacco mosaic virus and potato virus X. 11

Diseases affecting production of certified tomato plants in Georgia during 1942-1963. 12

Susceptibility of certain Verticillium-resistant tomato varieties to an Ohio isolate of the pathogen. 13

Morphological effects of colletotin on tomato and Digitalis foliage. 153

Solanum pennellii, a possible source of tomato curly-top resistance. 157

Delayed preemergence weed control in seeded tomatoes and peppers. 172

Basal mineral requirements for the growth and sporulation of Alternaria tomato. 239

Effect of tobacco mosaic virus on the mineral content of tomato leaves. 239

Effect of the addition of organic amendments to soil on root knot of tomatoes. ii. relation of soil temperature, moisture and pH. 249

Technical notes. Control of broomrape studied by california team. 275

Inactivation of tobacco mosaic virus in tomato roots. 425

Insecticides and combinations of insecticides with oils and surfactants for insect control on various vegetable crops. 444

Soil-applied systematic insecticides in relation to insect and mite control on various vegetable crops. 444

Selective action of solan on tomato and eggplant. 449

Spectrophotometric determination of dithiocarbamate residues on food crops. 530

Biology of the Drosophilia with reference to tomato contamination. 545

In vivo selection of biotypes of Cephalosporium inhibitory to the development of tomato and cotton Fusarium wilt symptoms. 575

Relation of nutrition to Cladosporium leaf mold development in tomato. 579

Evidence that tomato aspermy and cucumber mosaic viruses are serologically unrelated. 579

Temperature as a factor in the control of tomato root knot with oat straw. 580

Studies of hyphal morphogenesis, pathogenicity, and toxin production of Alternaria solani. 581

California department of agriculture contracts with aircraft operators for beetleaf hopper control. 584

Thiram residues in tomatoes, strawberries and celeries. 629

Vancomycin prevents crown gall. 6711

he role of Drosophila melanogaster in th epiphytology of eotrichum, Rhizopus, and other fruit rots of tomato. 6716

emeiography of Fusarium wilt of tomato. 6719

usarium wilt (race2) of tomato0 effect of lime and micro-utrient soil amendments on disease development. 6775

ultiplication of Xanthomonas vesicatoria on tomato seed-lings. 6796

isinfection of tomato seed infested with Xanthomonas vesi-atoria. 6797

ymptomless hosts of the potato spindle tuber virus (PSTV). 6837

urvival of Xanthomonas vesicatoria in soil and diseased omato plants. 6854

he nature of stain uptake in ultrathin sections of tobacco osaic virus. 6901

tudies on the aggregation of tobacco mosaic virus in the round cytoplasm and chloroplasts of tomato. 6902

he effect of growth substances on Verticillium wilt of omato plants. 6909

temphylium leafspot of Echeveria, Kalanchoe, and Sedum. 6916

n improved technique for inducing diagnostic symptoms in omato infected by potato spindle tuber virus. 6959

ffectiveness of insecticides against the European corn orer and green peach aphid on peppers. 7017

rosophila breeding in refuse from tomato canneries. 7031

eaction of Drosophila to different varieties of tomatoes. 7032

bservations on the utilization of the hexose monophosphate athway in nematode-infected roots of tomato. 7088

elicotylenchus thornei n sp (Nematoda, Hoplolaiminae) rom a tomato plant field in Ludhiana, Punjab. 7091

arkness and the activity of diquat and paraquat on tomato, road bean and sugar beet. 7119

he mode of action of diphenamid (N, N-dimethyl 2, 2-di-henylacetamide) in plants. 7126

issipation of malathion residues on tomato and pea. 7679

omparison of Sevin with DDT and rotenone on tomatoes nder tropical conditions. 8226

omato yield response owing to early applications of ieldrin. 8231

nactivation of TNV from tomato seed. 8252

hemical soil treatment for control of fusarium infection. 8261

ancomycin prevents crown gall. 8265

ontrol of leaf mould, due to Cladosporium fulvum, in a eavily infected tomato crop. 8266

ffects of polybutene emulsions on greenhouse tomatoes and he control of leaf mould. 8296

ncidence of bacterial wilt, due to Pseudomonas solanacear-m, in tomato plants as related to soil potassium, calcium nd magnesium levels. 8319

ew fungicide exhibits potential for broad-spectrum disease ontrol. 8327

revention of basal attacks of tomato stem rot (Didymella ycopersici) with captan. 8371

neffectiveness of calcium sources in reducing southern light incidence, due to Scerotium rolfsii, on Rutgers omatoes under epiphytotic conditions. 8398

Drosophila control in tomato fields. 8448

Drosophila control in tomato fields. 8449

Comparison of Sevin with DDT and rotenone on tomatoes under tropical conditions. 8538

Chemotherapeutic action of dimethoate. 8629

Effects of sugars on tomato plants and nematodes of Rhabditis and Meloidogyne species. 8645

Effect of green manures on root-knot incidence in tomato seedlings. 8647

Spraying herbicides on woody plants near sensitive crops. 8690

Insecticide residues on tomatoes probed. 8996

Effect of mineral nutrition on development of crown gall on Bonny Best tomato and Mazzard cherry. 9665

Tomato varieties resistant or susceptible to Fusarium oxysporum f. lycopersici, race 1. 9712

Incidence of Botrytis gray mold of tomato in relation to a calcium-phosphorus balance. 9717

Seed development in tomatoes infected with tomato aspermy, asperm-related viruses from chrysanthemum, and cucumber mosaic virus. 9745

Serological differences between apparently typical pepper and tomato isolates of Xanthomonas vesicatoria. 9787

Dew -- A principal moisture factor enabling early blight epidemics in a semiarid region of Israel. 9807

A bacterial necrosis of tomatoes. 9841

Control of Fusarium wilt in greenhouse tomatoes. 9939

Serological techniques for identifying bacterial spot of tomato. 10434

The role of potato-Y virus in tomato production in south Florida. 10732

An epiphytotic of Pseudomonas solanacearum in tomatoes on newly-cleared Klej sand in relation to potassium, calcium and magnesium levels. 10793

Occurrence of certain plant diseases in Kentucky in 1959. 10797

The effect of calcium and molybdenum on yields and blossom end rot of tomato. 10872

Cotyledonary symptoms of bacterial canker of tomato. 10880

Tomato yield response owing to early applications of diel-drin. 10973

Mechanism of accumulation of Meloidogyne incognita acrita around tomato seedlings. 11001

Fate of amiben in tomato plants. 11368

A source of tolerance and reaction of tomato species and varieties to bacterial spot pathogen. 11735

Bacterial soft rot, bacterial necrosis, and Alternaria rot of tomatoes as influenced by field washing and post harvest chilling. 11848

Survival studies with the tomato bacterial canker organism. 11866

Importance of wounds in bacterial spot Xanthomonas vesicatoria) of tomatoes in the field. 11872

Damage by larvae of the tobacco flea beetle to tomato seed-lings. 11907

Insecticides and surfactant-insecticide combinations for control of the mite, Tetranychus marianae McG., on toma-toes and eggplant. 11933

TONGUE

Sclerotium rolfsii and its control on tomato and peanut. 12473

Suppression of Drosophila melanogaster in tomato field plots by the release of flies sterilized by apholate. 12505

1967 insecticide recommendations; pests of greenhouse tomatoes. 12521

1967 insecticide recommendations; insects of tomatoes. 12522

Insect abundances on tomatoes and squash mulched with aluminum and plastic sheetings. 12529

Reduction of root knot of tomatoes with crop residue amendments in field experiments. 12537

Observations on the effect of sawdust on incidence of root knot and on yield of okra and tomatoes in nematode-infested soil. 12541

Darkness and the activity of diquat and paraquat on tomato, broad bean and sugar beet. 12544

Dilution method for mold count of catsup. 12793

Physiology of wilt disease. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gramagori, Japan. sB611.B6. 13225

Differences in aggressiveness between TMV-ISOLATES from tomato on clones of Lycopersicum peruvianum. 13265

Yield of glasshouse tomatoes as affected by strains of tobacco mosaic virus. 13266

The occurrence of acid hydrolyzable phenolics in relation to Fusarium wilt disease in tomato plants. 13283

Studies on Botrytis cinerea in tomatoes influence of methods of deleafing on the occurrence of stem lesions. 13284

Resistance of axenic tomato seedlings to Meloidogyne incognita acrita and to M. hapla. 13381

Gas chromatographic determination of captan residues. 13550

TONGUE
A revised concept of the pathologic changes of the tongue in cattle with vesicular stomatitis. 2127

A revised concept of the lingual lesions in cattle with foot-and-mouth disease. 5051

The development of petechial haemorrhages on the under-surface of the tongue of the horse and its relation to infection with the virus of equine infectious anaemia. 12713

TONSILS
Tonsillar carcinoma in rural dogs. 7471

TOOLS
Performance of tillage implements in a stubble mulch system. i.residue conservation. II. Effects of soil cloddiness. iII. Effects of tillage sequences on residues, soil cloddiness, weed control and wheat yield. 4246

Sodium hypochlorite as a disinfectant of pruning tools for fire blight control. 9736

TOPOGRAPHY
Incidence of systemic dead-arm and its relation to topography in michigan vineyards. 1262

TORDON
Bioassay methods for 4-amino-3,5,6-trichloropicolinic acid. 7742

TORTRICIDAE
On the embryology of the spruce budworm, Choristoneura fumiferana (Clem.) (Lepidoptera, Tortricidae). 880

Taxonomic studies on the Acleris gloverana-variana complex, the black-headed budworms (Lepidoptera: Tortricidae). 3967

Two previously undescribed species of Canadian Archipsini, with a report of the genus Lozotaenia Stephens in North America (Lepidoptera: Tortricidae). 3968

Some eggs of moths among the Olethreutidae and Tortricidae (Lepidoptera). 4126

An oak leaf tier, Croesia semipurpurana (Lepidoptera: Tortricidae) in Connecticut. 9340

Larvae of the North American Torticinae (Lepidoptera: Tortricidae). 10498

TORTRICIDS
Two tortricids and their parasites in Arkansas. 5675

TORTRIX VIRIDANA
A study of the life-cycles and hosts of some Ichneumonidae attacking pupae of the green oak-leaf roller moth, Tortrix viridana (L.) (Lepidoptera: Torticidae) in England. 13315

TORYMUS
Biology and control of the apple seed chalcid in North Carolina. 7072

TOUCH
Insect communication. 13021

TOUMEYELLA
Natural factors control the pine tortoise scale in the Northeast. 7034

Formicidae associated with the tuliptree scale. 7976

TOWNS
Preferred Aedes aegypti larval habitats in urban areas. 13023

TOXAPHENE
Horses protected from piroplasmosis by vector control. 1855

Section C: Pesticide residue content. 3687

Pesticide residues in commerical animal feeds. 3709

Analysis of insecticides in aqueous emulsions used in livestock dips and sprays: general infrared method. 3774

Sensitivity tests for 22 different chlorinated organic pesticides by paper chromatography. 3813

Susceptibility of boll weevils to some phosphorodithioic acid esters. 4030

Laboratory evaluation of insecticides against the adult horn fly. 4096

Fate of DDT and toxaphene applied topically to susceptible and resistant boll weevils. 4098

A method for field detection of hornfly susceptibility to dDT residues. 4150

Field tests for control of overwintered boll weevils. 4153

Control of Hippelates gnats with soil treatments using organochlorine insecticides. 4197

Laboratory tests with toxaphene. DDT, and Sevin against Lygus hesperus on cotton. 4288

Control of several cotton insects in field experiments in 1960. 4303

Field experiments for control of thrips, cotton fleahoppers, and overwintered boll weevils in 1960. 4307

Field experiments on control of overwintered boll weevils. 4330

Evaluation of insecticides for control of the tobacco thrips on peanuts. 4342

Adjuvants in sprays for insect control on sweet corn. 4348

Utilization of a nuclear polyhedrosis virus to control the cabbage looper on cole crops in Virginia. 4361

Insecticidal susceptibility of Nysius raphanus, a pest of cotton. 4375

Cotton fiber quality as related to some cotton insect control programs and time of fruit setting. 4400

Control of face flies, Musca autumnalis on beef cattle in Indiana. 5160

Horn fly control by the pour-on technique using Ruelene or toxaphene. 5181

Some effects of toxaphene-DDT and calcium arsenate on growth and development of cotton. 5367

Resistance to BHC in the cattle tick Boophilus microplus (can.) in india. 6222

Metals, other elements, and residues in foods. 6304

A seasonal study of diapause, reproductive activity and seasonal tolerance to insecticides in the boll weevil. 6496

Boll weevil susceptibility to toxaphene, endrin, and guthion in five Alabama localities. 6505

The effect of insecticides on transamination in th american cockroach. 6587

Some effects of age, preimaginal habitat, and adult food on susceptibility of boll weevil to certain insecticides. 6983

The effectiveness of chlorinated hydrocarbon insecticide mixtures for control of resistant and susceptible boll weevils. 6986

The bean leaf skeletonizer, Autoplusia egena, and its control on bush snap beans in the everglades. 7006

Increased tolerance of the boll weevil and cotton fleahopper to some chlorinated hydrocarbon insecticides in Central Texas in 1958. 7042

Effects of Dylox and other insecticides on entomophagous insects attacking field crop pests in California. 7065

Field tests with various insecticides for the control of Lygus bugs and the corn earworm on lima beans. 7066

Brief history of aphid control on potatoes in south Florida, 1946-59. 7079

Salt-marsh caterpillar control on cotton in Arizona. 7118

Chlorinated hydrocarbon insecticides as soil treatments against the eye gnat Hippelates collusor (Townsend) in the laboratory. 7576

Toxaphene residues in hogs. 7578

Relative toxicity of insecticidal films to adults of Trogoderma granarium Everts., Oryzaephilus suninamensis L. and Laemophloeus minuthus Oliv. 7885

Insecticide resistance in Bracon mellitor, a parasite of the boll weevil. 7949

Influence of certain biological and environmental factors on insecticide tolerance of the lygus bug Lygus hesperus. 7958

Some effects of age, preimaginal habitat and adult food on susceptibility of boll weevil to certain insecticides. 7963

Laboratory tests of insecticides against eggs and larvae of the cabbage looper. 8038

Effectiveness of chlorinated hydrocarbon insecticide mixtures for control of resistant and susceptible boll weevils. 8427

Field experiments against several late-season cotton insects in 1959. 8441

Control of mint insects. 8488

Preliminary assessment of toxaphene, Strobane and Thiodan for control of clover case-bearers (Coleophora spp.) (Coleophoridae, Lepidoptera). 8501

Laboratory tests of insecticides against eggs and larvae of the cabbage looper. 8512

Control of several early-season cotton pests with insecticides. 8550

Field experiments with several insecticidal sprays against the boll weevil and bollworm. 8552

Biology and control of the morning-glory leaf miner, Bedellia somnulentella, on sweet potatoes. 8570

Biology and control of morning-glory leaf miner, Bedellia somnulentella, on sweet potatoes. 8571

Field tests in Mexico with new insecticides and arsenic for control of Boophilus ticks on cattle. 8921

The effect of heptachlor and toxaphene on stand of ladino clover. 8926

Field tests with insecticides for control of lone star ticks on cattle. 8945

Wildlife losses. 8991

Residues in vegetable crops following soil applications of insecticides. 9039

Insecticide residues on forage under sprayed pecan trees. 9040

Effect of heptachlor and toxaphene on stand of ladino clover. 9091

Comparison of insecticides, insect pathogens and insecticide-pathogen combinations for control of cabbage looper, Trichoplusia ni. 9481

Notes on the syntomid moth Lymire edwardsi (Grote) and its control as a pest of Ficus in south Florida. 9588

Control of some insects attacking celery in the Everglades. 9917

Field experiments against several late-season cotton insects in 1959. 9991

Control of Miridae spp in birdsfoot trefoil seed fields. 10005

Control of the onion maggot, Hylemya antiqua, (Meig) (Diptera: Anthomyiidae), with insecticides in organic soils of S.W. Quebec. 10057

Endrin, toxaphene, and dalapon effects on birdsfoot trefoil seed yields and residue disappearance. 10289

Growth dilution as a factor in the decline of pesticide residues on lucerne-grass forage. 10291

Residues in vegetable crops following soil applications of insecticides. 10293

Toxaphene residues on Pangola grass. 10295

Determination of toxaphene by a spectrophotometric diphenylamine procedure. 10400

Acaricide resistance in the red tick, Rhipicephalus evertsi Neumann. 10672

Growth and development of cotton as affected by toxaphene,

TOXEMIA

DDT, methyl parathion, and calcium arsenate. 10923

Residues in milk from diary cows fed low levels of toxaphene in their daily ration. 11228

Ecological and nutritional studies on Coleomegilla maculata DeGeer (Coleoptera: Coccinellidae). III. The effect of DDT, toxaphene, and endrin on the reproductive and survival potentials. 11236

Detection and measurement of chlorinated organic pesticides in water by electron capture gas chromatography. 12073

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 12076

Microcoulometric gas chromatography of pesticides. 12105

Statistical evaluation of results and sampling procedures. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 Z9. 12114

Low-volume aerial spraying of several insecticides for cotton-insect control. 12476

Control of the lone star tick on cattle. 12739

Field weathering of toxaphene and chlordane. 12807

Evaluation in the greenhouse of a new insecticide for bollworm control. 13345

A preventive boll weevil control program applied to a ten-square-mile area within a treated county. 13353

A preventive boll weevil control program applied to a ten-square-mile area within an untreated county. 13354

TOXEMIA

Adenohypophyseal insufficiency in two cows with pregnancy toxemia. 12632

TOXICITY

Toxicity of carbamate, triazine, dichloropropionanilide, and diallyactamide compounds to sheep. 1997

Results of feeding of herbicide-treated plants to calves and sheep. 4647

Susceptibility of cats to phenol. 4730

Metastatic calcification associated with white muscle disease in lambs. 4756

Chronic poisoning of sheep and goats by lead. 5986

The role of copper in the pathogenesis of subacute and chronic lupinosis of sheep. 6015

Response of citrus mites to selected quinoxaline cyclic di- or trithiocarbonates. 8033

Toxicity of surfactants and surfactant-insecticide combinations to the bollworm, tobacco budworm, and pink bollworm. 8138

Crotalaria (spectabilis) intoxication in guinea pigs. 8768

Blood changes associated with locoweed poisoning. 8824

Ethylene oxide toxicosis in chickens. 8910

A note on the toxicity of the plant Pachystigma thamnus. Bobyns. 9083

Comparative toxicity of the parasporal inclusions of three entomocenous bacteria. 9453

Relative toxicity of five insecticides to alfalfa weevil larvae. 9497

Toxicity of insecticides to house crickets and bioassay of treated soils in the laboratory. 12318

Factors affecting the toxicity of diazinon Musca domestica L. 12343

Toxicity of five insecticides to several insect predators. 12358

WARF anti-resistant: DDT selection and house fly cross-resistance. 12

Laboratory and field studies on mosquito control in waste disposal lagoons in Louisiana. (abstract). 12

Systemic insecticides as lygus bug controls compatible with bee pollination on alfalfa. 12

Laboratory tests with promising insecticides for control of adult and larval stable flies. 12

The effects on wildlife from Norway rat control using zinc phosphide bait. 12

Versuche zur Beeinflussung von Acetylcholin, Neguvon und Asuntol durch Atropin (Experiments for influencing acetylcholine, neguvon and asuntol with atropine). 12

The safe use of modern pesticides. 2. 12

Anisic acid esters as knockdown agents. 13

Photodecomposition of dieldrin and aldrin. 13

Insecticide hormoligosis. 13

Evaluation of insecticides against four species of adult mosquitoes in the Panama Canal Zone, 1967. 13

Responses of Aedes aegypti (L) from Alabama, Georgia and South Carolina to DDT, dieldrin, and malathion. 13

Isoniazid toxicosis in ducklings: studies on pyridoxine, niacin, glutamic acid, and arginine supplementation. 13

DDT problem at a glance. 13

Toxic hazards from the use of insecticides in the control of Aedes aegypti. 13

Food and health - the safe use of pesticides. 13

Effect of ethylene dibromide fumigated feed on animals. sF97.B6. 13

Toxicity evaluation of a technique for introducing dieldrin into water. 13

Studies of DNA, RNA, and protein synthesis in HeLa S cells exposed to DDT and dieldrin. 13

Anatomopathological study of lesions caused by intramuscular injection of hydrochloride and phosphate complex of tetracycline. 13

The apparent binding of dDT to tissue components. 13

Herbicides and their toxicity to livestock. 13

Toxicity evaluation of air pollutants by use of luminescent bacteria. 13

Possible reactions for aflatoxin detoxification. 13

Retention of vaporized lindane by plants and animals. 13

Preparation and biological activity of the isomers of dimethyl-1,3-dicarbomethoxy-1-propen-2-yl phosphate (Bomyl). 13

TOXICOLOGY

In vitro toxicity of various fixed and essential oils to the pecan scab fungus, Fusicladium effusum. 1

Temperature and moisture in relation to the toxicity of 1,3-dichloropropene to Ditylenchus dipsaci (Kuehn) Filipjev in organic soil. 2

Inhibitory and lethal effects of three seed protectants against Pythium debaryanum. 3

Zoalene toxicity in broiler chickens. 5

Increase in toxicity to Drosophila melanogaster of phorate-treated soils. 6

Toxicity of various carbamates and synergists to several strains of body lice. 6

Carbamate insecticides: Toxic action of synergized carbamates against twelve resistant strains of the house fly. 635

Studies on the toxicity of disophenol (2,6-diiodo-4-nitrophenol) to dogs and rodents plus some comparisons with 2,4-dinitrophenol. 645

Toxicity of seven candidate fumigants to stored-product insects. 646

Fungitoxicity of lignin monomers, model substances, and decomposition products. 648

Toxicity of acetic acid to Cladosporium cucumerinum. 660

Toxicity of a resin formulation of dichlorvos to flies and aphids at various temperatures and humidities. 661

Comparative toxicity of certain fungicides to sclerotia and mycelia of Sclerotium cepivorum as determined in soil columns. 689

Herbicdal value of arsenic trioxide in Eastern United States. 1709

Methods of evaluating pre-emergence herbicides for cotton. 1737

Salt poisoning in Wisconsin wildlife. 1810

Toxicity of haloxon. 2291

Studies on the chemistry of the fungitoxicity of Folcid. 2342

Toxicity of some halogenated hydrocarbon mixtures to the citrus and root-knot nematode. 2343

The toxicity of citroxinine. 2345

Assays of volatile fungitoxic effluents from soil treated with fungicides such as Mylone. 2346

Laboratory evaluation of DDT and phosphamidon on the western hemlock looper, Lambdina fiscellaria lugubrosa (Hulst). 2351

Comparison of the toxic effects of Crotalaria spectabilis and Crotalaria giant striata as complete feed contaminants. 2352

Toxicity and translocation characteristics of six fungicidal compounds in plum and prune trees. 2354

An early report on Crotalaria poisoning. 2361

Pesticides:their properties, uses and disadvantages. II. fungicides and herbicides. Pesticides in relation to animals. 2364

Insecticide tests on the Douglas-fir cone midge, Contarinia oregonensis Foote. 2366

Toxicity of some halogenated hydrocarbon mixtures to larvae of the citrus nematode, Tylenchulus semipenetrans. 2371

Penetration and translocation of Bogor applied to plants. 2377

Toxicity of victoxinine. 2421

Non-enzymatic detoxification of 2-chloro-4,6-bis(ethylamino)-s-triazine(simazine) by extracts of Zea mays. 2517

Techniques for evaluating aquatic weed herbicides. 2567

Industry toxicologists to discuss poisoning symptoms with medical groups. 2569

Factors contributing to the loss of amiben phytotoxicity in soils. 2763

The influence of soil organic matter on the phytotoxicity of herbicides. 2785

The effect of some seed characteristics on 2,6-dichlorobenzonitrile toxicity. 2793

Factors affecting the toxicity of phenoxy herbicides to field bindweed. 2794

Effects of structures of s-triazines on toxicity to soybeans and weeds. 2802

Effects of soil properties on EPTC phytotoxicity. 2821

The influence of dalapon on growth and development of autumn-sown sugar beet. 2837

Studies on disinfection of eggs and incubators. V. The toxicity of formaldehyde to the developing embryo. 3190

Effects of sulphur dioxide on guinea pigs and swine. 3729

Oxygen poisoning of the termite, Reticulitermes flavipes (Kollar), and protection by carbon dioxide. 3735

Chemical and biological properties of two new herbicides; ioxynil and bromoxynil. 3760

Relation of the rate of penetration and metabolism to the toxicity of Sevin to three insect species. 4045

Reproducibility of the toxicity ratio of allethrin to pyrethrins applied to house flies by the turntable method. 4056

The toxicity of enzyme fractions of Bacillus larvae. 4125

The toxicological action of three organophosphorus insecticides with three species of mosquito larvae. 4148

Specific information is needed. 4215

The effects of MCPA and 2,3,6-TBA on glasshouse cucumbers. 4227

Simazine breakdown. 4486

New chemotherapeutic agents. 4563

Naturally occurring and sulfonamide-induced lesions in rats during a 1-year toxicity study. 4773

Toxicity to fly larvae of the feces of insecticide-fed cattle. 5166

Toxicity of General Chemical compounds 3582, 3583, and 4072 to screw-worms in laboratory and field tests. 5189

Toxicology of insecticides. 5352

Toxicity studies of General Chemical 4072 and two related compounds to cattle. 5356

A.I.C.H.E. holds pesticides. 5411

Aluminum in soils and plants on the coastlands of british guiana. 5728

Changes in serum transaminase activities associated with plant and mineral toxicity in sheep and cattle. 5961

Federal control of pesticides. 6329

Syntheses of the aliphatic deuterium analogs of DDT and TDE and their toxicity and degradation when applied to adult house flies. 6485

Stability, toxicity, and reaction mechanism with esterases of certain carbamate insecticides. 6509

Relationship between metabolism and differential toxicity in insects and mice of Diazinon, dimethoate, parathion, and acethion. 6570

Experiments on prolongation of the life of mosquito larvae by underfeeding. 6581

Testing of pesticides against cabbage aphid, Brevicoryne brassicae Linn. 6622

Toxicological action of DDT on three species of mosquito larvae. 6658

Laboratory studies on the toxicity of various insecticides to different stages of the oriental fruit moth. 6988

Toxicity of cellulose acetate sheeting to leguminous plants.

7026

O-ethyl S-2(ethylthic)-ethyl alkylphosphonothioates as systemic insecticides. 7035

Toxicity of BHC to loblolly pine seedlings. 7068

A comparison of the toxicity of insecticides for the control of corn earworm on sweet corn. 7084

Toxicity of copper sulfate in beef cattle. 7199

The responsibilities of veterinary practitioners as to the use of pesticides. 7229

Effect of ingested disinfectants on chicks. 7247

Selective toxicity and animal systemic effectiveness of several organophosphates. 7563

Methods for the evaluation of stable fly toxicants and repellents. 7579

Toxicity to house fly larvae of droppings from chickens fed insecticide-treated rations. 7584

Effect of mineral oil solvent on the toxicity and speed of action of malathion. 7686

Relationships between structure and insecticidal activity of some organotin compounds. 7688

Pyrethrins and related compounds. iX. alkenbenzyl and benzylbenzyl chrysanthemates. 7690

The search for veterinary insecticides. iI. carbamates active against sheep blowfly. 7691

Effect of Latrodectus mactans tredecimguttatus venom on the crayfish stretch receptor neurone. 7692

Toxicity of organic phosphorus insecticides to horses. 7694

The effectiveness of EDTA as a fish preservative. 7695

Structure and pesticidal activities of derivatives of dinitrophenols. iII. structure and acaricidal activity of certain carbonates of 2-alkyl-5-methyl-4,6-dinitrophenols and related compounds. 7696

The toxicology of thiodan in several fish and aquatic invertebrates. 7697

Toxicological aspects of 2,2-dichlorovinyl dimethyl phosphate (DDVP) in cows, horses, and white rats. 7699

Toxic chemicals. 7734

Toxic chemicals. 7735

Toxicity of organic fluorine compounds. 7739

Purification of the selective toxin of Periconia circinata. 7755

Laboratory evaluation of certain chlorinated hydrocarbon insecticides against the imported fire ant. 7959

Toxicology of insecticides. 8015

The toxic action of a mixture of sevin and p,p'-DDT to the house fly. 8080

Analysis of joint action of insecticides against house flies. 8123

Effects of vapours of aromatic chemicals on phytopathogenic bacteria. 8339

Metabolism of P32-Delnav in cattle. 8713

Toxicity to house fly larvae of droppings from chicks given Dipterex-treated water. 8934

Further tests with systemic insecticides in rabbits as toxicants for body lice and new tests for yellow-fever mosquitoes. 9065

Laboratory study of toxicity of imported fire ants to bluegill fish. 9068

A versatile automatic microapplicator. 9?

A biological and toxicological study of strains of two-spotted spider mites. 9?

Effect of application methods on the toxicity and distribution of dieldrin in house flies. 9?

Role of the R-group in the fungitoxicity of R.SCC L3 compounds. 9?

Concentration of dimefox in air resulting from its use on hops. 10?

Selective toxicity of certain hydrocarbons to hyperplastic tissues. 10?

Application of gas chromatography to analytical toxicology. 10?

Toxin-producing ability of Aspergillus flavus strains grown on peanuts and an artificial medium. 10?

A substance toxic to Dothidella ulei found in leaves of Hevea brasiliensis. 10?

A detached cucumber leaf method of screening fungicides for the control of anthracnose. 10?

Toxicity of some pesticides to predacious arthropods in Ontario peach orchards. 10?

Toxicity of water extracts of Amanita muscaria to Aphelenchoides ritzema-bosi. 11?

Chronic toxicity of dimethoate to hens. 11?

The toxicity of some pesticide residues to adult Amblyseius hibisci, with a compilation of the effects of pesticides upon phytoseiid mites. 11?

Decline of phorate and dimethoate residues in treated soils based on toxicity to Drosophila melanogaster. 11?

Toxicologic studies on pyrethrin-type esters of chrysanthemumic acid II. Chrysanthemumic acid, 2,4-dimethylbenzyl ester. 11?

Experimental basis for estimating insecticides and acaricides by comparative bioassay. 11?

Effects of certain metabolically active drugs and oximes on tri-o-cresyl phosphate toxicity. 11?

The reversible nephrotoxic effects of biphenyl. 11?

Formulations of Bacillus thuringiensis Berliner found to be contaminated with chlorinated hydrocarbon insecticides. 11?

Influence of anesthesia on the toxicity of tepp and SD-3562. 11?

Toxicology of benzalkonium chloride given orally in milk and water to rats and dogs. 11?

Acute toxicity of malonaldehyde. 11?

Acute toxicity and anticholinesterase action of O,O-diethyl O-p-(methylsulfinyl)phenyl phosphorothioate (DMSP) and some related compounds. 11?

The comparative toxicity of six organophosphorus insecticides in the rat. 11?

Thallium intoxication. 11?

Carbamate insecticides: comparative insect toxicity of Sevin, Zectran, and other new materials. 11?

Comparison of the toxicity to insects of certain insecticides applied by contact and in the soil. 11?

Toxicity of sodium cyanurate. 11?

The toxicity of several dichlorvos (DDVP) and naled formulations to the adult confused flour beetle. 11?

The toxicity of dichlorvos in air to adult Drosophila mel-

anogaster. 11296

TOXOPTERA
Biological studies of a new greenbug biotype. 41

Greenbug control with Di-Syston used as a soil treatment. 43

Long-range aerial transport of the harlequin bug and the greenbug into Minnesota. 64

Evidence of the oversummering of the greenbug in the Texas panhandle. 65

Greenbug dispersal and distribution of barley yellow dwarf virus in Wisconsin. 68

Quantitative measurements of damage by the greenbug, Toxoptera graminum, to four wheat varieties. 85

Importance of the greenbug, Toxoptera graminum, in field transmission of barley yellow dwarf virus. 96

TOXORHYNCHITES
Larval chaetotaxy and notes on the biology of Toxorhynchites rutilus septentrionalis (Diptera' Culicidae). 79

TRACE ELEMENT NUTRITION
Translocation and metabolism of radioactive 2,4-d in Jimsonweed, Datura stramonium. 45

TRACHEA
Pacemaker for tracheal ventilation in the cockroach, Periplaneta americana (L.). 130

TRACHELOCAMPTUS
Notes concerning Erigonidae (Araneae). xXXV. remarks about the genus Trachelocamptus Simon, with the description of a new species from Morocco. 114

TRACHYMYRMEX
A five-year colony of a fungus-growing ant, Trachymyrmex zeteki. 792

TRACHYPUS
Notes on the prey and nesting behavior of some solitary wasps of Mexico and southwestern United States (Hymenoptera: Sphecidae and Pompilidae). 585

TRACHYTIDAE
Caminella peraphora, a new genus and species of mite from Oregon (Acarina: Trachytidae). 1150

TRACHYTOIDEA
Caminella peraphora, a new genus and species of mite from Oregon (Acarina: Trachytidae). 1150

TRACTORS
A tractor-mounted experimental plot sprayer. 168

TRADEMARKS
Designation of insecticides by trademarked names or code numbers in society publications. 3989

TRADESCANTIA
Radiation-induced somatic mutations and the loss of reproductive integrity in Tradescantia stamen hairs. 6357

TRADESCANTIA BLOSSFELDIANA
Radiation-induced loss of reproductive integrity in the stamen hairs of Tradescantia blossfeldiana Mildbr a twelve-ploid species. 6351

TRAIL MARKING
Volatility of trail marking substance of the town ant. 9534

TRAINING
Training aspects of the United States sponsored Aedes aegypti and malaria eradication programs. 13706

TRANID
Synthesis, biological activities, and properties of the syn and anti exo-3-chloro-endo-6-cyano-2-norbornanone O-methylcarbamoyl)oximes. absolute structure of tranid miticide. 13651

TRANIMAL
The influence of various drugs on the growth and beta-aminopropionitrile-induced dissecting aneurysm of turkeys. 11058

TRANQUILIZERS
SU-9064, a water-soluble tranquilizer for handling broilers and replacement pullets. 1947

Effect of various tranquilizers on growing and fattening lambs. 2925

Chlordiazepoxide for calming zoo animals. 4558

Some effects of reserpine, a tranquilizer, on the house fly. 11286

Methods for pesticide analysis in meat products. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 Z9. 12141

Teratogenic effects of a tranquilizer, trifluoperazine dihydrochloride on the yellow-fever mosquito. 12369

TRANSAMINATION
The effect of insecticides on transamination in th american cockroach. 6587

TRANSDUCERS
Strain-gauge transducer studies on intratracheal pressure and pupal length during discontinuous respiration in diapausing silkworm pupae. 12317

TRANSDUCTION
Transduction of Streptococcus lactis. 11035

TRANSLATIONS
Key for determination of the most common, species of the genus Alternaria (Nees)Wiltsh. Emend. Joly. 12437

TRANSMISSIBLE GASTROENTERITIS
Transmissible gastroenteritis of swine: properties of a vaccine and immunologic aspects in the sow and pig. 11089

TRANSMISSIBLE GASTROENTERITIS VIRUS
A viral gastroenteritis of Ontario swine. i. clinical illness and recovery of the virus. 12600

TRANSMISSION
Studies on bluetongue. vI. animal transmission studies. 12622

TRANSPLANTING
A restraining table for implantation and transplantation experiments on mosquitoes. 6416

Cyclamen mite eradication on strawberry transplants. 10931

TRAPAEOLUM MAJUS
Interaction of growth regulators in the senescence of nasturtium leaf disks. 7702

TRAPNESTS
Biology of rygchium foraminatum in trap-nests in Wisconsin (Hymenoptera' Vespidae). 8067

TRAPS
Liquid trapping of Meloidogyne incognita incognita about roots in agar medium. 502

Gypsy moth (Porthetria dispar) detection with the natural female sex lure. 9265

TRAUMA
Nephrectomy in cattle and sheep. 4816

TREE ABNORMALITIES
Dwarf fascicle abnormality of short leaf pine. 1349

TREE CONTROL
Impact of the deep-girdle treatment and associated effects upon the production of fungus mats by naturally infected oak wilt trees. 187

Chemical control of vegetation on roads overseas. 10085

TREE DISEASES
Undescribed plant diseases and diseases not previously reported for oregon during 1961-1963. 109

The influence of cycloheximide on germination of spores of Cronartium fusiforme. 123

Symptoms associated with tatter-leaf virus infection of troyer citrange rootstocks. 130

Prevalence of the green ring mottle virus in Washington sweet cherry orchard trees and in foreign cherries introduced prior to 1953. 181

Evidence for tree-to-tree transmission of sour cherry yellows virus by pollen. 188

A new host of Fomes everhartii. 355

A chemical that retards development of dutch elm disease. 1210

Further data on borax as a control of surface infection of slash pine stumps by Fomes annosus. 1243

Host range of Tylenchorhynchus claytoni on some forrest nursery seedlings. 1668

Benzene hexachloride emulsion for controlling black turpentine beetle in loggins areas. 4024

Observations on the larval habits of some Callidiini with special reference to Callidiellum cupressi (Van Dyke) (Coleoptera: Cerambycidae). 5851

Summation. 6766

Observations on white oak stem swellings. 10788

The pattern of decays and discolorations in northern hardwoods. 10869

Rapid physiological change in Pinus radiata following attack by Sirex noctilio and its associated fungus, Amylostereum sp. 11897

Rusts on Indian forest trees. 12415

Rate of decay in Pinus strobus following artificial inoculation with Fomes pini. 12462

Diseases of forest plantings in Siberia. SB761 .A35. 13199

Diseases in forest plantations: thief of time. 13209

Factors determining resistance of elms to Ceratocystis ulmi. 13227

Butt rot in yellow-poplar seedling-sprout stands. 13233

Histology of Cronartium quercuum galls on shortleaf pine. 13238

Bacterial phloem canker, a new disease of Persian walnut trees. 13290

TREE INJURIES

TREE INJURIES
Observations on Lasperesia fletcherana (Kearfott) (Lepidoptera: Clethreutidae) in Montana. 6

Some factors associated with maple decline in New Hampshire. 1538

The life cycle of the hackberry gall-former, Pachypsella celtidis-gemma (Homoptera, Psyllidae). 4169

Attractiveness to Nitidulidae (Coleoptera) of natural attrahents of trees and fungus origin supplemented with vinegar and water in an Appalachian hardwood forest. 12366

TREE PATHOLOGY
Summary with emphasis on trends and needs in research. 10913

TREE SURGERY
Frequency of sporulation of fusiform rust galls on loblolly pine and effectiveness of surgical and antibiotic treatments. 11739

TREES
Further studies concerning the spread of 'House-Decay' fungi through soil to living trees. 163

Control of insects and mites on fruit trees by trunk injections. 468

Increased production of geminate buds on peach mosaic-infected peach trees. 973

Relative efficiency of three methods of inoculating tree stems with Cytospora fungi. 1507

Symposium on root diseases of forest trees. invitational papers presented august 27, 1962, at the fifty-fourth annual meeting of the American Phytopathological Society at Corvallis, Oregon. 6692

Effects of arboricides on East African trees and shrubs. iv. Tarchonathus camphoratus, L. and Euclea divinorum, Hiern. 8217

Designing orchard experiments for european red mite control. 8445

An improved trap for deciduous tree fruit flies. 9275

A field olfactometer for studying the response of the southern pine beetle to attractants. 9996

Orchard pest control problems diminish. 10683

A method to induce woody galls on deciduous fruit trees with Agrobacterium tumefactens and on olive trees with Pseudomonas savastanoi. 10696

Bioassay using cellophane to detect fungistatic activity of compounds translocated through the vascular system of trees. 11379

A blacklight trap effective for single tree sampling. 11444

Attractiveness to Nitidulidae (Coleoptera) of natural attrahents of trees and fungus origin supplemented with vinegar and water in an Appalachian hardwood forest. 12366

1967 insecticide recommendations; insects of growing Christmas trees. 12520

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 12548

Inoculation of monterey pine with dwarf mistletoe from bishop pine. 12550

TREFOIL
A report on the testing of Lotus species for resistance to Stemphylium leafspot and stem canker. 10753

TREHALOSE
The effect of temperature, anoxia, or injection of various substances on haemolymph composition and super cooling in larvae of Anagasta kuehniella (Zell.). 885

Trehalose in the body fluid of the silkworm, Bombyx mori L.. 2632

The corpus cardiacum as a metabolic regulator in Blaberus discoidalis Serville _Blattidae). 5

The utilization of sugars by insect cells in culture. 12

TREMATODA
The occurrence of acid-fast lipopigments in animals. 3

Studies on the helminth parasites of the herring gull, Larus argentatus Pontopp , in northernCaernarvonshire and Anglesey. 6

Bacillary hemoglobinuria (redwater disease) in florida. 7

TRETAMINE
Selective effects of certain anti-fertility compounds on the house fly as shown by reciprocal crosses and histological sectioning. 9

More efficient than killing. 10

TRIALEURODES
Avocado whitefly control. 4

Spanogonicus albofasciatus as an insect and mite predator (Hemiptera: Miridae). 5

Beet pseudo-yellows virus, transmitted by the greenhouse whitefly (Trialeurodes vaporariorum). 9

TRIALEURODES ABUTILONEA
Banded-wing whitefly abundance and cotton leaf pubescence in Arizona,. 9

TRIALKYL TIN ORGANIC PHOSPHORUS COMPOUNDS
Preparation of organotin-phosphorus compounds and their biological activities - potency against fungi, toxic activity. against insects and phytotoxic properties. 6

TRIATOMA
Natural immunity of the bug Triatoma infestans to the protozoan Trypanosoma rangeli. 6

TRIATOMA DIMIDIATA
Epizootiology of Trypanosoma cruzi in southwestern North America. iX0 An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5

TRIATOMA HEGNERI
Epizootiology of Trypanosoma cruzi in southwestern North America. iX0 An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5

TRIATOMA INFESTANS
Laboratory culture of Triatoma infestans (Klug, 1834) (Hemiptera, Reduviidae). 13

TRIATOMA NITIDA
Epizootiology of Trypanosoma cruzi in southwestern North America. iX0 An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5

TRIATOMINAE
Epizootiology of Trypanosoma cruzi in southwestern North America. 5

Epizootiology of Trypanosoma cruzi in southwestern North America.part I. new collection records and hosts for Trypanosoma cruzi Chagas (Kinetoplastida:Trypanosomidae) (Hemiptera:Triatominae). 5

Epizootiology of Trypanosoma cruzi in southwestern North America. iX0 An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5

Baja California Triatominae (Hemiptera: Reduviidae) and their hosts (Rodentia: Cricetidae). 10

TRIAZINE
Chemistry and herbicidal properties of triazine derivatives. 5

Absorption, diffusion, and translocation of C14-labeled triazine herbicides by peanut leaves. 17

Toxicity of carbamate, triazine, dichloropropionanilide, and

diallyactamide compcunds to sheep. 1997

The adsorption of scme s-triazires in soils. 2490

Persistence of phytctcxic residues of triazine herbicides in soil. 5315

TRIAZINE BEBEICIDES
Gas chrcmatcgraphic determinaticn of small vapor pressures. determiration of the vapor pressures of scme triazine herbicides. 6379

TRIAZINE-3,5(2H,4H)-DIONE, 6-AS-
Response of Heterodera trifclii in red clover roots to Azauracil and other inhibitcrs. 13382

TRIAZINES
Metabolism of triazine herbicides by plants.
mcntgcmery, m l. 10307

Propazine. in: Zweig, Analytical methods for pesticides, plant growth regulators, and fccd additives. vol. iv. herbicides. 395 Z9. 12131

Simazine. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iV. herbicides. 395 Z95. 12132

Ametryne. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides. 395 Z9. 12133

Prometryne. in: Zweig, Analytical methods for pesticides, plant growth regulators, and fccd additives. vol. iv. herbicides. 395 Z9. 12134

Prometone. in: Zweig, Analytical methods for pesticides, plant growth regulators, and fccd additives. vol. iv. herbicides. 395 Z9. 12135

Atratone. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides. 395 Z9. 12136

Atrazine. in: Zweig, Analytical methods for pesticides, plant growth regulators, and fccd additives. vol. iv. herbicides. 395 Z9. 12137

Dyrene. in: Zweig, Analytical methods for pesticides, plant growth regulators, and fccd additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12154

Pesticide analytical manual. i. methods which detect more than cne pesticide residue. iI. methods for individual pesticide residues. ed. 2, rev. 12273

Herbicidal 2-methylthic-s-triazines. patent 3,326,914. 12896

TRIBOLIUM
Archaeological records of storage pests: Sitophilus granarius (L.) (Coleoptera, curculionidae) from an Egyptian pyramid tcmb. 2577

The intrinsic rate of natural increase of Cryptolestes ferrugineus (Stephens) (Coleoptera, Cucujidae). 2592

Competition between Tribolium species (Coleoptera, tenebrionidae) on several diets. 2671

Discrimination between the pupae of Tribolium confusum Duv. and T. castaneum (Hbst.) (Coleoptera: Tenebrionidae). 3926

Excretion and its products in scme stored-grain-infesting beetles. 4059

Toxicity of hydrogen phosphide to the granary weevil, Sitophilus granarius, and other insects. 4134

Studies on the postirradiation feeding activity of Tribolium castaneum (Tenebrionidae: Coleoptera). 4143

Sperm precedence in the fertilization of eggs in Tribolium castaneum. 4146

Carbon disulfide effectiveness on flour beetles in relation to temperature and exposure time. 4334

Seed cleaning as a source of infestation for stored grain. 5283

The effectiveness of certain grain fumigant formulations. I. Dosage mortality. 6261

Laboratory studies on dispersion behavior of adult beetles in grain. VII. the effect of isolated pockets of damp and moldy grain on Tribolium castaneum (hbst.) (colecptera, tenebrionidae). 6263

Effectiveness of mixtures of acrylonitrile and carbon tetrachloride against three pests of stored corn. 7055

The suitability of tobaccos for the growth of the cigarette beetle, Lasicderma serricorne. 7081

Dosimetry for studies on the radiobiology of Tribolium castaneum using the Van de Graaff electron acceleratcr. 7754

Effects of low temperatures on the eggs of the Angoumois grain moth, and the confused flour beetle. 7953

Age at sexual maturity in female flour beetles, Triboleum castaneum and T. confusum. 7989

Identification of Tribolium larvae by their setal characteristics (Coleoptera' Tenebrionidae). 8026

Toxicity of several dichlorvos (DDVP) and Naled formulations to adult confused flour beetle. 8032

'Antennapedia'' an unusual antennal mutation in Tribclium castaneum. 8147

Effects of low doses of ethylene dibromide on some stages of confused flour beetle, Tribolium confusum. 8524

Effectiveness of Sevin-Sesamex combinations against adult flour beetles (Tribolium spp.). 8576

Testing of paper and other sack materials for penetration by insects which infest stored products. 8964

Relation of moisture content and temperature of stored grain to the effectiveness of grain fumigants under forced circulation. 8971

The relation of moisture content and temperature of stored grain to the effectiveness of grain fumigants under forced circulation. 8972

Effects of low doses of ethylene dibromide on some stages of the confused flour beetle, Tribolium confusum. 8973

The effectiveness of sevin-sesamex combinations against adult flour beetles (Tribolium spp.). 8981

Laboratory evaluation of diazinon as a wheat protectant. 10029

Triphenyl tin compounds as insect reproduction inhibitors. 10600

Studies on the respiratory metabolism of the red flour beetle. 11571

Time, temperature and dosage relationships of several insecticidal fumigants. 11599

Toxicity of some insecticides to the red flour beetle, Tribolium castaneum. 11645

Optic organs of Tribolium confusum and T. castaneum and their usefulness in age determination (Coleoptera: Tenebrionidae). 11669

Tribolium and cockroach control with kepone bait in fabric insect culture cabinets. 12293

Notes on the systematics and distribution of some Tribolium species (Coleoptera: Tenebrionidae). 12953

TRIBOLIUM CASTANEUM
Atmospheric gas alteration and insect control in peanuts stored at various temperatures in hermetically sealed containers. 10271

Susceptibility of laboratory and field-collected cultures of the confused flour beetle and red flour beetle to malathion

TRIBOLIUM CONFUSUM

and pyrethrins. 11654

Some insecticidal trials for the protection of til seeds in storage. 12785

Studies on the effect of airtightness on the development of Tribolium castaneum Herbst (Coleoptera: Tenebrionidae) in wheat and wheat flour. 12787

The comparative effects of vitamin deficiency on development and on adult fecundity of Tribolium castaneum. 13005

Developmental rate and competitive ability in Tribolium. III. competition in unfavorable environments. 13032

New findings concerning pheromones produced by Trogoderma granarium (Everts), (Coleoptera, Dermestidae). 13143

Ontogeny and comparative radiation sensitivity in the confused flour beetle and strains of the red flour beetle. 13494

Effect of high-amylose field corn on larval growth and survival of five species of stored-grain insects. 13498

Effectiveness of gamma irradiation for control of five species of stored-product insects. 13500

TRIBOLIUM CONFUSUM

Exposure of Tribolium confusum to Thio-TEPA and its effect upon development of Hymenolepis diminuta cysticercoids. 5707

Mechanism of the insecticidal action of mercury salts. 9067

Capric acid blended into foodstuff for control of an insect pest, Tribolium confusum (Coleoptera0 Tenebrionidae). 9502

Notes on the effect of preconditioning confused flour beetles with temperature variations of carbon dioxide prior to gamma irradiation. 10665

The toxicity of several dichlorvos (DDVP) and naled formulations to the adult confused flour beetle. 11295

Susceptibility of laboratory and field-collected cultures of the confused flour beetle and red flour beetle to malathion and pyrethrins. 11654

Respiration of the confused flour beetle in five atmospheres of varying C02:02 ratios. 12780

Respiration of confused flour beetle adults in C02 or N2 and after sublethal fumigation. 12781

Developmental rate and competitive ability in Tribolium. III. competition in unfavorable environments. 13032

Ontogeny and comparative radiation sensitivity in the confused flour beetle and strains of the red flour beetle. 13494

Effectiveness of gamma irradiation for control of five species of stored-product insects. 13500

TRIBUTYL PHOSPHOROTRITHIOATE, S,S,S-

DEF. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iv. herbicides. 395 ZS. 13554

TRIBUTYL PHOSPHOROTRITHIOATE, SSS-

Phosphorus-32- and sulphur-35-labelled SSS- tributyl phosphorotrithioate defoliant residue in cottonseed. 9098

TRIBUTYLTIN ACETATE

Organic tin compounds for control of blue mould, due to Penicillium sp., of iris bulbs. 8352

TRIBUTYLTIN OXIDE

Organic tin compounds for control of blue mould, due to Penicillium sp., of iris bulbs. 8352

TRICALCIUM ARSENATE

Factors affecting the tolerance of boll weevils to calcium arsenates. 8588

TRICARBA

Effect of inhibitors and herbicides on tricarboxylic acid cycle substrate oxidation by isolated cucumber mitochondria. 5369

TRICARBOXYLIC ACID CYCLE

Effect of victorin on the Krebs cycle acids of oat varieties expressing variable reactions to Helminthosporium victoriae. 2

Effect of inhibitors and herbicides on tricarboxylic acid cycle substrate oxidation by isolated cucumber mitochondria. 53

TRICHINAE

Thiabendazole and trichinae. 71

TRICHINELLA

Some aspects of the mechanism of immunity to helminths. 50

Incidence of infection with Trichinella spiralis in dogs. 76

Trichinosis declines. 76

TRICHINELLA SPIRALIS

Hematologic changes and clinical signs of trichinosis in pigs. 1271

TRICHINOSIS

Trichinosis occurs in foxes. 228

Swine trichinosis. I. fecal transmission under simulated field conditions. 326

Trichinosis in garbage-fed swine. 358

The effects of cobalt 60 radiation on Trichinella spiralis in meat. 358

Use of slide-latex test for detecting trichinosis in hogs. 463

Current status of animal-borne diseases among the Eskimos. 474

Trichiniasis in Iowa swine with further studies on modes of transmission. 5141

Trichinosis declines. 762

Clinical problems of chronic trichinellosis. 1024

TRICHIOCAMPUS VIMINALIS

Study of the poplar sawfly, Trichiocampus viminalis (Fall.) (Hymenoptera' Tenthredinidae). 778

TRICHLORFON

Observations on the comparative anthelmintic efficiency of organophosphorus compounds and synergized phenothiazine against Strongylcides papillosus (Wedl) in calves. 360

Comparison of anthelmintics in sheep in Alabama. 360

Efficiency of Dylox, ruelene, phenothiazine plus piperazine in the control of Haemonchus in sheep. 3645

Insecticide residue in milk depends on timing. 3671

Development of insecticide resistance in three field strains of house flies. 4092

Recent developments in the insecticidal control of the apple maggot. 4310

Insecticidal susceptibility of Nysius raphanus, a pest of cotton. 4375

Control of Sparganothis sulfurana on cranberry. 4432

Control of the beet armyworm on cotton in Arizona. 4438

Chemical control of the ground pearl, Eumargarodes laingi. 4475

Experiments on control of the face fly. 5167

Tests against face flies on cattle in New Jersey during 1960. 5171

Observations and results of using an organic phosphate compound for the treatment of bots and strongyles in horses. 5251

Control of some internal parasites of chinchillas. 5256

Systemic insecticides for the control of cattle grubs, Hypoderma lineatum (DeVilliers) and Hypoderma bovis (L.). 6208

Use of starch gel electrophoresis to illustrate inhibition of rabbit liver esterases by organophosphorus pesticides. 6326

Potential use of Dylox and other insecticides in a control program for field crop pests in California. 6687

Effects of Dylox and other insecticides on entomophagous insects attacking field crop pests in California. 7065

Control of the northern fowl mite, Ornithonissus sylviarum (C. + F.), with ronnel, Bayer 113/59, and Bayer 21/199. 7573

Toxicity to house fly larvae of droppings from chickens fed insecticide-treated rations. 7584

Toxicity of organic phosphorus insecticides to horses. 7694

Toxicity to house fly larvae of droppings from chicks given dipterex-treated water. 8108

New insecticides for lygus bug control on vegetable seed crops. 8435

Experiments for early-season control of the green peach aphid on tobacco. 8457

Selective insecticides for vegetable leaf-miner control and parasite survival. 8486

Evaluation of insecticides for control of the tarnished plant bug on birdsfoot trefoil. 8559

Biology and control of the morning-glory leaf miner, Bedellia somnulentella, on sweet potatoes. 8570

Organo-phosphorus warble-fly dressings. 8800

Field tests in Mexico with new insecticides and arsenic for control of Boophilus ticks on cattle. 8921

Insecticidal control of the ear tick in the ears of cattle. 8923

Toxicity to house fly larvae of droppings from chicks given Dipterex-treated water. 8934

Potentiation of succinylcholine by organophosphate compounds in horses. 8948

Controlled test of anthelmintic activity of trichlorfon and thiabendazole in lambs, with observations on Oestrus ovis. 8952

Field tests of dusts and sprays against German cockroaches. 9362

New insecticides for lygus bug control on vegetable seed crops. 9977

Toxicity of organic phosphorus insecticides to horses. 10163

Ultra-low-volume aerial application of trichlorfon for control of adult mosquitoes, face flies, and horn flies. 10239

Face fly control experiments on quarter horses - 1962-64. 11097

Low concentration of coumaphos and trichlorfon spray treatments for control of the cattle lice Solenopotes capillatus and Bovicola bovis. 11104

Laboratory experiments with a new group of organophosphorus insecticides on some agricultural insects. 11346

Chemagro offers 'practical' program to selectively control pests of cotton. 11905

Melon aphid control on cantaloupes. 11912

Observations on the control of Haematopinus suis and Ascaris lumbricoides of swine with certain organic phosphorus compounds. 11994

Dylox. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. ii. insecticides. 395 29. 12153

Toxicity of five insecticides to several insect predators. 12358

Versuche zur Beeinflussung von Acetylcholin, Neguvon und Asuntol durch Atropin (Experiments for influencing acetylcholine, neguvon and asuntol with atropine). 12815

The influence of a sub-acute infection of polyhedrosis virus in the cabbage looper on susceptibility to chemical insecticides. 13047

Effect of endrin and trichlorfon applied in artificial diet against larvae of sugar-cane borer Diatraea saccharalis (F.) (Lep., Pyralidae). 13049

Ostrinia nubilalis Hubner, injurious to globe artichoke in Egypt (Lepidoptera: Pyralidae). 13300

TRICHLORION

A comparison of the toxicity of insecticides for the control of corn earworm on sweet corn. 7084

Salt-marsh caterpillar control on cotton in Arizona. 7118

TRICHLORO-PHENOXYACETIC ACID, 2,4,5-

Control of swainsonpea, Swainsona salsula. 5910

TRICHLORO-1-ETHYLTHIOETHYL PHOSPHOROTHIONATE, ET2.2,2,2-

Thiophosphoric acid esters. 9123

TRICHLOROACETIC ACID

Studies on the biotypes of Cynodon dactylon (L.) pers. II. Growth response to trichloroacetic and 2,2-dichloropropionic acids. 4525

Effect of chemicals as herbicides alone and in combination for weed and grass control in Louisiana sugar cane. 8697

Determination of trichloroacetate when incorporated in an NPK fertiliser. 9224

TRICHLOROBENZENE

Trichlorobenzene as a soil toxicant against four wood-decaying soil fungi. 6735

TRICHLOROBENZOIC ACID, 2,3,6-

The phytotoxicity and persistence in soils of benzoic acid herbicides. 4501

Effect of inhibitors and herbicides on tricarboxylic acid cycle substrate oxidation by isolated cucumber mitochondria. 5369

Determination of herbicides in oils. 6414

TRICHLOROBENZYLOXYALKYL ESTER

Herbicidal method employing trichlorobenzyloxyalkyl esters of chlorinated aliphatic acids. patent 3,338,703. 13681

TRICHLOROMETHANE

The effectiveness of certain grain fumigant formulations. I. Dosage mortality. 6261

The effectiveness of certain grain fumigant formulations. II. Germination. 6262

TRICHLORONITROMETHANE

Population dynamics and fumigation studies of certain nematodes associated with roots of wheat in Nebraska. 7101

TRICHLOROPHENOXYACETIC ACID

Separation and identification of chlorinated organic pesticides by paper chromatography. XII. The two herbicides, 2,4-d and 2,4,5-t. 6403

TRICHLOROPHENOXYACETIC ACID, 2,4,5-

Control of timber milkvetch, Astragalus miser, and effects on associated vegetation. 5897

Determination of 2,4-D and other chlorinated phenoxy alkyl acids. 12226

A comparison of synthetic growth regulators with indoleacetic acid, with respect to methionine metabolism. 12245

TRICHLOROPHENYL-PHENYLCARBAMATE, 2,4,5-

Separation and identification of chlorinated organic pesticides by paper chromatography. xii. the two herbicides, 2,4-D and 2,4,5-T. 12268

TRICHLOROPHENYL-PHENYLCARBAMATE, 2,4,5-
N-monoaryl substituted carbamic acid 2,4,5-trichlorophenyl esters. 9135

TRICHLOROPHENYLACETIC ACID
Herbicidal compositions containing polychlorophenylacetic acids and salts thereof. 9189

TRICHLOROPHENYLACETIC ACID, 2,3,6-
Chemical control of mugwort. 4493

A comparison of synthetic growth regulators with indoleacetic acid, with respect to methionine metabolism. 12245

TRICHLOROTHIOACETAMIDO THIOPHOSPHORUS ESTERS
Thiophosphoric, -phosphonic and -phosphinic acid esters. 9126

TRICHOBIUS
The comparative external morphology of Trichobius corynorhini, T. major, and T. sphaeronotus (Diptera, Streblidae) Part III. The abdomen. 7945

TRICHOCLADIUS
New Chironomidae from florida (Diptera). 3874

TRICHODERMA
Antagonistic effects of some soil fungi on Verticillium sp. isolated from maple trees. 5767

Sporicidal effects of ring polychlorinated pyrimidines. Physical factors affecting toxicity. 8301

Effects of three soil-inhabiting fungi on axenic peanut plants. (abstract). 13216

TRICHODERMA TODICA
Antiviral antibiotic from trichoderma todica and method of producing same. patent 3,323,996. 13673

TRICHODERMA VIRIDE
The mode of action of diphenamid (N, N-dimethyl 2, 2-diphenylacetamide) in plants. 7126

TRICHODORUS
Direct recovery of tobacco rattle virus from its nematode vector. 1091

Control of nematodes attacking onions. 8655

The feeding of Trichodorus christiei on individually isolated corn root cells. 10060

TRICHODORUS CHRISTIEI
Factors influencing storage life of Hemicycliophora arenaria, Pratylenchus scribneri, and Trichodorus christiei. 1598

Parasitism and pathogenesis of the cultivated highbush blueberry by the stubby root nematode. 1663

Aspects of the ecology and parasitic relationship to peanuts of several ectoparasitic nematodes in North Carolina. 5829

TRICHOGRAMMA
Ecological studies of Trichogramma retorridum and emergence of two trichogramma species from the same host egg. 7913

Oviposition habits of Trichogramma minutum on artificial concentrations of eggs of the European pine shoot moth. 8042

Effect of wind on dispersal of Trichogramma semifumatum. 11489

Field tests with new insecticides for control of the sugarcane borer in Louisiana in 1959. 11916

TRICHOGRAMMA JAPONICUM
Feasibility and problems of chemical control of rice stem borers, research on the natural enemies of rice stem borers. 5845

TRICHOMONAS FOETUS
Diagnosis of Trichomonas foetus infection in bulls. 8

TRICHOMONIASIS
Treatment of genital trichomoniasis in bulls. 3

Structure of Trichomonas foetus as revealed by electron microscopy. 3

Pathogenicity studies on Trichomonas gallinarum in domestic poultry. 3

Diagnosis of Trichomonas foetus infection in bulls. 8

TRICHOPHYTON
Dermatophytosis (ringworm)' pathogenesis, diagnosis, and treatment. 7

Mycotic dermatitis in a steer. 120

TRICHOPHYTON MENTAGROPHYTES
Naturally occurring dermatomycosis in the rabbit. 87

TRICHOPLUSIA
Mass-rearing the cabbage looper, Trichoplusia ni, with notes on its biology in the laboratory. 41

Increased early insect detection bearing fruit. 43

General insect activity restricted. 43

Control of the cabbage looper with a nuclear polyhedrosis virus disease. 43

Granular systemic insecticides applied to spinach, turnips, and cabbage for insect control. 43

Utilization of a nuclear polyhedrosis virus to control the cabbage looper on cole crops in Virginia. 43

The efficiency of a polyhedrosis virus and Bacillus thuringiensis for control of the cabbage looper on cauliflower. 44

Insecticides and combinations of insecticides with oils and surfactants for insect control on various vegetable crops. 44

The bionomics of an insect-parasitic nematode. 587

Spicaria rileyi (Farlow) Charles and Aspergillus flavus Link, entomogenous fungi of the cabbage looper, Trichoplusia ni (Hubner), in Indiana and Wisconsin. 648

Pathology of a nuclear polyhedrosis virus of the cabbage looper, Trichoplusia ni (Hubner). 652

A new nuclear polyhedrosis of the cabbage looper, Trichoplusia ni. 654

Microbial control of two cabbage insects. 658

Thermal inhibition of certain polyhedrosis virus diseases. 664

Spatial pattern of the cabbage looper, Trichoplusia ni, on crucifers. 783

Sex pheromones of noctuid moths. II. Mating behavior of Trichoplusia ni (Lepidoptera' Noctuidae) with special reference to the role of the sex pheromone. 790

Laboratory tests of insecticides against eggs and larvae of the cabbage looper. 803

The biology of Trichoplusia ni (Lepidoptera' Noctuidae). 'iii Response to the oviposition substrate. 810

Genetic factor controlling colour and its association with DDT sensitivity in the cabbage looper. 815

Fall insect problems are localized. 846

Hibernating boll counts are below those of last fall. 847

Laboratory tests of insecticides against eggs and larvae of the cabbage looper. 851

Green cloverworm outbreak causes widespread damage. 861

Heavy populations of the pink bollworm are reported. 8618

Comparison of insecticides, insect pathogens and insecticide-pathogen combinations for control of cabbage looper, Trichoplusia ni. 9481

European corn borer, green peach aphid and cabbage looper control on peppers. 10924

Seasonal abundance of the cabbage looper as related to light trap collections, precipitation, temperature and the incidence of a nuclear polyhedrosis virus. 11492

A method for rearing the cabbage looper Trichoplusia ni on a meridic diet. 11573

Evaluation of chemical and microbial materials for the control of the cabbage looper. 11910

Field experiments on insecticidal control of insect pests of cabbage and broccoli. 11928

Insecticide sprays for control of insects on various vegetable crops. 11932

TRICHOPLUSIA NI
Effect of chemosterilants on fertility of cabbage loopers. 640

Stess and nuclear polyhedrosis in crowded populations of Trichoplusia ni (Hubner). 857

Bionomics and control of certain Plusiinae and studies of an associated nuclear polyhedrosis virus. 6992

Evaluation of designs and installations of electric insect traps to collect bollworm moths in Reeves County, Texas. 9274

The persistence of a nuclear polyhedrosis virus in the habitat of the host insect, Trichoplusia ni. II. polyhedra in soil. 9505

The persistence of a nuclear polyhedrosis virus in the habitat of the host insect, Trichoplusia ni. i. polyhedra deposited on foliage. 9506

Infection of a looper complex by Entomophthora sphaerosperma. 9578

Sand as a carrier for synthetic sex pheromone of cabbage loopers used to bait black light and cartcn traps. 10456

Cabbage loopers and imported cabbageworms; feeding damage and control on cabbage in western North Carolina. 10928

Sex pheromones of noctuid moths. XIV. feasibility of behavioral control by disrupting pheromone communication in cabbage loopers. 12374

Biology of the cabbage looper on tobacco in North Carolina. 12484

Insect sex attractants. VIII. structure-activity relationships in sex attractant for male cabbage loopers. 12492

Effects of organometallic compounds on Lepidoptera. 12528

Control of the cabbage looper and corn earworm with nuclear polyhedrosis viruses. 12530

The influence of a sub-acute infection of polyhedrosis virus in the cabbage looper on susceptibility to chemical insecticides. 13047

Fatty acid composition of the diet and larvae and biosynthesis of fatty acids from 14C-acetate in the cabbage looper, Trichoplusia ni. 13098

TRICHOPODA PENNIPES
Progress in the biological control of the southern green stink bug, Nezara viridula in Hawaii _Heteroptera, Pentatomidae). 5854

TRICHOPSENIINAE
New termitophilous Staphylinidae of zoogeographic significance (Coleoptera). 3983

TRICHOPTERA
Bottom organisms of the Beaver Reservoir Basin: a pre-impoundment study. 5426

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5615

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5628

Effects of forest spraying with DDT in New Brunswick on food of young Atlantic salmon. 5634

Membracidae attracted to black light. 6590

Repopulation by aquatic insects in streams sprayed with DDT. 10238

TRICHOPTERYGIDAE
Winter, insect-light trapping at the Archbold Biological Station, Florida. 11482

TRICHOSTRONGYLOSIS
The effects of phenothiazine vs methyridine on the weight gains and helminth burdens of feed lot lambs. 3615

Anthelmintic activity of two organic phosphorus compounds and phenothiazine in sheep. 5232

The disintegration of sheep dung and the pre-parasitic stages of Trichostrongylids. 5977

Field trials comparing the anthelmintic effect of Ruelene (4-tert-butyl-2-chlorophenylmethyl methylphosphoramidate) with that of phenothiazine. 7601

The establishment of Ostertagia spp. in lambs previously infected with Trichostrongylus axei. 8944

Active immunity against Trichostrongylus axei in sheep and rabbits. 12710

Antibody and cellular response in lambs immunized against Trichostrongylus axei. 12711

TRICHOSTRONGYLUS
Thiabendazole as an anthelmintic in cattle and sheep. 7588

TRICHOSTRONGYLUS AXEI
Active immunity against Trichostrongylus axei in sheep and rabbits. 12710

Antibody and cellular response in lambs immunized against Trichostrongylus axei. 12711

TRICHOSTRONGYLUS COLUBRIFORMIS
The ecology of the free-living stages of Trichostrongylus colubriformis. 6228

TRICHURIASIS
Severe chronic canine diarrhea associated with balantidium-trichuris infection. 5215

TRICHURIS
Canine whipworm in man. 1870

Intravenous treatment of whipworm infection in dogs. 2297

The anthelmintic activity of thiabendazole (MK 360). 3576

Trichuris vulpis infection of dogs. 3580

Treatment of Trichuris vulpis infection of dogs with Glycobiarsol. 5200

TRICHURUS
Thiabendazole as an anthelmintic in research monkeys. 7606

TRICURIS MURIS
Acquired immunity to Trichuris muris in the albino laboratory mouse. 6251

TRICYCLIC KETONE
Tricyclic ketone insecticides and process therefor. patent 3,331,860. 12884

TRIETHYL CHLORIDE
Relationships between structure and insecticidal activity of some organotin compounds. 7688

TRIFLUOPERAZINE

TRIFLUOPERAZINE
The influence of various drugs on the growth and beta-aminopropionitrile-induced dissecting aneurysm of turkeys. 11058

TRIFLUPROMAZINE
Detection of triflupromazine in milk. 6319

TRIFLURALIN
Determination of trifluralin in formulations. 3800

Metabolism of carbon-14 trifluralin in carrots. 13542

Fate of trifluralin in soils and plants. 13563

TRIGONELLA FOENUM-GRAECUM
Cercospora traversiana and some other pathogens of fenugreek new to North America. 10820

TRIGONELLA INCARNATUM MOLINERII
New hosts of black blotch of clover in Britain. 8298

TRIGONELLA OCCIDENTALE
New hosts of black blotch of clover in Britain. 8298

TRIGONELLA ORNITHOPODIOIDES
New hosts of black blotch of clover in Britain. 8298

TRIGONIZA SULCATA
Reassessment of the affinites of the grasshopper Trigoniza sulcata Tepper, from an examination of the holotype (Orthoptera: Acridcidea). 11505

TRIHALOPHENYL-2-PROPYNYL ETHER
Novel insecticidal carbamate-propargylaryl ether compositions. patent 3,362,871. 12862

TRIHYDROXY-2,4,4-TRIMETHYLFLAVAN, 7,2,4-
Trimethylhydroxy-phenylchroman derivatives. 10377

TRIMACULATUS
The biology of Anthrax limatulus fur (Osten Sacken), with a key to and description of pupae of some species in the Anthrax albofasciatus and Trimaculatus groups (Diptera: Bombyliidae). 5865

TRIMEDLURE
New approved common names of insecticides. 7905

TRIMEPRAZINE
Use of trimeprazine in dogs and cats. 4654

TRIMEROMICRUS MACULATUS
Humidity and the emergence of Bruchophagus kolobovae (Hymenoptera' Eurytomidae) and its parasites from trefoil seeds. 7778

TRIMETHYLAMMONIUM CHLORIDE, (2-CHLOROETHYL),
Effect of (2-chloroethyl) trimethylammonium chloride on the rate of increase of the cabbage aphid (Brevicoryne brassicae, L.). 8412

TRINIDAD
Virus transmission studies with Trinidadian mosquitoes. IV. Kairi virus. 2682

Serological relationship between bean pod mottle virus and cowpea mosaic viruses from Arkansas and Trinidad. 6906

Observations on habitats of Culicoides larvae in Trinidad, W. I. (Diptera' Ceratopogonidae). 7936

Additions to the Tabanidae (Diptera) of Trinidad, B. W. I. 11478

TRIOPS
Control of the tadpole shrimp, triops longicaudatus in California rice fields. 4335

TRIOXYS
Establishment of imported parasites of the spotted alfalfa aphid in Arizona. 8422

TRIOZA MEXICANA
Distribution of two Strepsiptera in Florida0 1960-1962. 5523

TRIOZOCERA
A new species of triozocera (Mengeida' Strepsiptera) from Liberia, West Agrica. 7813

TRIPHENYL TIN
The retention of triphenyltin and dieldrin and its relevance to the toxic effects of multiple dosing. in: Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16 April 1965. S953.P32. 135

TRIPHENYL TIN COMPOUNDS
Triphenyl tin compounds as insect reproduction inhibitors. 106

TRIPHENYL TIN ORGANIC PHOSPHORUS COMPOUNDS
Preparation of organotin-phosphorus compounds and their biological activities - potency against fungi, toxic activity. against insects and phytotoxic properties. 63

TRIPHENYLTETRAZOLIUM CHLORIDE
Succinoxidase activity in two species of Bracon (Hymenoptera, Braconidae). 65

Evaluation of regrowth potential of perennial forage crops using triphenyltetrazolium chloride. 136

TRIPHENYLTIN ACETATE
Studies on antifeeding properties of triphenyltin acetate against the tobacco caterpillar, Prodenia litura F. 124

Histological studies of tests in rats treated with certain insect chemosterilants. 135

TRIPHENYLTIN CHLORIDE
Histological studies of tests in rats treated with certain insect chemosterilants. 135

TRIPOLITANIA
Experiments on the control of weeds in groundnuts in Tripolitania. 59

TRIS_1-AZIRIDINYL) PHOSPHINE SULFIDE
Exposure of Tribolium confusum to Thio-TEPA and its effect upon development of Hymenolepis diminuta cysticercoids. 57

TRISSOLCUS BASALIS
Progress in the biological control of the southern green stink bug, Nezara viridula in Hawaii _Heteroptera, Pentatomidae). 58

TRISTEZA (CITRUS)
Insect transmission of tristeza virus of citrus in Florida. 98

Citrus leaf-mottle-yellows disease in the Philippines and transmission of the causal virus by a psyllid, Diaphorina citri. 99

Studies on citrus virus diseases. 108

Purification of citrus variegation virus. 117

Factors affecting transmission of tristeza virus by melon aphids. 132

TRITHIOCARBONATES
Response of citrus mites to selected quinoxaline cyclic di- or trithiocarbonates. 80

TRITIUM
Translocation of tritium-labelled gibberellic acid in pea stem segments and potato tuber cylinders. 128

TRITON X-100
Phytotoxicity of wetting agents on lychee. 43

TRITON X-155
Importance of wetting agents as affecting the toxicity of certain insecticides. 90

TRIZONE
Trizone' a new triple-action soil fumigant. 86

TROCHANTER
The taxonomic significance of the spider trochanter. 78

TROGINAE
Larval systematics of the Troginae in North America with notes on biologies and life histories _Coleoptera0 Scarabaeidae. 54

OGODERMA
Increased early insect detection bearing fruit. 4319

Germination of small legume seeds after fumigation with methyl bromide and hydrocyanic acid. 4426

Grain pest intercepted at Dulles Airport. 5275

Effect of temperature and humidity on Trogoderma anthrenoides (sharp) (coleoptera, dermestidae) and comparisons with related species. 5445

Relative toxicity of insecticidal films to adults of Trogoderma granarium Everts., Oryzaephilus suninamensis L. and Laemophloeus minuthus Oliv. 7885

Response of quiescent khapra beetle larvae to fumigation and to low temperatures. 8055

Counts below 1960 in European corn borer survey. 8469

Reactions of the larvae of the khapra beetle and Trogoderma parabile tc certain food substances and organic compounds. 11646

Trogoderma species found in California; distribution, relative abundance, and food habits. 11649

OGODERMA GRANARIUM
Around-the-clock protection for the nations agriculture. 2712

Effect of temperature on the susceptibility of grubs of Trogoderma granarium Everts to pyrethrins. 6534

Boll weevil survival counts generally above 1963. 11900

The humidity responses of Trogoderma granarium Everts (Coleoptera, Dermestidae). 12383

New findings concerning pheromones produced by Trogoderma granarium (Everts), (Coleoptera, Dermestidae). 13143

OMBICCLA
North Dakota arachnid records. 5572

OMBICULIDAE
New species of chiggers from rodents in Laos (Acarina, Trombiculidae). 2678

Relation of tick and chigger infestations to home areas of California meadow mice. 2686

New bat chiggers from Thailand and the Solomon Islands with notes cn the subgenus Sasatrombicula Vercammen-Grandjean (Acarina: Trombiculidae). 5534

New intranasal chiggers of the genus Microtrombicula from some bats in Korea (Acarina: Trombiculidae). 10458

Four new chiggers (Acarina: Trombiculidae) from rodents of the epidemic area of Bolivian hemorrhagic fever. 10527

Taxonomic studies on the larval Trombicula (Neotrombicula) nagayoi complex of central Korea (Acarina:Trombiculidae). 11504

The duration of efficacy of the insecticide dieldrin against the chigger vectors of scrub typhus in malaya. 11931

OMBIDIIDAE
Angelothrombium pandorae N. G., n. sp. (Acari, Trombidiidae), and notes on the biology of the giant red velvet mites. 3959

OMBIDOIDEA
Occurrence of the larvae of "harvest or scrub itch-mites" (Acarina, Trombidoidea) on a scorpion. 13135

OPAEOIUM MAJUS
Interaction of growth regulators in the senescence of nasturtium leaf disks. 6343

OPICAL AGRICULTURE
Comparison of Sevin with DDT and rotenone on tomatoes under tropical conditions. 8538

Weed control in the tropics. 13394

TROPICAL PLANTS
Symposium on tropical plant pathology: invitational papers presented December 11, 1961 at the meeting of The American Phytopathological Society at Biloxi, Mississippi. 1031

Some contributions from the tropics to plant disease control methods. 1416

The role of plant pathology in tropical plantation agriculture. 1419

Prospective fruits of international cooperation in tropical plant pathology. 1438

A review of problems in teaching tropical plant pathology. 1492

The necessarily broad view in studying tropical plant diseases. 1542

Special contributions from the tropics to phytopathological mycology. 1560

TROPICOSEIUS
New blattisocid mites (Acarina' Mesostigmata) recovered from neotropical flowers and hummingbirds' nares. 7776

TROPISTERNUS
Studies on the Tropisternus mexicans complex (Coleoptera' hydrophilidae) I. The biology of the races and their genetic crosses. 8159

Studies on the Tropisternus mexicanus complex (Coleoptera' Hydrophilidae) II. The control of the pigmentation pattern. 8160

TROX
Larval systematics of the Troginae in North America with notes on biologies and life histories _Coleoptera0 Scarabaeidae. 5432

TRUCKS
Shift to electric fork trucks means savings for pesticide exporter. 9251

TRUPANEA
The types of North American Tephritidae in the Snow museum, the University of Kansas (Diptera). 3915

A study of the types of Tephritidae described by P. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

TRYONICUS
Phyletic relationships within the Blattidae. 7858

TRYPAN BLUE
Trypan blue and boiling lactophenol for staining and clearing barley tissues infected with Ustilago nuda. 1292

Canine babesiasis (piroplasmosis) -a case report. 5026

TRYPANOSOMA
Some pathogenic agents found in hippopotamus in uganda. 4556

Epizootiology of Trypanosoma cruzi in southwestern North America. 5553

Epizootiology of Trypanosoma cruzi in southwestern North America.part I. new collection records and hosts for Trypanosoma cruzi Chagas (Kinetoplastida:Trypanosomidae) (Hemiptera:Triatominae). 5554

TRYPANOSOMA CRUZI
Epizootiology of Trypanosoma cruzi in southwestern North America. iX0 An investigation to determine the incidence of Trypanosomi cruzi infections in Triatominae and man on the Yucatan Peninsula of Mexico. 5699

TRYPANOSOMA HANNAI
Research note: Incidence of endoparasitism in a group of pigeons in the Chicago area. 12634

TRYPANOSOMA RANGELI
The effect of Trypanosoma rangeli on the concentration of amino acids in the hemolymph of Rhodnius prolixus. 9539

TRYPANOSOMA RHODESIENSE

TRYPANOSOMA RHODESIENSE
Infectivity of Trypanosoma rhodesiense to tsetse flies fed through animal membranes. 6681

TRYPANOSOMIASIS
Studies on serological diagnosis of Trypanosoma-evansi. 3563

Trypanosome infection rates in Glossina morsitans submorsitans newst. in northern nigeria. 5704

An attempt to produce resistance to homidium in a strain of Trypanosoma vivax transmitted by tsetse flies. 6166

Field trials of prothidium as a prophylactic in cattle Trypanosmiasis. 6213

Prophylaxis against trypanosomiasis in Zebu cattle. IV. A field trial of metamidium and Isometamidium. 7482

Experimental Trypanosoma congolense infection in a horse. 7519

Prophylactic activity of Berenil against trypanosomes in treated cattle. 7537

Prophylaxis against trypanosomiasis in Zebu cattle. III. Potentiation trials and a trial of B.D. 2902 in an area of medium trypancsome risk. 7630

TRYPANOSOMIDAE
Epizootiolcgy of Trypanosoma cruzi in southwestern North America. part VII. experimental control of trypanosoma cruzi by immunological methods. 5552

Epizootiolcgy of Trypanosoma cruzi in southwestern North America.part I. new collection records and hosts for Trypanosoma cruzi Chagas (Kinetcplastida:Trypanosomidae) (Hemiptera:Triatominae). 5554

Epizootiolcgy of Trypanosoma cruzi in southwestern North America. iI. plant substances in the diet of wood rats tested as possible inhibitcrs of Trypanosoma cruzi (KinetoplastidaiTrypanosomidae) (RodentiaiCricetidae) (HemipteraiTriatominae). 10520

TRYPETA
The types of North American Tephritidae in the Snow museum, the University of Kansas (Diptera). 3915

A study of the types of Tephritidae described by F. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

Notes on the Walker types of New World Tephritidae (Diptera). 5476

The genus Trypeta Meigen in America north of Mexico (Diptera, Tephritidae). 11481

TRYPETIDAE
Laboratory tests of some insecticides against adults of the apple maggot, Rhagcletis pomonella. 4385

Studies on the nutritional requirements of the fruit fly Dacus cucurbitae Coquillett (Diptera, Trypetidae). iII. Development of a synthetic medium for D cucurbitae larvae. 6513

TRYPODENDRON BETULAE
Symbiontic interrelationships between microbes and ambrosia beetles. iI. the organs of microbial transport and perpetuation in Trypodendron betulae and T. retusum (Coleoptera, Scolytidae). 6477

TRYPODENDRON RETUSUM
Symbiontic interrelationships between microbes and ambrosia beetles. iI. the organs of microbial transport and perpetuation in Trypodendron betulae and T. retusum (Coleoptera, Scolytidae). 6477

TRYPORYZA INCERTULAS
On the ecology of stem borers in Asia, research on the natural enemies of rice stem borers. 5872

Distribution and bionomics of natural enemies of rice stem borers, research on the natural enemies of rice stem borers. 5886

TRYPOXYLON
A first Florida record and note on the nesting of Trypoxylon (Trypargilum) texense Saussure (Hymenoptera: Sphecidae). 56

TRYPTOPHAN
Effects of X-rays, tryptophan metabolites, and eye color mutants on the tumor-suppressor system in Drosophila melanogaster. 66

Influence of salts of ethylenediaminetetraacetic acid on the tryptophan load test in pyridoxine-deficient swine. 102

Synthesis of indoleacetic acid by cell-free systems from Pseudomonas solanacearum and Nicotiana tabacum. 124

TSUGA
Hemlock canker. 15

Pinpoint spraying - accurate spraying application credited for a 99.7 per cent kill. 58

Observations on the larval habits of some Callidiini with special reference to Callidiellum cupressi (Van Dyke) (Coleoptera: Cerambycidae). 58

Precision application credited with success of forest project. 84

Hemlock looper control spraying called best planned and safest forest project. 85

TUBERCULIN
Tuberculin reaction size as related to the number of simultaneous tubbeculin injections. 17

A comparison of a hemagglutination test with a modified hemolytic test on serums from intradermal bovine tuberculin reactors and nontuberculous cattle. 17

The programme for the eradication of bovine tuberculosis. 18

Comparison of the activities of different bovine type tuberculins by serological methods. 30

An anamestic-like reaction elicited by tuberculin. 32

Investigation of Johne's disease in three cattle herds. 34

Recent research findings on bovine tuberculosis and their application in eradication. 48

The use of dilute tuberculins for testing cattle. 60

Mycobacterium fortuitum as a cause of bovine mastitis' Tuberculin sensitivity following experimental infections. 74

TUBERCULIN TEST
The tuberculin test. 18

The early control of bovine tuberculosis. 18

Vaccination against Johne's disease. 19

Recent changes in tuberculosis incidence and mortality in Scotland. 19

Avian tuberculosis. 20

Allergic response of naturally sensitized cattle to tuberculin fractions. 33

The effect of Johne's vaccination on the efficiency of the single intradermal comparative tuberculin test. 34

An assessment of the single intradermal comparative test in the diagnosis of bovine tuberculosis in cattle previously vaccinated against Johne's disease. 48

Bovine demodicidosis IV. Relationship to non-specific tuberculin reactions. 50

Tuberculin sensitivity from oral administration of killed mycobacteria tuberculosis. 51

The use of dilute tuberculins for testing cattle. 607

bservations on the intradermal palpebral tuberculin test nd autopsy findings in monkeys. 8761

ohne's disease in cyprus. 8871

valuation of an intravenous tuberculin test in cattle. 12646

ERCULOSIS
he programme for the eradication of bovine tuberculosis. 1819

uberculosis in domestic animals other than cattle. 1827

he early control of bovine tuberculosis. 1831

etection of bovine tuberculosis by complement-fixation est. 1840

ecent changes in tuberculosis incidence and mortality in cotland. 1958

vian tuberculosis. 2014

new look at tuberculosis eradication in Michigan. 2087

ovine tuberculosis- studies of complement fixation anti- ens. 2111

uberculosis of the central nervous system in Macaca ulatta. Three cases with vertebral and dural involvement. 3075

ublic health and poultry products. 3243

llergic response of naturally sensitized cattle to tuber- ulin fractions. 3347

new method for shipping tuberculosis specimens. 3358

he effect of Johne's vaccination on the efficiency of the ingle intradermal comparative tuberculin test. 3456

vian tubercle bacillus infection in the cat. 4802

n assessment of the single intradermal comparative test n the diagnosis of bovine tuberculosis in cattle previously accinated against Johne's disease. 4827

ow meat inspection can assist in disease control and radication. 4832

ntiurease in brucellosis and tuberculosis. 5118

uberculin sensitivity from oral administration of killed ycobacteria tuberculosis. 5135

hy tuberculosis in livestock is increasing. 6136

bservations on tuberculin sensitivity in cattle in Kenya. 6184

he use of chemotherapeutic agents in animal tuberculosis. 7396

Tuberculosis in deer. 7421

Pulmonary bovine tuberculosis in an owner and in his dairy herd. 12563

Contagious bovine pleuropneumonia and the problems asscciated with its control. 12652

A half century of successful control of the bovine tuberculosis in Cambrai. 12669

Tuberculosis in birds-of-prey. 13415

The relationship between bovine farcy and tuberculosis. 13432

Control of bovine tuberculosis in some countries. 13442

BERCULOSIS VACCINES
Freeze dried B.C.G. for vaccinating cattle. 3178

BERS
Reproductive potential of Cyperus esculentus by tubers. 2488

Establishment of nutsedge from space-planted tubers. 2768

Observations on pathogenicity of Streptomyces scabies on tubers produced in vitro. 6353

Effect of hot water treatment of seed tubers and soil fumigants for control of root-knot on yield of caladium. 10042

Influence of variety, cultural conditions and temperature of storage on enzymic browning of potato tubers. 11383

TULARE MOSAIC (APPLES)
Approach graft transmission of Tulare apple mosaic virus between apple and Gomphrena globosa. 6753

Properties of tulare apple mosaic virus. 6821

TULAREMIA
Birds and the spread of disease. 3023

Epizootic tularemia in pen-raised beavers, and field trials of vaccines. 3348

Tularmia in Wyoming sheep. 5035

Ticks in the united states serve as vectors of disease. 7187

TULIPA
Purification of tulip breaking virus. 6973

Symptom expression and virus multiplication in tulip petals. 11885

TUMOR CELLS
Avian erythroblastosis. II. Uptake of fe59 by tumor cells. 11037

TUNAFISH
Fight additional cases of pansteatitis ('yellow fat') in cats fed canned red tuna. 6316

TUNG MEAL
A feeding deterrent for the boll weevil, Anthonomus grandis, from tung meal. 37

TUNG OIL TREE
Survey of tung soils for prescence of parasitic nematodes. 510

Relation of Cercospora infection to oil application on the dorsal or ventral side of tung leaves. 6948

Etiology and control of angular leaf spot of tung: primary infection by Mycosphaerella aleuritides. 9880

TUNGSTIC ACID
Changes of the wing pattern in the moths of the genus Zygaena Fabr. (Lepidoptera, Zygaenidae) obtained by intra- pupae injections. 13028

TURF
Reaction of turfgrasses to attack by Phythium aphanidermatum (Edson) Fitzpatrick. 176

The occurrence and control of Typhula itoana and Calonectria graminicola on turfgrass. 1098

Influence of temperature on rate of growth of five fungus pathogens of turfgrass and on rate of disease spread. 6745

Grub populations in turf varies with pH levels in Ohio soils. 8089

Influence of environment on diseases of turfgrasses. iv. effect of nutrition and soil moisture on Lorticium red thread of creeping red fescue. 9654

Fungicidal control of red thread disease of turfgrass in western Washington. 12430

TURKEY
Some host relationships of the tortoise tick, Hyalomma (Hyalommasta) aegyptium (L.) (Ixodoidea, Ixodidae) in Turkey. 3928

The ticks (Argasidae and Ixodidae) of Turkey. 11524

TURKEY EGGS
Calcium requirements of turkey breeder hens. 7135

TURKEY HEAT
Effective heat processing for the destruction of pathogenic bacteria in turkey rolls. 3220

Effect of processing on bacteria associated with turkey giblets. 12035

Microorganisms isolated from turkey giblets. 12036

Salmonellae associated with further-processed turkey products. 13503

Use of immunofluorescence and animal tests to detect growth and toxin production by Clostridium botulinum type E in food. 13507

TURKEYS
Isolation of an unidentified hemagglutinating virus from the respiratory tract of turkeys. 575

Study of aortic changes associated with candidiasis of turkeys. 597

Experimentally induced mycoplasmosis of adult turkeys. 1843

Transmission of ornithosis from sheep to turkeys. 1876

The comparative effects of chlortetracycline and oxytetracycline in the treatment of turkeys with ornithosis. 1897

L-phase bacterial forms associated with infectious synovitis in chickens and turkeys. 1943

Hematologic findings associated with some common diseases of poultry. 1948

Salmonellosis in turkeys and chickens associated with contaminated feed. 1956

An evaluation of PPLO agglutination antigens for the detection of PPLO agglutinins in turkey sera, 1957-60. 2040

The lymphofollicar nodules in turkey tissues associated with Mycoplasma gallisepticum infection. 2041

The gross and microscopic pathology of an ornithosis virus of low virulence for turkeys. 2045

Characteristics of an ornithosis virus strain of low virulence in turkeys. 2046

The control of paracolon and paratyphoid infections in turkey poults. 2085

Chemotherapy of histomoniasis of turkeys. II. The value of 5-nitro-2-furaldehyde acetylhydrazone and 4,7-phenanthroline-5,6 quinone in prevention and treatment. 2089

Studies on leucocytozoonosis of turkeys, with notes on schizogony transmission, and control of Leucocytozoon Smithi. 2121

Ecologic considerations in turkey ornithosis. 2154

Experimental ornithosis in turkeys. 2160

Thermal inactivation studies on a turkey ornithosis virus. 2161

Neurofibromatosis in a turkey. 2178

Fowlpox virus neutralization antibody and viremia in turkeys. 2197

The blood cells of the turkey. 2206

Articular gout in turkeys: a case report. 2216

Some physicochemical properties of turkey hepatitis virus. 2219

Further studies of virus hepatitis of turkeys. 2220

Pendulous crops in turkeys--an anatomic and pathologic study. 2246

Eradication of infectious sinusitis in a hatchery operation by serological testing. 29

Retrospect. 29

Efficacy of several coccidiostatic drugs for the control of coccidiosis in chickens and turkeys. 29

Turkey ornithosis in Alberta. 30

Hemodynamic responses following reserpine feeding to turkeys. 30

Transmissable diseases of poultry. 30

Experimental ornithosis in calves. 30

Salmonellosis in turkeys: evaluation of bacteriological and serological evidence of infection. 30

Disease condition of turkey poults characterized by enlarged and rounded hearts. 30

The effect of long-term medication with sulphaquinoxaline and amprolium upon serial infections of Eimeria adenoeides and E. meleagrimitis in turkeys. 32

The effect of sulphaquinoxaline and amprolium against Eimeria adenoeides and E. meleagrimitis in turkeys. 32

Effects of continuous and intermittent reserpine and different choline treatments on the growth and reproductive performance of turkeys. 32

The relative activity of various drugs against experimental histomoniasis in turkeys. 32

Hereditary muscular dystrophy in the domestic turkey, meleagris gallapavo. 32

Experimental transmission of ornithosis from sheep to turkeys. 33

Experimentally induced mycoplasmosis of adult turkeys. 33

Isolation of 'H' Mycoplasma from different sites of the turkey. 33

Use of the fluorescent antibody technique in the diagnosis of certain avian diseases. 33

Response of the turkey to Mycoplasma gallisepticum infection. 34

Bromsulphthalein liver clearance in birds.
I. the relationship between plasma levels and bile and liver content in the turkey. 34

The blood supply of the liver of the turkey and the anatomy of the biliary tract with reference to infection with Histomonas meleagridis. 34

Significance of hematology in the diagnosis of infectious sinusitis in turkeys. 34

The influence of dietary alterations, hormones, and blood pressure on the incidence of dissecting aneurysms in the turkey. 34

Studies on the etiology of a transmissible disease causing infertility in female turkeys. 34

Characterization of avian mycoplasma. 34

Epizootiological study of Staphylococcus aureus infection in turkeys. 35

Bacterial endocarditis of poultry. 35

A turkey sinus vibrio (Vibrio meleagridis, N. Sp.) compared with the avian hepatitis vibrio (Vibrio hepaticus, n. Sp.). 35

Serum glutamic-oxaloacetic transaminase levels, muscular dystrophy and certain hematological measurements in chicks and poults as influenced by vitamin E, selenium and methionine. 35

Mallophaga (chewing lice) occurring on the turkey. 39

Reserpine in aortic rupture in turkeys and heat stress in

aying hens. 4577

reparation and use of an autogenous fowl cholera bacterin or turkeys. 4625

ewcastle disease in turkeys. 4753

pidemiology of paratyphoid infections in turkeys. 4780

ybridization of the chicken and turkey. 4962

bstracts of papers presented at the 51st. annual meeting of he Poultry Science Association. 5923

eport of the committee on nomenclature and reporting of isease, northeastern conference on avian diseases, june 964. 5925

eport on the pullorum disease testing results, presented at he 36th annual meeting, northeastern conference on avian iseases, june, 1964. 5927

elationship of several environmental factors o the incidence of breast blisters in large ype male market turkeys. 5928

tudy of natural and experimental infection of Mycoplasma asscciated with turkey airsacculitis. 5949

irsacculitis in poults from different strains of turkeys. 5950

he comparison of three serological tests for the detection of Mycoplasma gallisepticum infection in turkeys. 5992

ummary of poultry diseases reported by the north central poultry disease conference, 1964. 6042

emogram of turkey poults experimentally infected with syngamus trachea. 6054

ests for activity against Histomonas meleagridis: use of the infection in chickens and a comparison of the results obtained in chickens and turkeys. 6079

reatment of infectious sinusitis in turkeys with tylosin tartrate. 6112

valuation of antibiotic treatment of Mycoplasma gallisepticum infection by the use of chickers and turkeys from infected embryos. 6113

The influence of dietary ascorbic acid on the severity of beta-aminopropionitrile (BAPN) toxicity in turkeys. 6177

ortic rupture in turkeys used in studies with Candida albicans. 6180

A bacterial agent causing bluecomb disease in turkeys. II. Transmission and studies of etiological agent. 6181

Influence of reserpine and antibiotics on incidence of dissecting aneurysm in turkeys as induced by beta-aminopropionitrile. 6186

Some effects of feeding Gelsemium sempervirens (yellow jessamine) to young chickens and turkeys. 6193

Pathogenicity to chicks of Mycoplasma associated with turkey airsacculitis. 6197

Characteristics of avian mycoplasma. 6199

Calcium requirements of turkey breeder hens. 7135

The incidence of spontaneous pathologic changes in aortas of growing turkeys. 7138

Studies on the dietary requirement and interaction of magnesium with antibiotics in turkeys to 4 weeks of age. 7141

Experimental ornithosis in calves. 7147

Effects of paromomycin sulfate on blackhead in turkeys. 7159

Effect of feeding various levels Crotalaria spectabilis seed on the performance of chicks, turkeys, and pullets. 7342

Salmonella pullorum infections in turkeys. 7412

Identification of Mycoplasma gallisepticum in lesion tissue by immunofluorescence. 7445

Potentiation of diethylstilbestrol induced aortic ruptures of turkeys with thiouracil. 7509

The treatment of infectious sinusitis of turkeys with Furazolidone. 7511

Dimetridazole' part II. Therapeutic activity and toxicity in the treatment of experimental histomoniasis in turkeys. 7619

Procedure for modified complement fixation test with turkey, duck, and chicken serum antibody. 8712

Effect of tylosin on the reproductive performance of turkeys and the growth rate of their offspring. 8737

Experimental psittacosis and ornithosis in turkeys. II. comparison of the histopathology of nine strains. 8745

Experimental listeriosis of turkeys. 8751

Ornithosis in turkeys in Alberta. 8767

Observations on strains of Salmonella gallinarum apparently resistant to furazolidone. 8808

Experimental transmission of bovine Mycoplasma in calves and turkeys. 8809

Candidiasis in turkeys and chickens in the Sacramento Valley of California. 8851

Studies on the antigenicity in turkeys of an erysipelas bacterin made from erysipelothrix rhusiopathiae strains h4 and h7. 8860

The chemotherapeutic activity of 3,5-dinitrobenzamide. 1. Against parathyphoid in turkeys. 8861

Spiramycin in the treatment of infectious sinusitis in turkeys. 8882

Attempts to immunize chickens and turkeys against Newcastle disease by the use of tobacco mosaic virus. 8883

Further studies on the Erysipelothrix insidiosa tube agglutination test. 8890

Sanitation as an approach to control of paratyphoid and paracolon infections. 8896

Experimental studies on control of transmissible enteritis (bluecomb) of turkeys. 8901

Toxoplasmosis. III. Studies using the complement-fixation test and fluorescene-inhibition test with sera of experimentally exposed birds. 10137

Studies on the requirements and interaction of copper and iron in Broad Breasted Bronze turkeys to 4 weeks of age. 11032

Use of amphotericin for the prevention of moniliasis (crop mycosis) in chicks and turkeys. 11056

The influence of various drugs on the growth and beta-aminopropionitrile-induced dissecting aneurysm of turkeys. 11058

The effect of vitamin and antibiotic injection on early turkey poult growth and mortality. 11341

Relationship of several factors to the incidence of breast blisters in large type male market turkeys. 11973

The incidence of turkey coccidia in the United States with details on certain species. 11984

The relationship between bacteria and Histomonas meleagridis in infectious enterohepatitis of turkeys. 11986

Salmonellae isolated from turkey processing plants and turkey products. 11987

Studies on the etiological agents of infectious enterohepatitis in chickens and turkeys. 12007

TURKEYS
The effect of experimental Mucoplasma synovias infection on the wholesomeness of young adult turkeys. 12033

Effect of certain blackhead preventive compounds on growth and their efficacy against histomonosis in turkeys. 12042

Egg transmission of Mycoplasma meleagridis (M-strain mycoplasma). 12054

Helminths of poultry in Kansas. 12062

Comparative studies on immunogenicity of Arizona (7:1,7,8) adjuvant bacterins in mice and turkeys. 12668

TURNIP
Field tests with new cattle grub systemics. 5182

TURNIP GREENS
Detection of leaf miners in canned spinach and turnip greens. 12778

TURNIPS
A dependable local lesion assay for turnip yellow mosaic virus (TYMV). 1392

Granular systemic insecticides applied to spinach, turnips, and cabbage for insect control. 4343

Insecticides and combinations of insecticides with oils and surfactants for insect control on various vegetable crops. 4444

Resistance in Matthiola incana to the turnip mosaic virus. 6884

The effect of soil treatments of chlordane or heptachlor on the flavor of turnips, parsnips, and carrots. 7671

Soil insects in Hokkaido, Japan, with special reference to the effects of some chlorinated hydrocarbons. 8519

Naturally occurring insecticides in cruciferous crops. 9101

Effect of mineral nutrition on the invasion and response of turnip tissue to Plasmodiophora brassicae. 9604

Elimination of turnip mosaic virus from a stock of horseradish. 9854

The effects of sub-lethal doses of MCPA on the morphology and yield of vegetable crops. V. Beet, spinach, turnip and onion. 10107

Gamma-BHC liquid seed dressing for control of turnip flea beetle. 11918

TURNTABLE METHOD
Reproducibility of the toxicity ratio of allethrin to pyrethrins applied to house flies by the turntable method. 4056

TURTLES
Some host relationships of the tortoise tick, Hyalomma (Hyalommasta) aegyptium (L.) (Ixodoidea, Ixodidae) in Turkey. 3928

Pets and salmonella infection. 4845

Aedes canadensis _Theobald) feeding on Blanding:s turtle. 5608

Salmonellosis in turtles in rhode island. 7486

New investigations on cold-blooded animals as Salmonella sources. 7546

Salmonellosis in turtles in minnesota. 7553

TWIG BLIGHT (APPLES)
Occurrence of Nectria twig blight of apple in western New York State in 1962. 226

TWIST RUST (PINE)
Pine twist rust (Melampsora pinitorqua) in North America. 461

TWISTED LEAF (CHERRIES)
Royal (Blenheim) apricots, a symptomless reservoir of the twisted leaf virus of sweet cherry. 9946

TYDEUS
Populations of common mites in Florida citrus groves. 119

TYLOSIN
Effect of tylosin on the reproductive performance of turkeys and the growth rate of their offspring. 87

TYLENCHIDAE
Biological studies of a new species of Anguina (Nematoda0 Tylenchidae) parasitic on Plantago aristata Michx. 71

TYLENCHORHYNCHUS
On two plant parasitic nematodes from a cauliflower field in the Punjab. 70

Seasonal variations of nematode populations in soybean field soil. 109

TYLENCHORHYNCHUS CLAYTONI
Host range of Tylenchorhynchus claytoni on some forrest nursery seedlings. 16

Aspects of the ecology and parasitic relationship to peanuts of several ectoparasitic nematodes in North Carolina. 58

Effects of Meloidogyne spp. and Tylenchorhynchus claytoni on pea wilt incited by Fusarium oxysporium f. pisi race 1. 67

TYLENCHORHYNCHUS MAXIMUS
The occurrence of Tylenchorhynchus maximus in Georgia. 110

TYLENCHULUS
Effects of soil temperature and moisture on Tylenchulus semipenitrans. 58

Response of navel orange trees to a postplanting application of 1,2-dibromo-3-chloropropane for control of the citrus nematode. 86

TYLENCHULUS SEMIPENETRANS
Soil texture, pH, and moisture effects on the development of citrus nematode (Tylenchulus semipenetrans). 5

A factor in root sap of citrus rootstocks associated with resistance to citrus nematode. 11

The influence of Tylenchulus semipenetrans on growth of grape cuttings. 15

Citrus tree decline caused by Tylenchulus semipenetrans and tree response following chemical treatment. 16

Influence of soil-oxygen diffusion rates and temperature on the citrus nematode and sweet orange seedlings. 16

Phytopathological notes.
infesting citrus seedlings with the citrus nematode, Tylenchulus semipenetrans. 16

Influence of Tylenchulus semipenetrans on the growth and chemical composition of sweet orange seedlings in soils of various exchangeable cation ratios. 16

The status of bindweeds, Mikania spp. as possible hosts of the citrus-root nematode, Tylenchulus semipenetrans. 16

Toxicity of some halogenated hydrocarbon mixtures to larvae of the citrus nematode, Tylenchulus semipenetrans. 23

Control of the citrus nematode, Tylenchulus semipenetrans in microscopic subplot experiments. 100

Citrus nematode found widespread in Florida. 125

TYLENCHUS
On two plant parasitic nematodes from a cauliflower field in the Punjab. 70

TYLOSIN
Tylosin treatment of infectious bovine mastitis. 46

TYLOSIN TARTRATE
Treatment of infectious sinusitis in turkeys with tylosin tartrate. 61

TYPHLODROMIPS
Eight new Phytoseiidae (Acarina: Mesostigmata) from Florida. 35

HLODROMUS
ffects of preblossom miticides and subsequent insecticide pplications on mite populations on apple in Wisconsin. 4122

nfluence of Typhlodromus (T.) pyri Scheuten on the levelopment of Bryobia arborea M. and A. populations n the greenhouse. 4358

yphlodromus and Amblyseius (Acarina' Phytoseiidae) as redators cn orchard mites. 7786

iology of the predaceous mite Typhlodromus rickeri (Acarina' Phytoseiidae). 7860

ive new phytoseid mites frcm U.a.r., with collection otes on three other species (Acarina: Phytoseiidae). 12298

ew species of the genus Typhlodromus from Sudan (Acarii Phytoseiidae). 12947

PHLOPCHEMYS
ew species and new records of Pygostenini from Liberta. Ivory Coast, and Cameroun (Colecptera: Staphylinidae). 5501

PHLOSEIOPSIS
Phytoseiid mites from Puerto-Bico with descriptions of new species(Acarina Mesostigmata). 11470

PHOID
Report on the pullorum disease testing results, presented at the 36th annual meeting, northeastern conference on avian diseases, june, 1964. 5927

PHUS
Tickborne hemorrhagic fevers, encephalitis, and typhus in U.s.s.r and southern Asia. 11682

RIA
Starvation tests with larvae of the cinnabar moth. 7043

ROSINE
Note on tyrosine production in frozen liver. 6257

Influence of variety, cultural conditions and temperature of storage on enzymic browning of potato tubers. 11383

Natural substrates of the phenoloxidase in the pupal blood of the silkmoths, Antheraea pernyi and A eucalypti. 13040

Nitritive effects of alanine, cystine, glycine, serine, and tyrosine on the silkworm, Bombyx mori. 13062

21149
Effect of the systemic insecticide UC 21149 and four pre-emergence herbicides on cotton seedlings. 11250

DERS
Studies of the streptococcus agalactiae form of mastitis in dairy cattle. 3136

Persistence of antibacterial agents in milk after intramammary treatment of clinical mastitis. 3287

Alkaline phosphatase and glycogen in the udder and liver of goats incculated with exotoxin of Corynebacterium pyogenes. 3289

Nocardia asteroides as a mammary pathogen of cattle. iii. Immunologic reactions of infected animals. 3420

Udder insufflation and its physiologic basis for treatment of parturient paresis in cattle. 12661

GANDA
Retrospect. 2851

Some pathogenic agents found in hippopotamus in uganda. 4556

Bersama abyssinica poisoning. The effects of a purified extract on cattle. 4791

Pasteurellosis of cattle: clinical and epidemiological observations in the Ankole district of Uganda 1953-1961. 5131

Observations on the biting habits of mosquitos in the forest canopy at Zika, Uganda with special reference to the crepuscular periods. 5618

ULCERATIVE DERMATOSIS
Characterization of the agents of ulcerative dermatosis and ecthyma. 5106

An immunologic study of ulcerative dermatosis and contagious ecthyma. 5107

ULCERATIVE ENTERITIS
The efficacy of chemotherapeutic drugs in the control of experimental ulcerative enteritis in quail. 2034

ULCERS
Heat treatment of corn causes ulcers in swine. 3030

Two cases of bovine malignant catarrh. 3283

Clinical and pathologic characterization of esophagogastric ulcers in swine. 3294

Pathology of gastric ulcers in swine. 3529

Bovine papular stomatitis I. recognition in the united states. 6024

Perforation of the omasum and ulceration of the abomasum in a cow. 7244

Porcine gastric ulcers in the United States0 a review. 7263

Ulceration of cow's teats caused by a virus. 7415

Pathogenesis of porcine gastric ulcers. 8819

Ulceration of the pars oesophagea of the pig. 8864

Two cases of phycomycotic ulceration in sheep. 8889

A perforating duodenal ulcer in a cat. 8914

Effect of oat hulls and other oat fractions on the development of gastric ulcers in swine. 12660

ULMACEAE
Reactions of several tropical members of the Ulmaceae to inoculation with Ceratocystis ulmi. 729

ULMUS
Dutch elm disease in North Carolina. 231

Dutch elm disease in Kansas in 1962. 443

Dutch elm disease survey in Arkansas in 1962. 444

Root grafting of city-planted American elms. 1235

Multidose injection apparatus for Dutch elm disease inoculations. 2536

Bionomics of the maple leaf cutter, Paraclemensia acerifoliella (Fiftch), (Lepidoptera: Incurvaritidae). 2744

Hazards associated with the implantation of Tetram into elm trees for Dutch elm disease control. 4250

Systemic insecticidal action of certain phosphates in Pinus strobus against Diprion similis. 4302

Downward movement of conidia of Ceratocystis ulmi from terminal twigs of elm. 5764

Systemic insecticidal action in cortical tissues of elm twigs. 8544

Systemic insecticidal action in the cortical tissues of elm twigs. 8545

The perithecial state of Ceratocystis ulmi in Ontario. 9592

Distribution of Dutch elm disease in North Carolina in 1963. 9738

Natural infection of Buisman elm by Ceratocystis ulmi. 9928

De iep 'Groeneveld' - the Groeneveld elm. 9953

An improved method for the extraction of spores from elm twigs. 10445

Viscosity determinations of xylary fluid from healthy and Ceratocystis ulmi-diseased elms. 10770

ULMUS ALATA

Occurrence of certain plant diseases in Kentucky in 1959. 10797

Dutch elm disease in Nebraska. 11822

Siberian elm- a tough new invader of grasslands. 11968

Biology of radicolous aphids on maize. 13299

ULMUS ALATA
Dutch elm disease in North Carolina. 231

ULMUS AMERICANA
Propagation of American elm, Ulmus americana, from root cuttings. 369

ULMUS HOLLANDICA
Factors determining resistance of elms to Ceratocystis ulmi. 13227

ULTRA LOW VOLUME APPLICATION
Impact on colonies of honey bees of ultra-low-volume (undiluted) malathion applied for control of grasshoppers. 11605

An improved technique for aerial applications of ultra-low-volume materials to experimental plots. 12912

ULV aerial insecticide application for adult mosquito control. 13166

Ultra-low volume and conventional aerial sprays for control of adult salt-marsh mosquitoes, Aedes sollicitans (Walker) and Aedes taeniorhynchus (Wiedemann), in Florida. 13174

Control of mosquito adults and larvae with ultra-low volume aerial applications of Baygon and Baygon-Baytex mixture. 13188

Effect of environmental and biological factors on persistence of malathion applied as ultra-low-volume or emulsifiable concentrate to cotton plants. 13607

How we modified a back pack sprayer for ULV insecticide applications. 13694

ULTRA-LOW-VOLUME SPRAYING
Ultra-low-volume ground equipment for applying insecticides to soybeans. 9999

Ultra-low-volume aerial application of trichlorfon for control of adult mosquitoes, face flies, and horn flies. 10239

ULTRASONIC ENERGY
Treatment of hatching eggs for disease prevention- application of ultrasonic energy. 5932

ULTRASTRUCTURE
Ultrastructure of sporulation in the oyster pathogen dermocystidium marinum. 10205

Ultrastructure studies on somatic hyphae of Rhizoctonia solani. 10352

ULTRAVIOLET RAYS
Ultraviolet radiation as a probable cause of brown blotch of honeydew melons. 132

Use of ultraviolet light in isolation of certain fungi from soil. 325

Effects of ultraviolet light on herbicides. 517

The effect of near-ultraviolet irradiation on the sporulation of certain fungi. 953

The relation of sporulation of Ascochyta pisi to wave length, intensity, and exposure length to monochromatic ultraviolet radiation. 955

Changes in virulence of soft-rot of bacteria during laboratory cultivation and after ultraviolet light irradiation. 1108

Production of psychrophilic mutants from mesophilic bacteria by ultraviolet irradiation. 3839

Effect of light on sexual reproduction in Hyposyces solani f. cucurbitae. 5776

Immediate loss of flagella from Chlamydomonas reinhardi after ultraviolet irradiation. 63

Inducing sporulation in different strains of Alternaria solani. II. effect of ultraviolet light. 63

The effect of ultraviolet light (2537 A) on 141 pesticide chemicals by paper chromatography. 64

Effects of ultraviolet preinoculation treatment of leaves on subsequent infection by tobacco mosaic virus and TMV. ribonucleic acid. 68

The role of the coat protein in the inactivation of tobacco mosaic virus by ultraviolet light. 69

Release of inhibited tobacco mosaic virus (TMV) infection by ultraviolet irradation as affected by time and temperature after inoculation. 69

Ultra-violet rays. Germicidal effect, disinfection of air, fruits, granular materials, etc. 82

The persistence of a nuclear polyhedrosis virus in the habitat of the host insect, Trichoplusia ni. i. polyhedra deposited on foliage. 95

Influence of light on the development of a nuclear-polyhedrosis of Neodiprion swainei. 95

Use of ultraviolet-induced sporulation for identification of Pyrenochaeta terrestris. 113

Feed additives measurement: Ultraviolet method for determination of streptomycin in feeds. 114

Preliminary observations on the in vitro photoreactivation of an insect virus inactivated with ultraviolet radiation0. 1232

Effects of low-level ultra-violet irradiation on reproduction of Aedes aegypti (L.) (preliminary report) (abstract). 124

Photodecomposition of dieldrin and aldrin. 1305

Preparations of aflatoxins and determination of their ultraviolet and fluorescent characteristics. 1348

Review of the metabolism and decomposition of diquat and paraquat. 1354

UMBRELLASEDGE
Propanil and mixtures with propanil for weed control in rice. 452

UNDULAMBIA
A new Undulambia species on leather-leaf fern in Florida, and note on a closely related Central American species (Lepidoptera: Pyraustidae, Nymphulinae). 429

UNION CARBIDE 19786
Resistance to Binapacryl and Union Carbide 19786 in the McDaniel spider mite, Tetranychus mcdanieli. 64

UNITED STATES
Is there room for U.S. firms in the European pesticide market. 929

UNITED STATES
Epidemiology of leptospirosis in the United States and Canada. 196

Control of pesticide residues on food in the United States. 903

UNITED STATES
Initiation of the Aedes aegypti eradication programme of the USA. 1317

UNITED STATES
Distribution of clover yellow mosaic and white clover mosaic viruses on white clover in the United States. 10

A virus of ovine abortion--isolation from sheep in the United States and characterization of the agent. 202

Experimental Rift Valley fever in lambs and sheep. 334

Theileria sp. in a deer in the United States. 364

revision of the forms of Coccinella L. occurring in
erica north of Mexico (Coleoptera: Coccinellidae). 3884

icts and figures the public should know. 5723

quine dermatitis (cutaneous streptothricosis) infection
ith dermatophilus in the United States. 5945

etection of the tobacco veinal necrosis strain of potato
irus Y in Solanum cardenasii and S. andigenum introduced
nto the United States. 6776

nfectious bronchitis virus types--Incidence in the United
tates. 7356

me endemic insects that feed upon introduced tansy ragwort
Senecio jacobaea) in western United States. 7814

taxonomic study of the genus Dioryctria in the south-
astern United States (Lepidoptera' Phycitidae). 7874

ew United States records in Bruchidae, with notes on
ost plants and rearing procedures (Coleoptera). 9403

orn stunt disease in the United States through 1963. 9881

istributicn and prevalence of physiologic races of leaf
ust of wheat, Puccinia recondita Rob. Desm. in the
nited States in 1960. 10799

phid-transmitted yellows-type spinach virus in the Eastern
nited states. 10892

ater mites of the genus Piona in the United States (Ac-
rina: Pionidae). 11467

ndex to genera of pathogens listed in the "index of Plant
iseases in the United States". 2. 12432

utbreaks and new records: United States. oriental wood
orer, a new record. 12789

VERSITIES
niversity policy in respect to pesticide research. 9305

AND COTTON
ost-parasite relaticns of Rotylenchus reniformis on
ossypium hirsutum. 1642

nheritance of resistance to Fusarium wilt in upland and
ea island cottons as complicated by nematodes under field
onditicns. 10876

ACIL
esponse of Heterodera trifolii in red clover roots to
zauracil and other inhibitors. 13382

MYA
ew American Tachinidae and Sarcophagidae (Diptera). 3975

NOTAENIA
ew mosquito records for South Dakota. 3903

ranotaenia gerdae, a new species of the tibialis group,
from West New Guinea (Diptera' Culicidae). 7903

BANIZATION
Urbanization and the agricultural extension service. 2706

EA
Effect of urea applications on survival of Fusarium
oxysporum f. cubense in soil. 1207

Value of supplemental lysine, methionine, methionine analog,
and trace minerals on high urea fattening rations for beef
steers. 2902

Effect of foliar application of urea, glucose and calcium
carbonate cn Eloat in lambs. 3197

The adscrption of urea and scme of its derivatives by a
variety of soils. 3664

Effect of chemicals on infection of shortleaf pine stumps by
fomes annosus. 4252

Urea, nitrates, and vitamin A in ruminant nutrition. 5098

Infrared studies of the mechanisms cf adsorption of urea and
its herbicidal derivatives by montmorillonite. 5901

A long-term study of renal disease in the dog. 6144

Nitrogen activity index of urea-formaldehyde compounds.
6377

Translocation of C14-labeled compounds in cotton and oaks.
7708

Effect of urea on control of some apple insects with certain
insecticides. 8502

A comparison of two methods used for the determination of
blood urea in the dog. 8811

Foliar sprays on oats with nitrogen. 8965

Effect of urea applications on survival of Fusarium oxyspo-
rum cubense in scil. 9595

Urea and other chemicals effective against colonization of
shortleaf pine stumps by Fomes annosus. 11710

UREA COMPOUNDS
Gas chromatography with microcoulometric detection for pes-
ticide residue analysis. 12095

Stam. in: Zweig, Analytical methods for pesticides, plant
growth regulator, and food additives. vol. iV. herbicides.
395 Z9. 12120

Monuron, diuron, and neburon. in: Zweig, Analytical meth-
ods for pesticides, plant growth regulators, and food addi-
tives. vol. iv. herbicides. 395 Z9. 12149

Herbicidal methods and compositions employing
3,4-dichloro-phenyl dimethyl and methylethyl ureas.
patent 3,343,943. 12888

Herbicidal ccmposition and method= patent 3,330.641. 13406

New extraction system for residue analyses. 13565

UREA DERIVATIVES
Carbanilide compositions and methods of using same.
patent 3,340,145. 12659

UREA HERBICIDES
Substituted urea herbicides in the control of undesirable
hardwoods. 1695

UREA-FORMALDEHYDE
Gibberellin and fungicides tested for control of bean rot.
4263

Method for evaluating fungicides. 8393

UREASE
Antiurease in brucellosis and tuberculosis. 5118

UREASE TEST
A comparison of two methods used for the determination of
blood urea in the dog. 8811

UREDIA
Calicolous telia and uredia of Cronartium fusiforme. 10350

UREDINALES
Diurnal periodicity in cereal rust spores in the air. 317

The fungicidal activity of acrolein phenylhydrazone and re-
lated compounds against rust. 2433

Effect of urediospore concentration on determination of
races of rust fungi. 6733

Lysis of uredospore germ tubes of rusts by species of
Verticillium. 9746

Germination inhibitors from spores of rust and smut fungi.
9927

Synthesis during the germination of uredospores of rust
fungi. 11375

Rusts on Indian forest trees. 12415

Natural enemies of rust fungi in the tropics. (abstract).
13221

UREDIOSPORE

UREDIOSPORE
Effect of urediospore concentration on determination of races of rust fungi. 6733

UREDIOSPORES
Some factors affecting germinability of uredospores of Puccinia coronata. 2411

Fertilization of pycnia with urediospores and aeciospores in Puccina graminee. 10730

UREDOSPORES
Free amino acid content of stripe rust uredospores. 1042

Overwintering capabilities of uredospores and mycelium of Puccinia graminis tritici in the Pacific Northwest. 1061

Mutations for virulence in Puccinia coronata. 1329

Storage viability of bean rust uredospores. 1356

The influence of storage conditions on the longevity of urediospores of Puccinia polysora Underw. and Puccinia sorgi Schw. 2318

Cold-induced dormancy and its reversal in uredospores of Puccinia graminis tritici. 6713

Lysis of uredospore germ tubes of rusts by species of Verticillium. 9746

Light inhibition of uredospore germination in Puccinia graminis var. tritici. 10764

UREILLIA
A study of the types of Tephritidae described by F. M. van der Wulp in :Biologia Centrali-Americana: (Diptera). 5474

UREMIA
Use of adrenal cortical steroids in metabolic, neoplastic, and infectious diseases. 5074

Serological study of Australian chickens affected with a uremia disease syndrome. 6196

Peritoneal dialysis as an adjunct to Leptospirosis therapy in a dog. 7473

URETHRA
Urethral occlusion in lambs on feed containing stilbestrol. 3015

URETHRAL OBSTRUCTION
Some important disorders of cats. 4815

URIC ACID
The renal clearance of uric acid and p-amino-hippurate in the fowl. 2205

Excretion of uric acid in Periplaneta americana L. 2614

A comparison of methods for quantitative estimation of hypoxanthine, xanthine, and uric acid in insect material. 4119

The renal excretion of some sulphonamides in the fowl. 5363

Cortisol and growth in insects. 13093

URIDINE
Incorporation of radioactive Uridine into the RNA of the lepidopteran Earathra brassicae. 6599

Incorporation of uridine and leucine in vitro by cecropia silkmoth wing epidermis during diapause and development. 11638

Response of Heterodera trifolii in red clover roots to Azauracil and other inhibitors. 13382

URINARY CALCULI
Studies on urolithiasis. VI. The mechanism of action of sodium chloride in the control of urinary calculi. 3125

Experimental production and control of urolithiasis. 7349

Urethral calculi in a steer. 7363

A case of retention pyonephrosis in a Corgi bitch. 7419

Amino-acid excretion in canine cystine-stone disease. 75

Urinary calculi in puppies. 88

Bilirubin as a constituent of urinary calculus. 89

Suprapubic cystotomy in a gelding. 101

URINE
Nitrogenous constituents of serum and urine in normal and scrapie sheep. 19

Urolithiasis. I. Incidence of bladder calculi, urine properties, and urethal diameters of feedlot steers. 19

Comparisons by paper chromatography of extracts of brain, urine, and plasma from normal and scrapie sheep. 30

Excretion of progesterone and its metabolites in milk, urine, and feces. 34

A method for the detection of Thallium in canine urine. 35

Metabolic differences in the normal and bloating bovine. 35

Experimental transmission of Aleutian disease with urine. 48

Comparative cultural results of renal tissue and urine of striped skunks for leptospires. 50

Ammonium chloride as a urinary acidifier in the dog. 50

The effect of fluorine on dairy cattle. V. Fluorine in the urine as an estimator of fluorine intake. 50

An improved test paper for the detection of mammalian urine residues. 62

Urinary metabolites of 2-naphthylamine in cattle. 88

Excretion of 4-amino-5-imidazolecarboxamine by various animal species. 113

Measurement of insecticide exposure: Ether-extractable urinary phosphates in man and rats derived from malathion and similar compounds. 114

Identification of metabolites of zectran insecticide in dog urine. 114

A method for the determination of pentachlorophenol in human blood and urine in picogram quantities. (in: Hawaii Community Study on Pesticides. quarterly Progress Report,5). 120

Microdetermination of phosphorus. 121

The effect of feeding oxytetracycline on leptospiruria in pigs infected with Leptospira pomona. 126

Microdetermination of phosphorus. 128

Metabolism of radioactive cesium (134Cs and 137Cs) and potassium by dairy cattle as influenced by high and low forage diets. 135

Effect of ethylene dibromide fumigated feed on animals. sF97.B6. 135

Metabolism of C-14-endothall in rats. 135

UROCYSTIS
Hexachlorobenzene for the control of onion smut. 42

The haploid behavior of Urocystis colchici teliospores. 77

Control of flag smut, due to Urocystis agropyri, of wheat with seed-treatment chemicals. 83

UROCYSTIS CEPULAE
Liquid nabam and N-dure as substitutes for formaldehyde in the control of onion smut, Urocystis cepulae. 108

UROGENITAL SYSTEM
On the morphology and biology of Tingis buddleiae Drake (Heteroptera: Tingidae). VII. organs of circulation and excretion. 11606

UROLITHIASIS
Urolithiasis. I. Incidence of bladder calculi, urine properties, and urethal diameters of feedlot steers. 1934

Studies on urolithiasis. VI. The mechanism of action of sodium chloride in the control of urinary calculi. 3125

Urolithiasis2. Incidence of bladder calculi, urine properties and urethral diameters of steers. 4747

Experimental production and control of urolithiasis. 7349

UROLITHS
Surgical removal of equine uroliths via the laparocystotomy approach. 4889

UROMYCES
The effect of bean rust on the foliar uptake of p32. 5789

Heat therapy of bean rust. 6974

UROMYCES PHASEOLI
Time-temperature interactions of Uromyces phaseoli during spore germination and tube elongation. 725

Etiological studies on the ash die-back disease. Leaf age and susceptibility. 1320

UROMYCES PHASEOLI VAR. PHASEOLI
A revised system for identification of races of Uromyces phaseoli var. phaseoli. 1080

Longevity of uredicspores of race 33 of Uromyces phaseoli var. phaseoli in storage. 1312

URTICARIA
Managing colonies of bumble bees (Hymenoptera: Apidae) for pollination purposes. 4225

USSR
A sensitive strawberry virus indicator clone of Fragaria vesca from the USSR. 12444

Diseases of forest plantings in Siberia. SB761 .A35. 13199

USTILAGINALES
Germination inhibitors from spores of rust and smut fungi. 9927

Flexibility desirable in fungicide reccommendations for externally seed-borne cereal smut disease control. 10263

Effectiveness of two 1,4-oxathiin derivatives for control of tolyposporium smut of pearl millet. 11877

USTILAGO
Effects of Ustilago avenae on growth of two oat varieties. 6832

Control of cytochrome c synthesis by zinc ions in Ustilago sphaerogena. 10319

USTILAGO AVENAE
The effect of low temperature on germination of chlamydospores of Ustilago avenae. 2487

Distribution and prevalence of virulence for Victoria oats in Ustilago avenae. 12435

Race population dynamics in Ustilago avenae as related to the persistence of loose smut in oats. 12436

USTILAGO BULLATA BERK.
Control of head smut in rescue grass. 261

USTILAGO HORDEI
Degradation of aromatic amino acids by fungi. II. purification and properties of phenylalanine ammonia-lyase from Ustilago hordei. 13628

USTILAGO NUDA
Percentage yield loss as related to percentage loose smut in barley. 297

Resistance of barley to Ustilago nuda. 1133

Effect of cyanide in anaerobic treatment of barley for control of loose smut. 1195

Naturally occurring quinones in wheat and barley and their toxicity to loose smut fungi. 1291

Trypan blue and boiling lactophenol for staining and clearing barley tissues infected with Ustilago nuda. 1292

Inoculating barley seedlings with Ustilago nuda and wheat seedlings with U. tritici. 1518

USTILAGO STRIIFORMIS
Varietal reaction of creeping bentgrass to stripe smut. 10762

USTILAGO TRITICI
Naturally occurring quinones in wheat and barley and their toxicity to loose smut fungi. 1291

Inoculating barley seedlings with Ustilago nuda and wheat seedlings with U. tritici. 1518

UTAH
Superinfection of pregnant ewes latently infected with a psittacosis-lymphogranuloma agent. 5082

Control of western X-disease virus in Utah orchards. 6951

Effects of low temperature on the survival of the alfalfa weevil from Alberta and Utah. 7047

Studies of the effect of straw cover and method of inoculation on dwarf bunt of winter wheat in Utah. 10737

UTERINE INFUSION
Antibiotic uterine infusion to aid fertility. 4758

UTERUS
Noncellular bactericidal factors in inflammatory exudate from the uterine and pleural cavities of estrous and pseudopregnant rabbits. 1769

The effect of an induced state of leukopenia on the uterine bactericidal activity in rabbits. 1806

Variations in uterine response to experimental infection due to the hormonal state of the ovaries. I. The role of cervical drainage, leukocyte numbers, and noncellular factors in uterine batericidal activity. 1807

The bactericidal properties of uteri and uterine exudates of rabbits with reduced leukocytic activity. 1903

The effect of ovarian hormones on the uterine defense mechanism during the early stages of induced infection. 2122

The uterine biopsy technique for following the histologic changes caused by Vibrio fetus in the uterine mucosa. 2268

Congenital and uterine infection with Mycobacterium johnei in sheep. 3025

The effect of various antibiotics on the uterine mucosa of vibro fetus-infected cows. 3565

Endocrine control of vascular permeability and induced leukocytic emigration in the rabbit uterus. 4794

Vitamin D3 and ovine 'ring womb'. 7257

Cervical and uterine infection in thoroughbred mares. 7348

A case of traumatic uterine rupture in a heifer. 7399

To veterinary surgeons in equine practice' Survey of uterine infections. 7430

Uterine infections in mares--1964 survey. 7432

Incomplete dilation of the ovine cervix. 7515

Uterine infection in bovine paratuberculosis. 8835

Effect of heparin on hormonal control of leukocytic emigration in the rabbit uterus. 11050

Salpingo-ovario-bursitis amongst buffaloes. 12641

UVEA
Disease of the anterior uvea of the dog. 12010

V-C 13 NEMACIDE
Procedure for extraction and cleanup of plant material prior to determination of organophosphate residues. 3703

Colorimetric determination of nemacide and ronnel in animal tissues. 3717

VACCINES
The use of tissue culture-propagated bluetongue virus for vaccine preparation. 1773

Vaccination safety in small dogs, using bivalent modified live virus vaccine. 1830

Propagation of hog cholera virus in tissue culture and its application to vaccine I. Propagation of the virus in tissue culture. 2039

Killed and live vaccines plus management. 2068

Disease of the ligamentum nuchae associated with Brucella abortus infection in the horse, and its treatment with strain 19 vaccine. 2948

Retrospect. 2955

Vesicular diseases. 2957

Transmissable diseases of poultry. 3012

Control of Newcastle disease and infectious bronchitis by vaccination. 3101

Studies on beta-propiolactone inactivated Newcastle disease vaccines. 3105

Experimental evaluation of an avirulent oral erysipelas vaccine. 3162

Studies on the growth of a vaccine strain (Komaron) of Newcastle disease virus in bovine kidney tissue culture and preparation of a vaccine. 3299

A test in chicks for the potency of inactivated foot-and-mouth disease vaccines. 3303

Epizootic tularemia in pen-raised beavers, and field trials of vaccines. 3348

Formaldehyde inactivation of foot-and-mouth disease virus as applied to vaccine preparation. 4767

Aleutian disease in the ferret. 4849

Federal requirements and procedures used for evaluation of infecticus bronchitis vaccines. 4968

Bovine respiratory infections. II. Field trial using bacterial vaccine products as a means of prophylaxis. 4971

The present status of infectious bronchitis vaccines. 4998

Anthelmintic vaccines. 5192

African horse sickness--with emphasis on pathology. 5239

Sheep lungworm larvae as a vaccine against cattle lungworm. 5263

Vaccination against bovine babesiosis, infectivity and virulence of blood from animals either recovered from or reacting to Babesia argentina. 5966

Vaccination of poultry against Newcastle disease. II. Harmlessness and immunological properties of chemically inactivated Newcastle disease virus. 5976

Diagnosis of bovine vibriosis. 1. the production and use of standard suspensions of Vibrio fetus agglutinating antigen. 6105

Noninterference with immunity by a trivalent vaccine containing distemper virus, infectious canine hepatitis virus, and Leptospira canicola. 6206

The complement fixing antibody response of calves to Dictyocaulus Viviparus. II. Vaccination with irradiated larvae. 622

Husk in cattle' Laboratory and field studies on calves vaccinated with irradiated with lungworm larvae. 760

Vaccination of calves against rinderpest. 763

Duck hepatitis. 873

Studies of an inactivated Hemophilus gallinarum vaccine for the immunization of chickens against infectious coryza. 877

In vivo demonstration of lability of hog cholera virus to lipolytic agents. 885

Foot-and-mouth disease vaccine--the production of antigen in cultured cells in the absence of serum. 1104

Requirements for poultry vaccines. 1105

Transmissible gastroenteritis of swine: properties of a vaccine and immunologic aspects in the sow and pig. 1108

The complement fixing antibody response of calves to Dictyocaulus Viviparus. iII. vaccinated calves exposed challenge. 1111

Mycoplasma gallisepticum in a commercial laryngotracheitis vaccine. 1256

Bluetongue of sheep and cattle: Past, present, and future. 1257

Treatment of arteriosclerotic diseases. patent 3,337,406. 1259

Modified laryngotracheitis vaccine. patent 3,331,736. 1261

Avian leukosis treatment with inactivated rous sarcoma virus. patent 3,326,767. 1263

Investigations on immunogenetics of ethanol-inactivated vaccines against Aujeszky's disease. 1264

Chromatographic purification of influenza virus with brushite modified by autoclaving. 1264

Brucellosis antigens. patent 3,342,684. 1265

The use of polyvalent inactivated vaccine therapeutically against equine influenza. 1265

Comparative studies on immunogenicity of Arizona (7:1,7,8) adjuvant bacterins in mice and turkeys. 1266

Experiments of immunization against the classic swine pest with the application of the principle of interferential vaccines. 1268

Investigation into the usefulness of the non-agglutinogenic Brucella abortus adjuvant vaccine Duphavac N.A. in the control of bovine brucellosis. 1269

The use of tissue culture rinderpest vaccine for Egyptian cattle and water buffaloes. 1270

Brucellosis. definition of official vaccinate. 1272

Immunity response from an inactivated infectious bronchitis vaccine. 1273

Immunizing pigs against hog cholera with selected strains of live virus diarrhea virus and preparation of virus diarrhea virus hyper-immune hog cholera serum. patent 3,346,456. 1340

The control and eradication of brucellosis. i. serological responses in cattle following vaccination with S.19 and killed Brucella 45/20 adjuvant vaccine. 1341

The influence of Bi Newcastle disease vaccine upon immunity by revaccination with tissue culture Newcastle disease vaccine. 1341

Bovine vibriosis vaccine and method of administering same. patent 3,329,573. 1342

A trial in goats of an inactivated staphylococcal

polyvalent somatic antigen vaccine against mastitis. 13430

The protection of calves against infection with Salmonella typhimurium by means of a vaccine prepared from Salmonella dublin (strain 51). 13441

CCINIA VIRUS
Propagation and titration of vaccina virus in bovine epidermal cells. 2275

Protection of rhesus monkeys against monkeypox by vaccinia virus immunization. 3556

CUUM
Preservation of insect larvae by vacuum dehydration. 5587

GINA
Pasteurellosis of cattle: clinical and epidemiological observations in the Ankole district of Uganda 1953-1961. 5131

GINITIS
Isolation and characterization of a virus from the reproductive tract of cattle. 10235

GOTOMY
Physiological and pharmacological factors which influence the incidence of acute pulmonary alterations following vagotomy in the domestic cock. 7136

GUS NERVE
Schwannoma of the intracranial part of the right vagus nerve in a heifer. 3317

LCHETA
Genera erroneously placed in the spider families Agelenidae and Pisauridae (Araneida'Arachida). 7895

LINE
Effect of age on (14c)valine turnover into locust wing proteins. 13058

MPYRUS
Epizootic bat rabies in Surinam. 4650

N DE GRAAFF GENERATORS
Dosimetry for studies on the radiobiology of Tribolium castaneum using the Van de Graaff electron accelerator. 7754

NADIUM
Evidence of vanadium toxicity resulting from the use of certain commercial phosphorus supplements in chick rations. 11243

Effect of diet composition on the vanadium toxicity for the chick. 11980

NCOMYCIN
Vancomycin prevents crown gall. 6711

Vancomycin prevents crown gall. 8265

A non-fungistatic bacteriostatic medium containing streptomycin and vancomycin. 11381

NESSA CARDUI
Rearing Vanessa cardui L. (Lep., Nymphalidae). 11603

NILLIN
Vanillin and syringaldehyde as attractants for Scolytus multistriatus (Coleoptera' Scolytidae). 8071

PAM
Vapam, a possible preventive of root graft transmission of the dutch elm disease fungus. 208

Testing the effect of vapam on weeds and fungi under field conditions. 292

Decomposition of Vapam in soil. 2508

Listening post. Control of strawberry red stele with soil fungicides. 2737

Decomposition of sodium N-methyldithiocarbamate in soil. 7748

The persistence of Trithion, an organophosphorus insecticide, in soil. 8532

Control of the citrus nematode. 8625

Decomposition of sodium N-methyldithiocarbamate in soil. 9243

Evaluation of soil fungicides against Fusarium solani isolated from feeder roots of citrus trees. 9638

VAPOR PRESSURE
Gas chromatographic determination of small vapor pressures. determination of the vapor pressures of some triazine herbicides. 6379

VAPORIZER
An insecticide vaporizer for treating small enclosed areas. 5408

A fumigant vaporizer unit for use in laboratory experiments. 7758

VAPORS
Effects of vapors of aromatic chemicals on phytopathogenic bacteria. 272

Herbicidal activity of vapors of 4-amino-3,5,6-trichloropicolinic acid. 7123

Effects of vapours of aromatic chemicals on phytopathogenic bacteria. 8339

The fumigant toxicity of three pine resins to Dendroctonus brevicomis and D. jeffreyi. 11929

Techniques for determining the toxicity of pine resin vapors to Dendroctonus brevicomis and D. jeffreyi. 11930

Retention of vaporized lindane by plants and animals. 13602

VARIANCE ANALYSIS
Determining the appropriate transformation of data from insect control experiments for use in the analysis of variance. 5375

VARIEGATION
Heat-induced variegation-a model disease. 1541

VARIOLA-LIKE VIRUSES
The use of the complement-fixation test in the study and diagnosis of viral diseases in man and animals-a review. part II: The pox viruses. 5358

VARROA JACOBSONI
Occurrence of mite Varroa jacobsoni Oudemans in brood cells of honey bee, Apis indicaF. 6612

VASCULAR SYSTEM (PLANTS)
A vascular disease of soybeans caused by Corynebacterium sp. 1375

Origin and composition of vascular gel in infected banana roots. 11707

VASOPRESSIN
Vasopressin-induced saluresis in sheep. 3194

VEAL
Intensive veal production and a hitherto untried nitrofuran- A preliminary trial. 7329

VEDALIA
Vice, virtue, and the vedalia. 5610

VEGETABLE PESTS
An evaluation of the effectiveness of nine insecticides against vegetable pests. 11266

VEGETABLES
Effect of zectran, sevin, and other new carbamate insecticides upon insect populations found on vegetable and field crops in southern california. 74

Crop rotation and the control of root knot on muck-grown vegetables. 448

New materials show promise for weed control in vegetables. 2758

Screening procedure for organothiophosphate pesticide residues on fruits and vegetables by microcoulometric gas

chrcmatcgraphy. 3683

Separation and measurement of perthane, DDD(TDE), and DDT in leafy vegetables by electron capture gas chromatcgraphy. 3694

Captan in green vegetables. 3804

Microcoulometric gas chromatcgraphic determination of Thiodan and Tedion in green vegetables. 3809

Determination of tetrachloronitroanisole (TCNA) residues in vegetables and grains. 3823

Ornamental plants as virus reservoirs. 4271

Incorporated preemergence granular herbicides on vegetable crops. 4513

Heptachlor and heptachlor epoxide residues in truck crops. 5309

Determination of DDT in leafy vegetables. 5319

Identification of pesticide residues in extracts of fruits, vegetables, and animal fats: II. rapid qualitative chemical tests for captan and methoxychlor. 5321

Determination of residues of Guthion. 6275

The determination of Kelthane residues on fruits and vegetables. 6280

Six phosphate pesticide residues in green leafy vegetables: cleanup method and paper chromatographic identification. 6284

Screening method for monuron, diuron, and neburon residues on fruits and vegetables by paper chromatography. 6295

Screening method for pesticide residues on fruits and vegetables. 6322

Ion-exchange methcd for determining paraquat residues in food crops. 6373

Improving emergence of pelleted vegetable seeds with porous coatings. 6917

Bionomics and control of certain Plusiinae and studies of an associated nuclear polyhedrosis virus. 6992

Field evaluation of Sevin as an insecticide for pests of vegetables in New Jersey. 7010

Flotation tire for spreaders cuts root injury in vegetable soils. 8192

Paddists hampering progress. 8239

New insecticides for lygus bug control on vegetable seed crops. 8435

Nematocide-fertilizer mixtures applied to vegetable crops. 8606

Identification of pesticide residues in extracts of fruit, vegetables and animal fats III. Metabolites of chlorinated hydrocarbon pesticides in animal depot-fat. 9032

Electron-capture gas chromatography for analysis of multiple chlorinated pesticide residues in vegetables. 9210

Determiratien of Sevin insecticide residues in fruits and vegetables. 9223

Separation and measurement of perthane, DDD (TDE) and DDT in leafy vegetables by electron-capture gas chromatography. 9225

Incidence of virus detection in vegetatively propagated plant introductions under quarantine in the United States, 1957-1967. 9777

New insecticides for lygus bug control on vegetable seed crops. 9977

Effect of repeated applications of nematocides on vegetable yields and nematode populations in muck soil. 10051

Residues in vegetable crops following soil applications of insecticides. 102

Vegetable deterioration:N6-benzyladenine, a senescence inhibitor for green vegetables. 113

The duration of efficacy of the insecticide dieldrin against the chigger vectors of scrub typhus in malaya. 119

Chlorinated hydrocarbons (p.382-385), Benzene hexachloride (p.386-390), Captan (p.390-391), DDT (p.391-394), and Parathion (p.403-404). in: Official methods of analysis of the Association of Official Agricultural Chemists , ed. 10, 957 p., edited by W. horwitz. s587.a78. 120

Residues in foods. (Chlorinated pesticides). 120

Estimation of small amounts of O,O-diethyl O,p-nitpophenyl thiophosphate. 120

Spectrophotometric methods. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. Vol. i. principles, methods. and general application. 395 Z9. 120

Gas chromatography. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i principles, methods, and general application. 395 Z9. 120

Microcoulometric gas chromatography of pesticides. 121

Spectrophometric determination of dithiocarbamate residues on food crops. 121

Thin-layer chromatographic determination of carbaryl (Sevin) in some foods. 121

Six phosphate pesticide residues in green leafy vegetables: Cleanup method and paper chromatographic identification. 121

Determination of Sevin insecticide residues in fruits and vegetables. 121

PCNB. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 121

Identification of pesticide residues in extracts of fruit, vegetables and animal fats. iII.METABOLITES of chlorinated hydrocarbon pesticides in animal depot fat. 121

Detection and semiquantitative estimation of chlorinated organic pesticide residues in foods by paper chromatography. 121

Rapid method for chlorinated residues in nonfatty foods. 121

Screening procedure for organothiophosphate pesticide residues on fruits and vegetables using microcoulometric gas chromatography. 121

Colorimetric estimation of malathion residues. 121

Cleanup and separation of 3-amino-1,2,4-triazole and metabolites from vegetable crops. 122

Determination of 3-amino-1,2,4-triazole in crops. 122

Residues in foods. (Chlorinated pesticides). 127

Thin-layer chromatoggraphic determination of carbaryl (Sevin) in some foods. 127

Determination of 3-amino-1,2,4-triazole in crops. 128

Spectrophometric determination of dithiocarbamate residues on food crops. 128

Field weathering of toxaphene and chlordane. 128

Procedure for nine organothiophosphate pesticide residues on fruits and vegetables, using microcoulometric gas chromatography. 128

Atlas of diseases and pests of vegetables. SB731. A4. 132

nsects of the season 1966 related to fruit, vegetables and rnamentals. 13325

ioassay of insecticides for control of Drosophila elanogaster. 13369

conomically important nematodes in Ontario, 1966.. 13391

ecent research on the fate of herbicides in crop plants. n: isotopes in weed research; proceedings of a symposium ienna 25-29 October 1965. s589.S9. 13404

ossible appearance of degradation products of paraquat in rops. in: Isotopes in weed research; proceedings of a ymposium, Vienna, 25-29 October 1965. s589.S9. 13629

ETATION
Seasonal losses in rangeland vegetation due to grasshoppers. 4286

Dieldrin residue on vegetation in an irrigated pasture. 5331

A sampling technique for estimating populations of small arthropods in soil and vegetation. 6455

Some relationships between grasshoppers and vegetation. 7773

HICLES
Modified car-top insect trap functional to 45mph. 7767

Vehicle mounted aspirators. 12911

Thiokol swamp spryte equipped with automatic compressed air spraying units for applying granule and liquid insecticides. 12917

A collapsible portable vehicle mounted insect trap. (abstract). 12918

A low cost airboat for use in mosquito control. 12923

ICULAR STOMATITIS
Response of rabbits and guinea pigs to vesicular stomatitis virus. 7217

IN BANDING (STRAWBERRIES)
Elimination of yellow edge, crinkle and veinbanding viruses and certain other virus complexes from strawberries by excision and culturing of apical meristems. 286

Obtaining virus-free strawberries by excision and culturing of apical meristems of plants infected with the yellow edge, crinkle, and veinbanding viruses and certain other virus complexes. 1105

Fragaria virginiana, an indicator host for veinbanding virus of strawberry. 1521

IN CLEARING (SWEETPOTATOES)
A veinclearing virus disease of sweetpotato in Nigeria. 11838

IN ENATION (CITRUS)
Modification of immunity of Poncirus trifoliata to yellow-vein virus by the addition of vein-enation virus and susceptible tissue. 2381

Aphis gossypii, a vector of citrus vein-enation virus. 10815

Induction of woody galls by wounding of citrus infected with vein-enation virus. 10898

IN MOSAIC (RED CLOVER)
The effect of red clover vein mosaic virus and alfalfa mosaic virus on excised leaves of Gomphrena globosa. 180

A new pea streak virus related to red clover vein mosaic virus (RCVMV). 6977

A new streak-producing virus of pea related to red clover vein mosaic virus. 9699

Effect of high light intensities on spontaneous and virus-induced local lesions in Gomphrena globosa. 11748

VEINS
Experimentally induced dirofilariasis. 3639

Hepatic changes resulting from partial litigation of the posterior vena cava in cattle. 4592

VEJOVIS
North Dakota arachnid records. 5572

VELOCITERMES
Phylogeny of the new termite genus Terrenitermes from Hispaniola (Isoptera' Termitidae' Nasutitermitinae). 7909

VELOCITY
Environmental studies in pig-housing. I. Air velocity. 4554

VELSICOL 1-BROMOCHLORDENE
Laboratory evaluation of insecticides against the cigarette beetle. 11261

VENATION (INSECTS)
On the generic status of Tetragoneuria and Epicordulia (Odonata: Corduliidae). 10525

Some abnormal variation in the wing venation of Prodenia litura (Fabricius) (Lepidoptera: Noctuidae). 11565

VENEREAL DISEASES
Intraocular tumors in animals. v. transmissible venereal tumors of dogs. 11036

VENEZUELAN EQUINE ENCEPHALOMYELITIS
Transient remission of canine circulating malignant lymphoma following viral infection. 10176

VENOMS
Pharmacological study of the gastropod Conus magus. 632

Studies on labeled animal poisons. i. Distribution of P32-labeled Latrodectus tredecimguttatus venom in the guinea pi. 647

5-hydroxytryptamine content of some arthropod venoms and venom-containing parts. 663

The venom of the mud-dauber wasp Sceliphron caementarium. 6620

Effect of Centruroides sculpturatus venom upon rat tissue. 11244

Vasoactive peptides in venoms. 13591

Comparative pharmacology of some animal toxins. 13594

VENTILATION
Environmental studies in pig housing. Ii. Ventilation and its measurement. 4555

The relation between storage molds and damage in high-moisture rice in aerated storage. 6894

A portable unit for ventilating insect cages. 12916

VENTRICULAR SEPTUM DEFECTS
Ventricular septal defect in the bovine heart-report of 3 cases. 4619

VENTURIA
Chemotherapy of the apple scab disease with butyric acid derivatives. 6801

Venturia inaequalis (Cke.) Wint. xvi. amino acids in relation to pathogenicity of two wild-type lines to two apple varieties. 6962

(a) Oxidation of phloridzin to phloretin related to resistance of Malus to Venturia inaequalis. 8358

Fungicide dust formulations for the control of apple scab, Venturia inaequalis. 8375

The efficacy of glyodin plus dodine on the conidia of Venturia inaequalis. 9701

The effect of high temperature and high relative humidity on the viability of the conidia of Venturia inaequalis on naturally infected apple leaves. 9714

Systemic antifungal activity of isobutyl O-coumarate in

VENTURIA INAEQUALIS

apple. 9719

Gross cell wall composition of Venturia inaequalis. 10367

VENTURIA INAEQUALIS
Apple scab IV effect of temperature and relative humidity on the viability of conidia of Venturia inaequalis. 204

Amino acids in relation to pathogenicity of two wild-type lines of Venturia inaequalis to two apple varieties. Williams, E J. 1025

Phlcridzin-its metabolism and role in resistance to Venturia inaequalis, incitant of apple scab. 1173

Metabolism of DL- and L-phenylalanine in Malus related to susceptibility and resistance to Venturia inaequalis. 1326

Listening post. Fungicide exhibits protectant and eradicant properties. 2843

VERATRUM
Chronologic evaluation of tetratogenicity in sheep fed Veratrum californicum. 7249

A congenital cyclopian-type malformation in lambs induced by maternal ingestion of a range plant, Veratrum californicum. 11039

VERMICULITE
The use of vermiculite cover as a possible means of increasing dwarf bunt in winter wheat test nurseries. 1579

Loss of parathion and DDT to soil from aqueous dispersions and vermiculite granules. 5388

A nonpathogenic wilt and root rot of peas favored by low light intensity. 10814

VERMINOUS BRONCHITIS
Clinical and hematologic studies on pure Dictyocaulus viviparus (Bloch) lungworm infections in calves. 1797

Lungworms enhance severity of swine influenza. 1888

A note on the possible association of Muellerius capillaris with enterotoxaemia. 1925

Evaluation of cyanacethydrazide for removal of lungworms from naturally infected sheep. 2188

Studies on infection and immunity with the cattle lungworm, Dictyocaulus viviparus (Bloch). I. Infection in laboratory animals. 2307

A practitioner's experience with SPF pigs. 4725

Treatment of canine lungowrm infection with thiacetarsamide. 5210

Immunization experiments with irradiated lungworm larvae. 5214

A study on the control of lungworm (Dictyocaulus filaria) in sheep during the winter months. 5218

Canine filarcides osleri and filaroides milrsi infection. 5242

Canine filaroides osleri diagnosed by endoscopic examination. 5245

Sheep lungworm larvae as a vaccine against cattle lungworm. 5263

Limitations of lungworm vaccine. 7153

Immunization experiments with lungworm larvae. 7592

Husk in cattle' Laboratory and field studies on calves vaccinated with irradiated with lungworm larvae. 7605

Lungworm infection in cattle-Control and treatment. 7627

The rested pasture as a source of lungworm and gastro-intestinal worm infection for lambs. 8955

A trial on the effect of diethylcarbamazine on prepatent and patent parasitic bronchitis in calves. 10244

Observations on Muellerius capillaris (Muller, 1889) Ocameron, 1927. iII. experimental infection of sheep. 12

VERNONIA
Growth of ironweed as affected by mowing and storage root removal. 1

Absorption, translocation, and degradation of 2,4-D in ironweed (Vernonia baldwinii). 2

VEROMESSOR
Veromessor lobognathus: third note (Hymenoptera: Formicidae). 5

VERTEBRAE
Vertebral biopsies in the diagnosis of bovine fluoride toxicosis. 12

VERTEBRATES
Activation and degradation efficiencies of liver microsomes from eight vertebrate species, using organophosphates as substrates.

Pest management. sB931.b4. 5

A guide to helminth species described from African vertebrates. qL757.033. 13

Dynamics of organochlorine insecticides in vertebrates and ecosystems. 13

VERTICILLIUM
Screening for Verticillium resistance in pepper (capsicum sp.). 1

Effects of nitrogen source and rate on the development of Verticillium wilt of cotton.

Seed transmission of Verticillium wilt of spinach.

Verticillium wilt of olives in California.

Control of verticillium wilt of mint and plant parasitic nematodes associated with mint by soil fumigation.

Screening eggplants for resistance to Verticillium wilt. 1

A self-induced, nonhereditary variation in Verticillium. 5

Antagonistic effects of some soil fungi on Verticillium sp. isolated from maple trees. 5

Influence of Pratylenchus penetrans alone and in combination with Verticillium albo-atrum on growth of peppermint. 6

Inversion phenomenon induced by nabam derivatives. 6

Effect of biotin on growth and sporulation of Verticillium albo-atrum. 6

Theoretical relationships between inoculum potential and disease severity based on a study of the variation in virulence among isolates of Verticillium albo-atrum. 6

The inactivation of Verticillium albo-atrum in apricot trees. 6

Inhibition of fungi by culture media previously exposed to light. 6

Influence of oat and alfalfa residues on soil respiration, fungistasis, and survival of Verticillium albo-atrum. 7

Verticillum wilt of strawberries made worse by soil fungicides that stimulate meadow nematode populations. 8

Concept of host-parasite relationship in Verticillium wilt diseases. 8

Inversion phenomenon induced by nabam derivatives. 9

Lysis of uredospore germ tubes of rusts by species of Verticillium. 9

Interactions of Verticillium dahliae and Pratylenchus minyus in Verticillium wilt of peppermint. 9

:ontrcl of Verticillium wilt of olive through natural re-:overy and resistarce. 9849

?athogericity of Verticillium isolates to safflcwer. 9894

:ool weather in 1964 in Connecticut favored potato wilt by ion-micrcsclerotial Verticillium. 9938

The efficacy of various fumigants in controlling Verticillium wilt in south-central Washington. 9945

Influence of relative humidity cn fungi causing crown rot of boxed bananas. 10264

Some effects of vitamins on growth and differentiation in Verticillium. 10317

The effect of light quality on the growth and microsclerotial production of Verticillium albo-atrum. 10336

Survival cf Melcidcgyne hapla and Verticillium dahliae in plant tissues used for animal feed. 10349

Some characteristics of polygalacturonases produced by Verticillium albo-atrum. 10363

Response of noncultivated safflcwer (Carthamus) species to rust and verticillium wilt. 11889

RTICILLIUM ALBC-ATRUM
Osmanthus ilicifolius, a new host of Verticillium albo-atrum. 194

Identity cf the micrcbial inhibitor in cotton seed. 366

An epidemic of verticillium wilt in tomato in the metropolitan area of Washington, D. C. in 1962. 427

Pectic enzyme production by isolates of Verticillium pathogenic to potatoes. 431

Influences of light on the production of microsclerotia by Verticillium albc-atrum. 687

The relaticn of chlorogenic acid and total phenols in potato to infecticn by Vertcillium albc-atrum. 712

Thermal inactivaticn of Verticillium albo-atrum in diseased pctato vines. 714

Ccmparative survival of mycelium, ccnidia, and microsclerotia of Verticillium albo-atrum in mineral soil. 723

Effects of soil amendments on nematodes and subsequent Verticillium wilt. 918

Evaluation of soil fumigants for the control of early maturity wilt cf pctatoes on long island. 922

Relationship cf meadow nematodes to Verticillium wilt of strawberries. 1007

Importance of nonhosts in maintaining the inoculum potential of Verticillium. 1053

Mechanisms of variation of Verticillium albo-atrum. 1102

Relation of chlorogenic acid in potato to resistance to infecticn by Verticillium albc-atrum. 1107

Ultrastructure of microsclerotia of Verticillium albo-atrum. 1149

Reproducticn of Verticillium in the rhizospere and subsequent root infection of resistant and susceptible mint species. 1166

Susceptibility of certain Verticillium-resistant tomato varieties to an Ohio isolate of the pathogen. 1301

Effect cf root exudates on germination of conidia and microsclerotia of Verticillium albo-atrum inhibited by the soil fungistatic principle. 1328

Comparative reactions of certain cottons to Fusarium and Verticillium wilts. 1427

Pathogenicity of an isolate of Verticillium albo-atrum from olive. 1451

Influence of some environmental factors on hereditary variation in monospore cultures of Verticillium albo-atrum. 2430

The effect of some insecticides on the growth of Verticillium albo-atrum. 2460

The effect of growth substances on Verticillium wilt of tomato plants. 6909

Relative prevalence of Verticillium wilt and Fusarium wilt of cotton in the South Plains area of Texas. 10868

Sources of resistance in the genus Gossypium to several soilborne pathogens. 12442

Pratylenchus penetrans, its interaction with Verticillium albo-atrum in the Verticillium wilt of potatoes and its attraction by various chemicals. 12540

Effect of Thielaviopsis basicola root rot of cotton on incidence and severity of Verticillium wilt. 13245

VERTICILLIUM ALBO-ATRUM BERTH
The origin of new mycelial growth in microsclerotial masses of Verticillium albo-atrum Reinke and Berth. 720

VERTICILLIUM ALBC-ATRUM REINKE
The origin of new mycelial growth in microsclerotial masses of Verticillium albo-atrum Reinke and Berth. 720

VERTICILLIUM CINERESCENS
Verticillium wilt of carnations. 9681

VERTICILLIUM DAHLIAE
Effect of anaerobic fermentation in soil on survival of sclerotia of Verticillium dahliae. 1081

Interaction of Verticillium dahliae and Pratylenchus penetrans in tomato wilt. 1129

Colonization of plant debris in soil by Verticillium dahliae. 1314

Influence of soil type on the fungicidal activity of soil fumigants against Verticillium dahliae. 2358

VERTICILLIUM WILT
Relation of histochemical tests for phenols to Verticillium wilt resistance cf pctatoes. 1366

Influence of soil temperature, isolates, and method of inoculation on resistance of mint to Verticillium wilt. 1380

Control of verticillium wilt. 8212

Verticillium wilt of strawberries. 8376

Control of blackleg, dry rot and Verticillium wilt of potato. 8380

VESICULAR STOMATITIS VIRUS
Vesicular stomatitis- patterns of complement-fixing and serum-neutralizing antibodies in serum of convalescent cattle and horses. 2119

A revised concept of the pathologic changes of the tongue in cattle with vesicular stomatitis. 2127

Vesicular diseases. 2957

Identification of vesicular stomatitis virus in cattle. 3024

Prophylaxis of vesicular stromatitis: a field trial in Guatemalan dairy cattle. 3164

Cocal virus, a new agent in Trinidad related to vesicular stomatitis virus, type Indiana. 3518

The public health and economic effects of vesicular stomatitis in a herd of dairy cattle. 4728

Effects of cortisol and adrenalectcmy on induction of interferon by endotoxin. 7468

Serologic studies with the virus of vesicular stomatitis ii. typing of vesicular stomatitis convalescent serum by direct complement fixation. 11055

VESICULAR VIRUSES

A rapid complement-fixation test for identification of vesicular stomatitis virus in cattle. 11084

The use of the complement-fixation test in the study and diagnosis of viral diseases in man and animals-a review. iII. vesicular viruses. 11327

VESICULAR VIRUSES
The use of the complement-fixation test in the study and diagnosis of viral diseases in man and animals-a review. part III. VESICULAR viruses. 5357

VESPIDAE
Biological studies of Polistes in North Carolina (Hymenoptera: Vespidae). 4135

The social Vespidae of central Europe. qL568.v5K4. 12961

VETCH
Control of vetch bruchid, Bruchid brachialis, in Oregon. 4314

A physicgenic leaf and stem spot of some forage legumes. 6790

Mortality factors for the vetch bruchid, Bruchus brachialis. 7000

Paraquat for selective control of range weeds. 7125

Evidence for a difference in toxicity between common and hairy vetch seeds for chicks. 7687

A severe viral disease of vetch. 9616

A Physoderma disease of narrow-leaved vetch. 9730

The occurrence of a Sclerotina on Vicia villosa in Maryland. 9923

Reaction of species and breeding lines of vetch to five root-knot nematode species. 10046

Additional Vicia species resistant to root-knot nematodes. 11953

VETERINARIANS
Role of the veterinarian in time of national emergency. 4973

Serologic surveys for selected zoonoses in Ohio veterinarians. 5042

VETERINARY LABORATORIES
Poultry biologics services at the National Animal Disease Laboratory. 580

VETERINARY MEDICINE
Report of Resolutions Committee. 528

Report on Postdoctoral Clinical Training in Avian Medicine. 574

The problem of adulterated milk and how it affects the veterinarian. 1765

Senator Humphrey introduces bill to expand veterinary medical facilities. 1768

Retrospect. 2851

Veterinary preventive medicine in Australia. 2971

The control of poultry disease in different countries: a symposium. (3) Western Germany. 3038

International preventive veterinary medicine in Africa south of the Sahara. 3133

The control of poultry disease in different countries: a symposium. (2) France. 3160

The control of poultry disease in different countries: a symposium. (6) Observations on mycoplasmosis in poultry in France. 3161

Animal husbandry and international veterinary preventive medicine. 3168

Small animals and the zoonoses in veterinary preventive medicine. 3

Veterinary preventive medicine in South-East Asia. 3

Veterinary preventive medicine in India. 31

Veterinary preventive medicine in the Near East. 32

The control of poultry disease in different countries: a symposium. (4) Sweden. 33

The veterinarian:s role in a feedlot operation. 59

Bacterial and viral disease. 60

Veterinary genetics. 62

The responsibilities of veterinary practitioners as to the use of pesticides. 72

The search for veterinary insecticides. iI. carbamates active against sheep blowfly. 76

American Veterinary Medical Association. scientific proceedings of the 104th annual meeting, July 9-13, 1967, Dallas,Texas. 125

VETERINARY TECHNICIANS
Retrospect. 28

VETIDREX
New chemotherapeutic agents. 45

VIABILITY
Losses in viable cells of Salmonella upon inoculation into dry animal feeds of various types. 31

VIBRATION
The detection of immature stages of insects within grains of wheat. 25

VIBRIO
Studies on swine dysentery. 470

The pathogenicity of Vibrio fetus isolated from ovine bile. 474

Extractions of soluble antigens of Vibrio fetus and their demonstration by cellulose acetate electrophoresis and Ouchterlony agar diffusion. 490

Vibrio fetus toxin. I. Hypersensitivity and abortifacient action. 496

Isolation of Vibrio fetus from the feces of lambs and pen-contact transmission of the infection. 595

Difference in physiology of vibrio spp. from chickens and man. 600

Diagnostic techniques in avian vibrionic hepatitis. 602

A bacterial agent causing bluecomb disease in turkeys. II. Transmission and studies of etiological agent. 618

The experimental inoculation of heifers with Vibrio fetus of ovine origin. 618

Changes in endometrium of vibrio fetus-infected and noninfected heifers. 719

Newer knowledge of ovine vibriosis. 731

Fluorescent antibody detects carriers of Vibrios. 7426

VIBRIO BUBULUS BACTERINS
Observations on the ability of two biochemical types of Vibrio fetus to proliferate in genital tract of cattle and their respect to infertility. 4974

VIBRIO COLI
Enteric infections in weaned pigs. 4579

Studies on the pathogenesis of Vibrio coli infection in swine. 7541

BRIO FETUS
Systemic treatment of vibrio fetus-infected bulls. 4880

Serolcgic analysis of bovine vibriosis. 8837

Mucinase activity of Vibrio fetus. 12598

BRIO FETUS BACTERINS
Immunization of sheep against ovine vibriosis. 1833

Zoonotic aspects of vibriosis. 1849

Experimental immunization against ovine vibriosis. I. The use of live and formalin-killed Vibrio fetus vaccines. 1953

Sporadic ovine vibricsis in virginia. 2262

Bacterins for immunization against bovine vibriosis. 4740

Antigenic substances isolated from filtrates of Vibrio fetus broth cultures. 4944

Results of field trials and controlled laboratory studies on bovine vibriosis bacterins. 4951

Observations on the ability of two biochemical types of Vibrio fetus to proliferate in genital tract of cattle and their respect to infertility. 4974

Further electron microscopic observations of a strain of Vibric fetus. 5132

The effect of Vibrio fetus vaccination on the breeding efficiency of cows bred to Vibrio fetus-infected bulls. 8789

Experimental immunization against ovine vibriosis. II. formalin-killed vibrio fetus adjuvant vaccines. 11061

Magpies as carriers of ovine vibrio Vibrio fetus. 12051

Bovine vibriosis vaccine and method of administering same. patent 3,329,573. 13422

IBBIOS
Ineffectivity of furazolidine in ovine vibriosis. 7167

IBBIOSIS
The effect of growth factors on the growth of Vibrio fetus. 1800

Experimental immunization against ovine vibriosis. I. The use of live and formalin-killed Vibrio fetus vaccines. 1953

Effects of certain antibiotics in the treatment of vibriosis in sheep. 2110

Sporadic ovine vibriosis in virginia. 2262

Persistence of Vibrio fetus in the genital tract of experimentally infected heifers. 3079

The histopathclcgy of genital vibriosis in virgin heifers. 3080

Immunization of sheep against ovine vibriosis with bacterins containing serotype I and serotype ii in mineral oil. 3127

Cervical mucus for the diagnosis of vibriosis in cattle. 3130

Ovine vibricsis in Ohio. 3261

The present state of fertility and reproductive disorders of farm livestock in Australia. 3515

Investigaticn intc the incidence and causes of infertility in dairy cattle: Brucella abortus and Vibrio fetus infections. 4635

The isolation of vibrio fetus from the ovine gallbladder. 4739

Systemic treatment of vibric fetus-infected bulls. 4880

A preliminary report on a new technic for isolation of Vibrio fetus from carrier bulls. 4990

Experimental treatment of ovine vibriosis. 5036

Dihydrostreptomycin for treatment of genital vibriosis in the bull. 5049

Difference in physiology of vibrio spp. from chickens and man. 6004

Diagnosis of bovine vibriosis. 1. the production and use of standard suspensions of Vibrio fetus agglutinating antigen. 6105

Dihydrostreptomycin therapy of bovine vibriosis. 7161

Newer knowledge of ovine vibriosis. 7310

The effect of Vibrio fetus vaccination on the breeding efficiency of cows bred to Vibrio fetus-infected bulls. 8789

Serologic analysis of bovine vibriosis. 8837

Ovine vibrionic abortion caused by a new variety of Vibrio. 10218

Physiological properties of pathogenic and nonpathogenic Vibrio species isolated from cattle, sheep and chickens. 10219

Artificial stimulation of resistance to bovine vibriosis. 11052

Experimental immunization against ovine vibriosis. II. formalin-killed vibrio fetus adjuvant vaccines. 11061

An antigenic analysis of vibrio fetus. iI.FURTHER characterization of the precipitatine antigens. 11092

Vibriosis in range cattle. 12006

Bovine vibriosis vaccine and method of administering same. patent 3,329,573. 13422

VICTORIA BLIGHT (OATS)
Respiratory and enzymatic changes in victoria blight of oats. 2419

VICTORIN
Effect of victorin on the Krebs cycle acids of oat varieties expressing variable reactions to Helminthosporium victoriae. 257

Release and accumulation of electrolytes by cells and cell fractions after treatment with victorin. 1016

Changes in the nitrogen metabolism of victorin-treated oat varieties. 1172

An intermediate reaction to victorin. 1646

Factors affecting the pattern of respiratory changes in victorin-treated oat tissue. 2418

Nature and quantities of materials leached from victorin-treated tissues. 6344

VICTOXININE
The toxicity of citroxinine. 2345

Toxicity of victoxinine. 2421

VIENAL NECROSIS (POTATOES)
Cross-protection tests with potato virus Y and potato vienal necrosis virus. 10854

VILLA
Notes on and redescription of types of North American bombyliidae (Diptera) in European museums. 3962

VINCA
A new twig blight disease of Vinca rosea of India. 11807

VINEGAR
Attractiveness to Nitidulidae (Coleoptera) of natural attrahents of trees and fungus origin supplemented with vinegar and water in an Appalachian hardwood forest. 12366

VINELAND CHEMICAL 523
Effect of selected fungicides and antibiotics on Xanthomonas malvacearum in vitro. 5748

VIOLA

VIOLA
Non-rosaceous hosts of Phragmidium (uredinales). 9797

VIOLA LANCECIATA
Sources of weed infestation in cranberry fields. 11969

VIOLET ROOT ROT (ALFALFA)
Violet root of alfalfa in Wisconsin. 200

VIRAL DISEASES
Live virus immunizing agents. 6130

VIRAL VACCINES
Studies of Newcastle disease. II. Evaluation of two killed Newcastle disease vaccines. 2123

Heterotypic virus vaccines. 2960

Growth of foot-and-mouth disease virus in dispersed tissue cells. I. Method of production. 3827

Immunogenic studies in dutch cattle vaccinated with foot-and-mouth disease vaccines under field conditions. I. Foot-and-mouth disease vaccines under field conditions. 4618

The use of mice for the potency testing of modified live-virus rabies vaccine. 4710

Evaluation of rabies vaccines of chick embryo origin. 5355

Viability of low-egg passage, modified live-virus rabies vaccine following three and five years of storage. 5362

Foot-and-mouth disease vaccine-production of antigen in culture. 7177

The growth of rabies virus in tissue culture and its use as a living attenuated vaccine for domestic animals. 7224

Studies on avian encephalomyelitis. V. Development and application of an oral vaccine. 8762

Viability of pox and laryngotracheitis vaccines. 8799

African horse-sickness with emphasis on pathology. 10190

VIREMIA
Fowlpox virus neutralization antibody and viremia in turkeys. 2197

Secretion of foot-and mouth disease-virus and antibody in the saliva of infected and immunized cattle. 3066

African horse sickness--with emphasis on pathology. 5239

Brain lesions and viremia studies in swine infected with hog cholera virus of low pathogenicity. 6085

The pathogenesis of experimental bovine mucosal disease. 6093

Rift valley fever in calves, goats and pigs. 7194

VIRGIN ISLANDS
Comparison of Sevin with DDT and rotenone on tomatoes under tropical conditions. 8226

VIRGINIA
The occurrence of Phytophthora cinnamomi in Kentucky, North Carolina, Tennessee, and Virginia. 133

Brown stem rot of soybean in North Carolina and Virginia. 356

Horsenettle and Osborne's cyst nematodes - two undescribed nematodes occurring in Virginia. 1610

Sporadic ovine vibriosis in virginia. 2262

Toxicity of TDE to different instars and strains of the red-banded leaf roller and the response of a TDE-RESISTANT strain to parathion and endrin. 4188

Utilization of a nuclear polyhedrosis virus to control the cabbage looper on cole crops in Virginia. 4361

Confirmation of failure of rose mosaic virus to spread in Virginia. 5801

Development of heptachlor resistance in the lucerne weevil in Virginia. 7[illegible]

Blight of peanuts in Maryland and Virginia in 1963. 9[illegible]

Landplaster and soil rot of peanut pods in Virginia. 9[illegible]

Live oak decline in Virginia. 10[illegible]

Spray and pour-on application of systemic insecticides for control of cattle grubs in Virginia. 11[illegible]

Response of ponderosa and Austrian pine to soil fumigants and seed treatments. 11[illegible]

Atmospheric oxidants on the Delmarva peninsula, May, September, 1966. 11[illegible]

Control of the lesser peach tree borer in virginia. 11[illegible]

VIROLOGY
Characteristics of filamentous viruses isolated mechanicall[illegible] from apple. 1[illegible]

Relations of 10 isolates of watermelon mosaic virus (WMV). 1[illegible]

Identity of mosaic virus of cowpea. 1[illegible]

An improved method for assaying infectivity of tobacco mosaic virus. 1[illegible]

Apparent natural infection of Corturnix quail hens with the virus of avian encephalomyelitis - case report. 1[illegible]

The structure of animal viruses. 2[illegible]

The preparation of bovine thyroid monolayers for use in virological investigations. 3[illegible]

Studies on the infectious bronchitis virus of chickens isolated in Finland; with reference to the serological survey of its occurrence. 59

Comparisons of pea enation mosaic virus isolates. 68

Criteria for determining the validity of a virus isolation. 126

VIRUCIDES
Succulent-type plants as sources of plant virus inhibitors. 13

A virus inhibitor from tobacco. 14

Thermal inactivation studies on a turkey ornithosis virus. 21

Some properties of an inhibitor of virus infectivity from leaves of peanut - a new host of tobacco ringspot virus. 57

The control of an outbreak of pneumonia in broiler calves with Virugon, a synthetic, oral anti-viral agent. 73

Dimethyl sulfoxide inhibition and control of plant virus diseases. patent 3,334,012. 124

Reactions of peach trees and peach tree viruses to treatment with dimethyl sulfoxide and other chemicals. 132

Pharmaceutical compositions and methods utilizing 2-aminoadamantane and its derivatives. patent 3,328,251. 136

Antiviral antibiotic from trichoderma todica and method of producing same. patent 3,323,996. 136

VIRULENCE
The cause and control of low viability of rye. 25

Spontaneous mutations for virulence in Puccinia coronata. 46

Relationship of zoospore production potential and zoospore motility with virulence in Phytophthora parasitica var. nicotinae. 67

Factors influencing the virulence of Erwinia amylovora. 72

Complementary effects of related viruses mixed in serial dilutions. 1038

Changes in virulence of soft-rot of bacteria during laboratory cultivation and after ultraviolet light irradiation. 1108

Expressions of virulence among isolates of Pseudomonas savastanonci from olive and oleander. 1125

Cell-associated virus infectivity of tissue cultures derived from susceptible and resistant sources. 1265

Mutations for virulence in Puccinia coronata. 1329

Survival of FELC injected into eggs previously dipped in antibiotic solutions. 2038

Physiological differences between a virulent and a weakly virulent radiation-induced strain of Erwinia carotovora. 2458

A rapid cultural test for relative cellulolytic activity of fungi. 2507

Virulence, host range, and pectolic enzymes of single-basidiospore isolates of Rhizoctonia praticola and Rhizoctonia solani. 10314

Maintenance of virulence in stock culture of the sweetpotato wilt Fusarium. 11771

BUS A (CABBAGE)
The response to temperature of cabbage virus A infection in Nicotiana glutinosa. 6758

Resistance in Matthiola incana to the turnip mosaic virus. 6884

Transmission of cabbage viruses A and B by the cabbage aphid and the green peach aphid. 10723

BUS A (CITRUS)
Transmission of the stubborn and psorosis 'A' viruses of citrus to an herbaceous host. 6928

BUS A (POTATOES)
Field spread of potato virus A inhibited by oil. 10690

BUS A (STRAWBERRIES)
Strawberry virus dissemination in Arkansas. 10757

BUS B (CABBAGE)
Transmission of cabbage viruses A and B by the cabbage aphid and the green peach aphid. 10723

BUS C (STRAWBERRIES)
Eradication of latent C virus in the Suwannee variety of strawberry by heat plus excised runner-tip culture. 9875

BUS DIARRHEA
Studies on virus diarrhea virus of cattle, with special reference to its growth in tissue culture and its ether susceptibility. 4760

Properties of some viruses of the mucosal disease-virus complex. 5089

Attenuation of virus diarrhea virus (strain Oregon C24v) for vaccine purposes. 5982

Comparison by neutralization tests of strains of virus isolated from virus diarrhea and mucosal disease. 6020

Pathologic and immunologic studies on field and experimental postvaccinal reactions following vaccination against bovine virus diarrhea. 6123

The neutralization test as an indicator of immunity to virus diarrhea. 10169

Studies on virus diarrhea and mucosal disease of cattle. 10216

Immunizing pigs against hog cholera with selected strains of live virus diarrhea virus and preparation of virus diarrhea virus hyper-immune hog cholera serum. patent 3,346,456. 13408

VIRUS DILUTIONS
Research note. a comparison of serum dilution techniques for the tube hemagglutination-inhibition (HI) test. 6147

VIRUS DISEASES
Transient remission of canine circulating malignant lymphoma following viral infection. 4793

A haemolytic coccobacillus recovered from poultry. 7345

VIRUS DISEASES (ANIMALS)
The effect of a latent CELO virus infection in the chicken embryo, on the propagation of Newcastle disease and influenza viruses. 534

Influence of environment on virus diseases of poultry. 537

Experimental studies on a new feline virus. 1928

Detection of swine nasal viruses in cell cultures. 1984

Recent studies on the virus of infectious bronchitis. 2009

Propagation of hog cholera virus in tissue culture and its application to vaccine I. Propagation of the virus in tissue culture. 2039

Studies on five porcine enteroviruses. 2053

Serologic relationship of new feline cytopathogenic virus. 2066

Experimental ornithosis in turkeys. 2160

Louping-ill: The red deer (Cervus elaphus) as an alternative host of the virus in Scotland. 2191

Birds and the spread of disease. 3023

African pig disease. 3107

Aleutian disease of mink. I. Evidence of its viral etiology. 3280

Multiplication, interferon production and interferon sensitivity of viruses in dog kidney tissue cultures. 3564

Serologic evidence of certain virus infections in wild animals. 4975

The use of complement-fixation tests in the study and diagnosis of viral diseases in man and animals--a review. 5007

Immunological characteristics of a variant of infectious bronchitis virus isolated from chickens. 6195

Isolation of enteroviruses from intestinal tract of swine. 7155

Foot-and-mouth disease vaccine-production of antigen in culture. 7177

Ovine abortion virus in ewes and fetuses. 7195

Effect of rabies virus inoculated into foxes and skunks. 7207

Response of rabbits and guinea pigs to vesicular stomatitis virus. 7217

Infectious bronchitis virus- tissue distribution. 7359

Viral causes of bovine abortion in ohio. 7493

Observations on pathogenicity and immunogenicity of a cell-culture-modified foot-and-mouth disease virus. 7498

Transmission and characterization of edema disease of swine. 7535

Experimental psittacosis and ornithosis in turkeys. II. comparison of the histopathology of nine strains. 8745

Antigenic and immunological studies on several isolates of avian infectious bronchitis virus. 8815

Encephalitis in horses in Hillsborough County, Florida, 1964. 8827

VIRUS DISEASES (INSECTS)

Coccobacilli with haemolytic properties recovered from poultry. 8893

Isolation and characterization of bovine enteric viruses. 12726

VIRUS DISEASES (INSECTS)

Electron microscopic evidence for wound-tumor virus accumulation in various organs of an inefficient leafhopper vector, Agalliopsis novella. 9492

Multiplication Tipula and Child iridescent viruses in cells of Antheraea eucalypti. 9503

The persistence of a nuclear polyhedrosis virus in the habitat of the host insect, Trichoplusia ni. iI. polyhedra in soil. 9505

The persistence of a nuclear polyhedrosis virus in the habitat of the host insect, Trichoplusia ni. i. polyhedra deposited on foliage. 9506

Amino acid composition of the Tipula iridescent virus. 9512

Viruslike particles in adult honey bees (Apis mellifera Linnaeus) following injection with sacbrood virus. 9520

Electron microscopic observations on the localization and development of sacbrood virus. 9521

Early events of Sericesthis iridescent virus infection in hemocytes of Galleria mellonella (L). 9523

Influence of light on the development of a nuclear-polyhedrosis of Necdiprion swainei. 9555

Effect of gamma radiation on the larvae and the nuclear-polyhedrosis virus of the eastern tent caterpillar, Malacosoma americanum. 9556

Preliminary observations on the in vitro photoreactivation of an insect virus inactivated with ultraviolet radiation0. 12328

Virus-like particles in insect cells of three types. 12334

VIRUS DISEASES (PLANTS)

Undescribed plant diseases and diseases not previously reported for oregon during 1961-1963. 109

The association of a sap-transmissible virus with apple chlorotic leaf spot. 149

Incidence of beet virus diseases in relation to overwintering beet fields. 167

Susceptibility of perfection-type peas to bean yellow mosaic virus. 175

Virus diseases of corn - Tentative key for preliminary field and laboratory decisions. 212

Detection of viruses in foreign plant introductions under quarantine in the United States. 228

Symptomatology of some viruses in Datura meteloides. 249

Strains of the color-breaking virus of Camellia. 332

Transmission studies of the orange-leaf disease of rice. 352

Effect of light on symptom expression of concave gum virus in certain mandarins. 354

Effects of five sulfosuccinates on symptom development of five virus diseases in bean plants. 368

Translocated stimuli affecting plant virus infections. 455

Recovery of virus from refrigerated fruit tree and grapevine pollen collections. 754

Longevity of several legume viruses. 757

A comparison of virus isolates, dwarf-fruit and Spy 227-lethal. 945

New types of primary necrotic lesions produced by common bean mosaic virus. 950

An apparently virus-free leaf of a systematically invaded plant. 9

Resistance to cucurbit viruses in Cucumis melo. 9

Factors determining the rate of bean yellow mosaic virus transmission by the aphid Myzus persicae. 9

A kinetic investigation of the mode of TMV attachment to infectible sites. 9

Transmissable decline diseases of apple. 9

Acquisition and transmission of asters yellows virus. 9

Relationships among Prunus viruses of the necrotic ringspot type. 9

Transmission of viruses to strawberry by excised leaf grafts from plants other than strawberry. 10

Complementary effects of related viruses mixed in serial dilutions. 10

Interference studies with mixed inocula of related and unrelated strains of plant viruses. 10

Characterization of five geranium virus isolates and in vitro growth of geranium stem tips. 10

Further studies on the woody gall virus disease of citrus. 10

The destruction of viruses by soil fumigants. mcKeen, c d. 10

Transmission of unstable viruses from liquid-nitrogen-frozen plant tissue. 10

Obtaining virus-free strawberries by excision and culturing of apical meristems of plants infected with the yellow edge, crinkle, and veinbanding viruses and certain other virus complexes. 11

Separation of certain stone fruit viruses in Mountmorency cherry seed. 11

The effect of single and multiple virus infection upon nucleic acid content in Prunus mahaleb seedlings. 11

Identification of two citrus virus diseases by serological agglutination. 11

Recovery of aster yellow virus from carrot tissue cultures inoculated in vitro. 11

Additional hosts of the fig mosaic virus. 12

Effect of excortis on Satsuma orange. 12

Pathological anatomy of rapid decline of Spy 227 apple. 12

Soil transmission of tobacco ringspot virus. 12

A new corn disease in Ohio. 13

Relations of 10 isolates of watermelon mosaic virus (WMV). 13

Effect of virus infection on persistence of ladino clover. 13

Transmission of some Gladiolus viruses on tools in harvesting flowers and corms. 13

Advantages of determining the tolerance of strawberries by grafting with leaves infected with a virus complex. 14

Weak peach, a new virus disease of peach. 14

Cowpea (southern pea) diseases in Georgia,1961-1962. 14

Systemic resistance induced by localized virus infections in beans and cowpeas. 14

Virus-fungus relationships in a root-rot complex in red clover. 15

Heat-induced variegation-a model disease. 1541

Variation among isolates of necrotic ringspot and prune dwarf viruses isolated from sour cherry. 1549

A stable, dense, infective form of tobacco mosaic virus. 1578

The effect of pH and phosphate on virus infection. 2375

Changes in the DNA content of leaves collected from healthy and virus-infected cherry. 2393

Test of a fixative for virus-infected plant cells. 2476

Ornamental plants as virus reservoirs. 4271

Disease control through virus-free stock. 5800

Serology in virus-disease diagnosis. 5835

Some effects of supplying benzyladenine to leaves and plants inoculated with viruses. 6695

The flat apple disease. 6729

Some biochemical changes associated with virus infection in apple. 6820

Studies on a virus causing stem grooving and graft-union abnormalities in Virginia Crab apple. 6843

Effect of rootstock on the incidence of impietratura-diseased grapefruit fruits. 6846

Differentiation of viruses transmitted from Pelargonium hortorum. 6865

Comparisons of pea enation mosaic virus isolates. 6878

Transmission of a virus disease of mushrooms by infected spores. 6890

Effect of age of vector and of abdomen punctures on virus transmission. 6910

Identification of the viruses affecting commercial varities of pepper (Capsicum annum) in New Jersey. 6925

A virus infecting maize in South Dakota. 6927

The role of the coat protein in the inactivation of tobacco mosaic virus by ultraviolet light. 6931

Rough fruit of sweet cherry. 6950

Dodder transmission of citrange stunt virus, a virus associated with tatter leaf of citrus. 6952

The infectious nature of pollen from certain virus-infected stone fruit trees. 6963

Mechanical transmission of a latent lemon virus. 6976

Water tensions in plants, an entomological approach. 7037

Western research results are coordinated at Portland meetings. 8353

Red clover mottle virus. 8386

Some host plants of the green peach aphid and beet western yellows virus in the Pacific Northwest. 8593

Distribution of tobacco mosaic virus in systemically infected tobacco leaves. 9614

A severe viral disease of vetch. 9616

Stony pit virus disease of pears in New York state. 9629

Mechanical transmission of plum-line pattern virus. 9640

A virus disease of peach in Israel. 9680

Effect of detergents on plant virus infection. 9686

Purification and some properties of tobacco streak and tulare apple mosaic viruses. 9687

Application of particle-counting to a leafhopper-borne virus. 9689

Reexamination of the serological relationship between wound tumor virus and reovirus. 9690

Pathological anatomy of apple trees affected by the stem-pitting virus. 9721

Seed development in tomatoes infected with tomato aspermy, aspermy-related viruses from chrysanthemum, and cucumber mosaic virus. 9745

Heat therapy as a method for obtaining virus-free clones of apples. 9773

Incidence of virus detection in vegetatively propagated plant introductions under quarantine in the United States, 1957-1967. 9777

Additional evidence of tree-to-tree transmission of sour cherry yellows virus by pollen. 9784

Identification, transmission, and distribution of Maize dwarf mosaic in Texas. 9860

Citrus leaf-mottle-yellows disease in the Philippines and transmission of the causal virus by a psyllid, Diaphorina citri. 9943

Genetic variation in the ability of a planthopper vector; Laodelphax striatellus (Fallen) to acquire the rice stripe virus. 10003

Changes in peroxidase-isozyme patterns induced by virus infection. 10014

Some temperature reactions of Xiphinema americanum and implications to virus transmission. 10077

Rose mosaic cured by heat treatments. 10781

Studies on citrus virus diseases. 10851

Transmission of several plant viruses by phenol-water extracts of diseased tissues. 10866

Nature and distribution of stone fruit viruses in Poland. 11703

Biophysical studies on double-stranded RNA from turnip yellow mosaic virus-infected plants. 11712

Natural spread of viruses infectious to beans. 11766

Etiology, symptomatology, and epidemiology of a virus disease of cultivated mushrooms. 11842

Nature and distribution of pome fruit viruses in Poland. 11888

Effect of temperature and length of incubation on symptom development of Lambert mottle of sweet cherries. 12412

Some effects of supplying benzyladenine to leaves and plants inoculated with viruses. 12413

Pig mosaic. 12417

Field experiments with oil sprays to prevent yellow mosaic virus in irises. 12425

Dimethyl sulfoxide inhibition and control of plant virus diseases. patent 3,334,012. 12433

Viruses mechanically transmitted from pear. 12449

Predominating strains of barley yellow dwarf virus in New York: changes during ten years. 12457

Transmission of exocortis virus of citrus to herbaceous plants. 12471

Occurrence of a mosaic disease of sweet sorghum in four southern states. 12475

Improved laboratory methods for rearing the citrus red mite. 12481

Properties of white clover mosaic virus from indiana. 13207

VIRUS DISEASES PLANTS

Partial infection with potato virus YN of tubers from primarily infected potato plants. 13210

Effects of removal of leaves and tops on translocation of potato virus X and potato virus YN in potato plants. 13211

Electron microscopy of plant viruses; bibliography 1939-1965. 13213

Reactivity of tobacco mosaic virus and its protein toward acetic anhydride. 13228

Effects of tomato ringspot virus plant and fruit development of raspberries. 13230

Some aspects of the barley yellow dwarf virus disease in Manitoba. 13232

Heat treatment and meristem culture for the production of virus-free plant material. 13237

Biochemistry of virus infection. v. change in nuclear content of host cells infected by virus. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13249

Factors affecting transmission of tristeza virus by melon aphids. 13254

Chenopodium quinoa, a herbaceous test plant for chlorotic leaf spot virus in apple. 13260

Reactions of peach trees and peach tree viruses to treatment with dimethyl sulfoxide and other chemicals. 13262

Differences in aggressiveness between TMV-ISOLATES from tomato on clones of Lycopersicum peruvianum. 13265

Yield of glasshouse tomatoes as affected by strains of tobacco mosaic virus. 13266

Some properties of the double-standard RNA of rice dwarf virus. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, gamagori, Japan. sB611.C6. 13276

The biochemistry of plant virus infection. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction; proceedings of a conference held May 15-21, 1966, Gamagori, Japan. sB611.C6. 13277

Virus etiology of foliar vein-flecking or ring pattern, and fruit russeting or blotch on apple. 13288

VIRUS DISEASES PLANTS
Some properties and fine structure of a new virus isolated from Gladiolus. 1446

Plant virus inclusions. 5821

VIRUS F (POTATOES)
Host range, properties, varietal reaction and resistance in relation to isolates of potato virus F. 10811

Elimination of the internal cork virus by culturing Apical meristems of infected sweetpotatoes. 10844

VIRUS HEPATITIS
Incidence on commercial farms of duck virus hepatitis in white Pekin ducklings hatched from immunized and unimmunized dams. 570

Preliminary study of an infectious hepatitis in pheasants. 589

Some physicochemical properties of turkey hepatitis virus. 2219

Further studies of virus hepatitis of turkeys. 2220

Indirect hemagglutination with duck hepatitis virus. 13455

VIRUS ISOLATION
Antigenic and immunological studies on several isolates of avian infectious bronchitis virus. 88

VIRUS M (POTATOES)
Detection of potato viruses X, M, and S in dormant potato tubers by the bentonite flocculation test. 117

VIRUS MUTATION
Characteristics of proteinless mutants of tobacco mosaic virus. 11

VIRUS PNEUMONIA
Transmissable diseases in swine. 29

Enzootic or virus pneumonia of pigs:the production of pneumonia with tissue culture fluids. 34

The pathogenisis of ovine pneumonia.III. PLACENTAL infection by pneumonitis virus. 59

Certification of swine herds as virus pneumonia-free. 62

Pig diseases in the Rhodesias. 72

The control of an outbreak of pneumonia in broiler calves with Virugon, a synthetic, oral anti-viral agent. 73

The characterization of a causitive agent of virus pig pneumonia. 74

Virus pneumonia of pigs, Attempts at propagation of the causative agent in cell cultures and chicken embryos. 102

The blood picture in steers following oral dosing with Dictyocaulus viviparus and during a latent infection with virus pneumonia. 126

VIRUS PRODUCTION
Rinderpest in tissue virus culture, I. Methods for virus production. 48

VIRUS REPRODUCTION
Virus multiplication and the synergistic response in tomato as modified by host resistance and temperature. 3

VIRUS S (POTATOES)
Saco potato infected with potato virus S by grafting. 96

Detection of potato viruses X, M, and S in dormant potato tubers by the bentonite flocculation test. 117

VIRUS X (CHERRIES)
Control of western X-disease virus in Utah orchards. 69

VIRUS X (PEACHES)
Control of western X-disease virus in Utah orchards. 69

VIRUS X (POTATOES)
Potato spindle tuber caused by a strain of potato virus X. 96

Interaction of two plant viruses and the crown gall bacterium in tobacco. 98

A new host for potato virus X in the Leguminosae. 109

Effect of high light intensities on spontaneous and virus-induced local lesions in Gomphrena globosa. 117

Detection of potato viruses X, M, and S in dormant potato tubers by the bentonite flocculation test. 117

Effects of removal of leaves and tops on translocation of potato virus X and potato virus YN in potato plants. 132

VIRUS X (REDPEPPERS)
Identification of the viruses affecting commercial varities of pepper (Capsicum annum) in New Jersey. 69

VIRUS Y (POTATOES)
Effects of temperature and length of acquisition feeding time on transmission of nonpersistent viruses by aphids. 106

Potato virus P latent in an imported variety and resistance to the virus in an interspecific potato hybrid. 106

Genetics of resistance in Capsicum annum to two virus diseases. 107

A mutation for resistance to potato virus Y in pepper. 10728

The role of potato-Y virus in tomato production in south Florida. 10732

Yields of sour cherry affected by ring spot and yellows viruses. 10809

Cross-protection tests with potato virus Y and potato vienal necrosis virus. 10854

Assimilation and transfer of mirex in colonies of Texas leaf-cutting ants. 11269

The effects of insecticides on the behavior of the green peach aphid and its transmission of potato virus Y. 11337

Variation in virulence of potato virus Y strains in certain Solanaceous hosts. 11361

Tobacco etch virus and potato virus Y from pepper in Southern California. 11795

[RUS Y (BEDPEPPERS)
Identification of the viruses affecting commercial varities of pepper (Capsicum annum) in New Jersey. 6925

[RUS YN (POTATOES)
Partial infection with potato virus YN of tubers from primarily infected potato plants. 13210

Effects of removal of leaves and tops on translocation of potato virus X and potato virus YN in potato plants. 13211

[RUS 2 (BEANS)
A strain of bean virus 2 that overcomes resistance in pea conditioned by the mo mo genotype. 1123

[RUS-NEUTRALIZATION TESTS
Conditions influencing virus-neutralization tests for infectious canine hepatitis antibody. 4661

[RUS-X _POTATOES)
Use of molecular gel formation to prepare potato virus-X inocula for antisera. _Contribution no. 229). 5825

[RUSES
The transmission of nuclear-polyhedrosis virus in laboratory populations of Trichoplusia ni (Hubner). 42

Studies on the causative agent and histopathology of a virus disease of the western oak looper. 64

On the transtadial transmission of insect viruses. 69

Evidence for tree-to-tree transmission of sour cherry yellows virus by pollen. 188

The host plant as a habitat for fungal and bacterial parasites. 191

Inhibition of several plant viruses by milk. 255

Virus multiplication and the synergistic response in tomato as modified by host resistance and temperature. 301

Seed of Scotia bean for plant viral assays. 401

Inactivation rates of some lyophilized poultry viruses at 37 and 3 degrees C. 567

Isolation of an unidentified hemagglutinating virus from the respiratory tract of turkeys. 575

Partial purification of viruses with granules of acetone-dried agar gels. 737

Effect of viral infection on the nuclei of host. 740

Further phosphate effects in virus inoculations. 756

Cell-associated virus infectivity of tissue cultures derived from susceptible and resistant sources. 1265

Characteristics of filamentous viruses isolated mechanically from apple. 1332

Isolation of tobacco vein distorting virus from tobacco plants infected with aphid-transmissable bushy-top. 1358

A rapid method for purifying tobacco ringspot virus and its morphology by electron microscopy and negative staining. 1494

Virus cause of blue dwarf of oats and its transmission to barley and flax. 1520

Resistance in red clover to five viruses. 1564

Eastern and western encephalomyelitis found in florida horses. 1869

Transmission of ornithosis from sheep to turkeys. 1876

Bovine lymphosarcoma. 1882

Therapy of atrophic rhinitis. 1885

The emerging classification of animal viruses- A review. 1912

Colostral antibody to rabies in cattle vaccinated with HEP flury strain of the virus. 2016

Ovine virus abortion. 2019

An in vitro neutralization test with avian encephalomyelitis virus (AEV). 2174

The structure of animal viruses. 2199

The immunological antigenicity of rapid heat inactivated viruses. I. Newcastle disease virus. 2217

Isolation of West Nile virus from the African bird argasin, Argas reflexus Hermanni, in Egypt. 2683

Avian encephalomyelitis. 2946

Control of Newcastle disease and infectious bronchitis by vaccination. 3101

A fatal ulcerative mucosal condition of sheep associated with the virus of contagious pustular dermatitis. 3103

Duck plague. 3195

Etiology of an infectious nephritis-nephrosis syndrome of chickens. 3208

A study of inactivated distemper virus in the dog. 3249

Third passage bovine kidney cell cultures- an excellent system for propagating the oregon C24V mucosal disease agent. 3441

The role of viruses in respiratory diseases of cattle. ii. Respiratory disease in beef calves vaccinated before weaning with bovine myxovirus para-influenza 3 (SP-4) vaccine. 3458

Utilization of amide-N in normal and virus-infected tissue culture cells. 3501

USDA report highlights advances in pest research and control. 4275

Aerial application of virus for control of a pine sawfly, Neodiprion pratti pratti. 4389

Serial cultures of lamb testicular cells and their use in virus studies. 4799

The use of complement-fixation tests in the study and diagnosis of viral diseases in man and animals-a review. 5009

Observations on the biting habits of mosquitos in the forest canopy at Zika, Uganda with special reference to the crepuscular periods. 5618

Investigation of an epidemic of St. Louis encephalitis in Danville, Kentucky, 1964. 5706

St. Louis encephalitis in Memphis, tennessee, 1964. 5714

Specific virus adsorption by antibodies coupled to a solid matrix. 5788

VISCERA

Symposium on poultry viruses. 5924

The importance of leukosis virus as a contaminant in biologics. 5963

Establishment of an insect cell strain persistently infected with an insect virus. 6592

A virus-like particle in Avon and Fundy potatoes. 6739

Bentonite flocculation' a rapid, sensitive serological test for the detection of plant virus antigens. 6897

The role of the coat protein in the inactivation of tobacco mosaic virus by ultraviolet light. 6931

Ulceration of cow's teats caused by a virus. 7415

Inactivation of TNV from tomato seed. 8252

Yellow viruses in sugar beet and mangold seed crops. 8374

The carriage of pathogenic staphylococci by sheep. 8905

Isolation and characterization of a virus from the reproductive tract of cattle. 10235

Effects of temperature and length of acquisition feeding time on transmission of nonpersistent viruses by aphids. 10655

Transmission of virus in tent caterpillar populations. 10662

Importance and control of potato leaf roll in Mexico. 10722

Effect of a virus on the winter-killing of oats. 10748

Chemotherapeutic control of potential virus (aphids) on prune trees. 10774

Prunus injucunda Small and Acer rubrum L., natural hosts. of peach rosette virus. 10804

Flour of infected bean seed as a source of virus. 10905

Release and preservation of virus by roots. 10910

Bioassay of microbial pesticides. ini Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. i. principles, methods, and general application. 395 29. 11583

Seasonal populations of the strawberry aphid and transmission of strawberry viruses in the field in relation to virus control in Western Washington. 11644

The laboratory colonization of Culex (Culex) univittatus Theobald (Diptera: Culicidae) from material collected in the highveld region of South Africa. 11684

The presence of antibodies in the ovine serum inhibiting the hemagglutination by myxovirus parainfluenza. 12612

Polymerization-depolymerization of tobacco mosaic virus protein. x. effect of D2O. 13240

Polymerization-depolymerization of tobacco mosaic virus protein. viii. light-scattering studies. 13273

VISCERA

Diabetes insipidus attributed to visceral larva migrans in a dog. 1884

Residue studies in beef tissues following oral administration of methiamazole. 2875

The effect of fowl pox vaccination on several glands or organs of white leghorn chickens. 3247

Recovery of aster yellows from excised organs of insect vectors. 6770

Development of an antigen in visceral lymphomatosis and splenic lymphoid foci. 8828

VISCOSITY

A possible enzymatic cause of viscid ruminal contents - Its relationship to legume bloat. 3567

The influence of oil viscosity and timing of treatment on semidormant control of European fruit lecanium. 447

VISION

Insect communication. 1302

Optical orientation of the honey bee (Apis mellifica) according to the frontal angle of the perceived striated pattern. 1314

VITACEA

Life history studies of the grape root borer (Lepidoptera: Aegeriidae) in Missouri. 585

VITAMIN A

Studies on the properties of New Zealand butterfat. VI comparison of the properties and vitamin A potencies of butterfats produced by clover-fed and ryegrass-fed dairy cows. 635

VITAMIN A

Epithelial metaplasia in experimental vitamin A-deficient lambs. 472

VITAMIN A

Osteomalacia in horses. II. Nutrition as an etiologic factor. 461

Influence of sodium nitrate, vitamin A and protein level on feedlot performance and vitamin A status of fattening cattle. 513

VITAMIN A

A review of vitamin A nutrition of ruminants. 458

Congenital trembling in lambs. 470

Vitamin A nutrition of beef cattle fed corn silages. 484

Urea, nitrates, and vitamin A in ruminant nutrition. 509

The effects of feeding various levels of vitamin A on chicks with cecal coccidiosis. 512

Influence of vitamin-a deficiency on testes, bursa Fabricius, adrenal and hematocrit in cockerels. 610

Dietary vitamin A and severity of coccidiosis in chickens. 611

A study of the effects of hormones and vitamin A on bovine teat canal in organ culture. 613

Studies on the properties of New Zealand butterfat. VII. effect of the stage of maturity of ryegrass fed to cows on the characteristics of butterfat and its carotene and vitamin A contents. 635

Unusual cerebellar conditions in pigs. Part 1. Cerebellar herniation associated with vitamin A deficiency. 732

Studies on coccidiosis and vitaminA nutrition of broilers. 749

Experiments with Pseudomonas aeruginosa on vitaminA deficient chickens. 1106

Vitamin A requirement of growing birds. Influence of breed. 1199

Vitamin A deficiency in young cattle. 1345

VITAMIN B COMPLEX

Serum hepatitis in the horse. 480

The additive effects of nucleic acids and antibiotics as individual growth promotants for chicks. 600

Some nutritional aspects of experimental infection with salmonella pullorum. 607

Observation on the effect of vitamin and antibiotic injections on early turkey poult growth and mortality. 616

Effects of B. vitamin deficiencies on energy metabolism of the chick. 1201

VITAMIN B-12

Hematologic signs of vitamin B-12 deficiency in swine. 879

VITAMIN B6
Effects of infection by the stem rust fungus on the vitamin B6, niacin, and pantothenic acid content of wheat plants. 5803

Choline-induced pyridoxide deficiency in broiler chickens. 10220

Influence of salts of ethylenediaminetetraacetic acid on the tryptophan load test in pyridoxine-deficient swine. 10229

Effects of infection by Puccinia graminis tritici on the vitamin B6, niacin, and pantothenic acid contents of wheat plants. 10789

Isoniazid toxicosis in ducklings: studies on pyridoxine, niacin, glutamic acid, and arginine supplementation. 13412

VITAMIN C
Suspected skeletal scurvy in the dog. 7372

VITAMIN D
Vitamin D reduces parturient paresis incidence. 3008

Influence of dietary zinc, calcium and vitamin D for hens on zinc content of tissues and eggs and on bone composition. 7137

Influence of vitamin D on various aspects of the reproductive process in mature hens. 7142

The effects of vitamin D in chicks. 12573

Influence of vitamin D on calcium metabolism and the parathyroid glands of cattle. 13413

VITAMIN D3
Vitamin D3 and ovine 'ring womb'. 7257

The danger of using massive doses of vitamin D3 in the prevention of milk fever. 10125

VITAMIN E
Muscular dystrophy in early weaned lambs. 4631

Metastatic calcification associated with white muscle disease in lambs. 4756

Combined therapy with vitamin E and selenite in experimental nutritional muscular dystrophy of pigs. 4966

The effects on house flies of adding wheat germ and corn oils to fly media. 6654

The relation between alpha-1 tocopherol content of the breeder diet and that of the newly hatched chick. 11977

Effect of selenium on white muscle disease in lambs. 12011

VITAMIN K
The effect of various levels of vitamin K on various levels of coccidiostats in broiler feeds. 5969

Comparative vitamin K activity of dehydrated alfalfa and Leucaena leucocephala meal. 11989

VITAMINS
Influence of vitamins and other compounds on the degree of infection of wheat by Puccinia graminis tritici. 1402

A practitioner's experience with SPF pigs. 4725

Studies on the nutritional requirements of the fruit fly Dacus cucurbitae Coquillett (Diptera, Trypetidae). iV. Responses of D cucurbitae larvae to vitamin deficient diets. 6512

Pathogenicity, vitamin nutrition, and cultural characteristics of isolates of Phytophthora parasitica from carnation and other hosts in hawaii. 6768

Vitamin D-induced calcium binding factor in rat intestinal mucosa. 7388

Some effects of vitamins on growth and differentiation in Verticillium. 10317

Role of ten dietary vitamins on fecundity of the parasitoid Exeristes comstockii (Cresson) (Hymenoptera: Ichneumonidae). 10537

The vitamin nutrition of Botrytis gladiolorum in relation to asexual reproduction. 10902

The effect of vitamin and antibiotic injection on early turkey poult growth and mortality. 11341

Effect of vitamins, hormones, and trace elements on growth and sporulation of Stemphylium sarcinaeforme, causal organism of leaf spot of gram. 11390

The comparative effects of vitamin deficiency on development and on adult fecundity of Tribolium castaneum. 13005

An artificial diet and some growth factor requirements for the pale western cutworm. 13070

The effects of diet on reproduction in pigs, sheep and cattle. VI: cattle-protein, vitamins, minerals and other dietary substances. 13454

VITIS
Serological relationships of virus isolates from grapevines with different disease symptoms. 5799

Incidence of virus detection in vegetatively propagated plant introductions under quarantine in the United States, 1957-1967. 9777

VITREOUS BODY
Asteroid hyalosis in the dog. 11074

VIVIPARITY
Water changes in cockroach oothecae in relation to the evolution of ovoviviparity and viviparity. 5660

VOCABULARY
Pesticide names found in U.S.S.R. technical literature. 5419

VOLATILE SUBSTANCES
Inactivation of tobacco mosaic virus by volatile chemicals. 1186

The relation between physical properties and penetration of solutions into the cockroach cuticle. 2579

Volatility of seven s-triazines. 3770

Volatility and tracer studies with alkylamino-s-triazines. 3778

Newer insecticides and herbicides are covered in custom spray school. 5302

Factors affecting the volatilization of insecticidal residues from soils. 5313

Reduction of seed-borne fungi by ethylene oxide, hot air, and volatile chemicals. 9781

Hazards of herbicide drift. 13586

VOLUMETRIC ANALYSIS
Determination of malathion in formulations. 3754

Titrimetric and electro-decomposition for determination of copper naphthenate. 3761

Determination of piperazine in formulations by nonaqueous titration. 3793

The comparative titration of foot-and-mouth disease virus innoculated into the tongue and foot pads of guinea pigs. 4825

Studies on titration of fowl poxvirus and some aspects of pathogenesis of fowlpox. 5990

Rapid volumetric determination of halogenated organo-mercuric compounds, with applications to the determinations of the active substance in conditioned fungicide products. 9211

Analysis of dithiocarbamates and thiuram disulphides used in agriculture. I. Collaborative study of macro-methods available for the evaluation of technical and formulated products. 9242

A volumetric dispenser for insect media. 10439

VORLEX

Collaborative study of a titrimetric method for the assay of amitrole formulations. 12848

Comparative titration of eastern encephalitis virus in cell suspension and in cultures of duck embryo fibroblasts. 13423

VORLEX
Control of verticillium wilt. 8212

Control of stubby root nematode, Trichodorus allius, in onions. 8632

Control of maize nematodes. 10034

Control of corn nematodes with Vorlex and D-D. 10072

VORTICELLA
Observations on Culex pipiens larvae infested with Vorticella sp. 13180

VULPES
The toxicity of some chlorinated hydrocarbon insecticides to british wild foxes (vulpes vulpes). 5955

VULVA
Squamous-cell carcinoma of the vulva of cattle in Kenya. 2256

Vulvitis in Merino ewes. 3009

Infectious bovine rhinotracheitis-infectious pustular vulvovaginitis virus infection in pregnant cows. 8829

WAGES
Field supervisor discusses some interpretations of wage-hour regulations pertaining to applicators. 5415

WALES
Food poisoning in england and wales. 5342

WALNUTS
The navel orangeworm in northern California. 4471

Residue determination of 2,4-dichlorophenoxyacetic acid in dry crops and walnuts. 6271

Population dynamics of the walnut aphid, Chromaphis juglandicola (Kalt) in northern California. 12305

WARBURG APPARATUS
Manometry calibration for insect respiration. 4067

WAREHOUSES
Insecticide residue in foods subjected to aerosols under simulated warehouse conditions. 11198

WARF ANTIRESISTANT
Laboratory studies with WARF anti-resistant on house flies. 10567

Effectiveness of WARF Antiresistant as an additive to DDT for control of resistant house flies. 10673

WARF anti-resistant: DDT selection and house fly cross-resistance. 12384

WARFARE
Role of the veterinarian in time of national emergency. 4973

WARFARIN
Diagnosis and treatment of poisoning in dogs. 4953

Evaluation of the hazard of secondary poisoning by warfarin-poisened rodents. 4997

Report on analytical methods for pesticide formulations. 6385

Heritable resistance to warfarin in rats. 7693

Warfarin. in: Zweig, Analytical methods for pesticides plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12199

Anticoagulant rodenticides in concentrates and baits. 12259

Taste preferences in rodenticide development. 13635

WART (POTATOES)
Potato wart persists in West Virginia. 9

WART HOGS
The incidence of African swine fever in wart hogs in Kenya - a preliminary report. 4

WASHINGTON
Soil-borne mosaic of fall-seeded oats in western washington.

The degree of vector-specificity found in the barley yellow dwarf virus in Washington, a reexamination.

Reaction of grass to stripe rust at Pullman, Wash. 1

Dynamics of the mycoflora of subterranean parts of winter wheat in the dryland area of Washington. 1

Measures of the destructive potential of stripe rust in Washington. 1

Re-examination of vector-specificity in the barley yellow dwarf virus in Washington. 1

Value of new and old chemicals reviewed for washington fruit growers. 2

Aphid transmission of bean viruses in field beans in central washington. 4

Control of insects and mites attacking mint in central washington. 4

Evaluation of new materials for codling moth control in Washington. 4

Pinpoint spraying - accurate spraying application credited for a 99.7 per cent kill. 5

The efficacy of various fumigants in controlling Verticillium wilt in south-central Washington. 99

Rosselina herpotrichoides on Sitka spruce seedlings in Washington. 99

Host range of northern root-knot nematode on irrigated crop plants and weeds in Washington. 100

Soil-borne mosaic of fall-seeded oats in western Washington. 107

Further observations on pear decline in Washington with particular emphasis on quick decline. 109

Seasonal populations of the strawberry aphid and transmission of strawberry viruses in the field in relation to virus control in Western Washington. 116

Time of planting in relation to disease incidence and yields of beans in central Washington. 117

Cucumber scab in washington. 117

Wheat powdery mildew, a 1966 epiphytotic in eastern Washington. 118

WASHINGTON, D. C.
An epidemic of verticillium wilt in tomato in the metropolitan area of Washington, D. C. in 1962. 4

An exploratory survey for fluorescent substances in Hymenomycetes collected in the vicinity of Washington, d. c. 113

WASTE
Micro-infrared analysis of dieldrin, endrin, and other chlorinated pesticide residues in complex substrates. 120

WASTE DISPOSAL
Laboratory and field studies on mosquito control in waste disposal lagoons in Louisiana. (abstract). 124

Aquatic insects associated with midwestern waste stabilization lagoons. 1351

Anaerobic lagoon treatment of milking-parlor wastes. 1351

Design of a modern meat-packing waste treatment plant. 1351

isposal and decontamination of ag chemical containers. 13588

EE
ethal time-temperature relation for Heterodera glycines. 1647

nfluence of nozzle size and type hardness of water, and etting agents on spray drift. 2558

eed seed in irrigation water. 2810

uration of toxicity of endothal in water. 3708

he effects of some insecticides on the metabolites of lattella germanica. 4034

emporary storage of living soil and bark inhabiting coleopterous larvae in water. 4113

nfluence of water and previous food on the longevity of nfed larvae of Cleomegilla maculata lengi. 4152

ffect of soil cultivation, soil surface and water on the persistance of insecticidal residues in soils. 5294

utgers to investigate pesticides. 5339

oss of parathion and DDT to soil from aqueous dispersions nd vermiculite granules. 5388

DT and heptachlor as black-fly larvicides in clear and urbid water. 5413

olymerization of TMV protein in water and in heavy water. 5811

tudies of water conservation in cockroaches. 6653

elationship of water content and living cells to spread of iplodia zeae in corn stalks. 6849

isinfected water suppresses Pseudomonas in mice. 7357

ncreasing utilization of water puts spotlight on aquatic eed control. 8695

uraltadone water medication against naturally induced salmonella pullorum infection in stressed floor-pen broilers. 8748

edge-layer chromatography for pesticide residue clean-up. 9202

ater and aeration as factors in root decay of Citrus inensis. 9748

he effect of aqueous submersion on larval and pupal pink bollworm. 10466

tudies on the fate of 2,4-D and ester derivatives in natural surface waters. 11138

ffects of nitrate and nitrite in the drinking water on chicks, poults and laying hens. 11972

linical salmonellosis accidentally induced by feed and water deprivation of one-week-old broiler chicks. 11982

oxicity to house fly larvae of droppings from chicks administered insecticides in feed, water, and as single oral dosages. 12059

nvestigation of possible correlation of hot-water washing with excessive storage decay in coastal California lemon packing houses. 12067

he identification and measurement of chlorinated hydrocarbon pesticides in surface waters. gD305.h5B7 (WP-22). 12071

ttractant and stimulant factors for oviposition of Culex pipiens fatigans in natural breeding sites. 12351

ffect of detergents and inorganic salts in water on the persistence and movement of insecticides in soils. 12797

esponses of tarsal hairs of the bluebottle, Calliphora erythrocephala Meig., to sugar and water. 13102

on movements and water transport in the rectum of the locust.Schistocerca gregaria. 13133

WATER ANALYSIS
Effect of nutrition on the incidence of a congenital deformity-crooked calves. 2936

Water analysis. 10404

Gas chromatographic method for (the determination of) silvex. 10414

WATER CONSUMPTIVE USE
The oxygen and water requirements of the egg of Ocypus olens Mueller (Staphylinidae, Coleoptera). 2640

House fly nutrition. Ii. Comparative survival values of sucrose and water. 4058

Further studies on the relationship between parental age and the life cycle of the mealworm, Tenebrio molitor. 4103

Water tensions in plants, an entomological approach. 7037

The influence of selected nematode species and number of consecutive plantings of corn and sorghum on forage production, soil, and water use efficiency. 7087

Toxicity to house fly larvae of droppings from chicks given Dipterex-treated water. 8934

Studies on the amino acids, nitrogen, sugar and moisture content of maize and sorghum varieties and their relation to Chilo zonellus (Swin) resistance. 10001

Dynamic aspects of soil-water availability to plants. 12241

WATER FLOW
Circulation of water in soil under a temperature gradient. 12289

WATER METERS
A semi-automatic scale to meter water for greenhouse irrigation. 10442

Automatic water metering machine for mosquito larvicide tests. 12914

WATER POLLUTION
Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5628

Effects of forest spraying with DDT in New Brunswick on food of young Atlantic salmon. 5634

Dept. of Agriculture announces new pesticides monitoring program. 6266

Effects on wild young salmon of spraying DDT over New Brunswick forests. 6267

The uptake from water by several species of fresh-water fish of p,p:DDT, dieldrin, and lindane; their tissue distribution and elimination rate. 6315

Oxygen balance in a stream receiving domestic and oil refinery effluents. 7655

Dipyridylium residues in an aquatic environment. 7662

Permission needed in N.Y. for pesticide application. 9076

Water analysis. 10404

Detection and measurement of chlorinated organic pesticides in water by electron capture gas chromatography. 12073

Micro-infrared analysis of dieldrin, endrin, and other chlorinated pesticide residues in complex substrates. 12074

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 12076

Analysis of chlorinated pesticides in water. 12078

Infrared identification of chlorinated insecticides in the tissues of poisoned fish. 12092

Semi-automatic extraction of organic materials from water. public Health Service Water Pollution Surveillance System Applications and Development Report 16. 12264

WATER RESOURCES

Anaerobic degradation of selected chlorinated hydrocarbon pesticides. 13513

Water pollution control and abatement. tD420.W45. 13520

Problems in WHO on pesticide residues. in: Radioisotopes in the detection of pesticide residues; proceedings of a panel Vienna 12-16 April 1965. sB953.P32. 13570

Toxicity evaluation of a technique for introducing dieldrin into water. 13580

WATER RESOURCES
Mosquito control and the California Water Plan. 12406

WATER SPOT
Navel orange water spot protection by gibberellin. 10974

WATER STORAGE
Mosquito control on Smith Mountain reservoir by pumped storage water level management. 12340

WATER TREATMENT
The effect of applied water on preemergence applications of amiben. 2326

Water chlorination controls Pseudomonas aeruginosa in a rabbitry. 8852

Laboratory and field investigations of mosquito populations associated with oxidation lagoons in Missouri. 13185

Anaerobic lagoon treatment of milking-parlor wastes. 13515

WATER-STRIDER
A new Neotropical water-strider (Hemiptera: Gerridae)-. 5463

WATERCRESS
Influence of environmental conditions on the development of yellow spot disease in cress (Nasturtium officinale, R. BR). 9842

WATERGRASS
New herbicides. 8672

WATERMELONS
Local-lesion hosts for some isolates of watermelon mosaic virus. 426

Mycosphaerella fruit rot of watermelon. 1225

Relations of 10 isolates of watermelon mosaic virus (WMV). 1384

Symptoms associated with watermelon mosaic virus in south Georgia. 1433

Histology of watermelon anthracnose. 1562

Laboratory culture and development in Elaphria nucicolora (Lepidoptera: Noctuidae). 4338

Downy mildew on watermelons in Arizona, a first report. 10819

Melon aphid control on cantaloupes. 11912

Interaction of race I and race II of Colletotrichum orbiculare on watermelon. 12445

WATERWAYS
Pinpoint spraying - accurate spraying application credited for a 99.7 per cent kill. 5841

WATTLES (POULTRY)
The relationship between the blood group locus and the intradermal reaction in chickens. 8822

WAXES
The free fatty acids and neutral lipids of the cuticular wax of the Mormon cricket, Anabrus simplex, Hald. 6605

Digestion of wax by the greater wax moth, Galleria mellonella. 8141

Wax emulsion additives for control of storage decay in lemons. 10259

Chemical and physical nature of plant cuticles in relation to the deposition and penetration of pesticides. in: Radioisotopes in the detection of pesticide residues; proceedings of a panel, Vienna, 12-16 April 1965 SB953. P32. 13

WEAK PEACH (PEACHES)
Weak peach, a new virus disease of peach. 1

WEANING
Effects of weaning time on parasitism of lambs. 3

Effect of weaning time on parasitism in lambs. 3

Muscular dystrophy in early weaned lambs. 4

Effects of season of breeding on reproductive and weaning performance of beef cattle grazing seleniferous range. 4

Effect on weaning age and creep rations on parasitism in lambs. 5

Medicated feeds; experiments with a mixture of antibiotics and sulfamides for the control of the weaning diseases of the baby pig. 6

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas VI. VACCINATION of weanling pigs farrowed by susceptible and immune dams. 61

Experimental evaluation of culture and serum vaccination for the control of swine erysipelas. VIII. further observations on serum potency with relation to immunization of weanling pigs. 61

WEATHER
Weather, space, time, and chance of infection. 13

Turbulent transfer of fungus spores. 13

The seasonal variations of Strongyle infestations in Nigerian Zebu cattle. 19

Winter survival of Digitaria sanguinalis in subtropical climates. 24

The present state of fertility and reproductive disorders of farm livestock in Australia. 35

Observations on the dry season strongyle infestations of Zebu cattle in Northern Nigeria. 36

Indices of seasonal populations of the adults, eggs, and larvae of the corn earworm. 39

Effect of migration, temperatue, precipitation on thrips infestations in south Texas. 39

Occurrence of Hippelates eye gnats in a coastal habitat in California. 39

Seasonal occurrence of diapause in the boll weevil in Mississippi. 41

Seasonal history and control of the alfalfa weevil in North Carolina. 42

Insects active in south during spring. 43

The effect of clean culture and early spring acaracide treatments on overwintering spider mite populations in outdoor rose plots. 43

Effects of seasonal rainfall on range condition and grasshopper population, San Carlos Apache Indian Reservation, Arizona. 43

Pesticide drift residue. 62

Long-range aerial transport of the harlequin bug and the greenbug into Minnesota. 64

Time of year of infection of winter wheat by the dwarf bunt fungus. 68

Autumn and winter sporulation by basidiocarps of Fomes annosus. 68

The seasonal incidence of canine coccidiomycosis. 74

DDT deposits on grapes as affected by growth and

weathering. 7682

Synoptic weather conditions associated with long-range movement of the potato leafhopper, Empoasca fabae, into Wisconsin. 7882

Seasonal abundance and relative numbers of the tobacco hornworm, Protoparce sexta and the tomato hornworm, Protoparce quinquemaculata, in Kentucky. 7922

Cool weather in 1964 in Connecticut favored potato wilt by non-microsclerotial Verticillium. 9938

Interrelationships between methods of spray application. retention and weather conditions on the herbicidal efficiency of 2,4-dinitro-o-cresol. 10099

Epidemiology of latrodectism. 11245

Seasonal abundance of the cabbage looper as related to light trap collections, precipitation, temperature and the incidence of a nuclear polyhedrosis virus. 11492

Field weathering of toxaphene and chlordane. 12807

Observations on the alfalfa leaf-cutter bee, Megachile rotundata, at Hodgson, Manitoba in 1966. 13112

WEATHER FLECK (TOBACCO)
Response of plants to air pollutants. II. Effects of ozone concentration and leaf maturity on injury to Nicotiana tabacum. 6815

Ozone and soil moisture in relation to the occurrence of weather fleck on Florida cigar-wrapper tobacco in 1966. 11740

WEATHER FORECASTING
Weather observing equipment in plant disease research. 10441

WEB BLIGHT (BEANS)
Web blight -a severe disease of beans and soybeans in Mexico. 1239

Basidiospore infection by Pellicularia filamentosa (-Corticium microsclerotia), the incitant of web blight of common bean. 9726

WEB BLIGHT (SOYBEANS)
Web blight -a severe disease of beans and soybeans in Mexico. 1239

WEED BURNERS
Flame cultivation for corn and soybeans. 779

WEED CONTROL
Life history and host specificity studies of Heterographis fulvohasella Ragonot (Lepidoptera PHYCITIDAE). 25

A new technique of controlling weeds in sorghum in a wheat-sorghum-fallow rotation in the great plains. 521

Host specificity of Calophasia lunula (Hufn.) (Lepidoptera: Noctuidae). 801

Bibliography of weed investigations for January, February, March 1961. 1670

Bibliography of weed investigations for April, May, June, 1960. 1672

Bibliography of weed investigations for October, November, December 1960. 1674

Bibliography of weed investigations for July, August, September, 1960. 1676

Chemical weed control in young grapes. 1677

Bibliography of weed investigations for July, August, September, 1959. 1679

The bristly thistle and its control. 1681

Interrelations of row spacings, cultivations and herbicides for weed control in soybeans. 1715

Bibliography of weed investigations for july-december 1961, table of contents. 1720

Uptake and distribution of simazine by oat and cotton seedlings. 1725

Delayed preemergence weed control in seeded tomatoes and peppers. 1726

Herbicides and herbicide mixtures for weed control in peanuts. 1734

Weed control in castorbeans. 1753

Bibliography of weed investigations for April, May, June, 1961. 2752

Aquathol aquatic herbicide now available commercially. 2755

A farmer's view of chemical weed control. 2757

New materials show promise for weed control in vegetables. 2758

Organization of weed research in belgium. 2789

Preemergence herbicides in corn production. 2806

Soybean and weed yields as affected by irrigation, row spacing, tillage, and amiben. 2830

Aerial application of herbicides on fallow land. 2831

Weed control-a record of achievement. 2836

Sodium 3,6-dichloro-2-methoxybenzoate for the control of bracken (Pteridium aquinilium L. Kuhn): results of preliminary trials. 3753

Organization of weed research in spain. 3845

Organization of weed research and testing and approval of herbicides in normandy. 3847

Liability, weed control, training are among Texas conference topics. 4205

Performance of tillage implements in a stubble mulch system. i.residue conservation. II. Effects of soil cloddiness. iII. Effects of tillage sequences on residues, soil cloddiness, weed control and wheat yield. 4246

Crop production in a weed-free environment. 4478

Alfalfa weed control. 4481

Report of the first meeting of the European weed research council committee on aquatic weed control. 4482

Highway weed control. 4483

Roadside weed control with chemicals. 4485

Report of the fourth german conference on weed biology and weed control. 4488

Triband weed control system outlined at cotton conference. 4510

A promising new concept: triband application of herbicides. 4511

Report of the first conference of the French weed control committee, 14th-15th December, 1961. 4520

Pest management. sB931.b4. 5721

The relationship between the herbicidal effect of 2,6-dichlorobenzonitrile and its persistance in the soil. 5895

The reaction of Trifolium repens (L.) in grassland to 2,4-D, MCPA and mixtures of 2,4-D and MCPB. 5899

The control of weeds in spring cereals with MCPA, MCPB and 2,4-DB. 5900

Experimental studies of the mortality and plasticity of a weed. 5902

Movement of 2,6-dichlorobenzonitrile in soils and in plants in relation to its physical properties. 5906

WEEDS

Experiments on the control of weeds in groundnuts in Tripolitania. 5908

The control of Ranunculus repens (L.) in raspberries. 5909

The entomological control of weeds in Australia. 5912

Influence of tillage, row spacing, and atrazine on sorghum and weed yields from nonirrigated sorghum across Nebraska. 7120

Aerial application activity continues to increase gradually. 8169

Chemicals seen as replacement for conventional tillage. 8222

Selective, pre-emergence herbicide is ultimate goal in weed control. 8665

2nd annual aquatic weed meeting reviews herbicides and application. 8666

Flame cultivation, face flies among topics at Illinois conference. 8668

Citrus groves and rangeland offer promise for more herbicide use. 8670

Timing, formulation and adjuvants essential to chemical weed control. 8671

Mid-south's cotton industry dependent on weed control advances. 8673

Control of grasses and weeds in rice offered by Rohm and Haas herbicide. 8674

Factors affecting the herbicidal toxicity of ethyl di-n-propylthiolcarbamate. 8679

Chemical weed control in hawaii. 8680

Adapting application equipment for lay-by weed control in potatoes. 8681

Both bright and dim spots. 8683

Promising herbicides. 8684

Depletion of its food reserve is key to control of quackgrass. 8685

Georgia program offers information on herbicides. 8688

Increasing utilization of water puts spotlight on aquatic weed control. 8695

Effect of chemicals as herbicides alone and in combination for weed and grass control in Louisiana sugar cane. 8697

Acceptance of herbicides by farmers provides new opportunities to industry. 8702

CSMA speakers outline progress in control of lawn and household pests. 9030

New herbicides' developments in chemical need-control 1958-60. 9246

Heavy supply and low demand. 9289

Pesticide sales rise by 2 million dollars in Canada. 9293

Education programs ups herbicide use. 9306

15th international symposium on crop protection (section F: weed control), Ghent, 7th May, 1963. 10086

16th International Symposium on Crop Protection, Special Section of Weed Research, Ghent, Belgium, 5th May, 1964. 10088

Report on the fifth German conference on weed biology and weed control. 10092

Organization of weed research in Austria. 10094

Organization of weed research in Portugal. 10100

Organization of weed research in the German Federal Republic. 10

The use of paraquat for the control of autumn crocus (Colchicum autumnale). 10

Factors affecting the selectivity of 2,3-dichloroallyldiisopropylthiocarbamate (di-allate) against Avena spp. in wheat and barley. 10

Field experiments with chemicals for total control of vegetation. 101

Control of weeds in marrowstem kale by EPTC and some other herbicides. 101

Orchard pest control problems diminish. 106

Experiments in hand-weeding of conifer seedbeds in forest nurseries. 110

The fifth British weed control conference, 1960. 110

New materials appear promising for weed control in corn and beans. 110

Some experiments in total weed control. 113

Agricultural chemicals and the world of man. 116

Influence of temperature on phytotoxicity of triazine herbicides to pine seedlings. 125

Pyridazones and method for controlling vegetation. patent 3,326,660. 125

A contribution to the study of control of weeds in soybean stands. 125

Herbicidal substituted phenoxy acylamides. patent 3,326,942. 128

Weed control in the tropics. 133

Method for pre-emergence control of undesirable plant life. patent 3,350,192. 134

Substituted norbornene herbicides. patent 3,324,147. 136

WEEDS

Testing the effect of vapam on weeds and fungi under field conditions. 25

A variant culture of Xanthomonas malvacearum obtained from weed roots. 127

Bibliography of weed investigations - April, May, June, 1959. 166

Bibliography of weed investigations for January, February, March 1961. 167

Bibliography of weed investigations for April, May, June, 1960. 167

Bibliography of weed investigations for January, February, March 1960. 167

Bibliography of weed investigations for October, November, December 1960. 167

Bibliography of weed investigations for October, November, December 1959. 167

Bibliography of weed investigations for July, August, September, 1960. 167

Report of the terminology committee, Weed Society of America. 167

Weeds as carriers of two potatoe pathogens in Colorado. 168

The role of chemical research in developing selective weed control practices. 169

Penetration and nutrition of Striga asiatica. 169

Weed control in cotton over a ten-year period by use of the more promising materials and techniques. 172

Research and organizational needs in the field of weed control. 1728

Weed control research - past, present and future. 1741

Phytotoxicity of s-triazine herbicides to corn and weeds as related to structural differences. 2365

Root moisture extraction profiles of various weeds. 2443

Bibliography of weed investigations for April, May, June, 1961. 2752

Report of the Terminology Committee. Weed Society of America. 2753

Weeds of the Lower Coastal Plain in Alabama. 2754

The effect of atrazine on transpiration in corn, cotton, and soybeans. 2761

The germination of weed seeds. 2762

The chemical control of Borreria verticillata. 2766

Weeds and man in latin america. 2790

Effects of structures of s-triazines on toxicity to soybeans and weeds. 2802

Weed seed in irrigation water. 2810

Preemergence herbicides incorporated in moist soils for control of annual grass in irrigated cotton. 2819

Ecology of black henbane in Saskatchewan. 2834

Spanogonicus albofasciatus and Rhinacloa forticornis on cotton in Arizona. 3995

Organization of weed research in sweden. 4490

A comparison of methods of recording herbaceous weeds in weed control experiments. 4523

The influence of irrigation, fertilizing and MCPA on the competition between spring cereals and weeds. 4531

Weed hosts of Olpidium brassicae and the lettuce big-vein virus. 5766

Crop and weed response to varying levels of mineral nutrients and moisture stress. 5904

An evaluation of Solanum nigrum and Physalis minima as suscepts of Xanthomonas vesicatoria. 6792

The fight against weeds. 7121

Science and education' a new awareness. 7122

Paraquat for selective control of range weeds. 7125

Weed science - revolution in agricultural technology. 7131

ISU veterinarians suspect two weeds as cause of seasonal swine disease. 7157

Application of residual herbicides for control of weeds in newly planted willow beds. 8698

Weed control in potatoes. 8701

Effect of soil application and sealing method on the efficacy of row application of soil nematocides for controlling root-knot nematodes, weeds and Fusarium wilt of okra. 10035

Emergence and longevity in cultivated soil of seeds of some annual weeds. 10105

The fate of N'-(4-chlorophenoxy)-phenyl N,N-dimethylurea (C-1983) in soils and plants. II. uptake and distribution within plants. 11170

Herbicide longevity in Nebraska soils. 12072

Method of selectively destroying weeds. patent 3,332,768. 12545

Skeleton weed a serious threat to California agriculture. 12547

Method for killing potato vines with ammonia. patent 3,331,675. 12552

Simultaneous control of field foxtail grass, silky bent grass, and broad leafed weeds. 12553

Astragalus mollissimus (Locoweed) toxicosis of horses in western Kansas. 12678

Seminar session on current problems in weed research and possible application of nuclear techniques. in: Isotopes in weed research; proceedings of a symposium Vienna 25-29 October 1965. s589.S9. 13398

Acacia nilotica (L.) Del. subsp. kraussiana (Benth.) Brenan. as a poisonous plant in South Africa. 13457

WEIGHTS
Some observations on the loss in weight caused by sitophilus granarius (L.) (Coleoptera, Curculionidae) to wheat under constant experimental conditions. 3662

Some factors influencing the losses of pigs prior to weaning. 10180

Effect of atrophic rhinitis on rate of gain in swine. 10234

Effect of a subclinical infection of nematodirus sp. upon the liveweight gain of lambs. 11110

WEIL'S DISEASE
The clinical approach to abdominal disorders of the dog. 7502

WEST INDIES
Culture of Hippelates pusio (Diptera'Chloropidae) in the West Indies for natural enemy exploration and some notes on behavior and distribution. 7851

WEST VIRGINIA
Potato wart persists in West Virginia. 9688

Longevity of Ceratocystis fagacearum in roots of deep-girdled oak-wilt trees in West Virginia. 11700

WESTERN EQUINE ENCEPHALOMYELITIS VIRUS
Recovery of western equine encephalomyelitis virus from crop washings of experimentally infected pigeions. 2138

Isolation of western equine encephalomyelitis (Wee) virus from mosquitoes in Saskatchewan, 1962. 10148

WESTERN FLOWER THRIP
Techniques for handling thrips in transmission experiments with the tomato spotted wilt virus. 785

WESTERN HEMISPHERE
A New-World species of bamboo-nesting carpenter bees belonging to the genus xylocopa Latreille (Hymenoptera: Apoidea). 3933

WESTERN NORTH AMERICA
Observations on the subgenus Argas (Ixodoidea, Argasidae, Argas). 2. A. cooleyi, new species, from western North American birds. 3939

WESTERN UNITED STATES
Millipeds of the order Polydesmia from the western states and Baja California. 5514

WESTERN UNITED STATES
Paraterellia, a new genus of Tephritidae from the Western United States (Diptera). 3913

Characteristics and control of swainsonpea. 7130

Water mites of the genus Feltria in Central and Western United States (Acarina: Feltriidae). 9436

WESTERN YELLOWS (SUGAR BEETS)
Some host plants of the green peach aphid and beet western yellows virus in the Pacific Northwest. 8593

WETTABLE POWDER

WETTABLE POWDER
Use of a malathion wettable powder for surface application to bagged rice bran. 11131

WETTABLE POWDERS
Pesticidal wettable powder formulation. patent 3,342,581. 13686

WETTING AGENTS
Physico-chemical studies on agricultural sprays. V. Incorporation of wetting agents in high-volume sprays. 8174

WHEAT
Larval movement and infestation in the wheat bulb fly, Leptohylemyia coarctata (Fall.). 53

Winter survival of wheat in chloropicrin treated soil. 93

Callus tissue from wheat for infection studies of Puccinia graminis var. tritici. 281

Stripe rust of wheat in the Pacific Northwest in 1962. 333

Stripe rust stem infection of wheat and barley. 336

Inoculation of winter wheat with Cephalosporium gramineum. 351

Effect of age of wheat tissues on susceptibility to Septoria nodorum. 360

Seedling reaction of wheat varieties to infection by several isolates of Helminthosporium sativum. 377

Stomatal penetration of stem and leaf rust of wheat affected by atmospheric CO2. 456

Effect of temperature extremes on the wheat seed gall nematode, Anguina tritici. 476

Nematodes in north dakota. 495

Bromine residues in wheat and milled wheat fractions fumigated with methyl bromide. 624

Distribution of C14-containing metabolites in wheat leaves infected with stem rust. 666

Low temperature selection of isolates of Puccinia graminis var. tritici. 693

Relation between phenol metabolism and stem rust resistance in wheat. 944

Seedling versus mature plant reactions of wheat to stripe rust. 1013

Effect of crop rotation on yields of corn, oats, and wheat and on corn stalk rot. 1033

A technique for measuring CO2 production of wheat at 15-16 percent moisture content. 1066

Inheritance of resistance to common bunt, Tilletia caries, in a cross of P.I. 178383 x Elgin wheat. 1085

Effects of preinoculation and postinoculation host temperatures on infection of wheat seedlings by Puccinia striiformis. 1131

Dynamics of the mycoflora of subterranean parts of winter wheat in the dryland area of Washington. 1134

Phenol content in rust infected and nitrogen fertilized wheat leaves. 1152

Wheat striate mosaic in Canada. 1159

Storage of fungi in seeds of small grains. 1275

Some histological and genetic relationships of resistance of wheat to loose smut. 1327

Influence of vitamins and other compounds on the degree of infection of wheat by Puccinia graminis tritici. 1402

Postinfection development of flag smut of wheat in relation to controlled soil moisture. 1421

Inoculating barley seedlings with Ustilago nuda and wheat seedlings with U. tritici.

Relation of moisture content and length-of-storage period to changes in the fungus flora and germination percentage of wheat.

Duration of protective activity in wheat seedlings of various compounds against stem rust.

Pre- and postinoculation effects of light quality on infection intensity of stem rust of wheat.

Resistance to snow mold of winter wheat.

Sterilization of wheat seed by ethylene oxide.

The detection of immature stages of insects within grains o wheat. 2

The adsorption of atmospheric oxygen by wheat. 2

The reaction of wheat to 2,4-D ethyl ester applied in different diluents. 2

Direct-drilling of cereals after use of paraquat. 2

A field study of the factors affecting the herbicidal activity of ioxynil and bromoxynil and their tolerance by cereals. 2

Weeds in Kenya wheat. 2

Aerial application of herbicides on fallow land. 2

Field investigations concerning the selective phytotoxicity of di-allate to Avena spp. in wheat and barley. 3

Phytotoxicity of herbicides as measured by root absorption. 3

The herbicidal effect of some substituted anilides. 3

Determination of mercury in pink wheat. 3

Determination of tetrachloronitroanisole (TCNA) residues in vegetables and grains. 3

Distribution of army cutworm larvae in wheat and barley fields. 3

Effect of dockage on the efficiency of 80:20 (carbon tetrachloride:carbon disulfide by volume) as a fumigant for adult rice weevil, Sitophilus sasakii (Tak.) in wheat. 4

Oviposition response of the army cutworm, Chorizagrotis auxiliaris, to different media. 4

Biological studies of a new greenbug biotype. 4

Control of wheat dwarf bunt. 4

Some aspects of the use of barban for wild oat control in winter wheat. 4

The reaction of wheat proteins with sulphite. I. Sulphitolysis of the proteins of flour with cuprammonium sulphite. 5

The effect of heat in drying on the nutritive value of wheat for animal feed. 5

Influence of formulation on the effectiveness of malathion, methoxychlor, and synergized pyrethrum protective sprays for stored wheat. 5

Determination of piperonyl butoxide in wheat. 5

The resistance of some American wheats to hessian fly of mixed foreign parentage. 5

The susceptibility of some American wheats to the wheat blossom midges. 5

Effects of infection by the stem rust fungus on the vitamin b6, niacin, and pantothenic acid content of wheat plants. 5

Inheritance of resistance to races 56 and 15B-2 of Puccinia graminis Pers. f. sp. tritici Erikss. and Henn. in Triticum aestivum L. 5

ariations in size and weight of three geographical populations of rice weevil complex. 5879

berrations of the nucleic acid metabolism of plants induced by 4-amino-3,5,6-trichloropicolinic acid. 5905

he effectiveness of certain grain fumigant formulations. I. Germination. 6262

stimating immature populations of rice weevils in wheat by using subsamples. 6460

istribution and sorption of liquid fumigants applied to wheat by recirculation. 6688

nheritance of stem rust resistance in two wheat varieties, Marquis and Kota. 6706

ungi attacking seeds in dry seed-beds. 6759

ostinfection development of wheat bunt in relation to controlled soil moisture. 6860

hree distinct pathogenic types of stripe rust in the western states. 6861

ime of year of infection of winter wheat by the dwarf bunt fungus. 6862

enetic model for physiologic studies of mechanisms governing development of infection type in wheat stem rust. 6876

pidemiology of glume blotch of wheat. 6888

actors affecting resistance of wheat to scab caused by Gibberella zeae. 6893

ffects of various diurnal temperature profiles on host-parasite reaction of wheat varieties and Puccinia striiformis. 6903

verwintering of stripe rust in winter wheat in Montana. 6904

method of using mycelial, monosporidial isolates of Tilletia controversa in pedigreed hybrid crosses. 6908

elation of Agropyron repens mosaic and wheat streak mosaic virus. 6922

ulture of the dwarf bunt fungus. 6944

Insecticidal control of the Hessian fly. 6987

ffect of fennel upon the adult rice weevil, Sitophilus oryza. 7012

The effect of seed treatments with phorate and other systemic insecticides on the germination of wheat. 7027

Effect of culm solidness on the survival of the wheat stem sawfly. 7041

Susceptibility of certain stages of the rice weevil to a methallyl chloride fumigant formulation in wheat of various moistures. 7045

Chloroplast number in leaves of normal wheat plants and those infested with hessian fly or treated with maleic hydrazide. 7052

Effect of temperature and humidity on the fecundity and development of Cadra cautella Wlk. in wheat. 7071

The use of phorate to control aphids and the Hessian fly on winter wheat. 7078

Population dynamics and fumigation studies of certain nematodes associated with roots of wheat in Nebraska. 7101

Development of granary weevils and storage fungi in columns of wheat- II. 7643

Factors affecting invasion of grains and seeds by Aspergillus flavus and effects of the fungus on germination of the seeds. 7644

Inhibition of wheat strip rust, due to Puccinia striiform-. 8248

Wheat stripe rust. 8348

Chemical control of stripe rust on Omar wheat. 8351

Control of flag smut, due to Urocystis agropyri, of wheat with seed-treatment chemicals. 8370

Biology of brown wheat mite. 8442

Control of Oligonychus pratenis attacking winter wheat in Western Kansas. 8451

Control of Oligonychus pratensis attacking winter wheat in western Kansas. 8452

Effect of seed treatments with Phorate and other systemic insecticides on germination of wheat. 8514

The effect of soil type and moisture on germination and growth from wheat seed treated with phorate. 8515

Quantitative measurements of damage by the greenbug, Toxoptera graminum, to four wheat varieties. 8547

Studies on the relation between silica in wheat plants and resistance to hessian fly attack. 8560

Protective sprays against internal infestations of grain beetles in wheat. 8583

Yields of dryland winter wheat treated with 2,4-d. 8699

Relation of moisture content and temperature of stored grain to the effectiveness of grain fumigants under forced circulation. 8971

The relation of moisture content and temperature of stored grain to the effectiveness of grain fumigants under forced circulation. 8972

The degradation of malathion on stored maize and wheat grains. 8974

Effect of ammonium phosphate and other chemicals on the germination of cotton and wheat seed. 9096

Chloroplast number in leaves of normal wheat plants and those infested with hessian fly or treated with maleic hydrazide. 9109

Physiology of host-parasite relations. XIII. Effect of stem rust on purines in wheat leaves. 9111

Herbicidal compositions. 9159

Recovery of ethylene chlorobromide from agricultural products. 9240

Control of stripe rust, due to Puccinia striiformis, on Omar wheat. 9599

Infection of wheat with Helminthosporium sativum in relation to nitrogen content of the plant tissues. 9601

Wheat streak mosaic virus in North Dakota. 9626

Reactions of wheat varieties and species to cultures of the powdery mildew fungus. 9631

Effect of grasses on Helminthosporium sativum in soil. 9641

Chemical control of wheat rusts in the United Arab Republic. 9674

Effect of stripe rust on yield and its components of six winter wheat varieties. 9710

Wheat and oak diseases in Ohio in 1963. 9788

Propagation of Erisyphe graminis f. sp. tritici on barley and Erisyphe graminis f. sp. hordei on wheat. 9820

Relationship of fungi to fluorescence in wheat. 9865

Modifications of the Cormack and Lebeau technique for inoculating winter wheat with snow mold causing Typhula species. 9868

WHEAT BULB FLY

Chemical control of stripe rust on Omar wheat. 9895

Inhibition of wheat strip rust the antibiotic phleomycin in the greenhouse. 9896

Additions to the host range of dwarf bunt. 9941

Penetration of seeds by acetone solutes. 9967

Systemic action of benzene hexachloride seed dressings. 9976

Genetic variation in the ability of a planthopper vector; Laodelphax striatellus (Fallen) to acquire the rice stripe virus. 10003

Some aspects of the wheat bulb fly problem. 10010

Application of systemic insecticides as seed treatment to protect wheat plants against grasshoppers and wheat stem sawfly. 10025

Resistance of wheat selections to artificial infestations of greenbugs. 10027

Laboratory evaluation of diazinon as a wheat protectant. 10029

Factors affecting the selectivity of 2,3-dichloroallyldiisopropylthiocarbamate (di-allate) against Avena spp. in wheat and barley. 10108

Residues in wheat and wheat products after fumigation with ethylene dibromide. 10286

Effect of the application of soil pesticides on the germination and growth of wheat. 10346

Effect of soil type and moisture on germination and growth of wheat from seed treated with phorate. 10368

A new source of resistance to wheat streak-mosaic virus. 10708

Control of leaf and stem rust of wheat by zineb and inorganic nickel salts. 10754

Effects of infection by Puccinia graminis tritici on the vitamin B6, niacin, and pantothenic acid contents of wheat plants. 10789

The reaction of varieties and hybrid selections of winter wheat to pathogenic races of Tilletia caries and T. foetida. 10803

Survival of stem rust uredicspores on dry foliage of wheat. 10837

Results of regional seed-treatment tests for the control of seed-borne and soil-borne common bunt of winter wheat in the Pacific Northwest, 1959. 10853

Resistance of P1 wheat plants to greenbugs and hessian fly. 10916

Insecticide tests for control of the army cutworm attacking wheat in western Kansas. 10935

Laboratory evaluation of diazinon as a wheat protectant. 10987

Infestation of mites, insects and microorganisms in large wheat bulk after prolonged storage. 11133

Mercury residues in eggs, flesh and livers of hens fed on wheat treated with methylmercury dicyandiamide. 11211

Effect of captan and captan-dieldrin on the germination and yield of wheat. 11371

Effects of calcium pantothenate and other compounds on infection of wheat by stem rust. 11380

Technique for mass inoculations of winter wheat in the field with Cercosporella herpotrichoides. 11719

Correlation of resistance to Typhula idahoensis, T. incarnata, and Fusarium nivale in certain varieties of winter wheat. 11720

Reactions of wheats to flag smut in the Pacific Northwest. 118

Bacteria associated with fluorescent spots in wheat. 118

Sporulation and pathogenicity of Puccinia graminis f. sp. tritici grown on an artificial medium. 118

Migration of grasshoppers from plots sprayed with dieldrin in a Saskatchewan wheat field. 119

Determination of 2,4-D and other chlorinated phenoxy alkyl acids. 122

Effect of plant size on resistance to snowmold of winter wheat. 124

Susceptibility of common and durum spring wheats to barley yellow dwarf virus. 124

The physiology of penetration and infection by uredicspores of rust fungi. 124

A new race of Tilletia caries. 124

Simultaneous control of field foxtail grass, silky bent grass, and broad leafed weeds. 125

Chronic mercurial poisoning in swine. a case report of an outbreak with some epidemiological characteristics of hog cholera. 126

Studies on the effect of airtightness on the development of Tribolium castaneum Herbst (Coleoptera: Tenebrionidae) in wheat and wheat flour. 127

Effect of antagonists on growth and survival of Rhizoctonia solani in soil. 132

Micro-organisms in the root region of wheat. literature review. 132

Effect of Puccinia recondita infection on the RNA composition of wheat leaves. 132

Differential resistance of cell walls of Acer pseudoplatanus, Triticum vulgare, Hordeum vulgare, and Zea mays to polysaccharide-degrading enzymes. 132

Influence of light intensity on the reactions of wheat and barley seedlings to Puccinia striiformis. 132

Host range of larvae of the northern corn rootworm (Coleoptera: Chrysomelidae). 133

Phytotoxicity and wireworm-control efficacy of insecticidal dressings applied to cereal seed up to a year before planting. 133

Genetics of resistance to leaf rust in the common wheat varieties Webster, Loros, Brevit, Carina, Malakof. and Centenario. 133

The effect of wheat bug control chemicals on other wheat pests. 133

Preparations of aflatoxins and determination of their ultraviolet and fluorescent characteristics. 134

Plant growth regulant. biochemical behavior of 2-chloroethyl trimethylammonium chloride in wheat and in rats. 135

Determination of chlorocholine chloride residues in wheat grain, straw, and green wheat foliage. 135

Effect of benzimidazole and kinetin on the nicotinamide nucleotide content of senescing wheat leaves. 136

WHEAT BULB FLY

Some aspects of the wheat bulb fly problem. 1001

WHEAT GERM

The effects on house flies of adding wheat germ and corn oils to fly media. 665

A wheat germ medium for rearing the pink bollworm. 795

Certain factors influencing diapause in the pink bollworm, Pectinophora gossypiella. 797

aboratory rearing of the southwestern borer, Zeadiatraea randiosella, on a wheat germ medium. 10457

he relationship of the fatty acid composition of eliothis zea larvae to that of its diet. 13117

ffects of natural (sorghum) and artificial (wheat germ) iets on development of the corn earworm, fall armyworm, nd southwestern corn borer. 13302

AT GERM OIL
ffects of wheat germ oil on reproductive efficiency in epeat-breeder. 3205

AT STRAW
ffect of the soil carbon' nitrogen ratio on soil fungi. 6778

Y
resence of blood-serum albumin in 'mastitic' milk. 1851

xperimental studies on the occurrence of staphylococcal ntitoxin in the whey of cows. 1904

hey protein patterns of milk from cows with experimentally roduced mastitis. 3418

reventing leaf-roll infection of potatoes by controlling phids. 8383

TE CLOVER
istribution of clover yellow mosaic and white clover mosaic iruses on white clover in the United States. 101

ffects of four temperatures on the pathogenicity of nine pecies of fungi on white clover. 275

ield responses of 12 genetic lines of white clover to nfection by bean yellow mosaic virus and alfalfa mosaic irus. 283

ttraction of Pratylenchus penetrans to plant roots. 478

phid transmision of white clover mosaic virus. 1517

actors influencing survival of red and white clover plants xposed to low temperatures. 2450

ulvitis in Merino ewes. 3009

arietal resistance to clover rot in white lover. 5750

he effect of soil fungi and root-knot nematodes on the rowth of white clover in field bins. 5890

he reaction of Trifolium repens (L.) in grassland to 2,4-, MCPA and mixtures of 2,4-D and MCPB. 5899

eed transmission of white clover mosaic and clover yellow osaic viruses in red clover. 6760

he effect of irrigation and ten species of soil fungi on he growth of white clover in field bins. 9645

he effect of low doses of paraquat and dalapon on two sward ypes based on Lolium perenne L. (perennial ryegrass) and rifolium repens L. (white clover). 10341

ee poisoning versus clover seed weevil control in white utch clover grown for seed. 10954

influence of sprinkler irrigation and four forage crops on populations of soil microorganisms including those antagonistic to Sclerotium rolfsii Sacc. 13222

TE COFFEE BORER
he white coffee borer, Anthores leuconotus, Pasc.,and ts control. 10019

TE GRUBS
iological and ecological observations on Mydas aculiventris Westwood (Diptera: Mydaidae) as a predator f white grubs. 9427

Screening soil insecticides against white grubs. 9441

urther observations on the biology and control of white rubs (Holotrichia sp near Cosanguinea Blanch) in soil, ffecting groundnut in Gujarat. 9540

WHITE MUSCLE DISEASE
Nutritional muscular dystrophy in lambs- importance of the ewe's diet at certain stages of gestation and lactation. 2023

Serum transaminase in the blood of lambs given preventive treatments for white muscle disease. 2049

Blood enzyme interrelationships in white muscle disease. 2230

Prevention of white muscle disease in lambs by oral and subcutaneous administration of selenium. 2231

Relation of selenium, vitamin E and an unidentified factor to muscular dystrophy (stiff-lamb or white-muscle disease) in the lamb. 2864

Muscular dystrophy (white muscle disease) in young calves and suckling buffalo-calves in Egypt. 3232

Nutritional muscular dystrophy in lambs - Selenium analysis of maternal, fetal, and juvenile tissues. 3237

Metastatic calcification associated with white muscle disease in lambs. 4756

Polio-encephalomacia associated with myocardial degeneration in a group of housed sheep experimentally infected with Haemonchus contortus. 6252

White muscle disease, a selenium-responsive myopathy. 7443

A survey of selenium treatment in livestock production. 11093

Effect of selenium on white muscle disease in lambs. 12011

WHITE ROT (ONION)
An improved laboratory assay for testing effectiveness of soil chemicals in preventing white rot of onion. 10824

WHITE ROT (ONIONS)
Recurrence of onion white rot in louisiana. 404

WHITE-PINE SHOOT BORER
White-pine shoot borer (Eucosma gloriola Heinrich). 7002

WHITE-TAILED DEER
Further serologic studies of brucellosis in white-tailed deer of the Southeastern U.S. 6037

WHITESIDE TEST
The modified whiteside test. Recommended procedures for bulk of blended milk deliveries. 5090

WHOLESALE MARKETING
Sales and selling in the agricultural chemicals field. 5416

WILD FLOWERS
Diagnosis of fluorine injury (to plants) I Indicator plants among the wild flora. 8264

WILDFIRE (TOBACCO)
Loss of wildfire resistance in tobacco due to chromosome fragmentation. 1171

Resistance to the wildfire disease in relation to the gene-chromosome set ratio in tobacco. 1513

Free amino acid and amide content of tobacco and oats infected by wildfire and halo blight bacteria. 6851

Field spray trials against wildfire and angular leaf-spot of tobacco in Rhodesia. 8276

Enzyme levels in tobacco leaf tissues affected by the wildfire toxin. 9757

Occurrence of certain plant diseases in Kentucky in 1960. 10796

WILDLIFE
Epidermoid carcinoma of the esophagus of an antelope. 2277

Trichinosis occurs in foxes. 2282

Retrospect. 2851

Face fly poses threat to both livestock and wildlife. 2852

WILDLIFE CONSERVATION

Enzootic ataxia of red deer. 3116

The susceptibility of mule deer to infectious bovine rhinotracheitis. 3132

Pathogenesis of rabies in wildlife, ii. Fluorescent antibody studies. 3383

Anaplasmosis in big game animals: experimental infection and evaluation of serologic tests. 3569

A hookworm problem in a boa constrictor. 3577

Cerebrospinal nematodosis in Pennsylvania groundhogs (Marmota monax). 3624

Lack of authoritative oath clouds pesticide-wildlife picture. 3713

Capture of white (square-lipped) rhinoceros Ceratotherium simum simum (burchell) with the use of drug immobilization technique. 3835

Further studies on the immobilization of deer with succinylcholine. 3836

Observations on ticks (Ixodoidea) of Libya. 3930

Handling and treatment of common exotic mammal pets. 4565

Leptospirosis in cattle and wildlife on a pennsylvania farm. 4678

Bacteriolic and serologic investigations of brucellosis and leptospirosis in illinois deer. 4736

Leptospirosis in cattle may not spread to associated muskrats. 4761

Aleutian disease in the ferret. 4849

Anaplasmosis. VIII. Experimental anaplasma ovis infection white-tailed deer (Dama virginiana). 4871

Leptospirosis in wild animals in eastern Canada with particular attention to the disease in rats. 4918

Clinical jaundice in a dolphin. 4921

The immobilization of captive wild animals with succinylcholine. II. 4989

Serologic tests for Theileria cervi in white-tailed deer and for other species in cattle and sheep. 5040

Isolation of Edwardsiella tarda from a sea lion and two alligators. 5124

Vascular lesions of dirofilaria immitis in the red fox. 5228

Salt poisoning in Wisconsin wildlife. 5341

Mass control of insects: the effects on fish and wildlife. 5696

The effect of bird predators on winter survival of the southwestern and European corn borers in Arkansas. 5883

Modern trends in animal health and husbandry, some infectious diseases of free-living wildlife. 6086

The importance of the Berlese technique in studying ectoparasite populations upon rodent hosts. 6211

A new species of Mallophaga from Malaya. 6212

A new species of Falcomenopon (Mallophaga: menoponidae). 6214

A new species of Colpocephalum (Mallophaga: Menoponidae) from the owl Rhodilus badius. 6215

Dept. of Agriculture announces new pesticides monitoring program. 6266

Effects of an aerial DDT spray on aquatic insects in Connecticut. 7016

Isolation of a virus from a condition simulating feline panleucopaenia in a leopard. 7

Toxic chemicals. 7

Mississippi delta wildlife developing resistance to pesticides. 8

A disease resembling blue tongue occurring in Topi (Damaliscus korrigum ugandae) in the Queen Elizabeth National Park, Uganda. 8

Emphasis on controlling residues adds to importance of reducing drift. 8

Forest spraying projects fail to harm fish or wildlife. 9

Chemical restraint of exotic animals in a disease regulator program. 10

DDT residues in Adelie penguins and a crabeater seal from Antarctica. 12

The effects on wildlife from Norway rat control using zinc phosphide bait. 12

Bluetongue of sheep and cattle: Past, present, and future. 12

Animal sentinels in a statewide arthropod-borne encephalitis surveillance program. 12

Importance of an interdisciplinary approach. in: FAO symposium on integrated pest control, Rome, 1965. proceedings. SB951. F62. 13

The natural history of zoonoses. 13

Comparative toxicity of rodenticides. 13

DDT problem at a glance. 13

WILDLIFE CONSERVATION
Further studies on the immobilization of deer with succinylcholine. 38

Engineers hear debate of pesticide pros and cons. 81

WILDLIFE DISEASES
Apparent natural infection of Corturnix quail hens with the virus of avian encephalomyelitis - case report. 19

The association of white-tailed deer and cattle in Wisconsin. 51

Modern trends in animal health and husbandry, some infectious diseases of free-living wildlife. 60

Wildlife rabies increases. 71

Red squirrel disease. 72

WILDLIFE PESTS
Contact avicides. patent 3,340,142. 135

WILT
Control of verticillium wilt of mint by soil fumigation. 82

Distribution of verticillium albo-atrum and verticillium dahliae in commercial potato-growing regions of Maine. 118

Physiology of wilt disease. in: Mirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gramagori, Japan. sB611.B6. 132

WILT (ALBIZZIA JULIBRISSIN)
Mimosa wilt found along Mississippi coast. 108

Fusarium wilt infection of apparently healthy mimosa trees. 117

WILT (BANANAS)
The interaction of host, pathogen, and soil temperature in relation to susceptibility to Fusarium wilt of bananas. 11

Fusarium wilt of Heliconia and its relation to Panama

...sease of bananas. 417

...ffect of urea applications on survival of Fusarium ...ysporum f. cubense in soil. 1207

...ysiology of symptom induction in Pseudomonas wilt (Moko) ... banana. 11359

...T (BEGONIAS)
...mparative ability of pathogenic and saprophytic Fusaria ... colonize primary lesions. 11816

...T (CARNATIONS)
...actors affecting the invasion of carnations by Fusarium ...ysporum f. dianthi. 392

...T (COFFEE)
... new Fusarium wilt of coffee (Coffea arabica) in South ...dia. 9804

...T (COTTON)
...usarium wilt of cotton in California. 186

...ffects of nitrogen source and rate on the development of ...erticillium wilt of cotton. 345

...nfection relationship between Meloidogyne incognita acrita ...nd Fusarium oxysporum f. vasinfectum in cotton. 921

...revention of symptom development of Fusarium wilt of cot...on by isolates of a Cephalosporium species. 6877

...merican, Egyptian and Indian cotton-wilt Fusaria. 8255

...itrogen supplement as a possible control for Verticillium ...ilt of cotton. 9782

...elative prevalence of Verticillium wilt and Fusarium wilt ...f cotton in the South Plains area of Texas. 10868

...usarium wilt of cotton in the United Arab Republic ...V. Effect of nitrogenous fertilizers. 11812

...ffect of Thielaviopsis basicola root rot of cotton on ...ncidence and severity of Verticillium wilt. 13245

...T (COWPEAS)
...nhibition of Fusarium wilt symptoms in cowpea by species ...f Cephalosporium. 5818

...T (CUMINUM CYMINUM)
...ffect of SMDC on germination, plant growth, and fusarium ...ilt incidence of cumin (Cuminum cyminum). 6805

...T (DIANTHUS CARYOPHYLLUS)
...hytophthora wilt of carnation. 1130

...Verticillium wilt of carnations. 9681

...Nematodes associated with carnations in a survey of commer...cial greenhouses. 11013

...T (FLAX)
...he hydrocyanic acid content of flax in relation to flax ...ilt resistance. 9861

...T (MUSKMELONS)
...Sudden wilt of muskmelon in New York state. 1218

...T (OAK)
...Leaves as a possible source of oak-wilt inoculum. 681

...T (OLIVES)
...Verticillium wilt of olives in California. 440

WILT (PEAS)
Tip wilt of peas. 195

Effects of Meloidogyne spp. and Tylenchorhynchus claytoni on pea wilt incited by Fusarium oxysporium f. pisi race 1. 6732

A nonpathogenic wilt and root rot of peas favored by low light intensity. 10814

WILT (POTATOES)
Cool weather in 1964 in Connecticut favored potato wilt by non-microsclerotial Verticillium. 9938

WILT (QUERCUS)
Longevity of Ceratocystis fagacearum (Bretz) Hunt in the presence of other fungi in the roots of deep-girdled oak wilt trees. 106

Attempts to transmit the oak wilt fungus by soil and root inoculations. 115

Impact of the deep-girdle treatment and associated effects upon the production of fungus mats by naturally infected oak wilt trees. 187

The effect of growth regulators on oak wilt development. 1114

Aircraft in plant disease control. 4265

Ceratocystis fagacearum in roots of infected bur oaks and the recurrence and spread of oak wilt. 6831

Insects associated with wounds on trees that develop oak wilt. 6989

Oak wilt in Arkansas (1950-1963). 9863

Preliminary study of the time and frequency of oak bark beetle attacks on oak wilt trees. 10011

Squirrels as possible vectors of the oak wilt fungus in Iowa. 10749

Studies on the occurrence and distribution of the oak wilt fungus in oak leaves. 10888

Longevity of Ceratocystis fagacearum in roots of deep-girdled oak-wilt trees in West Virginia. 11700

Oak wilt mats on white oak in West Virginia. 11731

Oak wilt distribution extended in Arkansas and Oklahoma. 11742

Effect of inoculum spore load and inoculation site on incubation period and symptom expression in the oak wilt disease. 12290

The importance of insects to the spreading of oak wilt. 13350

WILT (SAFFLOWER)
Wilt-incitant Fusarium oxysporum f. carthami present in seed from infected safflower. 6785

Pathogenicity of Verticillium isolates to safflower. 9894

Response of noncultivated safflower (Carthamus) species to rust and verticillium wilt. 11889

WILT (STRAWBERRIES)
Relationship of meadow nematodes to Verticillium wilt of strawberries. 1007

Verticillium wilt of strawberries made worse by soil fungicides that stimulate meadow nematode populations. 9772

WILT (SWEETPOTATOES)
Anatomical aspects of resistance in sweetpotato to Fusarium wilt. 6956

Maintenance of virulence in stock culture of the sweetpotato wilt Fusarium. 11771

WILT (TEPHROSIA VOGELII)
Phytophthora wilt of Tephrosia vogelii in Puerto Rico. 10862

WILT (TOBACCO)

WILT (TOBACCO)
Histological aspects of the Fusarium wilt-root knot complex in flue-cured tobacco. 11806

Influence of certain Meloidogyne species on Fusarium wilt development in flue-cured tobacco. 11827

WILT (TOMATOES)
An epidemic of verticillium wilt in tomato in the metropolitan area of Washington, D. C. in 1962. 427

Effects of soil amendments on nematodes and subsequent Verticillium wilt. 918

Mitigation of Fusarium wilt symptoms of tomato seedlings by seed inoculation with a species of Cephalosporium. 1012

Semeiology of Fusarium wilt of tomato. 1050

Symptom retardation of Fusarium wilt of tomato seedlings by a Cephalosporium species. 1054

Interaction of Verticillium dahliae and Pratylenchus penetrans in tomato wilt. 1129

Symptoms of Fusarium wilt in relation to quantity of fungus and enzyme activity in tomato stems. 1353

In vivo selection of biotypes of Cephalosporium inhibitory to the development of tomato and cotton Fusarium wilt symptoms. 5753

Semeiography of Fusarium wilt of tomato. 6719

Fusarium wilt (race2) of tomato0 effect of lime and micronutrient soil amendments on disease development. 6775

Prevention of symptom development of Fusarium wilt of cotton by isolates of a Cephalosporium species. 6877

The effect of growth substances on Verticillium wilt of tomato plants. 6909

Chemical soil treatment for control of fusarium infection. 8261

Calcium requirement for growth-regulator-induced resistance to Fusarium wilt of tomato. 8278

An epiphytotic of Pseudomonas solanacearum in tomatoes on newly-cleared Klej sand in relation to potassium, calcium and magnesium levels. 10793

Cross-protection in Fusarium wilt diseases. 11738

The occurrence of acid hydrolyzable phenolics in relation to Fusarium wilt disease in tomato plants. 13283

WILT (WATERMELON)
Physiologic specialization in Fusarium oxysporium f. niveum. 5775

WILT DISEASES (PLANTS)
Populations of Fusarium oxysporum f. melonis in wilt-infested soils. 276

WIND
Wiley bays' downwind turn. 6429

A wind-oriented attractant trap for gnats. 10444

Effect of wind on dispersal of Trichogramma semifumatum. 11489

Low-level jet winds, early cereal aphid and barley yellow dwarf detection in Iowa. 11874

The effect of wind direction on the index of diversity of night flying Lepidoptera in a particular area. 13051

WIND TUNNELS
A low speed wind tunnel for determining the effects of wind on flight activity of insects. 2543

WINDBREAKS
The horizontal and vertical distribution of flying insects near artificial windbreaks. 6462

Control of Cylindrosporium leaf spot disease of Rhus trilobata and Shepherdia argentea seedlings. 6855

Some factors influencing light trap collections. 1[illegible]

The horizontal and vertical distribution of flying insects near artificial windbreaks. 1[illegible]

WINE
Nature, origin and prevention of hydrogen sulphide aroma in vines. 6[illegible]

WING ROT
Gangrenous dermatitis of chickens. 6[illegible]

WINGS (INSECTS)
A note on the pterostigma in insects. [illegible]

A flexible cuticle in the wing bases of Lepidoptera. [illegible]

Some abnormalities in the foxglove aphid in northeastern Maine. 4[illegible]

The effect of wing movement by the green peach aphid on the transmission of lettuce mosaic virus. 4[illegible]

Some new mutants and linkage groups of the house fly. 8[illegible]

Some abnormal variation in the wing venation of Prodenia litura (Fabricius) (Lepidoptera: Noctuidae). 11[illegible]

Changes of the wing pattern in the moths of the genus Zygaena Fabr. (Lepidoptera, Zygaenidae) obtained by intrapupae injections. 13[illegible]

Effect of age on (14c)valine turnover into locust wing proteins. 13[illegible]

Further studies on the effect of X-irradiation on the house fly, Musca domestica L. 13[illegible]

Flight in Drosophila. iII. aerodynamic characteristics of fly wings and wing models. 13[illegible]

WINTER
Ejection of ascospores by Hypoxylon pruinatum during the winter in Minnesota. [illegible]

Association of subzero temperatures, snow cover, and winter mortality of grasshopper eggs in Saskatchewan. 9[illegible]

WINTER DYSENTERY
Isolation of a viral agent from winter dysentery of cattle. 4[illegible]

WINTHEMIA DATANAE
Pupal mortality of the orange-striped oakworm. 11[illegible]

WISCONSIN
Violet root of alfalfa in Wisconsin. [illegible]

Multiplier disease of strawberry in Wisconsin. [illegible]

Lead poisoning of whistling swans in wisconsin. [illegible]

Does the corn leaf blight fungus survive Wisconsin winters. 1[illegible]

Relation of seed- and soil-borne inoculum to epidemiology of angular leaf spot of cucumber in wisconsin. 1[illegible]

Ecology of the immature stages of some Wisconsin black flies (Simuliidae: Diptera). 3[illegible]

Clinical coccidiosis in wisconsin cattle. 5[illegible]

Salt poisoning in Wisconsin wildlife. 5[illegible]

A note on Ancistrocerus tigris in trapnests in Wisconsin (Hymenoptera: Vespidae). 5[illegible]

Purification, morphology, and biochemical characterization of the Wisconsin pea streak virus. 6[illegible]

The biology of the pine webworm, Tetralopha robustella, in Wisconsin. 7[illegible]

Wisconsin eradicates brucellosis. 7[illegible]

Biology of Isodontia (Murrayella) mexicana in trap-nests in Wisconsin (Hymenoptera' Sphecidae). 7[illegible]

ıoptic weather conditions associated with long-range move-
ıt of the potato leafhopper, Empoasca fabae, into Wis-
ısin. 7882

:terial blight of Wisconsin canning peas in 1963. 9937

:terial brown spot of bean in central Wisconsin. 9942

'sociation of nematodes with corn in Wisconsin. 10075

ıdies on root rots of red clover in wisconsin. 10758

rthern leaf blight of corn in Wisconsin in 1964. 10782

sidual effectiveness of endrin as a soil insecticide for
ntrol of the apple maggot in Wisconsin. 11203

LES
uine incoordinatıcn. I. Gross morphology. 5027

FANNIA
ıan myiasis in North America. 4198

od-based culture media for Armillaria mellea. 783

od extractive content and Fomes pini infection of eastern
ite pine. 5777

T is shown to persist in wood. 9000

eference for wood of different degrees of dampness in some
rmites from Cuba (Isoptera). 13497

BORERS
eventive measures for the protection of wood against
lctrupes bajulus. 12354

tbreaks and new records: United States. oriental wood
rer, a new record. 12789

DECAY
pact of the deep-girdle treatment and associated effects
on the production of fungus mats by naturally infected oak
lt trees. 187

cay of wood by species of the xylariaceae. 701

te affects rate of decay in cherrybark oak. 1429

sistance of extrative-free coniferous woods to decay by
ite-rot fungi. 1593

anges in degree of polymerization of holocellulose during
cay of sweetgum sapwood by white- and brown-rot fungi.
2512

cteria isolated from decays and discolorations in northern
rdwoods. 9653

sistance of coniferous root wood and stem wood to decay by
mes annosus. 9656

ıe pattern of decays and discolorations in Northern
rdwoods. 9890

cay of wood by dikaryotic, monokaryotic, and illegitimate
eterocaryctic isolates of Trametes hispida. 9958

ıe pattern of decays and discolorations in northern hard-
oods. 10869

ite of decay in Pinus strobus following artificial inocu-
ıtion with Fomes pini. 12462

) DESTROYING FUNGI
ıoculation of bottom-land red oaks with Poria ambigua,
olyporus fissilis, and Polyporus hispidus. 407

hytophthora cinnamomi associated with Lawson cypress mor-
ality in Louisiana. 1408

ite affects rate of decay in cherrybark oak. 1429

ungi associated with the discolorations around root columns
aused by Fomes igniarius. 1437

rtificial infection of small spruce roots with Polyporus
omentosus. 1574

A rapid cultural test for relative cellulolytic activity of
fungi. 2507

Detection, identification and control of Poria carbonica
and other fungi in Douglas fir poles. 6259

Trichlorobenzene as a soil toxicant against four wood-decay-
ing soil fungi. 6735

The microbial hydrolysis of cellulose and some factors af-
fecting the production of cellulase in a submerged culture
of Alternaria sp. 7718

WOOD DURABILITY
Resistance of extrative-free coniferous woods to decay by
white-rot fungi. 1593

WOOD STAINING FUNGI
Factors affecting pigmentation by two wood-inhabiting fungi.
1412

WOOD SUGAR
Nutritional and biochemical aspects of arabinose and xylose
for chicks. 7539

WOODINESS (GRANADILLA)
Two unrelated viruses which cause woodiness disease of
passion fruit (Passiflora edulis). 6937

WOODPECKERS
The effect of woodpecker predatıcn on wood-boring larvae
of families Siricidae (Hymenoptera) and Melandryidae
(Coleoptera). 9528

Predatory and energetic relations of woodpeckers to the
Engelmann spruce beetle. SB996 .W6K6. 13342

WOODY GALL (CITRUS)
Further studies on the woody gall virus disease of citrus.
1071

Induction of woody galls by wounding of citrus infected with
vein-enation virus. 10898

WORKMEN'S COMPENSATION INSURANCE
CAAA safety record earns refund check. 6418

WORLD AGRICULTURAL SITUATION
Symposium on plant disease losses. 1184

Plant disease losses as they occur worldwide. 1228

The world distribution of Newcastle disease - 1961. 3096

The world pesticide market. 3846

WOUND TUMOR VIRUS
Reexamination of the serological relationship between wound
tumor virus and reovirus. 9690

WOUND-TUMOR
Similarities between wound-tumor virus and the human-
pathogenic reoviruses. 6932

WOUND-TUMOR VIRUS
Electron microscopic evidence for wound-tumor virus
accumulation in varicus organs of an inefficient leafhopper
vector, Agalliopsis novella. 9492

WYOMING
Systemics for control of the clearwinged cottonwood leaf
aphid in southeast Wyoming. 471

Control of anaplasmosis under Wyoming conditions. 2276

X-DISEASE (CHERRIES)
X-disease of chokecherry, Prunus virginiana, in New
Brunswick, Canada. 9667

X-DISEASE VIRUS
Seasonal history and rearing of Scaphytopius acutus (Say)
(Homoptera: Cicadellidae). 3963

X-RAY DIFFRACTION
Calcinosis circumscripta. A case report with X-ray
diffraction studies. 3173

X-RAY MICROSCOPES

X-RAY MICROSCOPES
X-Ray microscope to study behavior of internal-infesting grain insects. 9270

X-RAYS
The treatment of mastocytomas in dogs. 4910

Blood eosinophil response of calves to normal and irradiated larvae of Dictyocaulus viviparus. 52

A comparison by means of X-irradiation in air and in oxygen of the suppressor-erupt systems in several strains of Drosophila melanogaster. 5681

Killing Texas screw worms from the air. 6207

Some effects of X-radiation on larvae of Galleria mellonella. 6541

Effects of X-rays, tryptophan metabolites, and eye color mutants on the tumor-suppressor system in Drosophila melanogaster. 6668

Adult emergence of the house fly, Musca domestica, from X-irradiated pupae. 8095

Adult longevity as a sensitive criterion of radiation-induced damage when 24-hour Habrobracon (Hymenoptera) embryos are x-rayed. 8148

Meiotic X-Y exchange and nondisjunction induced by x-rays in primary spermatocytes of male Drosophila melanogaster. 8161

Radiologic findings in equine choke. 8729

Some aspects of the mode of action of Bacillus thuringiensis Berliner in Earias fabia (Stoll.) (Lepidoptera0 Arctiidae). 9546

Detection of phytophagous chalcidoids in seeds for quarantine purposes. 9963

Effect of x-ray exposure on the european corn borer. 10669

e-59 and CR-51 studies of the effect of partial-body X-irradiation on Erythropoiesis in beagles. 12685

The effect of dose rate on the acute radiation Syndrome in the beagle, with special consideration for the hematopoietic system. 12735

Further studies on the effect of X-irradiation on the house fly, Musca domestica L. 13114

Kinetic organization of Lepidoptera chromosomes. 13144

Ontogeny and comparative radiation sensitivity in the confused flour beetle and strains of the red flour beetle. 13494

XANTHOMONAS VESICATORIA
An evaluation of Solanum nigrum and Physalis minima as suscepts of Xanthomonas vesicatoria. 6792

XANTHAMONAS
Comparative bactericidal properties of N-polyhaloethylthio hydantoins. 7737

XANTHINE
Identification of xanthine in excreta of the greater wax moth, Galleria mellonella (L.). 2647

A comparison of methods for quantitative estimation of hypoxanthine, xanthine, and uric acid in insect material. 4119

Influence of kinetic factors on renal xanthine dehydrogenase activity in chicken tissue. 11988

XANTHINE DEHYDROGENASE
Evolution of xanthide dehydrogerase in Drosophila. 13036

The wild type phenocopy of the rosy mutant of Drosophila melanogaster and its relation to xanthine dehydrogenase activity. 13120

XANTHINE OXIDASE
Relationship between protein content of diets and xanthine oxidase activity in the silkworm, Bombyx mori L. 10

XANTHIUM
Physiological and metabolic changes induced by lethal concentrations of 2,4-D in the cocklebur (Xanthium spp.). 7

Host-plant selection by migrating boll weevils. 10

XANTHIUM PUNGENS
The entomological control of weeds in Australia. 5

XANTHOMATOSIS
Histopathologic changes in xanthomatosis in chickens. 4

Observations of xanthomatosis in chickens. 6

Xanthomatosis in laying hens - a case report. 7

Observations of xanthomatotis in chickens. 10

XANTHOMONAS
Effect of selected fungicides and antibiotics on Xanthomonas malvacearum in vitro. 5

Internally infected seed as a source of inoculum for the primary cycle of bacterial blight of cotton. 6

Inheritance of resistance in pepper to bacterial spot. 67

Multiplication of Xanthomonas vesicatoria on tomato seedlings. 67

Survival of Xanthomonas vesicatoria in soil and diseased tomato plants. 68

Common antigens in Xanthomonas malvacearum and Gossypium hirsutum and their possible relationship to host specificity and disease resistance. 68

Three diseases of guar. 69

Control of bacterial spot caused by Xanthomonas pruni, of peach. 82

Disinfectant treatments for freshly-harvested pepper seeds. 82

The effect of nonbactericidal and bactericidal chemicals on Xanthomonas vesicatoria. 96

The aluminum-cap method for testing sugarcane varieties against leaf scald disease. 97

Comparison of fixed copper and dodine sprays with various additives for control of bacterial spot, Xanthomonas vesicatoria, of pepper fruit. 97

Effect of fungicides and antibiotics on Xanthomonas malvacearum. 98

Comparisons of three serological procedures for identifying Xanthomonas vesicatoria in pepper leaves. 99

Linkage studies on the resistance to bacterial leaf blight, Xanthomonas oryzae (Uyeda et Ishiyama) Dowson, in rice. 132

XANTHOMONAS ALBILINEANS
Preservation of Xanthomonas albilineans isolates in distelled water. 97

XANTHOMONAS FRAGARIAE
Angular leaf spot of strawberry caused by Xanthomonas fragariae sp. nov. 152

XANTHOMONAS MALVACEARUM
A variant culture of Xanthomonas malvacearum obtained from weed roots. 127

In vitro nutrition of Xanthomonas malvacearum. 244

XANTHOMONAS PELARGONII
Whitefly transmission of Xanthomonas pelargonii and histological examination of leafspots of Pelargonium hortorum. 152

X THOMONAS VESICATORIA
anthomonas vesicatoria, a resident on tomato. 489

he effect of high nitrogen fertilizer on the control of acterial leafspot of peppers caused by Xanthomonas esicatoria and the yields of marketable fruit. 1255

erological differences between apparently typical pepper nd tomato isolates of Xanthomonas vesicatoria. 9787

X OCHAETA
he types of North American Tephritidae in the Snow useum, the University of Kansas (Diptera). 3915

X OCOELIDIA
ew neotropical Neccoelidiinae with keys to the species f Coelidiana, Xenocoelidia, and Nelidina (Homoptera: icadellidae). 12963

X OPSYLLA
omparative suitability of the four murine rodents of awaii as hosts for Xenopsylla vexabilis and X. cheopis siphonaptera). 5482

he thoracic musculature of the Indian rat flea, Xenopsylla cheopis (Siphonaptera). 9341

X OPENS
ife history and biological control of Caligo eurilochus, pest of bananas. 4383

horesy in Xenufens (Hymenoptera:Trichogrammatidae), a arasite of Caligo eurilochus (Lepidoptera: nymphalidae). 5176

PHINEMA
adang-Cadang disease of coconuts in Guam may be caused by soil-borne plant virus spread by dagger nematodes (xiphinema sp.). 347

ffect of soil moisture on Xiphinema americanum in absence f host plants. 5889

elationships of viruses associated with ringspot diseases f blueberry. 6798

iphinema index in vineyard soils in Mendoza, Argentine. 9800

iphinema americanum populations and alfalfa yields as ffected by soil treatment, spraying, and cutting. 10054

ffects of cropping on population levels of Xiphinema americanum and Criconemoides xenoplax. 10076

ome temperature reactions of Xiphinema americanum and mplications to virus transmission. 10077

PHINEMA AMERICANUM
ransmission of tobacco ringspot virus by Xiphinema americanum. 184

iphinema americanum as a vector of necrotic ringspot virus f blueberry. 193

bacterial infection of Xiphenema americanum. 7082

ual transmission of tobacco ringspot virus and tomato ingspot virus by Xiphinema americanum. 13383

PHINEMA BASIRI
Studies on two plant nematode species of the genus Xiphinema Cobb, 1913. 7095

PHINEMA INDICUM
Studies on two plant nematode species of the genus Xiphinema Cobb, 1913. 7095

ELIDAE
Notes on the taxonomy of the fossil Xyelidae (Hymenoptera: Symphyta. 5443

LANS
A xylanase system produced by Diplodia viticola. 2472

LARIACEAE
Decay of wood by species of the xylariaceae. 701

XYLEBORUS FERRUGINEUS
Diurnal emergence of Xyleborus ferrugineus (Coleoptera, Scolytidae) from cacao trunks in Ecuador and Costa Rica. 7057

XYLEM
Similarity of movement of N-alkyl quaternary ammonium compounds in aqueous systems on paper chromatograms and in plant xylem. 2447

Physiology of wilt disease. in: Hirocha, C. j., and Uritani, I., ed. the dynamic role of molecular constituents in plant-parasite interaction. proceedings, conference held May 15-21, 1966, Gramagori, Japan. sB611.B6. 13225

XYLENE
Aromatic solvents for pesticides. 5384

XYLOCELIA
Notes on the biology of Philanthus bicinctus (Hymenoptera: Sphecidae). 5843

XYLOCOPA
A New-World species of bamboo-nesting carpenter bees belonging to the genus xylocopa Latreille (Hymenoptera: Apoidea). 3933

Some notes on sapygid parasitism in the nests of carpenter bees belonging to the genus Xylocopa latreille (Hymenoptera: Aculeatea). 4073

Beefly parasitism of the American carpenter bees belonging to the genus Xylocopa Latrielle (Diptera Hymenoptera). 5496

Notes on the behavior of four subspecies of the carpenter bee, Xylocopa (Notoxylocopa) tabaniformis, in Mexico. 8030

XYLOPOROSIS (CITRUS)
A quick field test for xyloporosis virus. 10864

XYLOPOROSIS (ORANGES)
On the problem of xyloporosis and cachexia diseases of mandarins. 10857

XYLOTRECHUS COLONUS
Descriptions of immature forms and biology of Xylotrechus colonus (Fab.) (Coleoptera: Cerambycidae). 872

YAMS
Control of root-knot nematodes in Dioscorea tubers. 477

YEAST CULTURES
Effect of fungicides on permeability of yeast cells to the pyruvate ion. 2485

YEAST-SPOT DISEASE
Organism of yeast-spot disease isolated from rice damaged by rice stink bug. 154

YEASTS
Uptake of cycloheximide by a sensitive and a resistant yeast. 2486

Antimicrobial activity of organogermanium derivatives. 9812

Thiophosgene split from captan by yeast. 10312

YELLOW BUD MOSAIC (PEACHES)
Relationship between tomato ringspot and peach yellow bud mosaic viruses. 1337

YELLOW DWARF (BARLEY)
The degree of vector-specificity found in the barley yellow dwarf virus in Washington, a reexamination. 128

Effects of population levels of three aphid species on barley yellow dwarf transmission. 398

Control of barley yellow dwarf in winter oats by a systemic insecticide. 1335

Hill technique for evaluating the resistance of cereals to barley yellow dwarf virus. 1374

Latent periods in the aphid transmission of barley yellow dwarf virus. 1411

Survival and yield of winter cereals affected by yellow dwarf. 1485

YELLOW DWARF (ONIONS)

Re-examination of vector-specificity in the barley yellow dwarf virus in Washington. 1587

Listening post. Aphid control in relation to spread of barley yellow dwarf. 2844

Effects of barley yellow dwarf virus on yield of oats as influenced by variety, virus strain, and developmental stage of plants at inoculation. 6744

Greenbug dispersal and distribution of barley yellow dwarf virus in Wisconsin. 6812

Fat body morphology of english grain aphids infected with barley yellow dwarf virus. 7896

Degree of resistance to barley yellow dwarf in selected Ethiopian barleys. 9662

Importance of the greenbug, Toxoptera graminum, in field transmission of barley yellow dwarf virus. 9670

Absence of aphid species specificity for acquisition and transmission of a strain of barley yellow dwarf virus. 9729

Low-level jet winds, early cereal aphid and barley yellow dwarf detection in Iowa. 11874

Susceptibility of common and durum spring wheats to barley yellow dwarf virus. 12428

Predominating strains of barley yellow dwarf virus in New York: changes during ten years. 12457

Some aspects of the barley yellow dwarf virus disease in Manitoba. 13232

YELLOW DWARF (ONIONS)
Occurrence of onion yellow dwarf virus in seed and set-grown onions and in onion seed fields in New York. 11798

YELLOW DWARF (POTATOES)
Effect of age of vector and of abdomen punctures on virus transmission. 6910

YELLOW DWARF (WHEAT)
Control of barley yellow dwarf in winter oats by a systemic insecticide. 10004

YELLOW EDGE (STRAWBERRIES)
Elimination of yellow edge, crinkle and veinbanding viruses and certain other virus complexes from strawberries by excision and culturing of apical meristems. 286

Obtaining virus-free strawberries by excision and culturing of apical meristems of plants infected with the yellow edge, crinkle, and veinbanding viruses and certain other virus complexes. 1105

YELLOW FAT
Antioxidants and other additives for improving alaska fish waste for mink feed. 2915

YELLOW FEVER
Aedes aegypti and yellow fever. 13187

YELLOW JESSAMINE
Some effects of feeding Gelsemium sempervirens (yellow jessamine) to young chickens and turkeys. 6193

YELLOW MOSAIC (BEANS)
Susceptibility of perfection-type peas to bean yellow mosaic virus. 175

Yield responses of 12 genetic lines of white clover to infection by bean yellow mosaic virus and alfalfa mosaic virus. 283

Factors determining the rate of bean yellow mosaic virus transmission by the aphid Myzus persicae. 977

Aphid-virus relationships in the transmission of bean yellow mosaic virus by Myzus persicae. 4163

Breakdown of mo mo resistance in Pisum sativum by thermal selection within certain strains of the bean yellow mosaic virus (EV2). 6859

Loss of transmissibility by aphids of bean yellow mosaic virus. 7918

Nuclear inclusions produced by bean yellow mosaic virus as indicators of cross protection. 9

YELLOW MOSAIC (CLOVER)
Distribution of clover yellow mosaic and white clover mosai viruses on white clover in the United States.

Seed transmission of white clover mosaic and clover yellow mosaic viruses in red clover. 6

YELLOW MOSAIC (TURNIPS)
A dependable local lesion assay for turnip yellow mosaic virus. 1

A dependable local lesion assay for turnip yellow mosaic virus (TYMV). 1

YELLOW MOSAIC VIRUS
Aphid-virus relationships in the transmission of bean yellow mosaic virus by Myzus persicae. 41

YELLOW SPOT DISEASE
Influence of environmental conditions on the development of yellow spot disease in cress (Nasturtium officinale, R. BR). 98

YELLOW SPOTTING (LETTUCE)
An apparent strain of tobacco rattle virus associated with a yellow spotting of lettuce. 67

YELLOW STAR THISTLE
Nigropallidal encephalomalacia in the horse. 73

YELLOW VEIN (CUCUMBERS)
Dual transmission of tobacco ringspot virus and tomato ringspot virus by Xiphinema americanum. 133

YELLOW VEIN (GRAPES)
Purification and serology of a virus associated with the grape yellow vein disease. 10

Etiology of the grapevine yellow vein disease. 117

YELLOWS (BEETS)
Natural occurrence of beet western and malva yellows viruses on flax. 16

Sugar beet yellows disease in the U. S. 955

Control of sugar beet yellows by treatment with systemic insecticides. 973

YELLOWS (CELERY)
Listening post. Control of fusarium yellows of celery by soil fumigation. 273

YELLOWS (CHERRIES)
Evidence for tree-to-tree transmission of sour cherry yellows virus by pollen. 18

Effect of ringspot, yellows, and rootstock on the macronutrient element composition of leaves and on growth of sour cherry. 23

Influence of gibberellin on bud differentiation of sour cherry and on damage by sour cherry yellows. 121

Variability in rates of movement of different strains of the virus responsible for prune dwarf. 681

Longevity of sour cherry yellow virus in infected cherry seeds. 978

YELLOWS (LETTUCE)
Systemic insecticides for six-spotted leafhopper control and reduction of incidence of lettuce yellows. 4430

YELLOWS (MANGEL-WURZEL)
Yellow viruses in sugar beet and mangold seed crops. 8374

YELLOWS (POTATOES)
The identity and host relations of the potato late-breaking virus. 10856

YELLOWS (RADISH)
Seasonal variation in incidence of radish yellows and effect of crop rotation on plant survival and yield. 447

YELLOWS (SPINACH)
Aphid-transmitted yellows-type spinach virus in the Eastern United States. 10892

YELLOWS (SUGAR BEETS)
Sequential plans for sampling aphids on sugar beets in Kern County, Calif. 4427

Aphid control trials on sugar beets and virus yellows disease in Kern county, California. 4428

Yellow viruses in sugar beet and mangold seed crops. 8374

Beet pseudo-yellows virus, transmitted by the greenhouse whitefly (Trialeurodes vaporariorum). 9899

Aphid-transmitted yellows-type spinach virus in the Eastern United States. 10892

YOGURT
Testing milk for antibiotic residues. 9010

YOLK SAC
Chick mortality and the contamination of yolks by members of the enterobacteriaceae. 2108

YOSEMITE NATIONAL PARK
Lodgepole needle miner parasites: biological control and insecticides. 4429

ZADOESMUS
The behavior of millipeds found with Neotropical army ants. 11639

ZAMBOSIA
Review and preliminary diagnosis of some Pamphagidae and Acrididae from Iran (Orth. acridoidea). 12946

ZEA DIATRAEA
A technique for terminating diapause of Southwestern corn borer larvae. 4173

Sorghum as a host of the southwestern corn borer. 4333

The effect of bird predators on winter survival of the Southwestern and European corn borers in Arkansas. 5883

Fall insect problems are localized. 8462

Control of the south-western maize borer. 8660

Known distribution of the southwestern corn borer in the U.S. 10484

ZEA DIATRAEA GRANDIOSELLA
Effects of natural (sorghum) and artificial (wheat germ) diets on development of the corn earworm, fall armyworm, and southwestern corn borer. 13302

ZEBU CATTLE
The seasonal variations of Strongyle infestations in Nigerian Zebu cattle. 1969

The effects of hormone implantations on the growth rates of European, Zebu and hybird beef steers grazing in Jamaica. 3340

Further observations on helminthiasis in Nigerian zebu cattle: Natural and acquired resistance. 3610

Observations on the dry season strongyle infestations of Zebu cattle in Northern Nigeria. 3612

Further observations on helminthiasis in Nigerian zebu cattle: The serological response. 5030

Prophylaxis against trypanosomiasis in Zebu cattle. IV. A field trial of metamidium and Isometamidium. 7482

The occurrence of Raillietia auris in Zebu cattle in Nigeria. 7609

The anthelmintic efficiency of Baloxon against the adult and immature stages of the gastro-intestinal strongyles of Nigerian Zebu cattle. 7614

Prophylaxis against trypanosomiasis in Zebu cattle. III. Potentiation trials and a trial of B.D. 2902 in an area of medium trypanosome risk. 7630

ZECTRAN
Effect of zectran, sevin, and other new carbamate insecticides upon insect populations found on vegetable and field crops in southern california. 74

Effect of various adjuvants on systemic insecticidal activity of phorate and Zectran. 8528

Systemic insecticides for cattle grub control. 10252

Carbamate insecticides: comparative insect toxicity of Sevin, Zectran, and other new materials. 11275

Identification of metabolites of zectran insecticide in dog urine. 11429

Insecticide sprays for control of insects on various vegetable crops. 11932

ZEISEL DETERMINATION
Gas chromatographic determination of organophosphorus insecticides using Zeisel alkoxyl reaction. 9218

ZERCONOPSIS
Four new Sejus, a new Zerconopsis, and a new Hyattella from the United States (Acarina: Blattisocidae). 11471

ZINC
Interrelationships between calcium, zinc, iron, and copper in swine feeding. 2882

High level copper for growing-finishing swine. 2919

Sulfanilamide effect on carbonic anhydrase, absorption and elimination of zinc-65, calcium-45 and copper-64 in sheep. 2929

Zinc deficiency in young lambs. 3123

Calf responses to starters of varying zinc contents. 3450

Effects of phytic acid on zinc availability and parakeratosis in swine. 3495

Zinc metabolism and the zinc-deficiency syndrome in the dog. 5023

Variation in zinc content and other properties of various porcine muscles. 6254

Metals, other elements, and residues in foods. 6304

Influence of dietary zinc, calcium and vitamin D for hens on zinc content of tissues and eggs and on bone composition. 7137

Zinc availability in the chick as affected by phytate, calcium and ethylenediaminetetraacetate. 7139

Depletion and accumulation of trace elements in irrigated soils. 8229

Relation of severity of maize leaf blight, due to Helminthosporium turcicum, with genetically controlled nutrient element content. 9857

Control of cytochrome c synthesis by zinc ions in Ustilago sphaerogena. 10319

Water analysis. 10404

Egg production of the two spotted spider mite on bean plants supplied nutrient solutions containing various concentrations of iron, manganese, zinc, and cobalt. 10544

Sclerotinia dollar spot on bentgrass varietal susceptibility to infection and influence of variety on fungicide effectiveness. 11730

Some observations on zinc deficiency in chickens. 12044

Effect of cecal coccidiosis caused by Eimeria tenella upon zinc absorption. 12047

Zinc deficiency in reproducing gilts fed a diet high in calcium and its effect on tissue zinc and blood serum alkaline phosphatase. 12628

Influence of copper and zinc on the incidence of potato scab. 13217

ZINC BACITRACIN

ZINC BACITRACIN
Consequences of the addition of zinc bacitracin to early weaning pigs. 2879

Value of supplemental lysine, methionine, methionine analog, and trace minerals on high urea fattening rations for beef steers. 2902

The influence of antibiotics on the hemagglutination inhibition antibody titers of chickens with chronic respiratory disease. 3216

Characteristics of a late-developing type of scours in pre-weaning pigs and response to certain therapeutics. 3282

Zinc bacitracin and chick growth. 7274

ZINC CHROMATE
Control of bacterial spot caused by Xanthomonas pruni, of peach. 8281

ZINC PHOSPHIDE
The effects on wildlife from Norway rat control using zinc phosphide bait. 12555

ZINC SALTS
Control of algae on fine-leaf turfgrasses with a coordination product of zinc ion and maneb. 9960

ZINC SULFATE
Killing salmonella on eggshells with disinfectants. 4624

Fusarium wilt (race2) of tomato0 effect of lime and micronutrient soil amendments on disease development. 6775

ZINC SULPHATE
The activity of dipping fluids in the treatment and prevention of mycotic dermatitis in sheep. 6071

ZINEB
A rapid method for the determination of copper in biological tissues by means of zinc dibenzyldithiocarbamate. 2532

Listening post. Fungicides for control of southwestern rust of cotton. 2699

Listening post. Effectiveness of fungicides for controlling pecan scab. 2735

Tolerance of sheep to the organic-zinc fungicide zineb. 3380

Combination acaricide-insecticide-fungicide sprays on outdoor roses. 4224

Control of black rot on grapes. 4251

The effect of acaricide-fungicide combination sprays on two-spotted spider mite populations, blackspot control,and winter injury to roses. 4355

Control of spider mites and black spot on roses with acaracide-fungicide sprays and dusts. 4356

Spray programs to control citrus rust mite in Florida. 4368

Spectrophotometric determination of dithiocarbamate residues on food crops. 5308

The effect of copper compounds on control of citrus rust mite with zineb. 7022

Dedicated pest control means quality cigar wrappers. 8194

Hawthorne leaf blight. 8316

Chemicals for plant disease control. 8341

Chemicals for plant disease control. 8342

New brochure discusses aerial spraying of fungicides. 8381

Control of spider mites and black spot on roses with acaricide-fungicide sprays and dusts. 8494

Paper chromatography of ferbam, maneb, nabam, thiram, zineb and ziram. 9229

Analysis of dithiocarbamates and thiuram disulphides used in agriculture. I. Collaborative study of macro-methods available for the evaluation of technical and formulated products. 9[illegible]

Field experience on some new miticides during the past twelve months on citrus in Florida. 9[illegible]

Chemical control of Puccinia pittieriana on potatoes in Ecuador. 9[illegible]

Field control with zineb and some other compounds for the control of rust mites on citrus in Florida. 9[illegible]

Iris leaf spot control. 10[illegible]

Control of leaf and stem rust of wheat by zineb and inorganic nickel salts. 10[illegible]

Use of hill plots in the evaluation of fungicides for control of oat crown rust. 11[illegible]

Fungistatic effect of certain chemicals on hyphal growth of Phymatotrichum omnivorum, the cotton root-rot fungus. 11[illegible]

Dithiocarbamates. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 12[illegible]

ZINGIBER OFFICINALE
Larvae of the Micropezidae (Diptera), including two species that bore in ginger roots. 8[illegible]

ZINOPHOS
Nematode control in cranberry. 1[illegible]

Activity of some insecticides against the garden symphylan, Scutigerella immaculata. 8[illegible]

Use of systemic insecticides as seed treatments to control cowpea aphids on black locust seedlings. 85

Effects of oo-diethyl o-2-pyrazinyl phosphorothioate (zinophos) on nematode populations. 86

The effects of Zinophos on nematode populations and cranberry yields. 100

Green peach aphid control on tobacco with systemic insecticide. 109

Control of the garden symphylan, Scutigerella immaculata, in mint. 109

Elimination of root-knot nematodes from plants by chemical bake-root dips or soil drenches. 119

ZIRAM
Spectrophotometric determination of dithiocarbamate residues on food crops. 53

Coryneum blight of peach. 82

Paper chromatography of ferbam, maneb, nabam, thiram, zineb and ziram. 92

Dithiocarbamates. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. iii. fungicides, nematocides and soil fumigants, rodenticides, and food and feed additives. 395 Z9. 121

ZOALENE
Zoalene toxicity in broiler chickens. 5[illegible]

A 3,800 bird trial of a new coccidiostats. 18[illegible]

The immunogenicity of a commercial coccidiosis vaccine in conjunction with Trithiadol and Zoalene. 21[illegible]

Efficacy of several coccidiostatic drugs for the control of coccidiosis in chickens and turkeys. 29[illegible]

Trials of candidate bovine coccidiostats. 52[illegible]

Zoalene; a new anti-coccidial for chicken. 1022

Untersuchungen uber die Vertraglichkeit der Coccidiostatica Amprolium und Zoalen.(Investigations on the tolerance of coccidiostats amprolium and zoalene.). 1281

CERUS
servations on aggregation, migration, and feeding habits Zonocerus variegatus in Ghana (Orthoptera'Acrididae). 7841

SEMA
e genus Trypeta Meigen in America north of Mexico iptera, Tephritidae). 11481

ANIMALS
lordiazepoxide for calming zoo animals. 4558

ZOOGRAPHY
inciples and methods of zoogeography: the field approach. 799

scriptions of one known and four new species of aphids or Canada (Homoptera: Aphididae). 2738

noctonus crepidis (Haliday) (Hymenoptera: Aphidiidae) aphid parasite new to North America). 2741

new species of Eucordylea from spruce (Lepidoptera: elechiidae). 2742

e life history and dispersal of the Bruce spanworm, erophtera bruceata (Hulst), Lepidoptera: ometridae). 2743

esults of the Royal Society Expedition to southern ile, 1958-1959: Lygaeidae (Hemiptera), with the escription of a new subfamily. 2746

review of the genus Omalus Panzer in North America ymenoptera, Chrysididae). 3881

light distances of Drosophila determined with radioactive hosphorus. 4012

iology and immature stages of Atrichomelina pubera (Dip- era: Scioryzidae). 4049

ogeography and evolution of Pacific insects (a review of ae entomological program at the Bernice P. Bishop useum). 5481

ew species and new records of Pygostenini from Liberta. vory Coast, and Cameroun (Coleoptera: Staphylinidae). 5501

iology of Hippelates pallipes and H. bishoppi _Diptera0 hloropidae) in Wisconsin. 5625

carina associated with Michigan Bombinae. I-II. 6458

leas (Siphonaptera) of Alabama and their host relation- hip. 6467

apanese species having been recorded as Tettigonia lbomarginata (Heniptera: Cicadellidae). 11499

he ticks (Argasidae and Ixodidae) of Turkey. 11524

utogeny in Culiccides waringi Lee and Reye and ulicoides mackerrasi Lee and Reye (Diptera: eratopogonidae) from Australia with notes on breeding laces and behaviour. 11580

ontributions to the bionomics of the pyramidal fruitworm, mphipyra pyramidcides. 11640

rogoderma species found in California; distribution, elative abundance, and food habits. 11649

he horizontal and vertical distribution of flying insects ear artificial windbreaks. 12301

ionomics and zoogeography of tiger beetles of saline abitats in the central United States (Coleoptera: icindelidae). 12307

istribution of phony peach vectors in South Carolina. 12495

limate and potential range of distribution of stored- roduct mites in Japan. 12788

ata concerning the Hungarian dragonfly fauna (Odonata). 12934

ntomology of Antarctica. qL491.G7. 12952

Notes on the systematics and distribution of some Tribolium species (Coleoptera: Tenebrionidae). 12953

Further records of New Jersey aphids (Homoptera: Aphididae). 12968

The fleas (Siphonapyera) of Egypt. an illustrated and annotated key. 12969

Apterous aphids in water, wind, and suction traps. 12972

The distribution, density and seasonal prevalence of Aedes aegypti in West Africa. 12992

Records of the orthopteroid insects in Ontario. 12994

The European pine shoot moth, Rhyacionia buoliana (Lepidoptera: Olethreutidae), another introduced forest pest. 13332

ZOOLOGICAL GARDENS
Incidence and treatment of parasites in a zoological garden. 2296

Sixth international symposium on diseases of zoo animals. 7158

Fourth international symposium on diseases of zoo animals. 8725

Distemper outbreak in a zoo. 13447

ZOONOSES
Small animals and the zoonoses in veterinary preventive medicine. 3170

Public health and poultry products. 3243

How meat inspection can assist in disease control and eradication. 4832

Major zoonoses of primates. 4904

Serologic surveys for selected zoonoses in Ohio veterinarians. 5042

Animal viruses and their relationship to diseases in man. 6066

The zoonosis problem in Chile. 7522

The natural history of zoonoses. 13453

Summary of recent abstracts. iX. helminthiasis. 13467

ZOOSPORES
Penetration and infection of pea roots by zoospores of Aphanomyces euteiches. 972

Serological evidence that Olpidium zoospores carry tobacco necrosis virus. 1179

Pathogenic and cultural variability of single zoospore isolates of Phytophthora megasperma var. sojae. 1299

Oospore production by single-zoospore isolates of Phytophthora fragariae in culture. 1381

Attraction of Aphanomyces euteiches zoospores to pea and other plant roots. 1563

Prolonging the motility and virus-transmitting ability of Olpidium zoospores with chemicals. 7726

Factors affecting zoospore production by Aphanomyces euteiches. 10822

ZOYSIA GRASS
Control of a nematode of the genus Hypsoperine on zoysia and bermuda grasses in Maryland. 11936

ZOYSIA JAPONICA
Rust on Zoysia in Arkansas. 12467

ZOYSIAGRASS
Control of hunting billbugs. 4370

Occurrence and control of a nematode of the genus hypsoperine on Zoysia and Bermuda grasses in Maryland. 10056

ZYGAENA

ZYGAENA
Changes of the wing pattern in the moths of the genus Zygaena Fabr. (Lepidoptera, Zygaenidae) obtained by intra-pupae injections. 13028

ZYTRON
Timing, formulation and adjuvants essential to chemical weed control. 8671

O-(2-CHLORO-4-NITROPHENYL) O-ISOPROPYL ETHYLPHOSPHORO-
Studies on house fly control. 11611

O-O-DIETHYL S-(2-DIETHYLAMINO)ETHYL PHOSPHOROTHIOLATE
Translocation and stability of Chipman R-6199 in Pinus strobus as related to its control of the introduced pine sawfly, Diprion similis. 11927

O,O-DIETHYL S-(2)(ETHYLTHIO)ETHYL) PHOSPHORODITHIOATE
Effect of method of application on uptake of Di-Syston by the cotton plant. 5326

1-PYRIDINETHIOL-1-OXIDE
Systemic disease control by 1-pyridinethiol-1-oxide and its derivatives. 10724

1,2-DIBROMO-3-CHLOROPROPANE
Chemical dips for eradication of root-knot nematode from plant roots. 1640

Effectiveness of application methods with several nematocides for control of root-knot nematode. 1641

Toxicity of mixtures of 1,2-dibromo-3-chloropropane and 1,2-dibromoethane to the root-knot nematode, Meloidogyne javanica. 2369

Decline of grapefruit trees in relation to citrus nematode populations and tree recovery after chemical treatment. 7106

Control of the citrus nematode. 8625

Control of the sting nematode, Belonolaimus longicaudatus, on groundnuts with 1,2-dibromo-3-chloropropane and EN 18133. 8651

Xiphinema americanum populations and alfalfa yields as affected by soil treatment, spraying, and cutting. 10054

Control of cotton root-knot nematodes by seed treatment with 1,2-dibromo-3-chloropropane. 10064

The effects of Zinophos on nematode populations and cranberry yields. 10080

Effect of DBCP on various species and varieties of woody ornamentals. 10302

Use of the onion test as quantitative method for determining the distribution of emulsifiable 1,2-dibromo-3-chloropropane in soil. 10443

Preplant only versus a second treatment one year later in the control of root knot on the perennial caryopteris. 11024

Toxicologic investigations of 1,2-dibromo-3-chloropropane. 11348

1,3-DICHLOROPROPENE
Temperature and moisture in relation to the toxicity of 1,3-dichloropropene to Ditylenchus dipsaci (kuehn) Filipjev in organic soil. 245

1PS
A new species of Macrocheles (Acarina: Macrochelidae) associated with bark beetles of the genera Ips and Dendroctonus. 5862

2-
Synergistic action of sulphaquinoxaline and 2-amino-4-dimethylamino-5-(4-chlorophenyl)-6-ethylpyrimidine in caecal coccidiosis in chickens. 5937

2-(2,4,5-TRICHLOROPHENOXY) PROPIONIC ACID
Control of alligatorweed in South Carolina with granular silvex. 520

The chemical control of Borreria verticillata. 2766

Studies on Oxalis pes-caprae l. in australia.
ii. the control of the pentaploid variety. 2

Replacement of Turkey oak vegetation with low-growing soil cover. 2

Effect of silvex and 2,4,5-T on alkaloid content of tall larkspur. 2

Herbicide movements in soil with various amounts of water. 3

Toxicologic effects of silvex on yearling cattle. 5

Control of timber milkvetch, Astragalus miser, and effects on associated vegetation. 5

Characteristics and control of swainsonpea. 7

Influence of auxin herbicides on grass-seed crops. 8

Shortleaf pine, a new host for commandra blister rust. 10

2-(2,4,5-TRICHLOROPHENOXY)-PROPIONIC ACID
Control of swainsonpea, Swainsona salsula. 5

2-CHLORO-1-(2,4-DICHLOROPHENYL)-VINYL DIETHYL PHOSPHATE
Residues of Shell Compound 4072 in the body tissues of sprayed cattle. 6

2,2',4'-TRICHLOROACETOPHENONE
Residues of Shell Compound 4072 in the body tissues of sprayed cattle. 6

2,4-D
Relationship between herbicide movement and stump sprouting. 6

Determination of 2,4-D residues in soybeans. 16

The fate of long chain esters of 2,4-D in plants. 24

The degradation of isolated microsomes from cucumber and corn seedlings. 24

Penetration of living and non-living surfaces by 2,4-D as influenced by ionic additives. 24

New disease threatens California citrus industry. 42

Kinetics of chlorella inhibition by herbicides. 42

Alfalfa weed control. 44

The movement of labelled 2,4-D in young barley plants. 44

Chemical control of mugwort. 44

Granular herbicide use up, Illinois applicators are told. 44

Translocation and metabolism of radioactive 2,4-d in Jimsonweed, Datura stramonium. 45

New herbicides. 45

Control of Sonchus arvensis (L.) with chemicals. 45

The effects of maleic hydrazide and 2,4-dichlorophenoxyacetic acid on roadside vegetation. 45

Results of feeding of herbicide-treated plants to calves and sheep. 46

The safe handling of pesticides. 53

Volatility of ester forms of hormone type herbicides. III. 53

Herbicides: ester and amine salt of 2,4-dichlorophenoxyacetic acid, sodium trichloroacetate, and dalapon. 53

The reaction of Trifolium repens (L.) in grassland to 2,4-D, MCPA and mixtures of 2,4-D and MCPB. 58

Control of swainsonpea, Swainsona salsula. 59

Residue determination of 2,4-dichlorophenoxyacetic acid in dry crops and walnuts. 62

Metals, other elements, and residues in foods. 63

etermination of 2,4-D and other chlorinated phenoxy alkyl cids. 6308

he penetration of growth regulators into leaves. 6363

etermination of 2,4-D and 2,4,5-T as simple constituents nd mixed constituents in commercial ester formulations. 6370

eparation and identification of chlorinated organic esticides by paper chromatography. XII. The two erbicides, 2,4-d and 2,4,5-t. 6403

haracteristics and control of swainsonpea. 7130

ranslocation of C14-labeled compounds in cotton and oaks. 7708

soil Achromobacter which degrades 2,4-dichlorophenoxy-cetic acid. 8201

ffects of arboricides on East African trees and shrubs. v. Tarchonathus camphoratus, L. and Euclea divinorum, iern. 8217

hemicals seen as replacement for conventional tillage. 8222

oot symptoms and anatomical changes in Trifolium species nd lettuce resulting from injury by Pratylenchus penetrans nd 2,4-D. 8636

lame cultivation, face flies among topics at Illinois onference. 8668

1962 campaign against witchweed underway in the Carolinas. 8669

praying herbicides on woody plants near sensitive crops. 8690

nfluence of auxin herbicides on grass-seed crops. 8694

ffect of chemicals as herbicides alone and in combination for weed and grass control in Louisiana sugar cane. 8697

eactions of tobacco plants to some herbicides. 8704

orrelation between inactivation of 2,4-D and cessation of callus growth in bean stem sections. 9084

etabolism of 2,4-dichlorophenoxyacetic acid (2,4- d) in bean plants. 9088

esticide effects in soils on nitrification and plant growth. 9112

Recommended analytical methods for pesticides. 17. 2,4-D,2,4-D salts and 2,4-d formulations. 18. DDT dusts and water-dispersible powders. 9201

Carryover stocks of pesticides increased over 1960 level. 9282

Is there room for U.S. firms in the European pesticide market. 9296

Influence of the (butyl) ester of 2,4-D applied at various growth stages for control of Russian thistle (Salsola pestifer, Nels.) in flax. 10091

Observations on the effect of herricides on young coconuts. 10093

Absorption and translocation of radioactive herbicides in submersed and emersed aquatic weeds. 10102

Determination of butoxyethanol ester of 2,4-dichlorophenoxy-acetic acid in shellfish and fish. 10553

New materials appear promising for weed control in corn and beans. 11030

Studies on the fate of 2,4-D and ester derivatives in natural surface waters. 11138

Conversion of 4-(2,4-DB) to 2,4-dichlorophenoxycrotonic acid (2,4-DC) and production of 2,4-D from 2,4Dc in soil. 11142

Residues in stored lemons treated with various formulations of 2,4-D. 11163

Rapid determination of 4(2,4-DB) and a metabolite, 2,4-D, in treated forage by electron affinity spectroscopy. 11177

Metabolites of 2,4-dichlorophenoxyacetic acid (2,4-D) in bean plants. 11370

The fate of 2,4-dichlorophenoxyacetic acid in sheep. 11403

A comparison of synthetic growth regulators with indoleacetic acid, with respect to methionine metabolism. 12245

2,4-DC
Conversion of 4-(2,4-DB) to 2,4-dichlorophenoxycrotonic acid (2,4-DC) and production of 2,4-D from 2,4Dc in soil. 11142

2,4-DIMETHYLBENZYL ESTER
Toxicologic studies on pyrethrin-type esters of chrysanthemumic acid II. Chrysanthemumic acid, 2,4-dimethylbenzyl ester. 11234

2,4-DINITROPHENOL
Studies on the toxicity of disophenol (2,6-diiodo-4-nitrophenol) to dogs and rodents plus some comparisons with 2,4-dinitrophenol. 645

2,4,-D
The control of Ranunculus repens (L.) in raspberries. 5909

2,4,5-T
Determination of 2,4-D and 2,4,5-T as simple constituents and mixed constituents in commercial ester formulations. 6370

Separation and identification of chlorinated organic pesticides by paper chromatography. XII. The two herbicides, 2,4-d and 2,4,5-t. 6403

Recommended analytical methods for pesticides. 17. 2,4-D,2,4-D salts and 2,4-d formulations. 18. DDT dusts and water-dispersible powders. 9201

Toxicity of some herbicides to fish. 10278

2,4,5-TRICHLOROPHENOXYACETIC ACID
Control of blackjack oak by basal spraying with 2,4,5-T. 1716

2,6-DIBUTYL-4-NITROPHENOL
Mammalian toxicity and histopathologic effects of 2,6-dibutyl-4-nitrophenol. 11350

2,6-DICHLORO-4-NITROANILINE
Effectiveness of 2,6-dichloro-4-nitroaniline on development of Rhizopus rot of peach fruits at various temperatures. 314

Effects of 2,6-dichloro-4-nitroaniline on Rhizopus and brown rot of peaches. 2341

2,6-DIIODO-4-NITROPHENOL
Studies on the toxicity of disophenol (2,6-diiodo-4-nitrophenol) to dogs and rodents plus some comparisons with 2,4-dinitrophenol. 645

3,323,893
Pyridazone derivatives and herbicidal compositions containing them. patent 3,323,893. 13662

3,323,984
Method and composition for controlling fungi. patent 3,323,984. 13685

3,323,989
Method for combating insects with 5-formamido-1-naphthyl N-methylcarbamate. patent 3,323,989. 13652

3,323,996
Antiviral antibiotic from trichoderma todica and method of producing same. patent 3,323,996. 13673

3,324,134
Quaternary ammonium xanthates. patent 3,324,134. 13677

3,324,147

3,324,147
Substituted norbornene herbicides. patent 3,324,147. 13640

3,326,750
Process for controlling fungi with anthraquinone derivatives. patent 3,326,750. 13678

3,328,242
Cyclopentadienylimines microbicide. patent 3,328,242. 13679

3,328,248
Antibiotic product and process of producing same. patent 3,328,248. 13658

3,328,251
Pharmaceutical compositions and methods utilizing 2-aminoadamantane and its derivatives. patent 3,328,251. 13671

3,332,843
Method of producing an antibiotic quinomycin B. patent 3,332,843. 13688

3,332,845
Compositions and methods of use of dihalogenated alkane amides. patent 3,332,845. 13675

3,333,943
Herbicidal compositions. patent 3,333,943. 13663

3,333,946
Herbicidal composition and method. patent 3,333,946. 13666

3,333,947
Herbicidal composition and method employing substituted carbanilates. patent 3,333,947. 13647

3,334,130
Substituted carbanilate herbicides. patent 3,334,130. 13648

3,336,131
Method of controlling plant growth. patent 3,336,131. 13683

3,336,188
Phosphorus containing pesticidal composition and method of use. patent 3,336,188. 13676

3,338,703
Herbicidal method employing trichlorobenzyloxyalkyl esters of chlorinated aliphatic acids. patent 3,338,703. 13681

3,340,142
Contact avicides. patent 3,340,142. 13592

3,341,317
Pyridazone derivatives and their use as herbicides. patent 3,341,317. 13661

3,341,405
Method of controlling microbes by means of tetrahalocyclopentadienyldiamines. patent 3,341,405. 13680

3,342,581
Pesticidal wettable powder formulation. patent 3,342,581. 13686

3,343,938
Herbicidal composition and method. patent 3,343,938. 13664

3,344,018
Biocidal quaternary ammonium sulfamates. patent 3,344,018. 13669

3,345,151
Herbicidal composition and method. patent 3,345,151. 13650

3,345,157
Herbicidal composition and method. patent 3,345,157. 13665

3,345,258
Fungicidal compositions and methods. patent 3,345,258. 13670

3,345,262
Antibiotic cirolerosus and process for producing the same. patent 3,345,262. 13644

3,349,115
Sulfur-containing carbamate insecticides. patent 3,349,115. 13682

3,355,351
Insecticidal and fungicidal usage of beta-arylamino cinnamoyl compounds. patent 3,355,351. 136

3,356,688
Pesticidal halocyclopentadiene adducts. patent 3,356,688. 136

3,357,882
Thiol-phosphoric acid esters fungitoxic agents. patent 3,357,882. 136

3,357,883
Fungicidal n-substituted derivatives of halogenated. salicylideneimines. patent 3,357,883. 136

3,360,357
Derivatives of pyridazone and a method for their use as herbicides. patent 3,360,357. 136

3,366,537
Method for combating microorganisms with an alkyl substituted oxazoline. patent 3,366,537. 1368

3,372,090
Streptonigrin antibiotics and process for their production. patent 3,372,090. 1364

3,5-DINITROBENZAMIDE
The chemotherapeutic activity of 3,5-dinitrobenzamide. 1. Against parathyphoid in turkeys. 886

4-(2,4-DB)
Conversion of 4-(2,4-DB) to 2,4-dichlorophenoxycrotonic acid (2,4-DC) and production of 2,4-D from 2,4Dc in soil. 1114

4-TERT-BUTYL-2-CHLOROPHENYL METHYL METHYLPHOSPHORAMIDATE
Toxicity of organic phosphorus insecticides to horses. 769

5-HYDROXYTRYPTAMINE
5-hydroxytryptamine content of some arthropod venoms and venom-containing parts. 663

6,7,8,8-
The bean leaf skeletonizer, Autoplusia egena, and its control on bush snap beans in the everglades. 7006

Experiments for early-season control of the green peach aphid on tobacco. 8457

7-HEXACHLOROPHTHALIMIDE
New chemicals for control of fireblight on pear. 8297
